The Michigan Department of Environmental Quality is working to finalize a plan which will monitor corrosion and examine plumbing at 400 sentinel security sites across all wards of the city. These sites include houses where overly-high lead levels were previously recorded as well as locations thought to be near lead infrastructure.

21 Contaminants and quantity per testing location

Chlorine – One sample per location per day.
Lead – A series of sequential samples at up to 60 locations, to be conducted monthly until the system has recovered.

22 Water infrastructure assessment implementation timeline

Ongoing – to continue until the system is determined to be recovered

23 Change/Delay of water lead testing: Include causes for delay, anticipated effects of delay

Challenges: Obtaining contact information to make appointments for testing; staffing to make appointments; and securing permission to test in schools;

24 Determination of pipe damage

Sampling, as described above, will indicate the status of corrosion within the system.

25 Determination of where lead is in the pipes

Known lead pipes have been mapped via GIS.
Sequential sampling will help identify lead locations in a subset of known lead service lines.
State DEQ is including these locations in their sentinel sampling site strategy.

26 Number of individuals evaluated (blood tests)

With state and federal assistance, the Genesee County Health Department worked through a back-log of testing and notifications. These test results will be uploaded throughout the weekend.

State and County health officials have agreed to cooperate on a plan to conduct blood tests on approximately nine thousand children by early April.

27 Geographic density of households evaluated (blood tests)

This information is still under analysis.

28 Percentage of total expected individuals evaluated (blood tests)

With state and federal assistance, the Genesee County Health Department worked through a back-log of testing and notifications. We hope to achieve better visibility next week.

29 Geographic density of households above threshold results

This information is still under analysis.

30 Average time between evaluation result and distribution of protective actions

With federal assistance, GCHD is increasing the number of home visits made to high-lead level households.

31 Opening of Family Assistance Centers (MARC – Multiagency Resource Center)

State of Michigan working this task. None established

38 Under what authorities are federal agencies operating

Working under own authorities.

39 Significant activities since the last report

UCG Flint

- Operations Section: Reformatted 204 assignment sheets with instructions to review prior to Tactics and Matrix reconciliation meetings
- Planning Section: Maintained accountability of UCG and agency field staff; maintained roster of UCG and field staff; and developed daily Situational Summary.
- Logistics Sections: Supporting UCG with IT issues including additional email for Info Cell and plotter support for print request. Addressed logs reload.
- Admin/Finance: Worked with safety on a possible Workers Compensation investigation involving AmeriCorps volunteers. Continued to coordinate with Travel to ensure inbound and outbound personnel have adequate travel. Continue to work the demobilization process with Travel. Collaborated with OEM RAMS to identify process for responder reload/augmentation.

Health and Medical Task Force

CDC

- Working with Public Health Service Team, State, County and local partners to develop a flow chart of actions taken following a blood lead test performed.
- Working with MDHHS in Lansing on Blood Lead Level data issues.

Public Health Services Team (PHST)

- Public Health/Nurse Case Management: GCHD nurse case manager support included the entering/processing of 799 capillary blood lead results at GCHD Burton.

Public & External Affairs Task Force

EPA

- Updated fact sheet language to include orthophosphates information.
- Shared video of EPA spokesperson explaining pipes on social media.
- Worked on FAQs Fact Sheet
- Drafted language for Public Information to review regarding chlorine sampling efforts at Flint Community School buildings.

CDC

- Continued work on news release regarding CDC's screening recommendations.
- Proposed and got approval for minor revisions to screening guide documents.
- Reviewed EPA fact sheet on filters & aerators (drinking water fact sheet).
- Obtained clarification re: blood lead testing for pregnant women.
- Reviewed ATSDR website for health & copper materials for lay audiences.

STATE

- Uploaded a 2-1-1 Video: Relief Teams Helping Families.
- Released Fluoride, Bottled Water, and Oral Health FAQ.

Water Quality Task Force

CDC

- Developed a sampling strategy and participated in EPA Strike Team sampling of rooms occupied by AmeriCorps volunteers.
- Developed draft fact sheet for Copper in Flint Drinking Water that is being circulated for review.

EPA

- Drafted language for Public Information to review regarding chlorine sampling efforts at Flint Community School buildings.
- Sent the High Lead Homes Strike Team to collect a grab sample and chlorine sample at the request of the Michigan Governor's Office and MDEQ. Chlorine levels were normal; grab sample is pending.

Water Sampling Team

- Performed lead sequential sampling investigations at 2 homes, collecting a total of 26 bottles.
- Performed grab sampling investigations at 3 homes, collecting a total of 9

bottles.

High Lead Homes Strike Team

- Developed standard operating procedure to support ATSDR's rash sampling efforts and assisted with sampling at local university where AmeriCorps volunteers are housed.
- Performed grab sampling of 1 home for priority call from Michigan Governor's office and MDEQ.

Data Management Team

- Working with Water Sampling Team to ensure historic data are entered into database.
- Moved to fully electronic data collection and upload as of this weekend.

Michigan State Police Secure Cities Partnership

In March 2012, Governor Rick Snyder delivered a Special Message to the Legislature on Public Safety that said Michigan must attack crime through a comprehensive system of "smart justice" that recognizes the connection between enforcement, prevention, and economic opportunity. Even though reported crime rates are down throughout most of Michigan, the state will not prosper until it tackles the problems in our most violent cities. According to FBI crime data, Flint, Detroit, Pontiac, and Saginaw are consistently ranked among the most violent cities in the United States.

> *"It's time to reinvent public safety in Michigan," Governor Snyder stated in his message. "Our state can't reach its full potential until we tackle the problem of violent crime in our cities. It devastates families, leaves neighborhoods in fear, and robs our state of its economic vitality. But we can overcome these challenges through a collaborative, comprehensive and long-term approach. By moving forward with a system of 'smart justice,' we will hold chronic offenders accountable for their actions, bring peace of mind to community residents, help to break the cycles that perpetuate crime, and unleash Michigan's economic growth."*

In response to the Governor's message, the Michigan State Police (MSP) developed the Secure Cities Partnership (SCP). Through this partnership, the MSP is providing enhanced law enforcement services to the cities of Detroit, Pontiac, Saginaw, and Flint. These services require the addition of enforcement personnel to the post areas that service these cities. The adoption of a regionalized, no-boundary, data-driven policing model laid the foundation for the MSP's leadership role in the SCP.

The MSP is dedicated to reducing crime and increasing the quality of life in the SCP areas. To accomplish this, the MSP has initiated directed patrols in all four SCP areas utilizing real-time crime data from the Data Driven Approaches to Crime and Traffic Safety (DDACTS) and evidence-based policing tactics to identify and target criminal hot spots.

While road patrol troopers are often the most recognized MSP asset, there are also support elements crucial to the department's success. These assets include the establishment of a joint Major Crimes Detective Bureau between the MSP and Flint Police Department, and between the MSP and Saginaw Police Department. The detective bureaus are supported by criminal intelligence analysts who have daily interaction with the detectives, as well as the state's fusion center, the Michigan Intelligence Operations Center (MIOC).

The MSP Forensic Science Division (FSD) is also a key component in these cities. Personnel from the FSD have assisted by responding to process major crime scenes, as well as by establishing the Forensic Evidence Academy to train police officers in forensics to ensure consistency in the processing of crime scenes by all agencies.

Other MSP support services are also being utilized to support the SCP initiative, including the MSP Hometown Security Teams (HST). HSTs have been deployed along the I-75 corridor connecting these cities to combat the illegal trafficking of contraband and increase traffic safety. To address the large volume of absconders and non-compliant sex offenders in the SCP areas, the MSP Sex Offender Registry Unit has been conducting enforcement operations in the SCP areas in collaboration with state, local, and federal agencies.

Michigan State Police Secure Cities Partnership

Numerous public safety grants managed by the MSP have been awarded to the SCP areas to bolster public safety funding. Coordination with the other state agencies responsible for managing grants is also occurring to eliminate duplication and ensure funding is being distributed fairly among the SCP cities. Examples of these grants include the Economic Vitality Incentive Program (EVIP) and prosecuting attorney grants.

Establishing community partnerships and working with youth is also critically important in these cities. MSP's community service troopers are actively engaged in numerous community service projects and programs, working with community groups, schools, and faith-based organizations.

By taking a comprehensive approach to addressing crime in these cities, the MSP is working to create a safer environment and increase the quality of life in Detroit, Pontiac, Saginaw, and Flint. This approach requires an increase in law enforcement personnel, reform to the justice system, and interagency cooperation and collaboration.

#12- Clarifications on Establish quality assurance system to verify safe water sources at impacted homes, schools and businesses. What is the metric? All homes, all businesses, a percentage of these facilities tested?

Bryce advised he would be able to answer #12 at the Matrix meeting today at 1:00 pm.

#12 – I think DEQ has to address this - we are tracking to ensure all homes have a filter...I'm not positive how/when it will be verified that all water sources are once again safe.

Regarding #37 – Infographics in clear format to demonstrate water testing results – Is the EPA map with test results enough for this?

The way the current information is displayed on the website (www.epa.gov\flint) I think is fine. However, it only includes the filter evaluation lead test results and the chlorine residual test results. The DEQ requests the addresses and results for all of the monitoring performed by EPA, this includes the work previously conducted by Miguel Del Toral, and Dr. Marc Edwards. We may want to include some of these sites in our sentinel monitoring program

#43 – Does Barbara Reynolds need to train state officials in the Governor's office and MDEQ? What is the timeline/schedule for the governor's staff?

In relation to #43, Barbara Reynolds has left Michigan for the time being and is not available to provide training in the near future. However, MDHHS is trying to determine whether or not she will be coming back soon. If so, we can request that she provide this training to state officials in the Governor's office and MDEQ.

Per Ms. Minicuci,, JIC, they do have training be coordinating regarding Barbara Reynolds
Yes. Here are the draft messages we will be getting out to state agencies this week, that I will be finalizing yet today or tomorrow with Lisa Briseno of the CDC:

As a result of the response in Flint, the U.S. Centers for Disease Control and Prevention are offering three opportunities for a brief crisis and risk communications for Michigan agencies. If you or someone within your agency is interested in receiving this training, please see the following dates and times:

Skype Training for Michigan Agencies
Friday, Feb. 12 from 10-11:30 a.m. EST
Tuesday, Feb. 16 from 1-2:30 p.m. EST

Crisis and Emergency Risk Communications Training via Skype
Thursday, Feb. 18 from 1-4:30 p.m. EST

To attend these trainings,

Talking Points: Flint, Michigan Water Contamination
February 8, 2016 @ 9 a.m.

Daily Numbers

Reported at 6 p.m. on February 7, 2016

As of February 8, 2016, the following commodities were requested by and provided to the state of Michigan in support of the response to the emergency conditions resulting from contaminated water in the city of Flint.

- 1,782,294 liters of water
- 127,764 water filter replacement cartridges
- 40,000 water and pitcher filters

Major Disaster Declaration/Full EM Denial

- Governor Snyder's January 20, 2016, appeal for a major disaster declaration for contamination and damage to the public water system in the City of Flint was denied on January 22, 2016. After review, FEMA determined that this event does not meet the statutory definition of major disaster under the Robert T. Stafford Disaster Relief and Emergency Assistance Act.

    - *IF ASKED:* To qualify for a "major disaster" declaration there must be a natural catastrophe or, regardless of cause, a fire, flood or explosion which causes damages of significant severity and magnitude to warrant a declaration. FEMA's assistance is intended to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage and loss by the natural catastrophe, fire, flood or explosion. It was determined that the presence of lead in the Flint drinking water was not caused by a natural catastrophe, or by a fire, flood or explosion, so it does not qualify for a major disaster declaration.

- FEMA's assistance remains limited to what the President authorized in the Emergency Declaration on January 16, 2016. FEMA will, in coordination with the state, provide water, water filters, water filter cartridges, testing kits, and other necessary related items for a period of up to 90 days from the date of this declaration. The portions of the Emergency Declaration not granted can be appealed by the Governor.

- The decision means that the state can continue to work directly with other federal agencies and those agencies can provide assistance through their own authorities.

- On January 19, 2016, the U.S. Department of Health and Human Services (HHS) was designated as the lead federal agency responsible for coordinating federal government response and recovery efforts in Flint, Michigan.

- FEMA will support HHS as needed to identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), the Department of Housing and Urban Development (HUD) and the Department of Agriculture (USDA), and others—that are already working to help residents in Flint.

HHS as Federal Response Lead

- On January 19, 2016, the U.S. Department of Health and Human Services (HHS) was designated as the lead federal agency responsible for coordinating federal government response and recovery efforts in Flint, Michigan.

- Assistant Secretary for Preparedness and Response Dr. Nicole Lurie will lead this effort, supported by HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, as well as two U.S. Public Health Service officers.

- FEMA will support HHS as needed to identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), the Department of Housing and Urban Development (HUD) and Department of Agriculture (USDA), and others—that are already working to help residents in Flint.

- FEMA will work with the HHS team in Michigan to establish a collaborative process to best support state and local leaders with identifying the size and scope of the problem and help them develop and execute a plan to address the public health and infrastructure issues in Flint.

Emergency Declaration

- On January 14, FEMA received Governor Snyder's request for an Emergency Declaration, as well as a Major Disaster Declaration for emergency protective measures, temporary housing and repairs to homes and low-cost loans for covering uninsured loss of property, as well as other federal assistance.

- On January 16, 2016, President Barack Obama declared an emergency for Genesee County in the State of Michigan, limited to Direct Federal Assistance, as a result of the emergency conditions resulting from contaminated water in the city of Flint, authorizing FEMA to support the state in its efforts to respond to the incident.

- Under this emergency declaration, FEMA is authorized to provide emergency protective measures, Category B, limited to Direct Federal Assistance, under the Public Assistance program limited to 75 percent of the total eligible costs. FEMA will, in coordination with the state, provide water, water filters, water filter cartridges, testing kits, and other necessary related items for a period of up to 90 days from the date of this declaration.

IF ASKED about period of assistance through EM (90 days):

- FEMA's emergency assistance is designed to be supplemental and temporary in nature. FEMA, and our partners in other federal agencies, will be working closely with the state, county, and city officials to support those officials in the development of medium and longer term solutions to this problem.

- The state may submit a request to extend the current 90 day period of assistance established by the declaration, providing a valid reason that the extension is necessary.

If ASKED about the $5 million cap on assistance

- When the amount of federal assistance for an emergency declaration exceeds $5 million, FEMA is required to notify Congress.

Other Federal Agency Assistance To-Date

- U.S. Health and Human Services

    - The Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR) is working to identify vulnerable Flint residents who may not be able to travel to obtain filters and water testing kits. They are also working with the Centers for Medicare and Medicaid Services (CMS) to provide critical information needed for city responders to locate vulnerable residents and to help focus the city's outreach efforts.

    - HHS-funded health care centers in the area are offering free lead testing for their patients and are reaching out to patients to make them aware of the free testing. Exposed children will receive ongoing monitoring while they are health center patients. Health centers also are providing bottled water at their facilities and are assisting patients in obtaining bottled water or water filters in coordination with county-wide efforts.

    - HHS is helping educate residents who use HHS programs and services, such as Head Start programs and programs that serve seniors. In addition, HHS-funded local agencies on aging and community partners are reaching out to seniors and grandparents raising grandchildren to help them find water and filter distribution sites and to provide homebound residents with assistance in obtaining and installing filters.

    - The Centers for Disease Control and Prevention (CDC) is currently providing technical assistance to the Michigan state health department to assess lead

exposure especially in homes with children. CDC also has provided recommendations on educational interventions for children affected by lead.

- U.S. Environmental Protection Agency

    - In mid-October, the EPA established a Flint Safe Drinking Water Task Force comprised of EPA scientists who are internationally recognized experts in the field of lead in drinking water. The EPA Task Force is providing technical assistance to the Michigan Department of Environmental Quality and the City of Flint to implement corrosion control treatment and to develop school and residential sampling protocols.

    - EPA is also conducting an audit of the Michigan Department of Environmental Quality (MDEQ) drinking water program – to examine MDEQ's implementation of the Safe Drinking Water Act and related rules on lead and copper, total coliform, nitrates and ground water. This comprehensive audit will provide Flint residents and the people of Michigan with more information about MDEQ oversight of public water supplies and will identify actions that may be needed to strengthen the Michigan drinking water program.

- Housing & Urban Development

    - Flint was identified as one of six target cities in the second round of the Strong Cities – Strong Communities (SC2) White House initiative in 2014. This program focuses on enhanced Federal agency support in areas of blight reduction, public safety and economic development.

    - Discussions are ongoing between the FEMA Region 5 SC2 program lead and Department of Housing and Urban Development (HUD) staff on the Flint water crisis impacts to SC2 programs and initiatives; as well as possible opportunities for collaboration through existing federal engagement with local, county and State agencies.

    - HUD is working closely with the city on economic development and interagency coordination. They have successfully assisted the city with the purchase and installation of water filters. HUD had an existing lead hazard grant to Flint, targeted to lead paint, $325,000 of which could be used for addressing the water lead contamination. Additionally, HUD has provided a data tracking and reporting system for the State of Michigan to use in its lead investigations.

- U.S. Army Corps of Engineers

    - The FEMA Region 5 Recovery Coordinator is in discussion with the United States Army Corps of Engineers to identify possible technical assistance and/or

Subject Matter Experts on public water distribution systems, and possible courses of action.

- US Department of Agriculture
    - USDA has waived requirements on potable tap water availability at school meal service, allowing schools to provide bottled water. The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) is also allowing participants to use WIC vouchers for ready-to-feed infant formula, which does not need to be mixed with water, and participants can also swap powdered formula for ready-to-feed formula.

Media Monitoring Report
February 9, 2016

Summary: Flint Mayor Karen Weaver holds press conference on plans to remove all Flint's contaminated water pipes. GM and union to donate funds to help Flint children. Fifty Flint residents to be hired to help with water testing. Flint Mayor to testify on the water crisis on Wednesday before the Democrats' Steering and Policy Committee on Capitol Hill. Emails show that CDC voiced concerns over Legionnaires' disease clash between city, county and state officials months ago. State Board of Canvassers has approved a petition to recall Gov. Rick Snyder, but not over water crisis.

Below is a sampling of the coverage.

Flint mayor: Pipe replacement to begin next month
February 09, 2016 -- *Katrease Stafford, Detroit Free Press*
http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/02/09/flint-mayor-details-plan-replace-lead-pipes/80049056/

Flint Mayor Karen Weaver outlined Tuesday an estimated $55-million public works project expected to begin within a month to remove Flint's lead-contaminated pipes from the water distribution system.

First priority will be given to high-risk households with pregnant women and children, Weaver said at a news conference at City Hall.

"In order for Flint residents to once again have confidence and trust in the water coming from their faucets, all lead pipes in the city of Flint need to be replaced," Weaver said. "The success of the 'Fast Start' plan will require coordination between the city, state and federal officials as well as funding from the Michigan Legislature, Congress or both. I'm asking Gov. Snyder and the state to partner on this effort. We'll let the investigations determine whose to blame for Flint's water crisis, but I'm focused on solving it. It's going to take time to get this done, but we're going to move quickly to get this done."

Last week, Flint Mayor Karen Weaver called for the immediate removal of the city's lead-contaminated pipes and announced a plan that will get a major boost in help from Lansing Mayor Virg Bernero, who has offered technical assistance from the Lansing Board of Water and Light. Lansing has removed about 13,500 lead pipes in the city.

The "Fast Start" plan will require extensive coordination between city, state and federal officials, as well as funding from the Michigan Legislature and Congress, Weaver said. Weaver was joined Tuesday by retired National Guard Brigadier General Michael McDaniel, who said he believes the project can be done within a year by 32 crews.

McDaniel is assisting in coordinating activities between the the city, the Lansing Board of Water and Light, state and federal agencies, and other stakeholders. The preliminary project scope developed by the BWL shows that up to 15,000 lead pipes could be removed in one year "under optimal conditions," Weaver said.

Flint's drinking water became contaminated with lead in April 2014 after the city, while under the control of a state-appointed emergency manager, switched its source to the Flint River as a temporary cost-cutting move and the state Department of Environmental Quality failed to require the addition of needed corrosion-control chemicals. As a result, corrosive water caused lead to leach from pipes, joints and fixtures, causing many citizens to receive water with unsafe lead levels. The state has told residents not to drink the water without filtering and says it is treating all Flint children as having been exposed to unsafe levels of lead.

The FBI is now investigating the contamination of Flint's drinking water amid a growing public outcry. U.S. Rep. Candice Miller, R-Harrison Township, proposed an emergency $1-billion grant to be authorized through the Environmental Protection Agency, and two Democratic U.S. senators and U.S. Rep. Dan Kildee, D-Flint Township, proposed up to $400 million in dollar-for-dollar matching funds from the state to do much the same thing.

The U.S. Attorney's Office announced Jan. 5 that it was assisting the U.S. Environmental Protection Agency in a Flint drinking water investigation and Gina Balaya, a spokeswoman, said federal prosecutors are "working with a multi-agency investigation team on the Flint water contamination matter, including the FBI, the U.S. Postal Inspection Service, EPA's Office of Inspector General, and EPA's Criminal Investigation Division."

Several lawsuits have been filed in connection with the crisis. Monday, the family of a 2-year-old girl whose blood test results showed the toddler suffers from lead poisoning, announced an individual suit against Gov. Snyder, former Flint emergency manager Darnell Earley, former Flint Mayor Dayne Walling and several other state and Flint officials.

.....

GM, UAW donating $3M to help Flint kids
February 09, 2016 *Michael Wayland*
http://www.detroitnews.com/story/news/michigan/flint-water-crisis/2016/02/09/gm-uaw-donation/80047788/

General Motors Co. and the United Auto Workers will donate $3 million to the United Way of Genesee County to help support health and education needs for the children of Flint who have been impacted by lead-contaminated water.

The company on Tuesday said the five-year commitment "will address immediate, ongoing and growing needs of Flint children affected by lead." The donation will be broken up into $600,000 per year, according to a company spokesman.

"This crisis has impacted every Flint resident, most specifically children under the age of six who face a long road to recovery," said United Way of Genesee County CEO Jamie Gaskin. "We're outlining a framework that will support these children with things like at-home care, nutritional assistance and early childhood and supplemental education so they can continue to learn and grow."

The announce comes less than a week after UAW President Dennis Williams condemned public officials for the Flint water fiasco as well as consumer advocate Ralph Nader questioning if the Detroit-based automaker did enough to raise awareness of potential problems with Flint's treatment of water months before high levels of lead were discovered.

GM spokesman Tom Wickham said the donation has nothing to do with Nader's public letter on Friday questioning to company's actions.

"We've been in talks with the United Way for a number of weeks now," he said Tuesday morning. "We were looking to find the right area to support, given all the financial support that has come in."

That "right area," the company said, includes early literature programs, support for preschool, nutritional needs, school nursing, before-and after-school programming, increased special education capacity and increased social, emotional and behavioral health school counselors.

.....

Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing
February 08, 2016 – *Gov. Rick Snyder's Office*
http://www.michigan.gov/snyder/0,4668,7-277--376088--,00.html

FLINT, Mich. –Flint residents will be hired to assist with water testing under a new partnership forged Friday between the state and Flint human service groups, Gov. Rick Snyder announced today.

The partnership with Orchards Children's Services and Flint YMCA's Safe Places Program will help hire and train 50 residents this month to fill jobs on teams helping conduct water tests across the city.

"The people of Flint deserve timely action on emergency efforts to help the city move toward recovery," Snyder said. "We realize our water testing teams need more manpower to get the job done. There is no one better suited to help the city bounce back than Flint residents themselves and we appreciate Orchards Children's Services and the YMCA for helping connect Flint talent with this important positions."

Snyder said this hiring is part of a larger and ongoing effort to ensure Flint residents benefit from opportunities created by relief efforts in response to the water crisis.

"Orchards Children's Services and the YMCA are committed to serving children and families in Flint as we have done long before this crisis and will do long after," said Michael Williams, president of Orchards Children's Services. "The solution to this situation should involve the people of Flint and that is why we are partnering with the state to strengthen our community for the future."

Details on how to apply are available at http://www.orchards.org.

.....

Flint Mayor To Testify Before Democrats
February 8, 2016 *Mike Lillis*
http://thehill.com/homenews/house/268616-flint-mayor-to-testify-before-democrats

Flint Mayor Karen Weaver will visit Capitol Hill this week to testify on the water crisis plaguing her city.

House Democrats have scheduled a Wednesday hearing to examine the emergency on their partisan Steering and Policy Committee.

They've invited Weaver, a Democrat, and Republican Gov. Rick Snyder (Mich.) to appear. Only Weaver has accepted.

The Democrats are highlighting the crisis to send a broader election-year warning that cuts to public works programs and other government initiatives can have dire consequences. That debate is set to take off this week as President Obama prepares to unveil his 2017 budget blueprint — the last of his White House tenure — and the Republicans ready their counter-proposal to be released later in the month.

The competing budgets are perhaps the starkest evidence of the sharp ideological divide between the two parties when it comes to defining the size and role of government at all levels.

The Democrats' annual proposals have included robust spending on public health, infrastructure, education and other federal programs they deem "investments" in the country's future — a script Obama's budget is sure to follow. The Republicans, by contrast, have used their yearly budget bills to advocate enormous cuts in the same programs, citing the need to rein in government spending they consider to be out of control.

The Flint water crisis has become symbolic of that larger fight.

In 2014, emergency managers appointed by Snyder switched the city's water source from Lake Huron to the Flint River in an effort to cut government spending while a new pipeline was constructed. The new water was not treated with chemicals to prevent leaching from lead pipes, and thousands of Flint residents are feared to have been exposed to toxic levels of the heavy metal, which can cause brain damage and other health problems.

Snyder has urged Obama to direct more funds from the Federal Emergency Management Agency (FEMA) to address the crisis. The president, joined by other leading Democrats, has rejected those overtures, arguing that FEMA funds should be reserved for natural disasters, not man-made disasters like that in Flint. The Democrats have warned of crumbling infrastructure all over the country, and they want Congress to approve more federal spending for such projects in the budget.

The Democrats' hearing will come amid intensifying scrutiny over the reluctance of some public officials ensnared in the crisis to testify on Capitol Hill.

Last week, the House Oversight and Government Reform Committee held a hearing on the topic. Chairman Jason Chaffetz (R-Utah) had invited three officials to attend — Miguel Del Toral, an Environmental Protection Agency (EPA) water official, former EPA regional head Susan Hedman and former Flint emergency manager Darnell Earley. None complied, and Earley's refusal in particular has agitated Chaffetz, who issued a subpoena for his appearance.

"Participation before this committee is not optional," he said. "When you get invited to go before the Oversight and Government Reform Committee, you are going to show up."

Joining Weaver at Wednesday's Democratic hearing will be several public health specialists, including Dr. Yanna Lambrinidou, president of Parents for Nontoxic Alternatives, and Dr. Mona Hanna-Attisha, director of the pediatric residency program at Flint's Hurley Medical Center.

.....

Flint e-mails: CDC voiced concerns over Legionnaires actions
February 09, 2016 *Matthew Dolan, Elisha Anderson, Paul Egan and John Wisely, Detroit Free Press (click link for full article)*
http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/02/09/flint-e-mails-state-city-appear-unable-share-info/80028820/

More than eight months before Gov. Rick Snyder disclosed a deadly Legionnaires' disease outbreak in the Flint area, federal health officials worried a lack of cooperation in Michigan could be hampering the public health response.

Thousands of pages of e-mails obtained by the Detroit Free Press through the Freedom of Information Act show increasing concern about the quality of the Flint's drinking water as tensions grew over a lack of coordination to combat the waterborne disease.

County health officials were warned for reaching out to federal experts for help while they struggled to persuade Flint city officials to provide needed information, the e-mails show. Others in e-mails wondered about ethical breaches and the possibility of a cover-up.

Family of lead-poisoned Flint girl, 2, files suit

In sum, a review of the e-mails provided by Genesee County from several public-information requests appear to illustrate the inability, if not unwillingness, of city and state agencies to share information with the county as it investigated multiple Legionnaires' cases. The clash among bureaucrats went on privately for months despite growing fears inside Flint among residents that something was deeply wrong with the city's drinking water.

"We are very concerned about this Legionnaires' disease outbreak," Laurel Garrison of the Centers for Disease Control and Prevention, wrote to Genesee County health officials in an April 27, 2015, e-mail. "It's very large, one of the largest we know of in the past decade, and community-wide, and in our opinion and experience it needs a comprehensive investigation."

Garrison added in her e-mail that "I know you've run into issues getting information you've requested from the city water authority and the MI Dept of Environmental Quality. Again, not knowing the full extent of your investigation it's difficult to make recommendations, and it may be difficult for us to provide the kind of detailed input needed for such an extensive outbreak from afar."

There were at least 87 cases across Genesee County during a 17-month period, including nine deaths, but the public was never told about the increase when it was happening — even after an initial wave of more than 40 cases were under investigation by early 2015.

It is unclear whether swifter action by government officials could have prevented a return of the outbreak last summer. But a public health investigation is ongoing. Legionnaires' disease is a

pneumonia caused by bacteria in the lungs. People get sick if they inhale mist or vapor from contaminated water systems, hot tubs or cooling systems, or in some cases, showers.

Genesee County Health Department officials could not be reached for comment Monday night.

Typically, Genesee County saw between six and 13 Legionnaires' cases a year, according to officials. In 2014, the number jumped to 42. In 2015, there were 45 confirmed cases.

Officials investigating the outbreak in 2014 worried about disclosing a suspected cause.

Liane Shekter Smith, the head of the Office of Drinking Water and Municipal Assistance for the state Department of Environmental Quality contacted state health officials "a couple of times" to discuss the Legionnaires' outbreak in 2014, according to e-mails.

"She was concerned that an announcement was going to be made soon about the water as the source of the infection; I told her the Flint water was at this point just a hypothesis," Susan Bohm of the Department of Health and Human Services wrote to officials in Genesee County in an e-mail dated Oct. 21, 2014.

Last week, Snyder announced Sheketer Smith's termination, saying "putting the well-being of Michiganders first needs to be the top priority for all state employees."

The e-mails released Monday also showed how local officials struggled to contain the outbreak.

On Feb. 10, 2015, Genesee County Health Department epidemiologist Shurooq Hasan wrote to an outside expert about 47 Legionnaires' disease cases in 2014, which was almost four times the number of cases in 2013.

"We have investigated a hospital as a potential source for the disease, but have expanded our investigation to include the city water supply," Hasan said in the e-mail.

"Of our 47 cases, 25 cases have occurred within the city water supply distribution system. No common links have been found between the cases. The majority of our cases are home bound immune-comprised individuals who have not traveled and are not readily mobile," he wrote.

Hasan said those stricken were in such bad condition that they are unable to answer questions that would assist with the investigation.

.....

Board approves petition to recall Michigan Gov. Rick Snyder
February 09, 2016 *WSBC.com*
http://www.wsbt.com/news/local/Board-approves-petition-to-recall-Michigan-Gov-Rick-Snyder/37898112

LANSING, Mich. (AP) - The State Board of Canvassers has approved a petition to recall Gov. Rick Snyder, but denied the majority of proposals related to Flint's lead-tainted water crisis.

The board was split across party lines Monday on one proposal to recall Snyder for acknowledging he had "failed" the people of Flint in his State of the State Address. The measure has failed because a vote of 3-1 is needed to approve ballot language.

The board unanimously approved another petition stemming from Snyder's authorization to move the office dealing with struggling schools - the State School Reform Office/Redesign Office - into the Michigan Department of Technology, Management and Budget.
The board has rejected other petitions related to Flint because members said they didn't "factually" and "clearly" state each reason for the recall.

Chelsea Clinton to visit Michigan this week
February 09, 2016 *WILOX.com*
http://www.wilx.com/home/headlines/Chelsea-Clinton-to-visit-Michigan-this-week-368119441.html

Chelsea Clinton will be in Michigan this week to campaign for her mother's presidential bid.
The former first daughter will be in Flint and Detroit on Thursday.
We will let you know when the Clinton team announces the time and location of Chelsea's campaign stops.

######

EM-3375-MI
Media Monitoring Report
February 7, 2016

Summary: There is growing concern that Flint residents may choose to move out of the city rather than deal with the water crisis. Lead-test results continue to cause fear in families. Buses with more than 100 Flint residents travel to Washington, D.C. to voice their concerns over the water crisis and demand assistance. Pet owners, especially those with companion pets, are urged to provide filtered water for them.

Below is a sampling of the coverage.

Hope — and clean water — remains elusive for the people of Flint
February 07, 2016 *Lenny Bernstein*
https://www.washingtonpost.com/national/health-science/for-the-people-of-flint-hope--and-clean-water--remains-elusive/2016/02/06/1a6013c0-caa0-11e5-88ff-e2d1b4289c2f_story.html

FLINT, Mich. — It kills him to say it, but Darren Bentley is thinking about leaving town. He was born here, went to Kearsley High School and rents a place near a couple of college campuses. He has never lived anywhere else.

His father worked at the old Fisher Body plant. So did an uncle and both grandfathers. His grandmother worked on the line at Flint Metal Fabricating.

But the only way that Bentley, 33, and his wife, Laura, can provide safe water for their four boys is by driving every day to the local firehouse, where Army National Guardsmen plop a case or two of bottled water into the back of their SUV. The unending hassle of making sure the children can drink and bathe without being exposed to poisonous lead has worn the couple down.

"I never intended to leave," Bentley said. "This is my home. This is my family. This is everything I know."

[Flint water crisis reveals government failures at every level]

The residents of this battered city have lived for years under some of the worst conditions in urban America: soaring levels of violent crime, poverty, unemployment and blight. Now, for many, the catastrophe of a water supply that may be poisoned indefinitely appears to be the final insult.

Many are desperate to escape the city, but some don't have the means to do so. The old and poor, especially, are stuck. Meanwhile, a small band of civic and political leaders is trying to chart a way forward amid the wreckage of a disaster often compared to Hurricane Katrina – which at least eventually led to some redevelopment in New Orleans.

"I'm going to give the city maybe six months," said Brittny Giles, a 25-year-old single mother who is raising three young children next door to the home where she grew up. She bathes her 9-month-old daughter in bottled water and can recite her children's blood lead levels from memory.

Relatives in Georgia are begging her to move there. "I don't want to leave," she said. "But if there is no water or schools for my children, I have to give them a better future."

Less than a month after Michigan Gov. Rick Snyder (R) declared a state of emergency, only one thing is clear: Resolving the crisis will be very expensive. Mayor Karen Weaver has estimated the cost of removing lead service lines from 15,000 homes at about $45 million. Combating the potential impact of lead poisoning in the 9,000 children exposed to tainted water starts at $100 million, according to Mona Hanna-Attisha, the pediatrician who is proposing the multifaceted program.

Overhauling Flint's water-distribution system, if necessary, could cost more than $1 billion, a tab only the federal government could pay.

[Flint could have saved money without using corrosive river water]

Beyond the $28 million provided by the state and some private donations, it's not clear where the money will come from. And everyone here acknowledges that there will be little progress until safe water begins flowing through the taps and people are persuaded to drink it. No one is even willing to guess when either will happen.

The crisis stems from an April 2014 decision by then-emergency manager Darnell Earley to save money by temporarily switching the city's water supply to the Flint River. Earley was appointed by Snyder and given authority that superseded that of the mayor and the city council.

The state then failed to ensure that the city added anti-corrosion chemicals to the new water supply, which leached lead from aging pipes into tap water. Almost immediately, users began to complain of foul-smelling, discolored water, and some residents broke out in strange rashes. Eighty-seven people developed Legionnaire's Disease, resulting in 10 deaths. Some suspect that the water is at least partly to blame, although that has not yet been proved.

Flint switched back to Detroit water in October, and experts are trying to re-coat the pipes with chemicals. So far, that hasn't worked. Water filters are being distributed for free throughout the city. But they don't fit some sinks, and some people say that they are still finding high levels of lead – even in filtered water.

Among Flint residents, the worst off may be the city's disproportionate share of older people. Largely poor and African American, they are stuck with homes that would have been difficult to sell even before the water crisis.

"At my age, I'd hate to start all over again and give my house away, because that's what it would require," said 72-year-old Delmont Jackson as he played eight-ball pool at the Hasselbring Senior Center last week. He doubts that he could get $15,000 for his home and thinks the state should relocate him, but he is resigned to living on bottled water indefinitely.

"What are we going to do?" asked Kala Green, 72, as a bingo game broke up in a large social hall a few steps away. "Ain't nobody gonna buy our homes. And I don't have no money."

Virtually everyone here says that they follow the admonition not to drink unfiltered tap water, but beyond that, many of the city's 95,000 residents make their own rules. People bathe less often and limit their time in the shower. Others refuse to let contaminated city water touch their skin and have found places to clean up outside Flint.

Some cook with city water; others keep large jugs of bottled water to clean and prepare their food. Yakima Givens said that she boils water before washing her dishes — a common practice that unfortunately concentrates any lead that may be coming through the faucet.

"I don't even know if it's safe to wash my clothes in it," she said as she watched her three children get tested for lead exposure at a festive event last week that featured free food and toys.

Even those blood tests are controversial. Many people who attended the event said that they wanted to know if their children had been affected in 2014 and 2015, when authorities repeatedly assured them that the water was safe to drink. But the tests only reveal lead ingested in the past two to four weeks. They are useless for long-term retrospective diagnosis.

Meanwhile, some people are still paying their water bills — which were among the most expensive in this region — afraid that service will be turned off or they will lose their homes if they don't. Others now refuse to pay for water that they can't consume. Weaver and other officials support that sentiment, and the mayor said that she is working on a plan to relieve residents of at least some of that financial burden. Lawsuits are seeking refunds for the entire city.

Snyder has proposed a $30 million credit in the upcoming state budget to help repay Flint residents for a portion of their water costs, retroactive to April 2014.

Outsiders think they understand the confusion and anxiety Flint is experiencing, but that just isn't possible, said State Sen. Jim Ananich (D), who lives in the city and has a 6-month-old son, part of the city's most vulnerable population.

"You don't know what it's like to have something right in the kitchen that you are afraid to death to turn on," he said. "I can't really use it for anything."

Flint has been emptying out for decades, as General Motors shipped jobs south or overseas. From 196,000 in 1960, the city's population has fallen to about 95,000 today. "Vehicle City" once had 82,000 jobs at GM plants and its suppliers. Today, there are about 6,000, according to Douglas Weiland, executive director of the Genesee County Land Bank.

Even a brief look around reveals the inevitable result. More than 11,000 vacant lots and 10,000 abandoned homes pock the city's streets, often side-by-side with the remaining 30,000 occupied dwellings. On Giles's street, for example, where nine occupied homes once stood, there are now three. Three others are abandoned, and three more have been razed, she said.

About 40 percent of the people here live below the poverty line; the median household income of about $25,000 is less than half the amount a typical U.S. family earns. In 2013, the average home sold for $15,000. Some people have been trying to return donated water filters and cases of water at local chain stores for a few dollars, forcing guardsmen to alter the bar codes on the free items.

For years, Flint has jockeyed with Detroit and a handful of other places for the dubious distinction of America's most violent city.

There have been stirrings of progress along a few blocks downtown, where a handful of bars and restaurants stand near the campus of the University of Michigan at Flint.

But now the water is poisoned, and the world knows it.

"Every two steps forward, there's always five steps back," said Rodney Ott, owner of the Loft, a bar and nightclub on Saginaw Street, the city's main thoroughfare. "That's the history of Flint. . . . We're a wreck, man," he said. "We made the Time [magazine] cover. It looked like Sudan."

Signs everywhere assure customers that businesses, especially those that serve food and drink, are not hooked up to Flint water or have installed sophisticated filtering systems. But in a statement, Tim Herman, chief executive of the Flint and Genesee Chamber of Commerce, acknowledged that restaurants have seen a small decline, universities are having trouble recruiting students and efforts to attract businesses have been hampered.

Even when safe water begins to flow again, trust in government may lag far behind. During a fiery rally at First Trinity Missionary Baptist Church last week, an overflow crowd of African Americans cheered wildly as leaders called for Snyder to be jailed and others to be held accountable.

"This is a crime against the people of Flint, a crime against humanity," shouted attorney Benjamin L. Crump, who represented the families of Trayvon Martin and Michael Brown and has filed one of the class-action lawsuits on behalf of city residents. "If ISIS were to poison 100,000 Americans, we would call it an act of terrorism!

"Why are the rules different when people commit crimes against us? We want equal justice and nothing more than that!"

.....

Lead Test Results Confirm Worst Fears for Flint Family
February 06, 2016 *Hannah Rappleye, Adam Rivera and Tracy Connor*
http://www.nbcnews.com/storyline/flint-water-crisis/lead-test-results-confirm-worst-fears-flint-family-n511496

Deep down, the Brown family knew the water that had flowed through the pipes in their home in Flint, Michigan — the water that 3-year-old Dana had been drinking for months before anyone was warned — probably contained toxic lead.

This week, they got test results that confirmed their fears.

Water Defense, the anti-fracking and safe-water activist group headed by actor Mark Ruffalo, collected samples from Oscar and Elizabeth Brown's home last weekend and brought them to an independent lab in Cincinnati for analysis.

The results, which the group shared with NBC News, show that the water coming out of the kitchen faucet, where a filter was installed after state officials finally confirmed the lead crisis this fall, didn't contain any of the heavy metal.

But a sample of the water from the bathtub, which is unfiltered, contained 16 parts per billion, higher than the threshold of 15 ppb that federal regulators say is the point at which a water system must take action to protect public health.

"I'm over it. I really just want to leave," said Denettra Brown, who is Oscar and Elizabeth's great-granddaughter and lives in the house with her son, Dana, who is suffering from unexplained health problems.

"I'm tired of crying, I'm tired of my head hurting, I'm over it...Something needs to be done."

READ: 'Nobody Cares': Flint Family Says Lead Pipes Must Go

The amount of lead in the tub water exceeded the federal limit even though the city is no longer using the water from the Flint River that corroded pipes and leached lead into the system.

Flint switched back to using water from Detroit in October, and has been adding phosphates to its water since Dec. 9 to build up a protective layer in the decayed pipes and seal in any lead, but it's unclear how long it will take for that to be fully effective.

In the meantime, some pipes are depositing more lead in the water than the filters are rated to handle, officials have said. Pregnant women and children are being told to only drink bottled water unless their home has been tested and declared safe.

The results from Water Defense's tests in the Brown house don't tell the family how much lead might have been in the water at the peak of the crisis — before the switch away from river water and before the phosphates were added.

"If we're finding concerning and dangerous levels now, God knows what the lead levels really were before," said Scott Smith, chief technology officer for Water Defense, who collected the samples from the Brown home. "And all of that lead is in human bodies."

Dana began having health problems more than a year ago: seizures, which can be a symptom of lead-poisoning, and rotting teeth, another possible sign. Despite two hospitalizations and an MRI, doctors were unable to diagnose him.

His mother wants Dr. Mona Hanna-Attisha, whose early warnings about elevated lead tests in children were initially brushed off by government officials, to test Dana for lead poisoning. But since it's been weeks since he consumed any lead-tainted water, those results might not tell the family how badly he was exposed or whether his medical issues are related.

Denettra Brown said she doesn't want to bathe Dana in the water, even though health officials say that's safe and that there is no proven link to reports of rashes.

Mostly, she feels trapped in Flint, where 40 percent of families live below the poverty line. Money is coming into the city for bottled water, filters, testing and health care, but Brown says what would really help her is relocation assistance.

"I can't afford to leave and get a car and insurance," she said. "It's like I'm just stuck here in this mess. I have no choice but to stay."

Flint water crisis: Hundreds of prisoners given lead poisoned water, first official fired
February 06, 2016 *Rebecca Cook, Reuters*
https://www.rt.com/usa/331523-flint-water-prisoners-lead/

A Flint official involved in causing the city's water supply to be contaminated with high levels of lead has been fired, but scandals keep surfacing. An ex-prisoner says he served fellow Genesee County Jail inmates the poisonous stuff for months.

Liane Shekter-Smith was already demoted from her former position as head of the Michigan Department of Environmental Quality's Drinking Water and Municipal Assistance, but on Friday she became the first Flint official to be fired over the water crisis.

Shekter-Smith, as head of MDEQ's DWMA, had claimed the federal rules dictating water treatment to prevent lead poisoning were misinterpreted. Released emails, however, reveal she knew the Environmental Protection Agency was worried about the lead in Flint's water last summer. In July, the EPA denied her request for a written statement saying Flint was in compliance with federal standards.

"Putting the well-being of Michiganders first needs to be the top priority for all state employees," Governor Rick Snyder wrote in a statement released Friday announcing Shekter-Smith was *"officially terminated."*

"Anything less than that is unacceptable. The DEQ is working to change this culture and ensure mistakes that endanger our residents don't occur again," the statement continued, without specifically mentioning the water crisis.

Though the statement did not directly acknowledge the lead contamination of the public's water, the issue keeps bubbling up, months after the situation was first acknowledged in October.

Jody Cramer walked out of Genesee County Jail this week after completing a two-month sentence and immediately took his story to the Democracy Now! program.

Cramer claimed that while working in the jail kitchen, he was tasked with cooking and cleaning with the lead-laced water, the same water used in showers by other inmates, until January 23, when bottled water was handed out for only five days. On the sixth day, the sheriff said a test found the water to be safe again, Democracy Now! reported.

Pregnant women were among the hundreds of inmates drinking the contaminated water for months, according to Cramer. Ingesting lead while pregnant can cause miscarriages, brain damage, or other permanent damages to the newborn's nervous system or kidneys.

"Many inmates made complaints due to the fact that the deputies did not drink from the faucets," Cramer said. *"We were consistently told the water was good."*

Meanwhile, Snyder's office has another MDEQ employee under review, which The Independent names as Steve Busch based on their sources. Busch has reportedly returned to work after seven days of suspension without pay, and is currently working with pay while the investigation continues.

Flint residents en route to Washington: 'We want results' amid water crisis
February 06, 2016 *Ryan Felton*
http://www.theguardian.com/us-news/2016/feb/06/flint-water-supply-crisis-michigan-bus-washington-congress

Activists voice hope as they travel from Michigan to address lawmakers: 'For the first time, I felt like I could say: "Somebody's doing something"'

Jessica Owens carried a baby bottle in her hand filled with water from her faucet, the bottom lined with a grainy substance of some sort. She had been carrying the bottle since October, when state officials conceded that Flint's water supply had potentially poisoned thousands of residents with lead. And she planned to bring it to the first congressional hearing on the city's water crisis.

"We carry these because this is what they've offered to our children," Owens said on the bus that would take her on a marathon 24-hour round trip to Washington DC to face members of Congress. In all, four buses carrying more than 100 people traveled the 1,150 miles from Flint, Michigan to Washington and back, carrying parents, hourly workers who skipped work, and even children who were ready to do whatever it takes to capitalize on the national momentum surrounding Flint and do whatever it takes to make their water safe again.

"We speak with a voice, and we will be heard," said Owens, a fixture at protests in Flint and mother of an 8-year-old. "I think it's really important for every single person to come out, whether they're from Flint, or for support, because … our infrastructure is crumbling. And if it can happen here, it can happen anywhere."

For months, activists protested and complained about a foul-smelling and tasting water supply that left many with physical symptoms, only to receive dismissive shrugs from officials.

Then, the enormity of the situation that developed as a result of disastrous decisions came to light: lead, a neurotoxin known to cause developmental problems and an array of health issues was found last year to be contaminating drinking water across the Rust Belt city. On Tuesday, the American Academy of Pediatrics wrote to the congressional panel that thousands of children in Flint had been exposed.

Even then, the official acknowledgment of a lead problem in Flint came several months after reports first surfaced of a lead problem that eventually proved true.

That's why, beyond seeking the estimated $60m full replacement of lead pipes in the city, residents traveled to Washington to call on lawmakers to hold those officials accountable for the debacle.

"They were trying to save money. Now look what it's cost them," said Jeff Apsey of AFSCME Council 25, which helped organize the trip. Speaking as the bus puttered along the Ohio turnpike, he added: "It was a bad decision. I think the governor has a big part in this. He's not willing to own up to it."

At a rest stop along the Ohio turnpike, longtime Flint resident Tammy Brewer, a passenger in one of the accompanying buses, said she was furious that officials waited months before telling residents the water wasn't safe to drink. Her family has endured a torrent of problems since Flint began using the local river, she said.

"My body is literally riddled with these sores," Brewer said, while pulling back her sleeve to expose her shoulder. "Losing my hair. I've already had brain surgery. So what memory I have left is important. And I've been complaining the last couple of years about my memory getting worse."

The residents dealt with officials dismissing their complaints for months, while still having to pay exorbitant sums for their water bills.

Nonetheless, an outlook of perseverance and resilience prevailed. The first overnight leg from Flint to Washington took so long, they missed the beginning of the congressional hearing. When the first hitch of the trip came up – organizers misunderstood when the hearing in DC began, forcing the bus to miss the first hour – an audio broadcast was quickly assembled and fed through the bus sound system. Others crowded around a live-stream carried on a resident's iPhone.

"We're all pumped back here," one passenger said in the back, as the bus was roughly 40 miles outside Washington.

The organizer smiled and added: "I'm sure everyone got the best night's sleep."

The congressional hearing drew so much attention that an additional two overflow rooms were set up to accommodate the influx of attendees. While the meeting was underway, one busload of residents marched down Independence Avenue, chanting "Flint lives matter" and "arrest Governor Snyder". Guards outside the hearing room at times had difficulty keeping the hallway clear, as a swarm of activists piled in.

In the main chamber, members of Congress blasted state officials for their delayed response, with the committee chairman saying this sort of crisis "isn't meant to happen" in the US.

As the meeting continued throughout the morning, dozens of residents from the trip broke off to join a prayer vigil across the street, where Michigan officials were again criticized for their delayed response to addressing the crisis.

For one bus rider, Leroy Jackson, the outpouring of support was enough to make the long trip worthwhile.

"For the first time in all this fight, I finally felt like I could step back and say: 'Somebody's doing something for us,'" he said. "And I'm happy. I'm so happy I could just cry."

Since the leaching of lead into Flint's water supply became a national scandal, city officials have switched the water source back to Lake Huron from the Flint River, which was corroding lead pipes and contaminating the water.

But as residents still rely on bottled water and grapple with the potential poisoning of their children, they remain concerned about the effects of the lead pipes that have already been damaged by the failure of local officials to implement crucial corrosion control. While Michigan is expected to get federal money to fund replacement of the pipes, governor Rick Snyder has said it is not a short-term goal to replace the pipes. And residents are becoming increasingly unsatisfied with a delayed resolution.

Many from the group coalesced around a primary goal: the replacement of the network of lead pipes in Flint's water system. Mayor Karen Weaver called this week for the immediate removal of the pipes.

"I would like to see the pipes tore up, done, replaced, get it over with," longtime Flint resident Tammy Brewer said. "It needs to be done."

Sitting in a middle row, resident James Dunigan said passengers on the trip all knew someone who had been "personally affected by this situation. So we want results, we want something done," he said. "We want somebody to be held [accountable] for their actions."

Flint has faced decades of financial peril due to a fleeting tax base and increased violence, but Dunigan said the city's reputation as a downtrodden community is misleading. The 33-year-old had to get two shifts covered at his job with a sandwich chain shop to make the DC trek.

"We're just regular people," he said. "We're no different. I feel like the outside world is looking at us like a Third World country right now; it's not like that, we just ... got a crisis right now."

During an impromptu pizza dinner in Washington's Union Station as residents waited for a delayed bus home, Flint native Demetrius Backstrom described the hearing as a start in addressing the crisis. The 33-year-old was recently told by his doctor that he had high blood pressure, something he had never experienced before the city switched water sources. Now, his doctor wants to check his lead levels, too.

Backstrom said it was important for lawmakers to quickly act, before attention shifts away from Flint. The influx of resources – bottled water, filters, and the like – from state and federal aid may be appreciated, he said, but it's nothing of a long-term fix to a colossal error with impacts that will likely be felt for generations.

"'We need clean water in Flint," he said. "Because people ... are going to stop donating water to Flint. It's going to stop eventually, and then we're right back to the same problem."

.....

Officials: Pets shouldn't be given unfiltered Flint water
February 05, 2016

http://www.wnem.com/story/31148113/officials-pets-shouldnt-be-given-unfiltered-flint-water

FLINT, Mich. (AP) - Officials are reminding people to make sure pets aren't drinking unfiltered Flint tap water after two area dogs tested positive for lead toxicity in recent months.

State Veterinarian Dr. James Averill says both dogs are still alive and the "vast majority" of tests for lead in dogs in the area has been negative amid Flint's crisis with lead-tainted water.

The Detroit Free Press reports test results on one pet and one stray dog were confirmed in October and January in Genesee County, which includes Flint. Officials haven't disclosed

whether they were drinking Flint water, how much lead was in their systems or what symptoms they were showing.

Averill says the state is in touch with area veterinarians, but says "confidentiality of the owners is like medical information in humans."

Thousands of kids tested for lead, officials want to see more
February 06, 2016 *James Felton*

http://www.cbs46.com/story/31155596/thousands-of-kids-tested-for-lead-officials-want-to-see-more

FLINT, MI (WNEM) – Lisia Williams wants answers. She's worried about what Flint's water might've done to her children.

"Right now not being tested you just don't know," Williams said.

So she stopped by the health department to get her kids tested for lead, same goes for Gabrielle Merrell.

"You want to have that on file. You know our city was poisoned," Merrell said.

Merrell said she knows how lead could affect her child's development. So she wants to be prepared.

"I'd rather just know now what is ahead of me," Merrell said.

Rebecca Phillips got tested in the hopes of protecting her unborn child.

"I don't want my baby to have lead poisoning," Phillips said.

State officials said thousands of kids have been tested for elevated levels of lead. But they say the number isn't high enough.

Angela Minicuci is spokeswoman for the state Department of Health and Human Services.

"We certainly have a long way to go to make sure every child is getting tested," Minicuci said.

Minicuci said more than 5,000 children 6 years and under have been tested. Those numbers date back to April 2014 when the switch was made to Flint River water.

Minicuci urges everyone to test their children so the state knows who needs the most help.

"That allows us to begin the wrap around services that a family or particularly a child might need," Minicuci said.

Minicuci said the biggest reason why the numbers aren't where they need to be is simple. Not everyone can make it to the health department. So the state is working on a way to bring the test to your front door.

"We're looking to create a plan where we have a team from the state health department, the local health department, and the federal government, reaching into the community to offer blood lead testing," Minicuci said.

Williams said she wants to see all parents getting their kids tested.

"We just want to get the message out that it's urgent for our parents to come out," Williams said.

Hillary Clinton to discuss Senate amendment during trip to Flint on Sunday
February 06, 2016 *Scripps Media, Inc.*

http://www.wxyz.com/news/hillary-clinton-to-discuss-senate-amendment-during-trip-to-flint-on-sunday

FLINT, Mich. (WXYZ) - When Democratic-Presidential candidate and former Secretary of State Hillary Clinton visits Flint on Sunday, she will attend a community meeting and discuss a senate amendment.

According to Clark Pettig, who is the Michigan press secretary for Hillary for America, Clinton will attend a community meeting with Flint Mayor Karen Weaver and local residents.

In that meeting, she will "hear firsthand about the water crisis that is harming families and what our leaders need to do to fix it."

Pettig also said she will use her visit to "urge the Republican-controlled Senate to approve the Senate Democrats' $600 million amendment to help Flint."

Earlier this week, it was announced there will be a Democratic Presidential Debate held in Flint on March 6, just two days before the Michigan primary election.

The meeting will happen at 1:30 p.m. and WXYZ plans to stream her event live.

Fusion Social Media Report: Flint, MI Water Contamination
8 February 2016 1400 HRS

Background: The following social media information was flagged as containing potentially pertinent information regarding the Flint, MI water contamination. The information is derived from open sources and may not be validated or confirmed.

The conversation remains largely political in nature dominated by reactions to presidential candidates. Users shared mostly positive comments about Hillary Clinton's visit to Flint. Other users expressed frustration that Flint was not mentioned in the GOP debate on 6 February 2016. Additionally, comments from several sources seem to suggest that water distribution may not be reaching all members of the community quickly enough.

HHS/Federal Government Related:

- NSTR

Response Issues:

- Shared post regarding the Red Cross calling for more volunteers to help distribute water to elderly and disabled residents who cannot make it to distribution locations. WZZM13 (7Feb16)
- A few shared a You Tube video highlighting the United Way Human Services 211 call system and how it is used to respond to calls to deliver water, filters, and instructions on how to use filters. YouTube Video (6Feb16)
- A few comments that not enough water is being given per visit and home visits are not happening frequently enough.
- A video on Facebook is widely circulating of individuals testing bottled water for lead, and obtaining positive results indicating lead presence. Users commented on the video expressing panic and questioning the safety of bottled water. The video was posted on 30Jan16 and has been viewed and shared extensively.

Local Government Issues:

- Considerable criticism regarding Governor Snyder declining an invitation to testify in congress before the House Democratic Steering and Policy Committee on 10 February 2016. Fox17 (6Feb16), WXYZ7 (7Feb16)

Broader Issues:

- Several mentions of activists asking the UN to investigate the water crisis in Flint Detroit Free Press (7Feb16)
- Shared posts about the Detroit Water Authority announcing they would like to keep Flint as a long-term customer. Detroit News (8Feb16)
- Extensive generally positive chatter regarding presidential candidate Hillary Clinton speaking in Flint Michigan. (multiple sources) NBC25 , Detroit News , WZZM13, MiLive (7Feb16)
- Many posts expressing disappointment about there being no discussion or questions regarding Flint Michigan during the Republican debates.
- Quite a few mentions that police are saying rumors that arrest warrants are being served under the guise of filter distribution are false. MLive (6Feb16)
- Several people praised Beyonce's announcement of a 29 May 2016 concert in Detroit to benefit Flint. Detroit News (8Feb16)

FLINT WATER RESPONSE
DAILY STRATEGIC MESSAGING
Feb. 8, 2016

Key Messages

- We are concerned about levels of lead found in the Flint, Michigan water supply and its impact on the health and safety of the community.
- The CDC recommends that all children under 6 years of age have a blood lead test before April 1, 2016.
- Have your water tested as soon as possible using the official, free water testing kit or testing by EPA.
- Until the system has recovered, EPA recommends that Flint residents clean aerators once a week.
- Be sure to use filters according to the instructions and replace filters before they expire.
- The safest option for vulnerable populations including pregnant and nursing mothers, and children under six years old, is to use bottled water.
- Over the past few weeks the federal government has ramped up support for the people of Flint, bringing in technical experts from the Federal Family.
- We're looking across the federal government at ways we can use our programs and our expertise to help the city and the state ensure immediate access to safe water and a safe water supply.
- Residents may contact the newly established EPA hotline **(800-426-4791)** or email address (flintwater@epa.gov) for information about EPA's water sampling efforts. The hotline will provide immediate, telephonic translation in multiple languages.

Products for Release

- *News Releases*
  - **None**

Operational Communication Events

- *News Interviews*
  - **Planning Interviews to supplement Flier on How to Properly Use Filter
- *News Conferences*
  - **None**

Stakeholder Calls/Briefings/Meetings/Trainings

- **Flint City Council Meeting** @ 6 pm 1101 S. Saginaw St (No invitation, FYI only)

Speakers Bureau IGA and Outreach Events/Activities

- **Blood Lead Testing Event:** @ 3pm – 6pm, Carriage Town Ministries
- **N. Flint Food Cooperative Community Meeting:** @ 6 pm 5005 Cloverlawn Drive

LOOKING AHEAD

UPCOMING EVENTS/ACTIVITIES

- **ARC Community Leadership Meeting** Feb 9 @ 2 p.m. 1401 S Grand Traverse
- **Tentative VIP visit by USDA** Undersecretary and Regional Admin. Feb 10
- **Flint Water Response Training:** Feb 11 @ 11:30 pm 1610 W. Pierson Rd
- **ARC Community Partners Meeting:** Feb 11 @ 3 p.m. Food Bank
- **CERC Training Feb 12, 14, 16** in Lansing and Flint (times and location TBD)
- **Access Community Canvass Event** Feb 13 @ 8 a.m. Location TBD
- **Latino Coalition Community Canvass** Feb 13 @ 12:30 p.m. 609 E. 5th Ave.
- **HHS Secretary Visit:** Tentatively Feb 18

COMMUNITY (FIELD) FEEDBACK

- TONE:
  - Unanswered Questions, Confusion, Uncertainty of an End State
- CONCERNS:
  - Health-related (rash, dermatitis, dry skin, skin cancer, organ damage, infertility)
  - Only providing 1 case per household. This creates some issues for clients who want or need more
  - Discrepancy about where clients should drop off water testing kits reported by some clients and whether or not they would receive results back.
  - Giving out certain quantities: 2 cartridges for PUR but only 1 replacement filter for Britta. This creates some issues for clients who want or need more
  - Lots of comments and concerns about having to pay back water bills.
- GAPS:
  - Filters for showers. recyclable cartridges
- OPPORTUNITIES:
  - Provide Frequently Asked Question Fact Sheet
  - More Education of the Media

PLANNED MESSAGING/PRODUCTS

- **EPA:** Flier on how to properly use your Filter
- **State:** Lead Poisoning in Pets Messaging (State JIC and MDARD)
- **EPA** is updating its fact sheet currently on the Web to include the new toll-free number and email address.
- **EPA** is working to create door-knob leave behinds

EMERGING ISSUES THAT MAY AFFECT MESSAGING

- EPA strike team testing of UM-Flint Dorm (AmeriCorps members)
- Possible need to develop Campaign/PSA to **get the remaining kids tested.**
- A need to **re-engage the provider community** to start lead testing (Pediatricians, Family Medicine, NPs, PA, WIC, Head Start and Early Head Start/Churches).
- EPA said water filters installed in homes may be working better than expected, however residents are saying they are still finding high lead levels in their water.

OPERATIONAL TASKS FOR MESSAGING OPPORTUNITIES:

- AmeriCorps Volunteer activities
- Resource List for External Audiences
- CDBG grants
- Possible creation of a Multi-Agency Resource Center (MARC)
- Water filters in HUD property
- Other programs to address nutritional needs of children
- WIC funding to possibly coordinate blood tests for children

###

REQUEST FOR ASSISTANCE – PUBLIC HEALTH ACT EMERGENCY NON-STAFFORD ACT (Rev #1)

Request to be completed by requesting State, County, or city or by receiving Federal agency[1].
Send entire package to FLINT.UCG@HHS.GOV.

Flint UCG Request Form

UCG to assign Request number:

[1] If request being submitted to UCG by Federal agency please attach copy of original request to this form submitted by the city, county or state.

FLINT UCG INTERIM OPERATING PROCEDURE:
ROUTING AND MANAGEMENT OF STATE AND LOCAL REQUESTS (Rev # 1)

1. If UCG is **notified of a likely request,** DHHS and Federal Partners are to provide requestor with the Flint UCG Request Form (Attached).

2. Requesting city, county or State agency should attach any supporting or explanatory documentation to the Flint UCG Request Form.

3. If a request **is received** by a DHHS or Federal Partner, they are to provide requestor with the Flint UCG Request Form or assist the requestor in completing it.

4. DHHS and Federal Partners are to ask **city and county** requestors to route the request to the County EOCwho will route them to the State Emergency Operations Center on approved requests.

5. **State agency** requests are be sent to the State Emergency Operations Center for concurrence.

6. All State Coordinating Officer approved Flint UCG Request Forms and supporting or explanatory documentation are to be sent to FLINT.UCG@HHS.GOV.

7. The Deputy FHCO and IRCT Commander will monitor the FLINT.UCG@HHS.GOV account. All electronic requests will be retained in a DHHS e-mail file folder maintained by the EMG

8. The Deputy FHCO or IRCT Commander will review the Flint UCG Request Form and complete or clarify as needed before submitting to the FHCO.

9. New requests will be forwarded to the FHCO for review and approval and then to the InfoCell if approved.

10. FHCO approved requests will then be routed to the OPS Section Chief for assignment, 204 Development and Tactics plaining and operationalization.

11. If the request may obligate additional costs outside of the FHCO's authority, the FHCO may defer approval of a requests to an ASPR, CDC or other Federal Partner for approval via the UCG agency representative.

12. For any requests forwarded to another DHHS or Federal partner agency for approval, the agency's UCG representative, will track the request and return the agency's final decision on the request to the FLINT.UCG@HHS.GOV address.

13. The InfoCell will assign a tracking number to the requests and log the request on the Request Tracker.

14. At the Direction of the FHCO, the Flint UCG Request Form and supporting documentation may be sent to the ASPR SOC for situational awareness.

Media Summaries

TRADITIONAL NEWS MEDIA

Major Public Health Themes

- Parents of a 2-yo girl filed suit against state and city gov't officials in Flint, MI; even though family spent months living with friends and relatives to avoid the Flint water system, parents were threatened with Child Protective Services by a local official because of elevated lead levels in the girl's blood
- Several other lawsuits have been filed seeking compensation for residents exposed to lead, getting water lines replaced at no cost to residents, and one on behalf of people who contracted Legionnaires' disease
- New emails show how city and state agencies failed to share information with Genesee County as it investigated Legionnaires' disease outbreak; includes email from CDC's Laurel Garrison saying "comprehensive investigation" needed to stop one of the largest community-wide outbreaks in past decade (http://on.freep.com/20HeG99)
- Marc Edwards, a civil engineer professor who brought public attention to the crisis, argued that current incentives in science and academia push researchers toward "safe" projects that don't irritate funders; this process was instrumental in the failure of science to recognize and deal with Flint
- Two dogs in Flint tested positive for lead poisoning, though the "vast majority" of tests in dogs have been negative; state veterinary officials are reminding the public to not let pets drink unfiltered water in Flint
- Though Flint has stopped drawing its water from the Flint River, pipes that were damaged by river water continue to leach lead; estimated 12,000 children exposed

Lead Issues outside Flint, MI

- Many states, including NY, PA, and IA, have much higher proportions of children with lead poisoning, with 6.7%, 8.5%, and 32% respectively; nationwide, 535,000 children aged 1-5 suffer from lead poisoning (http://nyti.ms/1PeE6IY)
- Huff Post described childhood lead crises in OH, MD, MO, and DC (http://huff.to/20mdeDA)
- In Chicago, EPA reported "alarming levels" of lead flowing from household faucets years after construction that disturbed water lines; 80% of Chicago properties have lead service lines (http://trib.in/1XdJlQr)
- Vox trying to figure out how widespread lead exposure is in U.S. children. Said some researchers think lead was associated with 1990s spike in teen crime; blood lead levels as low as 2 µg/dL have been linked to reduced IQ in children (http://bit.ly/1K2YVln)

Points of Confusion/Potential Rumors/Misinformation

- None

Emerging Issues

- Metro Detroit water system would like to keep Flint as a customer but Flint officials signed an agreement to be part of a new consortium, the Karegnondi Water Authority (KWA). Residents would like to stay with Detroit but canceling contract with KWA could be costly (http://detne.ws/1LaHo5M)
- Flint's city administrator said $30M proposal that passed by MI Senate will only cover water bills through end of 2016, with shutoffs resuming after the funds run out; $60M needed (http://bit.ly/1K9IJij)
- Flint Mayor stated officials are working on plan to remove and replace all lead pipes; said will cost $55M, begin within the month, and high-risk households would be given priority (http://on.freep.com/1Q7cvXk)
- GM and United Auto Workers union said they plan to donate $3 million over five years to support increased health and education services for Flint children exposed to lead (http://abcn.ws/1TaKpee)
- 50 Flint residents are being hired to help with water testing using state funding (http://bit.ly/1Le8kBJ)
- Beyoncé announced a new effort, #BeyGOOD, supporting local United Way programs and continued efforts to remedy the water crisis in Flint, as part of her upcoming world tour (http://bit.ly/20iUCnZ)
- Despite state of emergency declared by the Flint Mayor, the MI Governor, and Pres. Obama, inmates at the Genesee County Jail were forced to drink, cook with, and shower in the lead-tainted water while jail employees were given bottled water (http://bit.ly/1XfT9id)

FIUO – For Internal Use Only

CDC/USG Mentions

CDC

- Dr. Richard J. Jackson, former director of NCEH, told NYT that, "Lead in Flint is the tip of the iceberg." CDC worried over 500,000 children in the U.S. are suffering from lead poisoning (http://nyti.ms/1PeE6lY, http://huff.to/20mdeDA)
- CDC figures of 535,000 children with lead exposure in the U.S. were widely cited

Other USG

- Gov. Snyder declined an invitation from House Democrats to testify on the Flint crisis (http://cnn.it/1TQ4jKT); Flint Mayor will testify later this week (http://bit.ly/1K9OZGN)
- Presidential candidate Hilary Clinton met with Flint residents Sunday to discuss the crisis (http://on.wsj.com/1QpiWiO)

SOCIAL MEDIA (Twitter, Facebook, Blogs)

Major Public Health Themes

- Posts shared tweets by Democratic Presidential candidates Hillary Clinton and Bernie Sanders on the Flint water crisis and Clinton's visit to Flint (~13,000 retweets)
  - Hillary Clinton: "'The children of Flint are just as precious as the children of any other part of America.' —Hillary in Flint today" (https://t.co/JlvflCyOYq; 1,513 retweets)
  - Bernie Sanders: "The latest revelation about the public health crisis in Flint is horrifying" (1,401 retweets)
- Posts shared news the parents of 2-year-old with lead poisoning suing Flint. Several other lawsuits have also been filed (~2,000 retweets)
- Posts shared news on Flint dogs testing positive for lead poisoning (800 retweets)
- Post continued to share news on people making donation to support the Flint community. More recently posts included Beyoncé announcing a fund to benefit Flint children (~8,000 retweets)

Lead Issues Outside Flint, MI

- Posts shared More Science News tweet "Erin Brockovich Thinks This California City Is the Next Flint" (http://bit.ly/23NaTGj; 2,801 retweets)
- Posts shared Mark Ruffalo (actor) Wash. Post opinion "Flint isn't an anomaly. We're heading toward a national water crisis" (http://wapo.st/1mijKh5; 668 retweets)
- Posts shared tweets from NYT reporter Nicholas Kristoff "Infuriating story of how lead poisoning goes WAY beyond Flint, damaging kids everywhere" (350 retweets)

Points of Confusion/Potential Rumors/Misinformation

- None

Emerging Issues

- Posts shared video by Michael Moore (documentary filmmaker) and Pablo Proenza (film director) on overview of the Flint crisis (https://t.co/L5UxFE3Q8G; 579 retweets)
- Posts continued to share articles on effect of water crisis on Flint community (~900 retweets)
  - NYT article "Almost 400 properties in Flint registered high levels of lead in their drinking water" (330 retweets)
  - NPR story "Mother in Flint, Mich.: 'I will never trust this water ever again.'" (334 retweets)
- Posts continued to share news on Marc Edwards, civil engineering professor who helped expose the dangers of the water crisis last year. "How scientists failed the public in the Flint water crisis" (650 retweets)

CDC/USG Mentions

- Posts shared Gov. Snyder declining U.S House invitation to testify (700 retweets)
- Posts shared CNN article "CNN will host Democratic presidential debate in Flint, Michigan, city dealing with toxic water crisis" (https://t.co/BrfYuEaZYI; 312 retweets)

1. Situation:

There are 45,000 active water meters in the impacted area
As of 2130 on 01.13.16 17, 276 households have received water filters
MAP

2. Mission Statement:

Ensure all households within the impacted area have the required resources

3. Execution
   a. Commander's Intent
      i. Distribute filters and additional resources to all impacted households within 5 days. The priority of effort is the Fixed Points of Distribution (PODs).
   b. Concept of Operations
      i. Distribution of resources will be conducted using 4 methods: Fixed PODs, Mobile Distribution Teams, Rapid Response Distributions, and Local Partner Distributions.
      ii. Tasks
         i. Fixed PODs
            1. Red Cross will staff all sites through ~~XXX~~1/14
            2. Red Cross will conduct transition brief with Michigan National Guard on ~~XXX~~1/15
            3. Michigan National Guard will assume staffing responsibility as of ~~XXX~~1/15
         ii. Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
            1. Recovery Branch Support will determine Water ~~Resource~~ Response Team composition, standards, resource requirements, and priority areas for distribution
            2. Michigan State Police will provide command and control (assemble, coordinate, monitor) of Water ~~Resource~~ Response Teams
         iii. Rapid Response Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. Local EOC Operations Logistics will execute Rapid Response Distributions
         iv. Local Partner Distributions
            1. Local EOC Operations Section Chief/District Coordinator will approve partner requests for distribution support
            2. XXX will execute partner requests for distribution support
   c. Coordinating Instructions
      i. Fixed PODs are located at 5 fire stations.
         i. POD Locations

Water Resource Site Fire Station 1	310 East Fifth, Flint, MI 48502	0900-2100
Water Resource Site Fire Station 3	1525 Martin Luther King Ave. Flint, MI 48503	0900-2100
Water Resource Site Fire Station 5	3402 Western Rd, Flint, MI	0900-2100
Water Resource Site Fire Station 6	716 West Pierson Rd, Flint, MI	0900-2100

	48505	
Water Resource Site Fire Station 8	202 East Atherton, Flint, MI 48507	0900-2100

2. POD Product Composition
    1. **NEED FROM SHAWN**

ii. Mobile Distribution is being conducted via Water ~~Resource~~ Response Teams
    1. **Assembly area**
    2. **Mission Ready Packets**

iii. Rapid Response Distributions
    1. **NEED PROCESS FROM MICHELLE**

iv. Local Partner Distributions
    1. **NEED PROCESS FROM MICHELLE**

d. Concept of Support
    i. Resourcing support for all distribution methods will be provided via a consolidated logistics pipeline. Replenishment will be conducted automatically and on demand. Reception, Staging, and Onward Integration (RSOI) of material resources will be managed via a warehouse system and RSOI of personnel resources will be managed via a Volunteer Reception Center and XXX (State Employees)
    ii. Tasks
        1. SEOC Logistics Section Chief is accountable for resourcing support for all distribution methods and maintaining end to end visibility of all resources requests
        2. SEOC Logistics Order Unit~~Support~~ Staff is accountable for maintaining the Pipeline Report to ensure accurate resource tracking
        3. Red Cross Warehouse Managers will provide warehouse management and are accountable to the SEOC Logistics Section Chief
        ~~3.~~4. SEOC Planning Resources Unit is responsible for tracking resources that are deployed.
        4. Red Cross will manage the Volunteer Reception Center in coordination w/ local EOC
        5. Local EOC Logistics will provide logistics support to the Rapid Response Distributions

iii. Warehouse System
    1. Currently operating 3 locations with intent to consolidate to single, central location

Name	Location	Hours of Operation	POC
GCARD	2727 Lippincott, Flint , MI		Shawn
Clio	4315 North Clio Road, Flint, MI	Somehow mark this as the final warehouse were	John Foust

		everything will go???	
Court	3086 East Court Street		John Foust

iv. Volunteer Reception Center
   1. 1 location managed by American Red Cross
   2. The volunteer intake process takes 20-30 minutes.

Name	Location	Hours of Operation	POC
American Red Cross	1401 S Grand Traverse Flint, MI 48503	0900-1900	

v. Resource Request and Tracking Process
   1. Pipeline Report

~~2. https://goo.gl/G31kyJhttps://docs.google.com/spreadsheets/d/1wXVQvQ2IJ6N_ORpo8bvtBIEQJrDxkvoPg-EiZRtNepg/edit?usp=sharing~~

   2. All resource requests and offers of support (people, product, facilities, vehicles, etc) will be entered into MI CIMS as a resource request to the SEOC Logistic Section Chief.
   3. The SEOC Logistic Section Chief~~,~~ will task it out to the State or Volunteer Agency that can fill that request or procure as necessary
   4. All resource requests and offers of support will be tracked and monitored via the Pipeline report (Google docs collaboration document)
   5. Warehouse inventories will be sent to the SEOC Logistic Section Chief~~,~~ daily at 1800 and incorporated into the Pipeline report
   6. Volunteer Workforce Request for Volunteer Reception Center
      1. REQUIRED INFORMATION:
         i. Who is the Point Of Contact?
         ii. Who is the supervisor?
         iii. Where do volunteers report?
         iv. What Dates are volunteers needed?
         v. What times are volunteers needed?
         vi. How many volunteers are needed?
         vii. Who is providing transportation for the volunteers?
         viii. Who is providing meals, snacks and beverages?
         ix. Are there any qualifications needed?
         x. IMPORTANT NOTE:
            - Brief job description is required
            - The requestor of the volunteers must understand they assume responsibility for the volunteer's safety and the volunteer's actions.
            - The requestor of the volunteers are responsible for managing and providing direction.
            - 48 hour advance notification required for request.
            - Reasonable expectations of the volunteer workforce

2. POD inventory will be provided to local EOC or SEOC Planning resource unit (this needs to be determined) hourly

Formatted

3. POD distribution report provided to local EOC or SEOC Planning resource unit (this needs to be determined) at 1200 and 1800. (This is a list of equipment that has been taken off the trucks and put in the PODs).
4. Fixed PODs, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
5. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know total staff from each agency for tracking at 1000 each day.
6. Mobile Distribution is being conducted via Water Response Teams, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
7. Rapid Response Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
8. Local Partner Distributions, SEOC Planning resource unit needs to know amounts that have been distributed for tracking at 1800 each day.
9.

Water Response Team: Concept of Operations and Support

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Genesee County Sheriff Office (GCSO)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

Execution:

Key Locations

Team	Assembly Area	Hours of Operation
GCSO/MSP	LEOC Genesee County Administration Building 1101 Beach St, Flint	0830-1600
ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Critical Task: Assemble, coordinate, and monitor WRTs

GCSO/MSP Process:

1. Assign team leaders, team members, and routes to teams
2. Team Member check in
3. Conduct pre-deployment briefing to include team mission assignments, concept of operations, deployment locations, replenishment process, reporting process, and safety briefings (refer to GCSO_MSP_Volunteer Assembly Information_V1.0_011716 for detailed information on volunteer processing at LEOC)
5. Provide training to new team members
6. Issue vest and badge to team members
7. Execute morning distribution assignment
8. Lunch served between 1230-1330
9. WRT OIC and Team Leaders midday brief
10. Execute afternoon distribution assignment

11. Conduct post-deployment debrief with team leaders and members
7. Collect vest and badge from team members

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
GCSO/MSP	100 Distribution Kits Remaining	Distribution Route: exact location determined by Team Leader	1. Contact warehouse to request replenishment truck 2. Coordinate replenishment location with warehouse 3. Exchange replenishment truck with empty truck
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix

Lunch

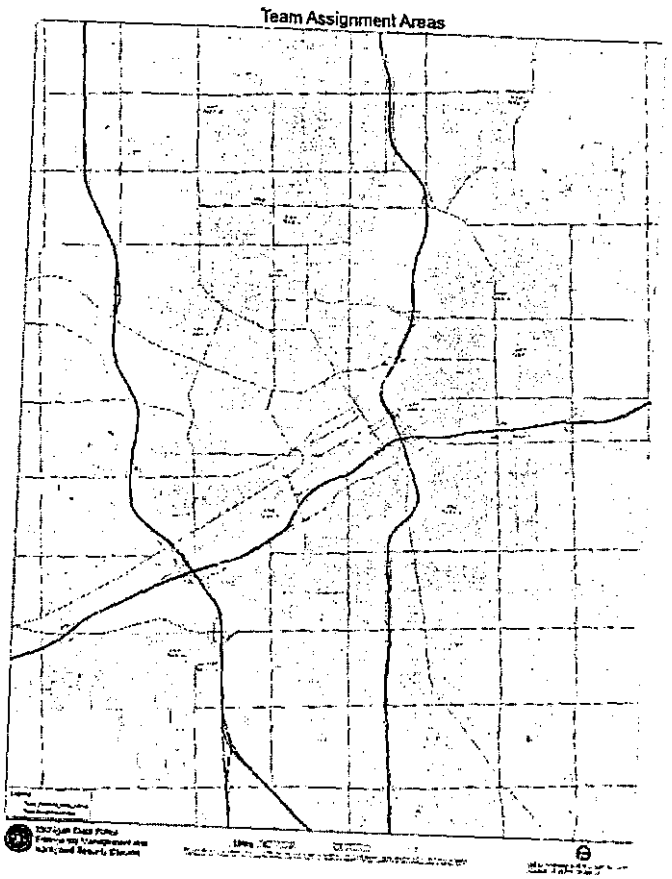
GCSO/MSP WRTs lunches will be provided by the ARC and coordinated by LEOC Logistics.

Reporting:

Tactics:

1. All WRTs will utilize ipads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if ipads fail. Refer to WRT Distribution Tracking Tool_V1.0_011716

Priority Distribution Areas



Kettering University

1700 University Avenue • Flint, Michigan 48504-6214

Monday, January 18, 2016

To: The Kettering Community of Parents of our Students and our Alumni

Subject: Kettering Campus Water Update

I know that you value the excellence of the education we provide, but I expect as alumni or parents of students currently enrolled at our great University that you are concerned about the barrage of news about Flint's water supply. I am a proud parent of a Kettering student, and my family and I reside in Flint, so I understand deeply and very personally how you might be feeling about the situation as reported in the media.

Last week, I sent a detailed Kettering Water Update letter to our campus and to our students. Because I know (from direct experience!) that students may not always communicate promptly with their parents on even important issues, I thought I would take a moment to update you and our alumni directly on this issue, because I know it is a subject of concern.

Unfortunately, as is often the case in public crises, a great deal of misinformation about the water supply in Flint is being reported as fact. Just as distressingly, though, a great deal of important information that we do have about the situation is also *not* being reported.

Kettering campus water is safe, and our faculty, staff, students, and campus residents are not being exposed to contaminated water on campus. We are, and have been even before the current crisis emerged, committed to ongoing testing of our water to ensure the safety of the campus water supply. Moreover, the entire water supply of Flint has not been contaminated with lead; although some sections of the city have experienced problems, some severe, other sections have not.

All of us deplore that any single person has been exposed to unsafe levels of lead in the water; however, many, many people living in Flint have not been exposed to water containing elevated levels of lead in their residences or places of business. To date:

- Roughly 2% of all individuals tested in Flint have shown elevated blood lead levels.[1]
- Twenty-three (23) children younger than age six tested in Flint show elevated blood levels of lead.[2]
    - Children under the age of 5-6 are the most vulnerable population with respect to the long-term health effects of lead; in the U.S., 535,000 children under the age of 5 have elevated blood lead levels high enough to damage their health.[3]
- A total of 43 of 2182 of people tested in Flint show elevated blood levels of lead.[4]

I also want to clarify that *the water from the Flint River that was used as the city's water source from April 2014 through October 2015 was not contaminated with lead.* The contamination, where it occurred, was due primarily to interactions between treated river water and lead supply

[1] http://www.michigan.gov/documents/deq/Flint_Blood_Testing_Report_December_23_509464_7.pdf
[2] http://www.mlive.com/lansing-news/index.ssf/2016/01/43_flint_residents_identified.html
[3] http://www.cdc.gov/nceh/lead/infographic.htm
[4] ibid.

lines in the distribution system, particularly in lead lines connecting individual houses to local water mains. This is not a global problem with the water, but a problem with how that water - after treatment - interacted with some pipes and other elements of the city's distribution system. This interaction was often (considerably) different - even house-by-house on a single block.

In this letter I want to outline for you what we know about the nature of the contamination of the Flint system, how the university has responded to it, what we have done and are doing on an ongoing basis to ensure the integrity and safety of drinking water on the campus, and how we are working to ensure that those in the campus community who live off-campus in private housing have access to appropriate information, tests, and filters to ensure and monitor the safety of their private supplies.

Because I want to document what I write, I am also including footnotes that will lead you, if you are interested, to the sources of my information, something I learned to do as a faculty member and still highly value. We are committed to deploying every resource at our disposal to continue to ensure the safety of our entire campus community and our visitors. We value your input, and I hope that as members of the Kettering Community and of this great University that the information presented in this letter is helpful to you. If you have questions, comments, or thoughts on this issue we welcome you to send them to us at water@kettering.edu.

Introduction

Inflated lead levels have been detected in the water supply in a number of areas in the city of Flint, and these have received significant medical, political, and media attention over the last three months. The State of Michigan officially declared a state of emergency in Flint on January 6, 2016,[5] and the Federal Government followed on January 16, 2016.[6] Federal, state and local officials have now engaged and are taking more aggressive corrective action to address this situation and the public health crisis that has resulted from it. Proudly, many in the Kettering Community have taken a very active role in helping those families and children in Flint impacted by this health crisis since its beginning last year.

The levels of lead found in some areas of Flint are gravely upsetting, but I want again to stress that the problem of lead contamination in public and private drinking water supplies is not present in all of Flint. Unfortunately, this distinction has been absent from much of the reporting on this subject in the media. Reports often imply that the water was tainted at the source (i.e. the Flint River), or that contamination of the water is uniform across the entire distribution system and that every house and business has been equally affected.

I also think it important for us to recognize that this problem is widespread and in fact is not isolated to Flint.[7] For example, I am sad to report, drinking water supply contamination, in some cases at levels far worse than have been found in Flint, has been found in Washington D.C., Seattle, Baltimore, Philadelphia, and Los Angeles among other cities and areas of the country.[8] In Michigan, elevated blood-lead levels have been found in an even higher percentage of children

[5] http://www.freep.com/story/news/local/michigan/2016/01/05/us-attorneys-office-investigating-lead-flint-water/78303960/

[7] http://www.cdc.gov/nceh/lead/leadinwater/

[8] ibid., http://www.cdc.gov/mmwr/preview/mmwrhtml/mm5312a6.htm, http://www.washingtonpost.com/wp-dyn/content/article/2009/08/03/AR2009080303003.html, and http://www.valeseas.com/watersymposium/pdfs/EdwardsLeadPaper.pdf

than Flint is experiencing in sections of Jackson, Detroit, Grand Rapids, Saginaw, Holland, and a number of other cities.[9]

The Nature of the Problem

First, the nature and cause of the contamination are reasonably well understood at this point. In brief:

- Historically, the Flint water system used and distributed treated water from Detroit Water Authority. It did so until April 2014, when it switched to treating water from the Flint River in an existing Flint water treatment plant.
- The "raw" river water to which the city switched in April 2014 was not contaminated with lead.
- The water within *some* sections of the distribution network was, however, contaminated *after* the water left the treatment plant by the leaching of metals such as lead, iron, and copper from lead service lines and lines containing lead solder.

After the switch to river water, the City failed to treat the water for corrosivity by managing its chemistry,[10] which lead to the erosion (and release) of lead-bearing pipe scale in supply lines[11] and lead/copper galvanic corrosion of lead solder and lead copper joints in the distribution system.[12] Because raw water quality varies across the US, federal law requires all municipal water systems to have a corrosion control plan to address this possibility; this regulation is known as the Lead and Copper Rule.[13] Flint unfortunately did not have such a plan in place when it switched the water source to the River.

Here I want to stress that the lack of corrosion control did not, in and of itself, make the water unsafe. What it did do, however, is increase the potential for the water to react chemically with certain types of plumbing systems, and in doing so leach lead and other metals (if they were present) from those systems.

And if this isn't enough complexity, the City (out of what I'm sure were benign motives) used a relatively high level of chlorine to treat the river water to prevent bacterial growth in the supply. The unanticipated consequence of this choice, combined with a lack of activated charcoal filtration in the treatment process, led to the subsequent production of elevated levels of trihalomethanes (which are disinfection by-products of water chlorination) in the water, but these were present primarily in areas of the system where the water pooled or moved through the system slowly.

In October of last year, Flint switched its water source back to Detroit Water Authority. It took approximately 3-4 weeks for the Detroit source water to replace fully all of the water in the distribution system. In December, Flint also began introducing additional corrosion control

---

[10] Specifically the chloride-to-sulfate mass ratio in the treated water, which can be influenced by salt entering the source river from runoff or changes in the way that organics are removed in the treatment process. This is typically adjusted by adding lime or orthophosphates in the treatment process, see http://www.waterrf.org/publicreportlibrary/4088.pdf

[12] http://www.awwa.org/publications/journal-awwa/abstract/articleid/26682.aspx

[13] http://www.epa.gov/dwreginfo/lead-and-copper-rule and http://www.ecfr.gov/cgi-bin/text-idx?SID=531617f923c3de2cbf5d12ae4663f56d&mc=true&node=sp40.23.141.i&rgn=div6

additives to the water supply.[14] It did this expecting that the addition of these additives will, over time, help to rebuild the protective scale on the inside of the parts of the distribution system where it has been damaged.

Not All Areas of Flint were Impacted Equally

The specific mechanisms that gave rise to the contamination of the system mean that not all areas of the system were equally impacted. Portions of the system that do not contain lead service lines or lead solder were not as greatly impacted as those that do. Older parts of the system, especially sections built in the 1940's through the 1960's[15] that have not been upgraded since their construction are disproportionately vulnerable.[16] Other areas are far less so.

As a consequence, the presence of lead contamination in the water supply was not uniform across the entire municipal water system, and not all areas of the city or all resident supplies were equally affected by it.[17]

- The amount of lead that leached into a given part of the system depended upon a variety of factors, including the age of the system in the area, the specifics of its construction (e.g. are lead service lines present), and the time that water typically spends in that part of the system between treatment and use.
    - The levels of lead contamination measured in the water drawn from a particular source point depends upon the characteristics of the infrastructure through which the water passed, and how long it took to do so. This is why water drawn in some houses on a single block might show measurable lead contamination, while others did not.[18]
- For the same reason, as I noted earlier, only a percentage of Flint residents have been exposed to water containing elevated levels of lead in their residences or places of business.[19]

Kettering's Campus Water Supply and Our Approach to Ensuring its Safety

The municipal water infrastructure that supplies Kettering is relatively modern, the flow-rates of water through the system are high, and we do not have lead-copper transitions in the main supply lines, as do many residences in some areas of the city. All of these factors reduce the chance of contamination in our supply. Even so, the University has taken a number of proactive steps to ensure that the campus drinking and cooking water supplies are free from contamination, a number of which have been described in previous communications to the campus on this issue. These include:

[14] https://www.cityofflint.com/2016/01/10/flint-city-leaders-county-state-officials-announce-relief-effort-expansion/
[15] In the early part of the last century, many municipal codes *required* the use of lead pipes when connecting homes and businesses to municipal water mains but most codes banned the use of lead pipes by the early 1970's. Chicago, for example, continued to require them as recently as 1986, see: *EPA warns modernizing water system may boost levels of lead*, Chicago Tribune, September 25, 2013. Some major U.S. cities still have 100% piping bringing water from the utilities to homes and businesses, see: https://www.safeplumbing.org/health-safety/lead-in-plumbing.
[16] http://nepis.epa.gov/Exe/ZyPDF.cgi?Dockey=20001R4V.txt
[17] For an example see: http://www.michigan.gov/documents/deq/Copy_of_deq-fw-Flint-Home-Owner-Data-Sept-3-thru_Nov-5-15_505529_7_505579_7.pdf
[18] ibid.
[19] ibid.

- Since early 2015 (after the switch to river water but before lead contamination was suspected), the University has been engaged in recurring testing of all drinking and food service water distribution points on campus using an independent, certified laboratory (Brighton Analytical, LLC). We will continue to test all drinking and food service water distribution points (and there are almost 100 of these) indefinitely.
- We also similarly test incoming water from our (six) Flint Municipal Water system input supply lines.
- All food service water source lines are flushed for a minimum of five minutes prior to use each morning, and only cold water is used, consistent with EPA guidelines.[20]
- We use NSF/ANSI 53 certified filters on all drinking water supplies on campus; these filters are certified to remove lead and trihalomethanes in addition to a wide variety of other contaminants and suspended solids. You may find details on the NSF/ANSI 53 certification standard at nsf.org and on the websites of manufacturers that produce filters conforming to this standard. There are 31 specific performance criteria that fall under Standard 53.
- All of our filters are maintained and replaced at the intervals recommended by their respective manufacturers.
- To be conservative, we shut off all water fountains on campus where the filters for that fountain were located at a significant physical distance from the fountain itself (usually because of space restrictions in the fountain cabinet).

  We did this as a precautionary measure, since it is possible for lead (if, for example lead solder was used in its supply line) to be produced through the interaction of water with plumbing in the supply line *after* it has been filtered *if* that water is allowed to sit undisturbed for a protracted time in the supply line (such as when a water fountain is used very rarely).

We do not test the water used in toilets, bathroom vanities, or showers, but we do test the sources from which they draw water (i.e. the input supply lines to campus). Human skin does not absorb lead in water, so bathing, washing, or showering is safe even using water containing lead over the EPA's action level.[21] [22] Adults may safely use unfiltered water for brushing their teeth.[23]

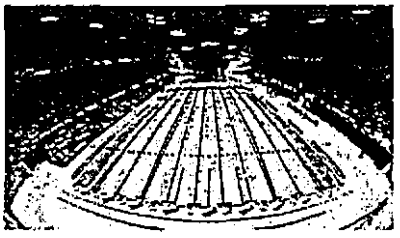
In addition, we continue to make improvements to our local system to improve convenience and ensure safety. One of the most visible of these is the replacement of many of our water fountains across campus with hydration stations; this project in fact began a number of years ago. All of our hydration stations are monitored and contain integral NSF/ANSI 53 water filtration systems.

How are Lead Levels in Water Specified and Interpreted?

The concentration of a metal, like lead, in water is often measured in parts per billion, usually denoted ppb. A concentration in water of 1 ppb represents one gram, or three one-hundredths of an ounce (3/100 ounce), of a substance in 260,000 *gallons* of water. One ppb is also three seconds

[20] EPA 810-F-93-001
[21] http://www.cdc.gov/nceh/lead/tips/water.htm
[22] http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946-372051--,00.html
[23] http://www.michigan.gov/documents/deq/2015-10-21_-_Lead_-_Flint_Water_FINAL_504265_7.pdf

out of 100 years. Ten parts per billion (10 ppb) is the equivalent of approximately one teaspoon of water in an Olympic-sized swimming pool.



The EPA has set an action level for lead in drinking water supplies at 15 ppb. In other words, if drinking water contains lead below this level, EPA regulations state that no action is required.[24]

For reference, the EPA permits faucets to be sold in the U.S. that leach 10 ppb or less of lead into water during a 19-day test.[25] Studies conducted by the EPA have found that the geometric mean of lead levels in drinking water systems in the US is 2.8 ppb.[26]

Results of Our Ongoing Testing

- As of the date of our last test series and over the past many months, we have tested the water drawn from the six input lines to campus a total of 15 times and all tests have resulted in a measured level of "ND" (for "None Detected"), with only three, single-test exceptions. In these three exceptions:
    - One detection was at 1 ppb, one was at 5 ppb, and the other was at 7 ppb. All of these are significantly lower than the EPA's allowable limit for lead of 15 ppb.[27]
    - These were single point-in-time detections; later repeat testing of the same distribution points detected no lead.
- No lead has ever been detected in any water source used for food preparation.
- As of the date of our last test series and over the past many months, all drinking water distribution points (e.g. water fountains) on campus have consistently tested "ND" (for "None Detected") for lead, with only six, single-test exceptions in well over one-hundred tests conducted. In these six exceptions:
    - All detections were at levels of less than 5 ppb (1,4,5,2,3 and 2 ppb respectively); all are significantly under the EPA's allowable action limit for lead of 15 ppb.[28]
    - These were single point-in-time detections; later repeat testing of the same distribution points detected no lead.

Access to Test Data

We make all results of these tests public. You may always find our latest test results along with other information related to the state of water in Flint at http://www.kettering.edu/water. We will continue to update the test reports on this site as we receive them.

[24] http://www.cdc.gov/nceh/lead/tips/water.htm

[26] Levin R, Schock MR, Marcus AH. Exposure to lead in U.S. drinking water. In: *Proceedings of the 23rd Annual Conference on Trace Substances in Environmental Health.* Cincinnati, OH, US Environmental Protection Agency, 1989.
[27] http://www.cdc.gov/nceh/lead/tips/water.htm
[28] ibid.

On this same webpage, you will also find a link to PDF copies of the certified assay reports provided to us by our independent laboratory.

We have encouraged our students to speak with their parents or guardians about this issue, and to share with them all communications they receive from us. Copies of all of our communications to students on this matter may also always be found at http://www.kettering.edu/water.

More Information

If you have further concerns, I encourage you to read the Centers for Disease Control website on lead contamination of water at http://www.cdc.gov/nceh/lead/leadinwater/ and http://www.cdc.gov/nceh/lead/tips/water.htm as well as the citations in this letter. Additional information is also available on our website at http://www.kettering.edu/water.

If you have technical questions about the campus water supply, they may be directed to Nadine Thor, Director of Auxiliary Services, at nthor@kettering.edu. Questions from students or their families of a more general nature should be directed to Dean Betsy Homsher, Dean of Students, at bhomsher@kettering.edu.

We will of course continue to update the campus as this situation evolves.

Members of the Kettering Community that Live off Campus in Impacted Areas

We have encouraged our students, faculty and staff who live off campus within Flint city limits to use bottled water, to test their water (which also supports the city's data collection and analysis efforts), and to use appropriate water filtration in drinking water sources until notified otherwise by civil authorities.[29]

In the interim, free bottles of water, water filters, replacement cartridges, and home water testing kits are widely available to all Flint residents.[30] There are multiple distribution points for these around the city, and the University maintains a supply of filters in the Office of Student Life for students otherwise unable to obtain them.

Information on the city's distribution of all of these items to residents may be found at www.michigan.gov/deq. Students residing off campus needing assistance in acquiring water, test kits, and/or faucet filters have been encouraged to contact the Office of Student Life at (810) 762-9871.

A Note on Water Clarity

You may see pictures of bottles of rusty or cloudy water in articles on water safety; the same has been true of the reporting surrounding the water crisis in Flint.

The presence of suspended rust in water can turn it orange, red, brown or yellow. The presence of rust in water is not an indication of the presence of lead or other contaminants in the water, nor does it necessarily indicate that the water is unsafe to drink.[31] In water, lead is colorless, odorless, and tasteless,[32] and the presence of rust in water does not indicate the presence of lead, bacteria, or other substances.

[29] http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946---,00.html
[30] http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946-366279--,00.html
[31] http://www.quincyma.gov/CityOfQuincy_Content/documents/RustyWaterFactSheet.pdf
[32] http://extension.psu.edu/natural-resources/water/drinking-water/water-testing/pollutants/lead-in-drinking-water

> *On its own, rust in water is not a sign of harmful bacteria or lead. In fact, the limits set by the Environmental Protection Agency (EPA) for iron in drinking water are based on aesthetics (taste, odor, color), not safety concerns.*[33]

Trapped air (in the form of small bubbles) in the water can also turn it cloudy or milky. Water pipelines are pressurized systems, so any air introduced into the system can remain trapped until the water leaves a faucet. This cloudiness is not indicator of water quality.

The NSF/ANSI 53 water filtration systems we use on campus for all drinking water remove suspended particulates including the iron that can discolor water (known as "turbidity reduction").

Legionella

It has very recently been reported[34] that there were an unusually high number of cases of Legionnaire's Disease seen in Genesee County in 2014-2015.[35] It has also been suggested in the media that this increase related in some way to the switch in the Flint water supply. Roughly half of the cases identified are in individuals who live outside of the city and the Flint municipal water service zone,[36] and a possible causal link between the two has absolutely not been established.

We have no evidence of any member of the University community having contracted Legionnaire's Disease.

Legionnaire's Disease is not contracted by drinking water containing *Legionella* nor is it transmitted between individuals. It is not contagious.

Legionnaire's Disease is a form of pneumonia caused by the bacteria *Legionella pneumophila*, and it is treatable with several classes of antibiotics.[37] It has an incubation period of two to ten days. *Legionella* do not survive in water above 140 °F (60 °C). *Legionella* are normally found in rivers, lakes, and streams,[38] and they are normally present in the water systems of large buildings and even in a percentage of residential water systems.[39]

Legionnaire's Disease is primarily contracted by heavy smokers, immunocompromised individuals, and individuals with chronic lung disease[40] through the aspiration of water or the inhalation of water mist contaminated with the *Legionella* bacteria.[41] Even after exposure to *Legionella* most people do not become sick.

Cooling towers for large buildings are frequently cited as potential breeding ground for *Legionella* bacteria if they are not regularly maintained and disinfected.[42] **The University has for many years routinely monitored and disinfected all cooling towers on campus.**

As part of a proactive effort, though, we have also begun ongoing and recurring testing of our water for the presence of *Legionella*. We will take appropriate action (which we will report) if elevated levels of the bacteria are detected in campus water supplies in the future. We will of

course publish the results of these tests on http://www.kettering.edu/water when they become available.

Federal Emergency Declaration

On January 16, 2016 and at the request of the state of Michigan, President Obama signed an emergency declaration the purpose of which is to make Federal aid available to the city in support of current filter and water distribution efforts to impacted persons in the city.[43] Substantively, this declaration simply mobilizes the Federal Emergency Management Agency (FEMA) to assist in these efforts and also makes certain federal funds available to the city for the purpose of supporting these activities. As stated in the order, it "is to provide water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days."[44]

A Kettering Professor (from the Beginning) and Our Students have been and will continue to be Part of the Solution

Last year, Kettering's Mechanical Engineering Professor Laura Sullivan was asked to co-chair Flint's Technical Water Advisory Board and was recently appointed by Mayor Karen Weaver to the Karegnondi Water Authority. This is important work, and through it she makes all of us in the greater Kettering family a key part of the solution. I want to take this opportunity to recognize her and to thank her for her service to Flint and the University.

Our students are some of the most creative in the world, and so we have been and are continuing to organize ways for our students, often in teams, to solve some of the challenging and unforeseen problems that have arisen in the distribution and installation of filters in affected areas of Flint. These efforts not only take advantage of the expertise and ingenuity of our students but they are also consistent with Kettering's ongoing commitment to Flint. We will make information on these efforts available on http://www.kettering.edu/water as it becomes available.

Please know that we are deploying every resource at our disposal to ensure the safety of our entire campus community and our visitors, and we will continue to work with federal, state, and local officials to help create long-term solutions to these problems. We value your input, and I hope that as valued members of the Kettering Community and of this great University that this letter has been helpful to you. If you have questions, comments, or thoughts on this issue or the University's response to it please send them to us at water@kettering.edu.

Thank you.

Warmest Regards,

Dr. Robert K. McMahan
President

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Attached is tracking sheet for Eagle Ridge Square. We have 36 homes without filters at this time. Also, someone came out on last Friday 22nd at about 4:45pm and my maintenance had already left for the day so I was told someone would be back today to make delivery. Will you please confirm that another delivery attempt will be made during business hours Monday - Friday 8am - 4:30pm. Thank you

Hello folks,

You might have this anyway, but considering that the Gov is having his press conference tomorrow, I am sure that you have been asked how many filters we have distributed so far.
If you have that number available, could you let me know?
Also, if you have that broken up into the different brands, that would also something I would be interested in.

Have a good night over there in Lansing.
Henrik

Subject: Briefings

Civil Service suggested that everyone call in on the phone rather than use the mic, but this may overwhelm the system.

I don't know if this will help or not, but can each branch call using 1 phone in the SEOC and have everyone in that branch do their reports through the 1 phone and the mic, so that everyone on the phone can hear the information.

Or move the phone to be by the speaker or vice a versa.

Just trying to help...Just my 2 cents...

A correction:

2880 Pur replacement cartridges were received between 0900-1000 this morning, they were put into the excel sheet as Pur Filters

The correction has been made going forward, the entire sheet reflects current inventory.

Subject: Station #5 1700-1800 Inventory Update 21JAN2016

A correction:

2880 Pur replacement cartridges were received between 0900-1000 this morning, they were put into the excel sheet as Pur Filters

The correction has been made going forward, the entire sheet reflects current inventory.

---SPC Spencer

Run the numbers per hour based on a percentage. To see the percentage of 2atwr used each hour. Determine if t he pods can be shut down at 8:30. Suggest a news release going out saying that the pods will be closing at 8:30 s tarting next monday, so that people have a week to be prepared. Make a determination that based on the percent age used that cost out ways the benefit

Discuss with Mike Farmer to see about making sure that the pods are stocked at the 6:00 deliveey.

Do graphs based on the hourly comparison. do weekly graph based on totals for the week.
Create a sheet that has the auto pull for the hours. Use the find and replace to build the sheet. Hight light the sect ion and change all to (example : 2016-02-3). This maybe the hourly sheet that I already started.

2/5/16 Afternoon brief

HE branch:

DCH: requested infor from eductaiont for under 6 in head start to compare to list of kids already tested. Labcorp of America to do leasd testing in schools and churechse; are cretifiecd throught the state for testing.

DEQ: no update from teams yet. Access rights to upload required EPA reports. Info filters that have been distributed – are not certified for copper. Coper filters are not reated for lead. 28 homes above 1300 ppb for copper.

MDARD: 15 water samples. 25 test results – 1 high 83ppb. Interviews by state vet regarding lead in pets. Meeting mDARD LARA DEQ schools and samplieng for clarification – needs more info about provate schools. Meeting on Tuesday – what is being done for urban food growers. Work with GIS for food establiment maps.

LARA: teams finishin up the material lists for the public school – full go ahead for faucet replance,memtn.

HS DHS: person for Mondays, another for Tuesday. Rotate request around agencies. Genna homes recycle ing process is going well.

ARC: 10 teams today. VRC open. No kits assemebled, but several 1000 yesterday.

State VAL: list of NGO for DHS. Get in touch with 7 day Adventist. Working with local eoc on logistic requirements. Examining the churches and other that have said that they want ot be a hub, making sure that they have the space. Working on donation equipment list. = contacting the NGO . Contact transportation in flint to see if the warehoused thaty have will meet any needs.

PS Branch:

DMVA: light kits situation for pod 5. Currently the PODS.

DOC: staffing tomorrow 1200 -1800 at new warehouse. Will be adding staff – partner with MDOT. Small accident.

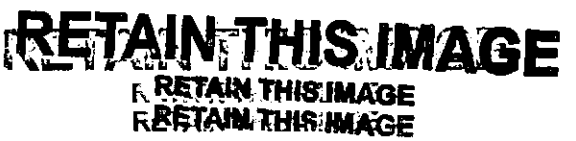
DTMB: locate space for possible SBA outreach senter. State agency needs to reach out to their agency becaseu DTMB is getting asked who the EM is for there department.

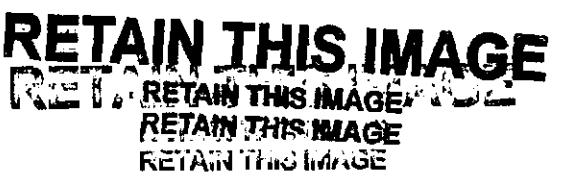
UCG: meeting with nutriten task force. List of requests from the state to the feds. Need to follow up the USDA questions. *Planning day – IAP from tomorwow to Wednesday – opjectives put into MICIMS. 204s* have more detail (team members ,etc.) Dave Guterez will be their from the ARC. Certain areas in Flint that have not been hit.

Recovery: compile data from apartment complexes.

JIC: SBA has an economic disaster granted.

TONY: business has suffered economic injury then the business can get a low intrest loan. In the area from Monday – Wednesday.





2/5/16 Morning briefing

HE Branch:

NWS: Quiet weather for next 3 days, next chances of snow is next Monday and Tuesday

DCH: Staff went out to 17 high lead level homes yesterday, all happy to be contacted, good to have a public health person with them.

MDARD: Field activity, 29 water samples, event at Blackstone Pub to demonstrate what inspectors are looking for, teleconference to clarify rules for testing of schools

DEQ. HS BR:

ARC Paul DMVA:

DTMB: Improvements on vendor sign up site

MDOT: portable light towers brought in, replacing message boards at PODs 5 and 6 with permanent signs

Red Cross – 10 water teams out yesterday doing apartment complexes, same today. 140 volunteers processed yesterday

DOC:

Recovery:

National Guard – POD 5 lighting issue resolved

Local EOC – Cleaning crew in new warehouse today, making 4 additional keys to building

Logistics – Opening warehouse tomorrow, working on vouchers for free bus transportation to get blood testing

Budget – 2 auditors from state budget office coming in to SEOC next week to understand process, get ahead of future actions

PIO –

2/3/16 Morning briefing

Work with dtmb and jic to fix phone.

Weather: about 50 degree now – changing to 40 @ 1600. Gusts 35 mile – change of rain or snow. Highs in the 30s next few day.

HE Branch:

DCH: check coordinate commuicatiosn. Risk communitaction activity with jic and chief med examiner. Disaster behavior healt coordinating. Suplemental funding coming tom behavior health. Webinar for helath care is today.

MDARD: April H. – 60 assessment yesterday 275 total. 25 water yesterday - total 125. Warning about drug providers (in MICIMS).

DEQ: work developing team for 150+ lead homes.

HS BR:

DHS: follow up with LOG or OPS for bottle openers. New path for water test respoust – foster care. Dedicated number for 211 to provide.

ARC: 10 teams yesterday. 10 today. VRC open 0900 – 1700

PS Branch:

DMVA: have replacements come in for pod soldiers. 2/16 – 65 come in to start intergration. ~44 part of out processing on 2/17. ~21 on 2/19.

DTMB: locate additional space for federal partners at flint office building – resurching today.

MDOT: asked to review traffic at 1, 5, 8 – looking for traffic assistance. Working on today with city of flint road crews. Portable board looked at for issues.

UCG: EPQ field teams sequestional sampling for high lead homes. Rash cap .EPQ fact sheets to share with residents. ESF15 – another person for fed side. Work with state to see what is out there. Ensure fed partners are coordinated. Concerns with word "resurch" regarding the city of flint – needs to work with community groups so that they do not feel like the citizens of flint are being resurch subjects. JIC was opened in ATL. Opjective #7 was broken into 4 sections. Nutriction and education task force, still working to support the states taskforce. HUD contact with all properties. CAPT: heard the MARKS may be established – What will that look like? FED, STATE, Etc. MARKS are city/county functions – State/FEDs assist.

LOCAL EOC: rubicon will be demob on sturday – need to figure out a replacement. CAPT: what is the issue with the efficencfy of the filters. Henrick – do the filters work for over the 150 b. from the media informioatn from earlier this week.

SEOC LOG: working on the warehourse for staff and equipment – wil be for loose water not shrink wraped – Will then be sent out to PODs and teams.

SEOC Planing: working on info for SBA. CAPT: a lot of things put out on SBA. This event has unique nuabces. Working thru the process. SBA economic recovery side, not IA>

Recovery: visiting apartment complexes. How many times has a home been visited without getting a response – working with GIS.

PIO:any docs that nee d to be translated needs to be in a word doc, not PDF. Anything that is going out or online needs to be translated.

CAPT: who are the 2000 people that do not have filters. Make sure that you are working on the incident action plan. Comments - EPQ admin was in town. CAPT comment we need to be ingaged with fed partners.

2/2/16 Afternoon brief:

SEOC OPS: recovery and human services plan for replancement filters. Rumor that MSU clinic doing free lead test on aminals. CAPT: replacement filter plan-when will we have?

HE Branch:

DEQ: conference call to bring all partners in the know. 30 homes 14 samples with 1 test result back today hopefully.

DCH: outreach to preg and children – outreadch on wednedya webinares. Emergency risk traning on Thursday in flint.

LARA: school def – additional bubbles this weekend, testing rescheduled. Complete comparision on 300 (???) - redueced to 100 on the flint water system.

HS Bransch

DHS: met with mdard and ed – regarding food estabilishment and schoold. Conference call with genesee co health department, continue to get resourced out. Provdiend ops with options for water bottle openers.

ED: schoo; def confirmation the eden well 2/9 paretn meeting. Dr jumal yesterday health and human services. MDE contact by stabenaw – community eligibility program for support.

ARC: 10 WRT. 10 more tomorrow . 25 event volunteer.

STATE VAL: tmeetong for taskfores. Community on board for community based distribution. Chanleges of capacity with the locals – timeline needs to be discussed because of those challenges. Thursday meeting. Last night call with white house – contact on how to get faith community envolved. Planning for the filter distribution – part of the long range plan. Was focused on water and is working with the filters now. WHAT IS THE CAPACITY CONCERN??? – many are already doing it. A lot on board, but concernes with the quantity, warehouses, personnel to process 0900-2100.

PS Branch:

DMVA: mdot request for pod issue – pod disucss with dmot tomorrow morning.

DOC: 261 tp lab (37 MDARD kits). Assisting with LOG to get warehouse situated.

DTMB: in process of signing the remtal agreement at old krogers – available Thursday morning.

UCG: call about the fed agencies – correction needed for FEMA RV report. Flint water response bages for FEDERAL partners. FEMA rep in the UCG. Contact list for def and hard of hearing. EPA has tol free number for sampling questions. Meeting with UofM flint for public inforamitno needs.

LOCAL EOC: work with franchise costomers. Geness town, city of burton, montmorecy. Sunridge complex – not sure if all appartments were serviced or not. Working with ARC to confirm.

SEOC LOG: work on SEOC staffing next week. Warehouse staffing.

Recovery: workingon new plan for ARC – verify that all apartment complexwes have been hit.

02/02/2016 Morning Briefing

Weather – Breezy – gusts to 35 – rain after 5 pm, chance of thunderstorms, tomorrow breezy, rain or snow, above freezing until tomorrow night

Health and Environmental Branch

Community Health – discuss with DEQ high lead levels

DEQ -

LARA – met with Latino and middle eastern commissions, 3 contractors hired to replace fixtures in licensed facilities

DARD – 37 associates with farmers market to be assessed

Health and Human Services Branch

DHS – DTMB access to donations mailbox,

Education

Civil Rights

Office of Aging

American Red Cross – sending out 10 mobile response teams, center open from 9 a to 5 p

Public Safety Branch

MSP

DMVA

Corrections – shifting items at warehouse due to rain

SEOC Logistics -

Local EOC – Managing donations, working with city and county to not bypass EOC – decline in distribution at PODS reported by National Guard

DTMB – Hopeful on contract at Kroger warehouse

Recovery – List of 211 addresses, Red Cross in field today

UCG – planning to support Genesee county Health department with blood draw for youth – EPA has field sampling team out – homes that EPA is going into, lots of debris behind filters -

PIO – If need to add documents to the website, run thru PIO

Capt.- Questioning whether requests for water and filters should go thru 211 – Need to improve process to insure supply doesn't run low.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/31/16 – 27th Day (26th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue investigating a warehousing option for non-palletized donations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- **10 American Red Cross Teams scheduled for Monday, February 1, 2016**
- **City Sections Scheduled Tomorrow*:** Franchise Customers, Additional to be determined
  *City sections subject to change based on available data updates. Teams will reach out for additional assignments if entire city section is completed during the operational period.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. RECOVERY
- **City Sections Visited Today:** 28, 17, 11, 27, 29, 30, 31.
- Information reported to the JIC:
  - As of 1/31/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

National Guard Reporting FB PODs 2016-mm-dd FWRT TABS

- Homes visited by the FWRTs to date.

DOESN'T CHANGE ANYMORE

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/31/2016
30,770	37,844	9,577	551*

*Due to an issue with the iPads in the field not all numbers were captured for today's outreach. The additional residences will be entered tonight by ARC and will be included in the data for tomorrow, per Recovery Branch.

- Distributed:

NATIONAL GUARD REPORTING FB PODS 2016-mm-dd 1700 → TOTAL NUMBERS TABS

Commodity	Total to Date
a. Number of cases of water	234,490
b. Filters	100,593
c. Filter cartridges	204,736
d. Test kits	32,093

- Total number of customers on the Flint water system
  a. 29,994 current water system subscribers
  b. ~45,000 hookups (This is our high end target #)
  c. ~39,000 includes apartment complexes (The is the low end target #)

GIS DOESN'T CHANGE ANYMORE

- Resources purchased:
  a. Cases of water 2,637,324 Liters (additional 996,080 Liters donated)
  b. Filters 165,048
  c. Filter Cartridges 383,282
  d. Test kits 62,701
- Teams going out tomorrow:
  a. 10 American Red Cross Teams scheduled for Monday, February 1, 2016.

Logistic Support Supplies.

ARC

New Standing Information Requirements

National Guard Reporting FS PODs 2016-mm-dd FWRT TAB

1. **Number of homes visited each day:**
   a. 1/31/16, as of 5 pm, 551* homes were visited today
      i. *The numbers are low due to an issue with the iPad input, the additional residences will be inputted tonight and included in tomorrow numbers.
2. **Total number of homes visited:**
   a. Targeted Canvassing Mission: 9,577
3. **Total number of National Guard on the ground:**
   a. 53 DMVA
4. **Total Number of Volunteers each day:**
   a. 236 volunteers on 1/31/2016, per ARC. ARC
5. ***Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	28,081
Active residential water subscribers	26,673	22,334

DOESN'T CHANGE ANYMORE

GIS

National Guard Reporting FS PODs 2016-mm-dd 1700 TOTAL NUMBERS

6. **Number of Water filters distributed (each day and to date):**
   a. 624 (299 FWRT + 325 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and total distributed to date is 100,593.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 7,302 (426 FWRT +6876 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 234,490.
8. **Number of testing kits distributed (each day and to date):**
   a. 581 (251 FWRT +330 PODs (1700 1/30 to 1600 1/31)) were distributed since this report yesterday and the total distributed to date is 32,093.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
      *this data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
       ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
       *This data will not be updated again until Tuesday

Community Health updated weekly

MDEQ

11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. 5,020 water samples out of 5,356 sampled through **January 31, 2016** are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Also on website

Local EOC

- Addressing various public concerns, including concerns regarding filter efficiency.
- Establishing procedures for receiving incoming donations of loose water at overflow locations.

- Established rapid response delivery plan with ARC and Team Rubicon.
- Coordinated rapid response deliveries to homebound residents and special locations.
- Coordinated with VRC for door-to-door distribution of recycling information and supplies.
- Genesee County Board of Commissioners meeting scheduled for 02/01/2016.

FEMA-3375-EM-MI

As of Feb 01, 2016 as of 1230 hrs

Unified Command Group Meeting
February 1, 2016

1. Ensure all households within impacted community have required resources and are included in DEQ water sampling.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and Department of Health and Human Services Unified Coordination Group.
2. Ensure accurate tracking and accounting of all commodities.
11. Ensure accurate tracking and accounting of all donations.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain staffing to support operational requirements.

2/1/16 Morning Brief

Weather: system coming thru – tomorrow light rain snow mid morning – rain 1600 possible thunder 1800. Tuesday and Wednesday windy.

HE Branch:

DEQ: sampling – know more after 1500 coordinat meeting. EPQ want to do 50 samples them selves. Fremond school sampling on Saturday.

HS Branch:

ED: school for def replace drining fountains. All food service, identify sites.

Civil righsts; staff and members of middle east affair with Gene co meeting.

ARC: 10 teams yesterday and 10 today. 194 event volunteers yesterday. VRC open today 0900-1700. Assembly of test kits if they come in today.

PS Branch:

GIS: working on incorp franchise costomers in the database.

LOCAL EOC: direction of donations of water to warehouses that have the ability to accept the water. 3 team rubicon. Yesterday – new rapid response delivery plan. Local EOC to gain beter SA with the state, fed, and local

SEOC FIN: meeting with state budget tomorrow morning. Get a colaboarte way to track everything.

RECOVERY: ARC toward franchise cosotmers yesterday. 232 res -107 serviced yesterday. Going to local eoc to coordinate meeting with Genna, Capt tefoya,

PIO: Trying to plan a legistaltive breafing tomorrow

CAPT: figure out how working with the UCG. Make sure that all notes are in the activity logs. Make sure the state agency ECC are coordinating with eht SEOC, even if working with the UCG. Issues with warehouse space? Paletts no, but unpallet – maybe. LT GOV said 15 semis of water coming – do not know when. Get with planning – gov wants a week at a glance – future glance. Transition the PODs to NGOs.

1-31-16 Morning Brief:

SEOC OPS: GIS – locals don't havs GIS support. Issue with donations of water – shouwwing up in semis unscheduled-some just un palleted

Weather: mild ner 50 – rain in the afternoon evening. Tomorrow mid upper 30s. cooler end of next week.

HE Branch:

DCH: not much update – CHECC open till 1700

DEQ: Test results 4924 testt 4616 at or below 15.

LARA:

HS Branch

ARC: 10 teams today. Yesterday partner with carp and millrigth – 40 team to give water. Unknown for volunteer today. VRC 169 yesterday. No test kits today – no bottles.

PS Branch:

DOC: flintwarehouse@michigan.gov – new warehouse email

DTMB: with michelle with bitlocker. Monitoring for cyber hits – flint still getting hits

GIS: if support is needed submit a resource request.

LOCAL EOC:

Recovery: 1300 call about rapid response teams. Plan for the week. Apartment list is nailed down and will get to ARC.

Tony: DEQ questions – what are the dates of the numbers? Go back to 9/3/15 – 1/20/16 (??end date).

Question from LT GOV – are we reaching the franchise customers.

1/30/16 Afternoon Brief

HE Branch:

DHC: CHECC active at level 2. Early next week should have the draft of nutrieon plan from the check

DEQ: request for 9 sampling teams start 2/8 in flint. Potential resousre requests for Law Enforcement.

LARA: work at freemont school was completed today.

HS Branch:

ARC: 10 teams. Expect 10 tomore. Carptent and millright supplied 100s of people. Some with teams other used their own vehicles and went to neighborhoods. Resume test kit assembly when they are available.

PS Branch:

DMVA: Open source article was passed to the POD folks, so they can be prepared for spike.

DOC: 250 skids left warehouse by XXX.

DTMB: Added access for flint office and New SEOC. Mi.gov was attacked again areound 1300, the website did not go down.

GIS: Working on producing daily update for recovery.

LOCAL EOC: work with Gena homes on long term planning and distributre plan for church pods.

Recovery: continue to update the apartment complex list.

1/30/16 Morning Brief

Weather: warmer thru weekend in 40s. dry today and tonigh. Rain in tomorrow. Mon mid 30s. Rain late tues.

SEOC OPS: Potential increase in demand for water test kit.

HE Branch:

DCH: maning the call hotline at CHECC, low valum. Talking to HHS because of information gap with ucc and JIC. Person coming in from asper.

MDARD: checking to see if incident action plan is finalized for next week.

DEQ: follow up with sample data issue. Correct informaiotn about sample turnareound time. In media 3 days – actually 3 week.

LARA: plumers at fremond school replace faucents today and tomorw. Compliling DEQ test for child cars etc.

HS Branch

DHS: 211 is blowing up with the 3 day vs 3 week. Report yesterday that the filters don't work if over 150 parts per million. Media coverage on this. Can JIC help with this.

ARC: 10 teams yest. Plan for 10 today –thinks 11 teams. VRC today till 1500. Assembling water test kits.

PS Branch:

MSP: call from DTMB avising that issue mi.gov website. Extributed denial of service attack. Update that site is back on line.

MDVA: Couple new soldiers today at the PODs. Wants MDOT traffic study at the PODs.

GIS: working on identify multi unti houses. And maps for where the teams are going.

LOCAL EOC: briefing with EOC – 700 ARC and others assembling at home depot to sacurate the area. Also UA members from southfield.

SEOC LOG: nothing.

Recovery:

F/LT COVEY: PODs may be really busy today. Kuzera is goung to unified center to bridge the potential gaps.

Attachments: 22Jan16 RRF Tracker.xlsx

There was a mistake made by the SPC entering the counts. It has been fixed and will be entered by Sgt Frick here on out.

The counts are correct.

Subject: RE: Station 6

FYI...the estimate used for a pallet is 65 cases per FEMA pallets. The 72 cases per pallet is not used anymore.

Thanks for the info. I agree that the NG on site would have the best SA, so if they are comfortable, then I am good. I just know that when my spreadsheet turns yellow, then I want the local EOC to be aware.

Subject: RE: Station 6

I'll address the amount of cases in the hourly report with the NG Liaison here. They are saying they have 14 pallets of water currently, which would be more than 50% of capacity (14p*72c= approximately 1000 cases, 1800c/72c= maximum capacity of approximately 25 pallets).

If they have mostly 40 packs of water, which will have a lot less than 72 cases on a pallet, I can see them being below 50% of capacity for cases, but over 50% of pallets at the same time.
Also, the NG Liaison here advised that 1800 cases/25 pallets might be what the station could theoretically hold, but that they never really filled it up to the max so far.

NG on site is stating that they are in no danger of running out, so we'll just bring it up on the 1830 logistics call to make sure that warehouse sends out enough to fill up in the morning.

Subject: RE: Station 6

Yes that is based on the hourly reports. Station 6 told us that they have a capacity of 1,800 cases of water. Based on the hourly updates they only have 676 cases, which is well below 50%.

I was off the day that I asked someone to check the capacity of the POD, so I assumed that you were included in the response.

Here are the POD capacities for cases of water:
Station 1: 1,584 (792; 50%)
Station 3: 2,088 (1,044; 50%)
Station 5: 2,160 (1,900; 50%)
Station 6: 1,800 (900; 50%)
Station 8: 2,520 (1,260; 50%)

Hopefully this helps.

Thanks
Sam

Is that based on the hourly report from that station?
Per National Guard at the station over the phone, they were at 100% earlier today, and are now well above 50% capacity with 14 pallets. Don't know what their maximum is, but they should not be in danger of running out anyway.

I'm on the call right now, but I'll let NG know so they can arrange for delivery. They had a couple of shipments today at PODs that had to go back (loose water and other issues), so that might be a reason why they are down.

Good morning Davonta

I need some clarification. The last report for station 8 for the 2000-2100 hour showed that there was a beginning balance of 144 gallons of water and 144 gallons of water were handed out. This would level 0 "Total ON-HAND", however there are still 144 gallons of water listed. Please clarify.

Thanks

Hello,

It appears that the count for water is incorrect for 1400-1500. Perhaps a formula in your reporting spreadsheet was altered or erased? Attached is a screen shot of the error and a reporting template with the correct formulas. Please correct the report and let me know if you have any questions.

Thanks,

Nick

Hi Austin

Thank you for clarifying the inventory. I have one question. The First sheet today showed that 13 cases of water, 78 gallons of water, 1 Pur filter, and 3 Pur Replacement Filters were "Amount Handed OUT". The last 2 sheets show only show 13 cases of water.

Did the 78 gallons of water, 1 Pur filter, and 3 Pur Replacement Filters that were listed as "Amount Handed OUT" not actually handed out?

Thanks

Good morning Kayla

There appears to be an error in the 1700-1800 Pur Filter Total On Hand. The 1600-1700 had a Total On Hand of 440, then during the 1700-1800 hour there were 12 handed out; which would leave 427 Total On Hand. However the Hourly Report shows 332 Total On Hand. I just want to make sure we have the correct information for our reports that need to go to the governor this morning.

Thanks

Sam

Hi David

It appears that there was a digit missed for the Pur Filter Total On Hand. It looks like it should be 300, not 30.

Is there a reason that there is not a formula for the totals? It may save time and reduce a key stroke error.

Thanks
Sam

Good morning Austin

I do not know if you saw the email this morning regarding the potential error in yesterday's numbers. (See Below). Was a physical count done this morning to confirm that there are 2,144 Pur replacement Filters? Based on yesterday's numbers, it should only be 2,142. There are reports that need to go to the Governor this morning and the numbers need to be confirmed.

Thanks
Sam

Hi Austin

Sorry for the delay in this clarification, but I did not see it when I came in last night. It appears that the first hour (0900-1000) there was a math error. There were 2 Pur Replacement Filters handed out, however the Total On Hand amount was never reduced. Can you confirm that that the Pur Replacement Filter Total On Hand should be reduced by 2.

Thanks
Sam

Subject: RE: POD & consolidated tracker emails

Good morning 2LT Benke

Generally throughout the day I receive the hourly email, there are times that an hour is missed by 1 or 2 of the PODs. The problem is the last hour or two that is not being received. I know there has been a time where the 2 email accounts for the SEOC were entered incorrectly. There was a zero (0) entered instead of a "O" for the SEOC. There are reports that need to go out in the morning which is why every hourly report is important. The consolidated report is being completed at night, so I know that reports are being sent. I just ask to make sure that the SEOC is also emailed the hourly reports from the end of the day, since it appears that we are being missed on those email or there becomes the "could not deliver". We have made sure that the email domains for everyone from the PODs and on this list have been entered as "never block sender", so hopefully the email issue will no longer happen. If there is a change in personnel at the PODs, please provide the email addresses, so that they can be entered as "never block sender" on our end.

Please let me know if there are any questions.

Thank
Sam

Subject: POD & consolidated tracker emails

ALCON,

I just touched base with the POD NCOIC's and my NCO who builds the daily consolidated tracker. The POD's hourly reports should be going to the MSP emails this email is going to as well as a list of other military and civilian agencies who have requested them throughout the operation. The POD's have reported that the MSP emails sometimes kick back a 'could not deliver' type message but hopefully reconfirming the email spelling should resolve the issue. Let me know if there are any questions or concerns or if the trackers still do not make it to the correct personnel.

Subject: New report

Hey Amanda

After allowing my brain to think last night, I am still not sure about this new reporting. When Nat was talking right before we left and said that he did not have a specific time for when he wanted the new report. He was doing it to make sure that it was done by 5:00 pm. I am thinking that doing the reporting at night is still the best, since we are going through all of the numbers for the Sit Rep anyway and everything is familiar. Having the same people do the reporting that have been working on everything allows for less confusion. It will be someone else doing the reporting in the morning and this has caused confusion on other things when the new person is working.

Justification for nightly reporting and process:

- We need almost all of the data at night for the Sit Rep (except DEQ)
- Make all state agencies provide the data by 1800 every day.
    - If this means that DEQ only has partial data, then they can make up the difference the next day; the same as the way that the PODs are being reported.
- The Sit Rep is started at 1700.
- The POD data should be entered by 1700.
- The FWRT data should be completed by 1800.
- The warehouse data should be in by 1800.
- The numbers sheet should be completed by 1830, if the above data is complete.
- As long as the above is all done, then the Sit Rep should be done by 1930ish.
- Peter Manning, SEOC LOG, SEOC OPS, and State Director should have the Sit Rep reviewed by 2000.
- Everything entered and complete by 2015-2030.
- The issue that comes into play is the Governor data.
    - If the SEOC can make the statement that the Governor Data sheet will be used from the previous day and any changes will not take affect till the next day, then this should be able to be done by 2000 as well.
        - As you are aware, the issue comes into play when the Governor Data sheet changes the day the data is due.

In the end it is up to Capt. to make the decision of when he wants the data, but if the data is not going to be done until noon, then it might as well be done the night before.

Just my 2 cents.

We can talk later.

Thanks
Sam

Ms. Wendy Braun with the City of Flint Water Department is usually in the EOC but is out today. She would be a great person to talk to on this. Her direct line is 810-766-7135 ext 2606.

Subject: Water meter numbers

Hi all

I am not sure who would have this, so I am asking the group. We are trying to understand the decline in water cases being distributed, which can have many reasons, so that we can forecast the future need of bottle water. One of the questions is whether people are using the city water more. Is there a contact person with the water department or are there new meter readings to see if there is an increase in the citizens using the city water now that there are faucet filters being distributed throughout the city?

Thanks
Sam

Zach,
As discussed earlier, please note that these numbers are not perfect.

Can you please pull these numbers for the below inquires for the Governor's office by 6pm today?

- *Total residences in Flint (including apartment units)*
  There are 38,876 parcels we have classified as "occupied"
  We have some apartment data, not complete. The list only says how many units each complex have, and that's only about half complete. This number of units so far is 2383.
  If you add these together, the final number is 40659.

- *Total occupied (including apartment units)*
  34,227 occupied.
- *How many occupied have filters*
  29,654
- *Of the occupied ones without filters, how many have been contacted but no face-to-face contact (left card)*
  1024
- *Of the occupied ones without filters, how many have not been contacted (no one has knocked on door)*
  558

Subject: Flint emergency declaration work

My draft notes from this morning's 9am SEOC briefing are attached for consideration, correction, consolidation, and discussion.
Hard to catch everything, but between everyone involved we should be able to piece together and sort through a lot, and hopefully avoid any major errors.

PS: Please forward to whoever else is in the SEOC Planning section today (or the upcoming 2pm meeting). If appropriate, I can make printouts of this to provide/discuss at the meeting.

Thanks,
Mike Sobocinski

SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19

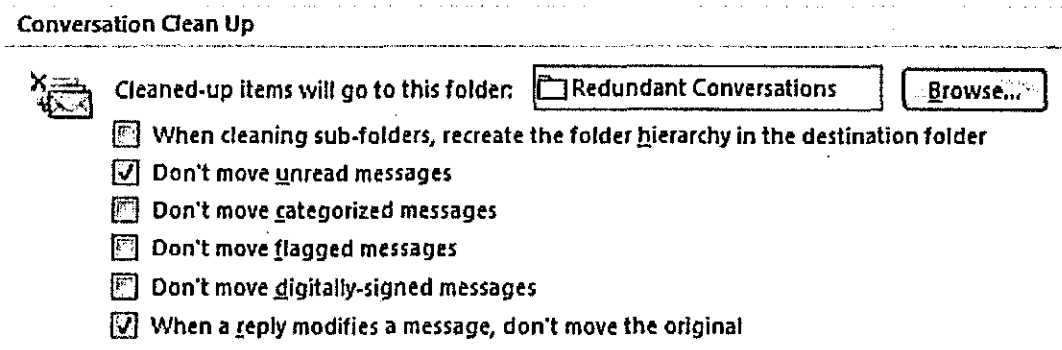
- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided.**
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:



- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, only CC emails from your SEOC email address
- Send all documents created to the same email address

Flint Water Response Team Plan
Sunday, 02.14.16 Final

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Diane Fodness		Diane.fodness@redcross.org

Plan

Agency	Team Types	Mission
ARC	16 Type V	1600 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity: 16** (8 ERV + 8 Trucks)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	8	8		2/14/16	8:00 am
ARC ERV	8	16		2/14/16	8:00 am
ARC ERV Driver	8	8		2/14/16	8:00 am
Team Member	20-32	20-32		2/14/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	8	8		2/14/16	8:00 am
Team Transport Vehicle Driver	8	8		2/14/16	8:00 am
iPads	8	8		2/14/16	8:00 am
Hand Warmers	80	80		2/14/16	8:00 am
Distribution Kit	1600	1600		2/14/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – Visit (83) City of Flint Addresses that receive City Water and continue to classify as a No Contact. List of addresses sorted by Map Section and corresponding Maps are attached.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC. It is likely the iPads will not be used due to the extreme cold temperatures.

Flint Water Response Team Plan
Sunday, 02.07.16 Final

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Kristy Gallagher	Kristy.gallagher@redcross.org

Plan

Agency	Team Types	Mission
ARC	10 Type V	1000 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity:** 10 (10 ERV)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	10	10		2/7/16	8:00 am
ARC ERV	10	10		2/7/16	8:00 am
ARC ERV Driver	10	10		2/7/16	8:00 am
Team Member	20-40	20-40		2/7/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	10	10		2/7/16	8:00 am
Team Transport Vehicle Driver	10	10		2/7/16	8:00 am
iPads	10	10		2/7/16	8:00 am
Hand Warmers	40	40		2/7/16	8:00 am
Distribution Kit	1000	1000		2/7/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas
Team Priority – Continue to work on the "Zero Contact Address List" of 959 Addresses.
Secondary Priority – New List of "Follow-up Visits Contact Address List" of 1,310 Addresses.

Map Support
Maps have been provided to coordinate with the new Follow-up Visits Contact Address List.

Sample Script for Team Members:
We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse
Tactics:
1. Load a minimum of 2 trucks in preparation for replenishment requests with prôduct loads corresponding to Team Typing Matrix.

Lunch
Lunch will be provided by the ARC.

Reporting:
Tactics:
1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC.
2. For apartment complexes, use the paper forms to record the contacts you make with residents. For reporting purposes, please report the names of the complex and the number of units per complex that the teams made contact with to the SEOC.

Data for Governor's Office

Open: s:\disaster\2015-10 Flint Water\MI CIMS Data for Sit Rep

"Gov. Data v2 draft" spreadsheet

Also open (desktop) "Raw data for Gov Data" spreadsheet

Commodities- Daily total (Flint Water Response Teams) section:

- Update from the "National Guard Reporting FD PODS-2016-mm-dd" (today's) spreadsheet. FWRT or 1700 totals tab.

Commodities – Daily total (Points of Distribution) section:

- Update previous day with final data in the yesterday's "National Guard Reporting FD PODS-2016-mm-dd" spreadsheet total tab.

Purchased to Date section:

- Update with information that is provided by Mary K, Pam or Jane to Planning Section Chief. This data is entered into the "Raw Data for Gov. Data" that was opened above. The calculation results in the difference field will be entered into the "Gov. Data v2 draft" spreadsheet.

MDEQ:

- SEMC will provide data on drinking water results to Planning Section Chief. These will be a hard entry, please work with PSC to ensure they are entered daily.

Warehouse-Nightly Inventory:

- Open the Google Doc "pipeline". Go to the current warehouse tab. Get the inventory numbers for water, total filters (Brita & Pur), replacement filters (Brita & Pur), and lead test kits. Enter this data into the "Gove. Data v2 draft" spreadsheet.

End of the Day Numbers:

After email is received from the recovery unit:

- Open: (s:\disaster\2015-10 Flint Water\MI CIMS Data for Sit Rep\POD Numbers) National Guard Report FD PODs 2016-mm-dd
- Open: (s:\disaster\2015-10 Flint Water\Daily Water Response Team Plans) "Round 3 Distribution numbers for neighborhoods" spreadsheet into the "National Guard Reporting FD PODs 2016-mm-dd" spreadsheet "FWRT" tab in the current day field cell C4-C17

Governor Report

- Open: (s:\disaster\2015-10 Flint Water\MI CIMS Data for Sit Rep\PSC) GovReport_Reformatted.
- Save file as GovReport_Reformatted mm-dd-2016.
- Go to the data tab.
- Click in cell B2
- Click crtl+7.
- The find and replace window will open.
- Click the replace tab.
- In the find what: box, enter the date this is listed in the address bar. .
- Address bar should say ='s
    - s:\disaster\2015-10 Flint Water\MI CIMS Data for SitRep\POD Numbers\[national Guard Reporting FD PODs 2016-02-3.xlsx.]FWRT'!c7
        - When entering the date for the direct bullet above, it will be yesterday's date, not the date listed in the example.
    - Enter previous date (i.e. 2016-02-3).
    - Enter the next day into the "replace with": box, so 2016-02-4 (for this example)
        - When entering the date for the direct bullet above, it will be today's date, not the date listed in the example.
    - Click "replace all".
    - This should update the links in the POD spreadsheet for current day which will allow the reports to be printed at the end of the day.

POD Data

- (s:\disaster\2015-10 Flint Water\MI CIMS Data for Sit Rep\POD Numbers)
- Open: "National Guard Reporting FD PODs 2016-mm-dd"
- Receive email from PODs hourly
- Open attached spreadsheet.
- For the first entry of the day:
    - Copy the "amount on Hand" for the starting inventory -> do a special past as either value or text.
- For all hours:
    - Copy the "amount handed out" and "amount delivered in
      and do a special past either as value or text into the "out" and "in" columns.
- Monitor the total column to make sure that the inventory does not get low. There are 2 filters that will come up if inventory gets low.
    - The yellow filter means that the inventory is at half.
        - When it is yellow, make a determination it looks too low based on the past hours "out" column. If too low, then call Genesee County EOC and make sure that they are aware.
    - The red filter means the inventory is at zero.
        - When it is red, call Genesee County EOC and make sure that they are aware.
- If filter turns red make sure that there is at least one type of filter available. If there are zero Pur and Brita, Genesee County EOC and make sure that they are aware.

Subject: Daily Summary
Attachments: 2015-10-01 City of Flint Water Contamination-Shortage SitRep 18 2016-01-23.pdf

Mr. Katarsky,

Please see below for the daily summary.

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 40 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.

- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Information reported to the JIC:

  - <u>As of 1/23/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

    1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard 7,361 ARC

    2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

    3. Total number of customers on the Flint water system
       a. 29,944 paying customers
       b. 45,000 hookups (This is our high end target #)
       c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
       a. Cases of water 133,662 (additional 24,634 donated)
       b. Filters 115,700
       c. Filter Cartridges 266,200
       d. Test kits 61,161

    5. Teams going out tomorrow:
       a. 15 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
       b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
- Working on tracking incidents at warehouse and car accident with local EOC personnel.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel

Attached Documents:

- SitRep 15

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 10 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.

- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- SEOC Operations held logistics meeting in reference to National Guard deployment
- Information reported to the JIC:

  - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

    1. 29,317 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

    2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.
       a. Number of cases of water 90,337
       b. Filters 73,229
       c. Filter cartridges 185,852
       d. Test kits 19,866

    3. Total number of customers on the Flint water system
       a. 29,944 paying customers
       b. 45,000 hookups (This is our high end target #)
       c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
       a. Cases of water 111,630 (additional 18,502 donated)
       b. Filters 115,700
       c. Filter cartridges 243,200
       d. Test kits 61,161

    5. Teams going out tomorrow:
       a. 18 National Guard State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
       b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.

- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 13

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.

- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Information reported to the JIC:

  - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

    1. 21,393 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

    2. Distributed:
       a. Number of cases of water 37,313
       b. Filters 53,713
       c. Filter cartridges 169,520
       d. Test kits 7,379

    3. Total number of customers on the Flint water system
       a. 29,944 paying customers
       b. 45,000 hookups (This is our high end target #)
       c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
       a. Cases of water 82,992 (additional 16,056 donated)
       b. Filters 115,700
       c. Filter cartridges 243,200
       d. Test kits 61,161

    5. Teams going out tomorrow:
       a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
       b. 10 ARC (2-4 folks) type 5 teams---Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.
- Requested information from SEOC regarding amount of distributed bottles to date, and projected amounts for future distribution for trash management/recycling plan meeting on 01/19/2016.

Captain Kelenske,

Below is the daily summary for the SEOC. Attached is the daily sit rep, approved by Peter Manning.

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC planning has been given G-11 on the 800 MHz radio has the event channel that they can communicate with local EOC on ground truth inventory.

- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.
- Information reported to the JIC:

  - <u>As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)</u>

    1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

    2. Distributed:
       a. Number of cases of water 27,195
       b. Filters 50,432
       c. Filter cartridges 168,605
       d. Test kits 4,861

    3. Total number of customers on the Flint water system
       a. 29,944 paying customers
       b. 45,000 hookups (This is our high end target #)
       c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
       a. Cases of water 57,456 (additional 12,884 donated)
       b. Filters 108,520
       c. Filter cartridges 239,081
       d. Test kits 28,901

    5. Teams going out tomorrow:
       a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
       b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Captain Kelenske,

Below is the daily summary for the SEOC. Attached is the daily sit rep, approved by Peter Manning.

SEOC Update:
Accomplished today (January 16):

- Logistics
  - Fielded questions about whether to open the multi-pack filter replacement kit and give only one away or keep as a pack. Decision is no, otherwise we are accused of tampering. Request no multi-packs be ordered.
  - Finalized test kit assembly process with DEQ and ARC.
  - Consolidated all GGCARD warehouse inventory to Clio Rd. warehouse.
  - Site visits in Flint to local EOC. Warehouse, ARC, and POC's. Observed warehouse operations to determine challenges.
  - Discussed volunteer management coordination with MCSC and ARC.
- JIC
  - JIC will be requesting daily numbers from the SEOC from the activities of the field teams and PODs.
  - Working the emergency declaration and talking points for congressional/legislative conference call.
  - FEMA External affairs FEMA will be onsite soon.
  - Working on inaccuracies from media on the declaration.
- Recovery Branch
  - MSP coordinated 11 Flint Water Response Teams with 62 state employees today.
  - Continued coordination with Red Cross on volunteers for Sunday and Monday.
  - Confirmed team typing for Flint Water Resource Teams.
  - Data is for 1/16/16 as of 5:00 pm.

Water Response Teams	Event TOTALS	1/16/2016

Occupied Homes	6,034	2,387
Vacant Homes	2,161	554
Unknown	3,129	909
Total Homes Visited	**11,324**	3,850
Resources Provided		
Door Hangers	4,384	1,745
Water - Cases	2,062	1,253
Water - Gallons (Jugs)	97	9
Filters-Faucet	2,973	1,247
Replacement Filter	2,040	770
Filter Pitchers	29	2
Water test kits	420	102
Total Resources Dispersed	**12,005**	
Future sample test site	453	301

- Planning Section
  - Lead morning and afternoon state agency conference call.
  - Coordinated logistics of resource tracking.
  - Developed projections based off of reporting and trend analysis.
  - Published Sit Rep # 11.

- Operations Section
  - Worked with local EOC and SEOC logistics to clean up distribution quantities at sites to individuals.
  - 91 American Red Cross volunteers are active across operation today.
  - ARC processed 45 volunteers through the Volunteer Reception Center.
  - Warehouse Numbers:
    - Clio St Warehouse (current stock)
      - Replacement Cartridges.
        - 63,866
      - Filters (faucet)
        - 63,003
      - Water (cases)
        - 38,232
  - Point of Distribution Sites- resources handed out (as of 7 pm)
    - Contacts
      - 1047

        - Water (cases)
            - 625
        - Filters (faucet)
            - 772
        - Replacement Cartridges
            - 486
        - Filters (pitcher)
            - 14
        - Test kits
            - 3
- Finance Section.
    - Continuing to track personnel resources located in the SEOC and local EOC for use in spend plan development.
    - Monitoring resource request board and Pipeline Collaboration Document for costs incurred by state agencies for inclusion in spend plan.
    - Booked additional 18 hotel rooms for National Guard.

- GIS Branch Updates.
    - Created a GeoForm and Feature Service to handle data from paper forms used in the field and forms used prior to our involvement.
    - Gave training to Red Cross and Sheriff's Office teams on iPad data collection.
    - Provided train-the-trainer training to National Guard on iPad data collection within the Points of Distribution(PODS)
    - Created maps for ARC and MSP of individual team assignment areas, residential Water Sampling Results, precinct/ward wall map and daily team progress map.

DTMB:

- Provided management briefing and information on emergency declaration.
- 60 tablets have been provided to the Flint Water Response Teams to record supplies being delivered in the field.
- Provided 450 credentialing badges for volunteers and 4 temporary fuel cards for the MSP officers driving rented U-Haul trucks.

DHHS-CH

- Maintained coordination and information sharing with CHECC leadership by holding twice daily scheduled calls to report activities and updates.
- A resource request was submitted in the SEOC to logistics to order 10,000 of the EPA provided nutritional pamphlet.
- Discussions took place with the JIC Manager, MDHHS PIOs, and CHECC Disaster Behavioral Health Subject Matter Experts regarding the method for providing Disaster Distress support (i.e. a helpline) for the public and responders.

DEQ

- All available water test kits assembled and available for distribution.
- Provided guidance to City personnel for water sample collection sites.
- GIS map developed for water sampling sites.

Local EOC Update:

- Toured facility and discussed EOC operations with Lt. Governor Calley.
- Provided direction to Operations and Logistics Sections to initiate water sample collection at Fire Station PODs.
- Attended conference call with SEOC and ARC logistics management to clarify supply level tracking and receive further instruction on the issue.

Captain Kelenske-

Below are the updates from activities at the SEOC today. Peter Manning has approved the attached Sit Rep.

SEOC Update:
Accomplished today (January 15):

- Logistics
  - Finishing work to consolidate GCCARD inventory into new warehouse.
  - Ordered more filters for teams and PODs.
  - Worked to refine triggers for warehouses and establish maximum POD inventory.
- JIC
  - Developed talking points about Flint water situation.
  - Developed talking points for Legislative and Congressional conference call.
  - Developed a news release for dissemination of to date commodities distribution.
  - Media monitoring brought up no misinformation.

- Recovery Branch
  - Made significant progress today to improve strategy for tomorrow's deployment.
  - Working with Wendy to make sure we have supplies for PODs and teams.
  - Coordinated tracking numbers with GIS:

	TOTAL	1/12/2016	1/13/2016	1/14/2016	1/15/2016
Occupied Homes	2098	242	492	716	648

Replacement Filter	127	127
Pitchers	22	22
Water test kits	209	209
Total Resources Dispersed	**1322**	
Future sample test site	270	270

- Finance Section.
  - Submitted Projected Supplemental to Departmental Services Division to submit to the State Budget Office.
  - Continuing to track personnel resources located in the SEOC and local EOC for use in spend plan development.
  - Monitoring resource request board for costs incurred by state agencies for inclusion in spend plan.
- GIS Branch Updates.
  - Upgrade dashboards to include POD information Deployed tracking app for the PODS.
  - Generated route planning map and updated daily field team filter delivery map.
  - Prepare 30 additional pads for deployment the field
  - Provide training for new teams on mobile data collection application.

DTMB:

- Credentialing badges for Flint Water Resource Team workers have been developed.
- Deployed a dumpster to the Clio Rd warehouse for POD trash collection.
- Equipment for LARA school faucet replacement project will be delivered today.

DHHS-CH

- Working with GIS and CHECC to map individuals that are medically dependent.
- SAMSA is offering to open DBH hotline for Michigan residents.
- CHECC is operating a hotline for local HD through Monday.

DEQ

- 48,000 test kits have been distributed to the community.
- DEQ staff is monitoring the number of samples that have been tested.
- DEQ laboratory will remain open over the holiday weekend to process samples.

Local EOC Update:

- Coordinate supplies for Hot Shot distribution to partners and home bound individuals.
- Began coordination of key agencies regarding analysis of water sampling results and providing interpretable information to affected populations.
- Implemented water sample collection at Fire Station PODs.
- Developed situation report # 5.

Captain Kelenske,

Below is the daily summary from the SEOC. The attached Sit Rep has been reviewed by Peter Manning.

SEOC Update:
Accomplished today (January 14):

- Logistics
  - Fielded numerous donations and volunteer calls today.
  - American Red Cross logistics specialist is helping to establish a distribution operations plan for the SEOC.
  - Secured 80,000 sq. ft. warehouse today. Working to consolidate all resources in one location.
- JIC
  - Email being sent to state employees to request volunteers for weekend.
  - Media monitoring showed no incorrect information today.
  - Michigan Association of Broadcasters is sending PSA to radio stations.
  - Media availability at the Saginaw Armory went well today.
- Recovery Branch
  - Coordinating with Red Cross on volunteers for weekend.
  - Coordinating with MSP to finalize details for tomorrow's canvassing.
  - Coordinated tracking numbers with GIS:

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	3417	394	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217

Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

- Planning Section
  - Working further on resource plan to ensure tracking is accurate.
  - Developed IAP for approval today.
  - Developed and published Situation Report #9.
- Operations Section
  - Deployed 8 teams in the field today (approx. 120 volunteers). 78 Red Cross volunteers active across operation today.
  - National Guard ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a PAO at the JIC and LNO at the local EOC.
  - Senator Ananich visited the SEOC today to see how things operate.
  - Warehouse Numbers:
    - Replacement Cartridges.
      - 44,018.
    - Filters (faucet).
      - 21,284
    - Filters (pitcher).
      - 104
    - Water (cases).
      - 432
- Finance Section.
  - Continuing to track personnel resources located in the SEOC and local EOC for use in spend plan development.
  - Gather related costs to date to build projection to submit to SBO.
  - Met with MSP-Departmental Service Division to discuss Projected Supplemental.
  - Monitoring resource request board for costs incurred by state agencies for inclusion in spend plan.

- GIS Branch Updates.
  - Conducted IPad Collector App training in Flint and assisted with technology needs.
  - Built Operational Dashboards for use with real time data feeds from the iPad data collector.
  - Continued to work with ESRI Disaster Response Program consultant on technical GIS issues and improving GIS processes.

DTMB:

- Reserved 4 U-Haul trucks for January 14 – January 23, for canvassing teams.
- Coordinated with Home Depot to get resources sent to new warehouse.

DHHS-CH

- The Community Health Emergency Coordination Center (CHECC) is working on a nutrition plan.
  - They are working on education materials, messaging, and working with local agencies.
- Working on developing a community assessment for disaster behavioral health services.

DEQ

- Seeing few samples coming into the city hall location. Working to identify a better collection/repository location for sample drop-off.
- Working to staff 8 scientific testing teams for sample collection and testing.

Local EOC Update:

- Coordinated volunteer management plan with ARC and SEOC.
- Initiated evaluation of fire stations as additional test kit/sample collection points.
- Coordinated test kit assembly and delivery.
- Reviewed American Red Cross logistics draft plan.
- Developed local EOC situation report #4.

Captain-

Here's the summary from today. The SitRep reviewed by Peter is attached.

SEOC Update:
Accomplished today (January 13):

- Logistics
  - Working with DTMB and MDOC to secure vehicles and/or trailers for door-to-door campaign beginning Thursday morning.
  - Work with MSP Ops Chief to build a mission ready package for a volunteer team in the case other cities offer volunteer assistance for door-to-door.
  - Secured 80,000 square foot warehouse with DTMB to store water resource supplies.
- JIC
  - PIO from 2-1-1 and Genesee County Sheriff's office were in JIC today.
  - We held a media avail at Fire Station #3 and the event was well attended by media.
  - Managed and corrected misinformation from media about National Guard Presence.
- Recovery Branch
  - Coordinating additional volunteers and resources for Flint Water Response Teams over the next four days.
  - Coordinated tracking numbers with GIS:

Overall Numbers:	1/12/2016	1/13/2016
Occupied Homes	533	291
Vacant Homes	238	86
Total Homes	**771**	377
Resources		
Door Hangars	473	256
Water	265	148
Filters	235	123
Pitchers	9	6
Water test kits	92	44
Replacement Filter	93	93
Total Resources Dispersed	**1167**	**1,008**
Future sample test site	62	34

- Planning Section
  - Working with GIS to include local POD numbers in live GIS distribution map and real time tracking.
  - Developed and published Situation Report #8.
- Operations Section
  - SEOC chiefs along with American Red Cross Logistics liaison deployed to local EOC and warehouse to further develop distribution plan and coordination between all entities.
  - Daily Numbers:
    - Replacement Cartridges.
      - 30,700 delivered.
    - Water (cases).
      - 19,152 cases delivered.
- Finance Section.
  - Gather related costs to date to build projection to submit to SBO.
- GIS Branch Updates.

- Map products have been updated with new information.
- Continued with mapping of lead service line locations, 20% completed at this time.
- Upgraded ArcGIS Online Collector App to field teams and tracked resources and site visits and procured 30 additional tablets for tomorrows field teams.

DTMB:

- Secured warehouse today for storage of bulk supplies.
- Secured 30 tablets for field data entry.

DHHS-CH

- The Community Health Emergency Coordination Center (CHECC) is working on a nutrition plan.
  - They are working with local, regional, and state agencies.
  - Looking at short term and long term benefits.
- Working with local health department to provide additional support.
- Working on developing a community assessment for disaster behavioral health services.

DEQ

- Additional staff reported to the GCCARD today to supervise assembly of the water testing kits.
- Field observer working to get inventory of kits returning.

Local EOC Update:

- Evaluation of need to engage further public health/medical professionals.
- Continuing to identify appropriate agencies that need to be represented in EOC, and discuss strategies to engage them.
- Addressed lack of distribution of supplies to undocumented populations.
- Worked to enhance coordination of financial control to educate county finance staff.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Secured adequate warehouse space for incoming supplies.

Attachments: 2015-10-01 City of Flint Water Contamination-Shortage SitRep 07 2016-01-12.pdf

Captain,

Here's the summary from today, and the SitRep reviewed by Peter is attached.

SEOC Update:
Accomplished today (January 12):

- Logistics
  - Worked on maintaining supplies and track resources at each of the local PODs.
  - Worked to establish a Red Cross warehousing team to assist at two new warehouse locations.
  - 50,000 sq. ft. warehouse facility established and will begin accepting resources Wednesday January 13, 2016.
- JIC
  - Media was imbedded with a canvassing team today with positive coverage.
  - Approved a MDARD fact sheet for distribution.
  - The Governor's office has pushed out a video PSA lead by Capt. Chris Kelenske.
- Recovery Branch
  - Working with MSP SEMC to expand door to door teams this week. Expanded canvassing scheduled for Thursday January 14, 2016.
  - Canvassing today was successful and put 4 teams of 6 in the field.
  - Totals resources distributed in canvassing operation on January 12, 2016:
    - 217 Door hangars.
    - 117 Water (cases).
    - 112 Faucet filters.
    - 3 Pitchers.
    - 48 Water test kits.
- Planning Section
  - Developed real time tracking system for local resources.
  - Working with GIS to include local POD numbers in live GIS distribution map.
  - Completed IAP for the next operational period and the Situation Report for daily activities.

- Operations Section
  - Fire stations up and running today and providing resources to the citizens.
  - Water resources have been scheduled to fill the designated warehouses.
  - American Red Cross warehouse management team on site at GCCARD.
  - Daily Numbers, January 12, 2016:
    - Filters.
      - 2,000 delivered.
      - 64,700 ordered.
    - Replacement Cartridges.
      - 10,400 delivered.
      - 184,300 ordered.
    - Water (cases).
      - 7,824 delivered.
      - 19,152 ordered.
    - Test Kits.
      - 6,601 kits delivered.
      - 1,000 ordered.
- Finance Section
  - Continuing to monitor SEOC staffing and costs incurred on a daily basis.
  - Develop projection of anticipated costs for response and short-term recovery.
- GIS Branch Updates.
  - Today we began migrating content to ArcGIS Online to streamline resource management operations.
  - Deployed ArcGIS Online Collector App to field teams and tracked resources and site visits. Building a similar tracker for PODs to track the status of resources distributed.
  - We continued to work on updating old mapping products to include newer infrastructure. Lead analysis is ongoing and is at 10% of the city lines.

DTMB:

- Procured additional filters/cartridges to maintain field supply and build supply in warehouse.
- DTMB real estate is finalizing lease of 100,000 sq. ft. warehouse for supplies.
- Incoming supplies by end of week.

DHHS-CH

- The Community Health Emergency Coordination Center (CHECC) has officially elevated its level of activation to "Level 2 - Partial Activation." Currently the CHECC is staffed with BETP leadership and Section Chiefs only. SMEs will be brought in as necessary.
- Coordinating with MDE and MDARD on nutritional planning communications.
- Coordinating with the CHECC to determine status of Environmental Testing and Consulting Lead Investigator(s) request.

DEQ

- 10,000 additional water testing kits have been ordered.
- Arranged for DEQ staff to deploy as a field observer to assist in tracking water kit supplies and samples at GCCARD.

Local EOC Update:

- Requested Red Cross warehouse teams for both warehouses.
- Worked with SEOC to better track resource distribution and levels.
- Secured assistance for inventory management at GCCARD warehouse.
- 2-1-1 is rerouting calls for homebound seniors to Sheriff's office, resulting in approximately 100 home deliveries.
- Red Cross warehouse team on site at GCCARD today.

GIS Summary

Submitted report on total number of filters, pitchers, and replacement cartridges to Logistics
Printed map of wards for the City of Flint with Points of Distribution overlayed
LARA maps of Health Facilities and Active Facilities in progress
Geocoding water filter distribution addresses
Devise a method for measuring water filter distributions throughout the city. We will sum filter distribution by city block and produce distribution maps by block
DDACS Crime map overlay onto distribution map

Subject: Flint Water Daily Update

Captain,

Here is a summary of today's activities – in addition to the notes sent to you by Jackie Hampton/Operations Section Chief earlier:

Command and General Staff Accomplishments:

- Recovery Branch is working to develop an enhanced method for outreach to all individuals.
- DHHS is working to develop a method for distribution of water.
- Mr. Katarsky conducted briefing with local EOC and Chris DeVriendt.
- Mr. Weber conducted briefing with state agencies (daily updates).
- Held first legislative call today.
- JIC continued to develop messaging and has implemented a co-located JIC in the City of Flint.
- Deployed 3 EMHSD/SEOC liaisons to assist the local EOC.
- MCSC representative deployed to assist in the local EOC as well.
- Worked on developing incident objectives for the next operational period.
- FEMA Liaison Officers are on site at the SEOC and are assisting and providing technical expertise as needed.

EMHSD GIS Accomplishments:

Accomplished Today (January 8):

- Produced Water Point of Distribution Map (POD).
- Produced Filter Point of Distribution Map (POD).
- Met with Genesee County Emergency Manager to discuss POD locations, and hours of operation. He will also be sending us data on new facilities serving as POD's with hours of operations.
- Attempted to geocode list of properties that have received a water filtration system. Geocoding encountered a problem due to original database format. We continue to clean up the database. The GIS Leader visited Flint and will prepare a memo this evening explaining some of the difficulties discovered and some ideas for work arounds or solutions.
- Attempted to get data on the zip codes. It will be more effective to use parcel info to cross reference with zip codes.
- U of M contacted us to set up a meeting on how best to proceed with digitizing water lines.
- Received account from City of Flint for their ArcGIS online.

Tasks for Tomorrow (January 9):

- Finalize updated list on water filter distributions map.
- Update Water and Filter POD's with updated information from Genesee County Emergency Manager.
- Establish time to meet with U of M.
- Finalize water filter distributions map.
- Finalize plan for data distribution methods.

Volunteer and Donations Management:

- SEOC staff, Local EOC, and local organizations had a call with General Motors about possible donations.
- MCSC has been working on this event for a while through United Way and 211. They will begin providing situation reports and updates through MDHHS.

Please let me know if there's anything else you need. I will be in at 8am.

V/R,
Tom Weber

Attachments: 2015-10-01 City of Flint Water Contamination-Shortage SitRep 02 2016-01-07.pdf

Captain,

A summary of today's SEOC activities is provided here, and today's SitRep is attached.

SEOC Accomplishments:

- Recovery Branch was established under Operations Section. Brianna Briggs will lead.
- Discussed Recovery Task Force (State). Recommendation forthcoming. Action will depend on pending possible EO.
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed to EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers are deploying to assist command and general staff and will arrive this evening.

The SEOC continues to provide:

- Situational awareness
- Common operating picture/objectives
- Coordination with city/county
- Potential coordination with federal agencies
- Incident prioritization
- Coordination of life/health safety measures
- Provide resources
- Public Information Control

Agencies represented in the SEOC will need to:

- Determine what federal agencies are already involved.
- ICS Planning P cycle has been established.
- Identification of potential water supplies is ongoing.
- State Agency EMC's are identifying existing lead pipe replacement programs (DEQ).
- The GIS team has made progress in identifying and update situational mapping. (EMHSD GIS)
- Filter distribution processes are being analyzed and mapped (EMHSD GIS).
- Determine which mechanisms are in place for nutrition supplementation-ongoing. \
- City of Flint water filter distribution map has been prepared and will be updated as new data becomes available.

MDHHS – Elevated Blood Lead Levels.
On day 1 of activation Dr. Eden Wells gave an in depth summary of lead poisoning and what has occurred relating to health monitoring during the Flint crisis.

MDEQ – Water Testing Protocols
On day 1 of activation Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.

EMHSD GIS:
Accomplished Today:
- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:
- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

V/R,
Tom

Attachments: ICS 201 Summary 2016-01-06.docx; 2015-10-01 City of Flint Water Contamination-Shortage SitRep 01 2016-01-06.pdf

Captain,

A summary of today's SEOC activities is provided here, and today's SitRep and the final draft of Objectives and Tactics are attached.

Command and General Staff Accomplishments:

- Set goals for SEOC activation and identified response/recovery emphasis
- Developed operating policy, procedures, and guidelines
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts
- Developed Incident objectives, strategy and tactics
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 – 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan.

SEOC:

The State Emergency Operations Center will provide:

- Situational awareness
- Common operating picture/objectives
- Coordination with city/county
- Potential coordination with federal agencies
- Incident prioritization
- Coordination of life/health safety measures
- Provide resources
- Public Information Control

Agencies represented in the SEOC will need to:

- Determine what federal agencies are already involved
- Establish the ICS Planning Cycle/"Planning P"

- Identify potential water supplies
- Identify existing lead pipe replacement programs (DEQ)
- Determine where affected homes are located, filters were installed, areas that need filters, etc. (EMHSD GIS)
- Determine how filter distribution is handled, and if it can be handled more efficiently (EMHSD GIS)
- Determine which mechanisms are in place for nutrition supplementation

MDHHS – Elevated Blood Lead Levels

- Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.

MDEQ – Water Testing Protocols

- Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call in to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to get data

V/R,
Tom

Mike Sobocinski's notes on January 12, 2015 SEOC briefing (9:30am):

MSP Resouce unit (acting planning chief?) Amanda Bresler: Reading IAP objectives. SEOC hours will go until 8pm, so 6pm agency situation reports are due. 2pm tactics meeting scheduled.

National Weather Service (Jim Askill?): Contacted Genesee County EOC and added them to the list of NWS contacts. Today's weather is "sloppy," with "off and on" lake effect snow. Some spots might see snow all day, other spots might not see much. Various bands produce spotty effects locally. Today, snow, low temperatures, and winds produce treacherous travel. Frostbite sets in within 15 to 30 minutes on exposed skin. About 1 to 2 inches of snow accumulation will be seen today, then "off and on" snow tomorrow during both day and night—one inch or less. After the next few days it should warm up a bit (to the freezing point?).

MSP SEOC Operations section (Jackie Hampton): Identified shortages need to be addressed: water filters and test kits. Another warehouse is being opened today. Need equipment at DHHS site (loaders, etc.) to move resources on/off vehicles. 9600 cases of water per day are being handled, so space is needed to stockpile that. GCARD (?) to eventually be used for staging only, when more space has been found.

DHHS (Jennifer ??): Currently at a level 2 activation. Processing the request for a warehouse facility. Must sort through the short and long-term storage needs. Distributing guidelines/message information. Also dealing with volunteer information (and organization – the availability of volunteers).

MDARD (Kay Fritz?): Updated guidance document re: food service establishments, and the document is being approved through the JIC. Animal shelters and related tasks are being worked on. Information is going out to veterinarians in Flint. Coordination occurring with Genesee County Health Department and Genesee County animal control. (She quickly reads off their list of actions.)

MDLARA (unknown person?): Doing work with ?plumbing chief? En route. [Didn't catch information clearly.] A list of home-based day care centers is available.

MDEQ (Jen Wolf): Refers to online links for approved water filters. 10,000 water test bottles are on order. Coordination with American Red Cross. More supplied ordered – another 10,000 water test bottles. Would like to always have at least 2,000 on hand, at the warehouse.

Capt. Kelenske: Make sure that the fire stations have what they need. That's the area that is farther from direct control (i.e. outside of state framework).

MDHHS (unknown speaker?): Logistics of coordinating with American Red Cross, etc. Given 10am ETA on truck with provisions from/to? Home Depot? retail outlets. But it's more useful to be given a current location of the truck, rather than an ETA. About 700 (something – individual bottled water servings, I think?) were obtained and are being delivered.

American Red Cross (Paul Spotter?): Trying to increase staffing. Is it possible to reduce hours (stopping at 7pm) to accommodate the difficulty for volunteers during the cold weather? (Capt. Kelenske: Current

hours are 9am to 9pm, and will remain so.) Some warehouse teams have been established. Tomorrow, a volunteer reception center is opening.

MDHHS (Brian [redacted]): Teams are preparing for distribution activities, but the main current focus is on the procurement of water filters.

MI Dept. Of Civil Rights (Mark [redacted]): About 15,000 Spanish-language and 30,000 English-language palm cards exist. Would like to arrange deliveries to Our Lady of Guadelupe Church and to the Hispanic center. (Capt. Kelenske: Must deliver broadly to all faith based places at once rather than just to one or two specific ones.)

Office of Services on Aging ([redacted]): Delivery to 1400 addresses with seniors – meals, care management services. Working with the Genesee and Valley Area agencies on aging. Care management clients information obtainable from various senior agencies. Becoming aware of a citizen distrust of filters alone, with seniors requesting water in addition. State and local ombudsmen checking on nursing homes to verify the use of bottled water there—these facilities are all mapped in GIS, so the info is available. (Capt. Kelenske: Must broaden messaging to build trust in filters. Jackie Hampton: Are be able to test filtered water, to build that confidence? Jen Wolf DEQ: All samples received are being tested, so filtered water samples won't be turned back, but the lab doesn't want to ask for samples of filtered water. Nicole Lisabeth PIO: hadn't heard about testing filtered water – official info should be distributed if it's to be done.)

MSP (officer ? in SEOC): Truck shipments, tracking on map, three or more trucks requested. Comparing deployment with supply.

MDMVA (Chad Randall[redacted]): Researching the resources available to fill requests.

MDTMB (Jeannette Doll): Reached out to Meijer, found that they'd already been shifting their filter supply toward their Flint stores. Checking into Amazon as another source. Three trucks with drives are to arrive tomorrow. A 50' trailer is to be procured. (Jackie Hampton: drivers needed 7a to 10p). Emergency can allow extension of the normal 14 hour limit that drivers can be on the road. About 30,000 palm cards being printed.

Capt. Kelenske: All state agency resources are available and can be brought to bear. Any resistance can be overcome through authorities of/in the SEOC. For example, "any" state employee can go door-to-door [i.e. minus those with physical/health limitations]. But logistics do need to be sorted through.

MSP (Staging?) Team (Brianna Briggs): Presented info in Flint and answered questions. Two kits were given out in some cases instead of just one (per household), when concerns were brought up about filtered water quality. Local volunteers are many. If state agencies do need to eventually contribute more staff, they'll be notified.

PIO (Nicole Lisabeth): Currently stressing the use of filters as the most efficient way to secure good drinking water for each household, long-term. Backed by Dr. Eden Wells in this—announced at about 6pm last night. A warehousing and inventory management system (is being used? Is needed?) for an

inventory system. There's a parking issue re: media, but teams are getting out in the field, with instructions not to be delayed/distracted by media inquiries or activities. Teams are not to engage with media, but just to focus squarely upon their assigned tasks. All media are to be referred to the PIOs and the JIC. (Capt. Kelenske: A standard statement to this effect is to be used by workers—not even a "no comment" response, but that all media requests are to go through the PIO/JIC.) The Governor's office is sending daily emails to Flint, advising to use water filters, and that teams are going door-to-door. 2-1-1 is available to call there, a public service announcement (PSA) video has been made, a website is available. Working with Comcast to show the PSA video and to place filter instructions on a public access channel there. Billboards are going up in Flint to inform about the availability of 2-1-1 and of the website. Mailed cards are going out. Working on an Arabic translation for information cards. Getting information on churches to participate—by the weekend? Inquiries obtained regarding any Pb issues in other areas of the state. It's important to have city and county PIOs in the JIC. Some 2-1-1 rumors of lead in bottled water were dismissed/discouraged. Some calls were reported as being made to the FEMA national headquarters, involving concerned agencies such as the NAACP. Questions were also received on how corporations can make donations. (Capt. Kelenske: 2-1-1 is very important. Verify the staffing and system in place there; minimize chance of a shortfall.)

MSP Planning (Amanda Bresler): Updating the 204 form. Working to improve the local tracking sheet for resources at Flint area fire stations.

Local EOC (Mark DuCharme): Volunteers are needed at both warehouses. Don't refer to the new warehouse as "Diplomat" – because there is an existing business it may be confused with.

Capt. Kelenske: Give that warehouse a generic name, not even "DHHS warehouse." Overall, fine job so far. Focus on what we can do, and remember to take a breath or to step back occasionally so that there aren't problems with stress interfering. The smallest detected slip will be portrayed as a significant news event. The next state agency update will be at 4pm at the latest – might occur sooner.

Mike Sobocinski's notes on January 11, 2015 SEOC briefing (9:30am):

MSP Planning Section Chief Tom Weber leads the meeting, reads list of objectives from IAP. A state agency briefing is occurring every afternoon now. The SEOC was open on both Saturday and Sunday this past weekend.

MSP EMHSD Jackie Hampton: Agencies need to stay focused on completing form 204 and their critical tasks. Those who are speaking in the SEOC should now stand to present their information into the microphone.

National Weather Service (Jim [redacted]): During the next 48 hours will get challenging. Fairly tame light snow right now, but from 8pm onward there will be more snow coming in with winds. About 2 to 3 inches are expected in the Flint area from 5pm today to 8pm tomorrow evening. The expected temperatures will be in the teens. *Blowing snow will mean that it will be hard to keep roads clear, creating hazardous* travel conditions. Temperatures will be cold and will result in wind chill factors below 0 degrees F. Frostbite would be expected on skin exposed for times less than ½ hour. From Wednesday to Friday, only occasional light snow is expected, but the cold temperatures will continue.

MDHHS (Jennifer [redacted]): The CHECC has been opened, with a partial activation. Subject matter experts will be brought in as needed.

MDARD (Justin Henderson): He refers to yesterday's update [as if everyone was here yesterday], and no change to that update. [Several other agencies simply reported no significant change, or didn't mention anything that sounded specific and important enough for me to include here. Some phone-in agencies might have been too brief or garbled to be included.]

MDEQ (Jen Wolf): Coordination between their lab and various other agencies (city of Flint, DTMB, MDARD, DHHS, etc.) on test bottles, kits, and instruction sheets. Seeking appropriate dispersion of bottles within Flint, to match actual local needs (rather than too many at locations whose needs are not as great as others').

MDHHS (Richard Thelen): Things are proceeding on track. Setting up for 1pm training at (site?). Getting arrival time estimates on all orders, establishing filter quantities, gave some info to GIS for processing.

American Red Cross: Has staffed distribution sites at 5 fire stations, 9 churches, and helped to organize more (for water and filter distribution). Some larger sites are needed.

Adult Services (Steve [redacted]): Pulling together the list of addresses for Flint seniors who are at higher risk. Exploring the role that could be played by their nutrition network, in response to a "food desert" concern that was raised. The Department of Education feeds children. Better framing is needed for nutritional needs issues. (Jackie: DHHS is working on it.) [My comment: In my experience, the "food desert" concept was completely overblown, applying an exaggerated name and limited definitions that failed to recognize the true variety and accessibility of foods through various transportation options and exaggerating the low quality of food that is readily available locally; fixating upon particular ideas of raw fruits and vegetables while downplaying the substitutability of frozen vegetables, packaged mixes, etc.

But this is actually the topic that Kari Day had researched for her master's degree, and so we should make use of her expertise on this, if she's interested. I mentioned this to her as she was leaving for Flint and she did say that she's interested in coordinating and providing her expertise on the topic. My own views are merely rooted in theoretical and methodological skepticism, and my own experiences, but she is the one who's done actual research on the subject in Detroit, and although she might agree with some of my critiques, I might be off-base in others and certainly don't have her experience in researching the topic. There are legends circulating widely on this topic, typically involving a mythical Detroit grocer selling bad apples for $7 each, and I've pointed out at meetings that such a concept doesn't make any economic sense for a store owner, and that it makes no sense to dismiss the availability of cheap but nutritious frozen vegetables and decently fresh ingredients which are available at places like "Subway" – but the sole emphasis upon gardens and raw produce grocers, and the offhand dismissal of everything that certain researchers have labeled as "fast food" has horribly overstated the "problem" in most areas. At some point, these debates could be resolvable through actual data. Much of my own criticism stems from personal experience at finding nutritious foods while living in poverty for a couple of years without a car in the middle of Lansing. Although Lansing is obvious not a worst-case scenario, certain principles still apply elsewhere. If transportation available through bus routes, those who can use the bus usually have access to major grocery stores. For those who don't want to take a bus, various substitutes can be found which aren't considered in the dubious research designs I've seen on the subject. For those who are simply stuck at home, it might not matter if they have a garden and store one block away, since immobility is immobility.]

MSP (Matt Bolger): Tomorrow, there will be a walking tour in Flint. Electronic tablets would be useful for data entry, rather than the traditional paper forms.

MDTMB (Jeannette Doll): Cards have been printed for the Governor's conference this morning. Trucks are going to Flint, with transport arranged for all this week. Parking improvements are being organized.

Recovery Branch (Brianna Briggs): Working through MSP (Amy Dehner[illegible]) and going to Flint to provide information, attend training session. Contact lists are being made for teams in Flint. Will coordinate with the JIC and PIO.

SEOC Logistics ([illegible] [person didn't stand]): Four new churches will serve as distribution points. People should specifically label new requests as such when entering/sending the info in. Do not use the Resource Tracking Board (in MI CIMS) to send notes to oneself.

SEOC Finance (Penny Burger): A hotel is set up for direct billing in the Flint area – unsure how many are traveling there. Would like lists of staff who might stay in Flint, to ensure that a room is available there. Some have made their own arrangements, which could be okay, but Finance can help with overnight lodging.

PIO (Nicole [illegible]): Flyer was sent to MDTMB. A Spanish version is being completed. 2:30pm County Office Building media briefing will take place in Flint. News release for that is going out today. Governor Snyder, Capt. Kelenske, and the MDEQ director are speaking, plus others. Video public service

announcement being arranged for Comcast Cable (30 seconds long), similar to radio PSAs—MDHHS worked on these, being broadcast soon.

SEOC Planning: 3:30 agency situation reports and summaries submission deadline. 4pm afternoon agency briefing will occur.

Tony Katarsky: Replacement staffing is underway. It's okay to not overwork, to take time off as needed, although the official leave time may feel limited at this time.

State Agency Briefing
1/9/2016 0930

- **Priorities:**
  1. JIC Messaging- press releases, community flyers, door hangers, and streamline of 211 process
  2. Gathering and distribution of resources (filters, water, replacement cartridges) throughout Flint
  3. Identify church distribution sites and volunteers for Sunday
  4. Assembling recovery teams to canvas and distribute resources in the community, starting Tuesday
- **Operations:** Five fire departments will be established as site for distribution of water, filters, and cartridges, Red Cross is on site to assist, at least two volunteers per station.
  - 2000 kits are available for distribution at 10 local churches on Sunday. SEOC is currently working on logistics to identify church locations and Red Cross volunteers.
  - Working to identify safety officer from MSP.
  - Food Pantry not in a great location for citizens to get to.
- **OSA:** Nothing new
- **MDARD:** Working with health department for guidance on regulatory requirements.
  - Submitted messaging information to the JIC.
  - Working to identify animals that are not tracked via LARA that would house animals. The shelter director also pulling animal holding facility list.
  - MDARD and DHHS provided information on nutrition for JIC message.
- **ARC:** Sent volunteers to support sheriff's distribution.
  - Will have at least two individuals today and tomorrow at each fire station.
  - Disaster Recovery Operation started yesterday. DRO number is 608-16.
  - Looking for additional volunteers based on the number of sites for tomorrow.
  - Will begin to work with local Red Cross at County EOC to coordinate volunteers.
- **MDEd:** High level national organizations have inquired on the current events,
  - Engaged national level organizations with the JIC.
  - Contacted each child nutrition program and provided information forwarding them to the website.
- **DEQ:** Has mobilized DEQ staff to assist in Incident Command at the EOC, as state resources
  - IAP established at local level through Monday.
  - Field employees are aware of current safety concerns.
- **LARA:** coordinating with DEQ on additional water testing at the schools, plan will be developed this morning.
- **DTMB:** Driver onsite in flint picked up water, filters, and cartridges to drop at the fire stations today. Will be available to deliver materials to churches tomorrow.
- **MSP:** En route to SEOC for safety officer.

- **DHHS (Human Services):** Deployed community service commission for volunteer coordination and donations management.
    - *Recruited staff for Door to door operations. Conference room confirmed and set up at* Clio Rd office for training on Monday of the 40 volunteers.
    - Obtained 1000 filters for fire stations, 2000 churches, ordered another 5,000 filters to be delivered Wednesday. An additional 10,000 filters and 10,000 cartridges to be delivered in the near future.
    - *Working to identify current funding levels.*
- **DHHS (Community Health)** - CHEEC currently activated at level 1.
    - Developed health care provides list for the county.
    - Working to streamline the 211 process. Working on messaging to ensure that all questions from the citizen should be directed to 211 and local health care providers *Sent information to JIC for finalizing door hanging.*
    - Request has been sent to Linda Dykema, Division Director of Epidemiology, to have two individuals for ETC Lead Investigator working on the environmental investigations be housed at the Genesee County Health Department's Burton site, starting on Monday, January 11, 2016, until the lead investigations being conducted are complete. *Resource request was submitted by Genesee County Health department to Genesee* County EOC.
- **Logistics Section:** Working with Red Cross to recruit volunteers at churches.
    - Address cards have been developed and distributed to Flint Fire Department for tracking. Information from the address card is continuously being entered by MDHHS employee. *Updates will be sent to SEOC Human Services POC throughout the day.*
    - Make sure information is being entered into MI CIMS.
    - Logistics is working with DTMB to get the door-to-door flyers printed.
- **JIC:** Working on getting together door hanger, single page sheet similar to the website with additional information.
    - Setting up emails for internal *JICmanager@michigan.gov and external* JICnews@michigan.gob
- **Recovery Branch:** On the ground operations will begin Tuesday morning.
    - Working to develop a request for vehicles for to transport people and resources during the community distribution. Is researching the possibility of the vehicle requests being filled through the public/private partnerships-possibly with GM.
    - GIS provided a list of current locations that have received resources.
    - Staff is working to develop a process from for field team to report contact or distribution of resources during daily neighborhood canvas.
- **Planning Section:** SIT report from agencies and Section Chiefs by 3:30 for daily situation report.
- **NWS:**
    - Winter storm coming in to night, 1 pm webinar and call in. Overnight from up 40 to lower 20s, 3-5am snow starting in the Flint area. Snow will continue on and off all day, travel will be very hazardous. Monday-Thursday 15-20 will lows at 10, wind chill values

below 0, additional snow Monday-Tuesday, will put a big damper on travel both days. Contact information for NWS is MI CIMS

- **State Director:** Make sure everyone is keeping healthy.
    - Weather message- Please make sure people going out are taking hazardous weather in to considerations
    - Information has to be logged into MI CIMS to help answer questions throughout the day.
    - JIC needs to be on the call daily to get more messaging out instead of the media telling the story.
    - If any agency has push back on staffing please make Capt aware, we need to keep moving forward.
    - State agency workers should not be driving state vehicles with DEQ and DHHS on the side in the county. If they are wearing a logo shirt they should take a jacket.
- ***Next call will be 0930 Sunday, January 10***

Mike Sobocinski's notes from the SEOC briefing of January 6, 2015:

Capt. Kelenske: This activation is different from many. Overall goals will include assessing the situation, prioritizing actions, and coordinating between agencies, identifying life-safety issues. SEOC activation hours are currently 8a-5p Mon-Fri. MI CIMS event titled 2015-10-1-City of Flint water contamination/shortage. Maintain activity logs in MI CIMS. Battle order set up for today: IC objectives meeting 10am, assign work tasks 11am IC + general staff, 2pm planning meeting, IAP approved 3pm, Unified command initial meeting 4pm. Governor declared state of emergency. Presidential disaster declaration will not apply here, but an emergency is possible to supplement state efforts. Lead pipe replacement program to be checked into – perhaps by Jen [Boyer?] of MDEQ. GIS mapping to cover filter distribution, home locations, distribution/testing gaps, etc. Nutrition distribution program [correct title?]. More of a long-term recovery style of approach. Goal to restore trust in state government. JIC will be set up.

Dr. Wells (DHHS chief medical executive): Pb as neurotoxin, affecting every system in the body, lowering Fe and Ca. Especially problematic in developing children under age 6, esp if not getting enough Ca, Fe. Standards have become increasingly strict over time, with Pb levels formerly 10ug/dl to warrant action, then lowered to 5ug/dl, and today Pb is treated as having no safe exposure level.

[NOTE: she is referring to blood concentration levels of micrograms per deciliter, not to be confused with water concentrations referred to elsewhere in units of micrograms per liter: ug/l. I'm using u to represent the greek letter mu, symbol for the "micro" prefix]

Health problems from lead include gastric problems, ulcers, anemia, etc. including death. Cognitive & developmental delays, attention & behavioral disorders. Pb sources include gasoline and paint (until the 1970s), pipes (esp. pre-1978 home construction), ammunition and firearms, soils & industrial sites, air pollution (especially in summertime). CLPP "clip" Childhood Lead Prevention Program. Screenings at age 1, age 2. Those who test >5ug/dl (national standard) are evaluated for environmental exposures/causes. Critical action level 45ug/dl – immediate medical treatment, chelation treatment to remove Pb, and investigation of Pb sources in environment. Water concentration does vary seasonally, with temperature and Ph changes. Old cities are targeted areas for higher risk. Virginia Tech independent testing of water. [From her limited description, I was unclear in the end of the relationship between these results and other tests.] Elevated Pb levels generally declining, including in Flint, until 3rd quarter of 2014 [fiscal quarter or calendar year??]. Hurley Medical Center deals with the high-risk area in Flint. American Journal of Public Health issue of 2 weeks ago had study published on this topic. Water is not the only source of Pb in the area. An increase was measured in 2 Flint zip codes [485]03 and [485]04 although it didn't reach statistical significance. Need to pin down high-risk areas – Pb levels can and do drop when environmental exposure is reduced. Testing since Oct. 1 [2015], to Dec. 18 [period for specific results, assuming testing still continues after Dec. 18?]. Improper water filter use, or non-use (e.g. after Detroit water restored in Flint), has caused problems. Pb has half-life of less than 30 days. Department [hers or in the city of Flint?] surveillance results: 23 children under 6, 7 children age 6+, 13 adults who had blood levels above 5ug/dl. 12 elevated Pb blood level investigations; now including water testing, but Pb in dust, paint, and soil was also found. 1 hospitalized (level in the high

30s of ug/dl). HUD-funded program at the state level [name?] Coordination with Wayne State University and Flint campus of [she had said MSU, but it is likely that it is instead U-M Flint]. Misinformation exists re: questions like whether it's okay to shower or bathe in the water [she provided no answer for her own example – is it okay]. Much local support exists. Info sent through schools with the children who attend them. SNAF, WIF [double check] nutritional programs for young children. Would like to test as many young children (under 6) as possible in the city. See MI.gov or Flint Water for information about filters – Home Depot as a partner. MDEQ includes blood Pb level in their testing reports.

Question asked: Are there other substances of concern besides Pb in water? A: yes, bacteria, Cu (esp. for those with Wilson's disease), and "other chemicals." [MDEQ person later fills in a couple of these: total trihalomethanes TTHM and halo-acetic acids HAA5, which both fall under the category of disinfectant by-products DBPs]

George Christian [correct spelling?] of the MDEQ (Flint action plan coordinator): Flint had used the Flint River as a source before 1967, in 1967 switched to use of Detroit Water and Sewer Department DWSD for its water supply. Jan 2006 discussions began with Karegnondi Water Authority KWA. April 17, 2014 [event? Possibly the end of DWSD supply?]. May 2014 city began using Flint River water. Aug-Sept Boil water notices issued in part of the city of Flint, for E. coli and total coliform violations. [NOTE: spoke too quickly for me to accurately catch all of the dates/events he mentioned. People really should provide their info in writing rather than rely upon verbal briefs under distracting SEOC conditions] Had the Flint River as a back-up supply all along, which is why the facility there was still maintained [paraphrase; didn't catch exact wording]. Late 2014-early 2015 DBPs: HAA5 and TTHM, with carbon as a treatment to remove these compounds. Sequence of tests: first at 6ppb 90th percentile level [he didn't explain this well at all, but normally this would mean that the 90th percentile value is at or above the bottom 90% but of all ranked values in a list]. 2nd round of tests: up to 11ppb, compared to EPA's action level of 15ppb. Corrosion control treatment [a means of reducing lead concentrations in the water]. There were also issues reported involving the color, odor, and taste of Flint water. Virginia Tech Pb testing Sept 5 [?], 2015, with Pb advisory issued by Flint. Fall 2015 schools testing and actions required. Some fixtures and fountains above 100ppb. 4 samples per sampling point, after different flush times, 10 consecutive 1liter samples, 200-300 samples total per facility [math not exact; must be estimates], Info placed into spreadsheets and reports. Oct. 15 Flint switched back to DWSD water. Dec. 9, 2015 supplemental phosphate [PO_4] addition began. Use of erosion controls do slow but do not stop the leaching process (of lead into the water). Any resident of Flint can obtain a bottle and take water samples in for testing; results posted online. Water filters are available for free. Overall slight downward Pb trend, but some values are well over 100ppb. One child care facility measured at 2500ppb. No historical test results there [in schools?] to compare with, but some historical data exists elsewhere to compare. [No mention of the comparisons themselves] Not a problem only of Flint's, increasing recognition of problem more broadly. "Low-lead brass fixtures" could still have as much as 8% lead. [not sure whether he said this or Dr. Wells]

Dr. Wells: Excavation and manipulation of lead lines tends to exacerbate particulate levels.\

Capt. K: Everyone review the MEMP to look for relevant information. All info to go out through PIOs (except for internal coordination and calculations).

Richard [Thelen?] of DHHS: allocation to buy water and filters, 2 pick-up locations in Genesee – free filters [locations not specified, are they at DHHS offices?]. Water purchases from South Carolina.

Brad [Deacon?] of MDARD: Food services, processing, and restaurants are also of interest. Lead affects animals as it does humans, so companion animals may be affected.

???, of the Dept of Education? "DEA" or "DoA"? [people were not introduced properly] said something about school meals.

ARC not yet involved at this point.

LARA helped DEQ with testing. Flint & Genesee oversee their won plumbing but lack inspectors – need assist from state (Capt: or through EMAC use)

Terrace Room to be used as initial JIC, with PIOs there.

Governor's Representative [name?]: pending lawsuit against governor, potential lawsuit under Safe Drinking Water Act. Everyone do your jobs, but take care, remembering litigation potential.

MDOT [Eileen Phifer?]: Many pipes are under roads and so coordination would be good; shared objectives probably exist w MDOT, EPA, etc.

Lt. BJ Roach, MSP: Genesee Co. Public Health Dept, GCARP [??] (public assistance forum) are involved: water distribution, filter distribution, education, Pb testing clinics (coordinated with DHHS), United Way, Flint Health Dept. Over 23K filters and replacement cartridges provided so far. County GIS getting under way – coord w MSP GIS?

Capt K: submit action items to Tom Weber for IAP. Everyone stay until noon and review MEMP, then to decide whether needed after lunch today.

Tony: Required agencies already known to be needed to stay: MDEQ, DHHS, Education, Talent & Economic Growth, MDTMB, MDARD.

A correction:

2880 Pur replacement cartridges were received between 0900-1000 this morning, they were put into the excel sheet as Pur Filters

The correction has been made going forward, the entire sheet reflects current inventory.

Subject: 1-20-16 update

Kendal,

Attached are your requested reports, I've also established a nice line diagram for another method of measurement.

Have a great night!

Hi

Based on the PDF that was attached, it appears that the 1500-1600 & the 1600-1700 hours are missing. Please provide this information. Also it would be easier if the excel document is provided instead of a PDF.

Thanks
Sam

Subject: Updates from NCOIC on ground (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

Sir,

I talked to NCOIC on ground (SSG Wedding) he gave the following answers to questions asked from SEOC and other issues on ground:

1) When and individual comes to a station, attempting to get an ID from them is happening, some don't want to give ID or say they don't have water. So, if it is an individual case then they hand it out so no issue is created between locals and soldiers/Red Cross.

2) The Red Cross is handling most of the filters and taking address from civilians. An issue is some addresses come up as vacant or non-existing. The number of locals flowing in does not allow for the checking of addresses right away, it is done later in the day creating this problem.

3) The tablets given to process the addresses cannot have the location turned on, it creates some problem with the imputing of other addresses.

4) No site can fit a 50' trailer. The current delivery vehicles are the largest that can be used.

5) The site storage areas are not large enough to take much more than current load. Site layouts are being made to portray the space available.

6) SSG Wedding did request to talk to our rep at SEOC to go more in depth with these issues. His number is 517-582-4928

V/R

Subject: CR-20011912 Flint FOIA

Ma'am,

We have received a FOIA request for "the name of the company and testing results for the testing done in Flint by an outside company (according to Governor Snyder an outside agency was used)." Can you please tell me if you or any other Department member have responsive documents? I will need a response by 2/12/16.

Thanks,

Subject: SEOC updates (please read)

Jaime and Aimee, I think that you are both here tomorrow. I will be in Clare. I will call you both to check on things. Some changes. You will hear lots about FOIA.

The SEOC answer is: 1100 emails; ~50 documents. I have them on the desktop. The SEOC email should get the request.

I need one of you to bring two folders (Janice can make if the afternoon person stops and asks her): SEOC Documents; SEOC notes. We have to keep all hand written notes. Keep folders on the desk top.

I have added a phone list; leave that on top. Janice can update if you find we need other numbers. .

For the weekend: Marla will cover the 0930 calls and I will cover the 1600 calls.

Have fun.

Subject: Action: Potential Jobs Program

Importance: High

All:

We're working on a potential jobs program with MTED and the US Department of Labor to hire and/or train dislocated workers (laid off, etc.) to support humanitarian operations going forward. Is there any interest from your agency to fill roles with dislocated workers for the ongoing activities your agency is responsible for? At a minimum, we are looking at staffing needs for up to a year (potentially longer, depending on the situation). To be clear, this program is not hiring people for/from other agencies to defer the cost; it is to provide temporary jobs to support humanitarian operations.

If so, could you please provide a quick list of what those needs might be? If there are equipment needs (vehicle, supplies, etc.) to perform the job, include those as well. No need to expand on job description at this point. These are just potential ideas; nothing is set in stone.

We have already put together a list of needs to encompass 2 warehouses, 5 POD hubs, rapid response delivery teams, basic local EOC staffing, and a list of miscellaneous jobs (including translators, plumber apprenticeships, social/medical case worker training, etc.).

Please submit your potential interest to me by **2 pm Sunday, February 7.** If you have any questions, don't hesitate to ask.

Thanks,
Brianna Briggs

Subject: New question:

Two weeks ago we were advised to avoid marked state cars in Flint area. Kyle is going to Flint tomorrow to the school for the deaf, and then a community panel.

Is there any concern over driving a marked state car? Next row up, to your left, there are MSP safety personnel. Usually a LT in uniform.

Any issue with a deputy Supe driving a state car to Flint?

Subject: State cybersecurity is up to you

You have likely seen the media reports regarding the threats being made through Twitter and YouTube to attack and take down Michigan.gov and other websites related to state government and the City of Flint. The State of Michigan team consisting of DTMB, MSP and the National Guard is working closely with our federal and private partners to identify any threats and mitigate any potential attempts to interrupt our services.

Effective cybersecurity is a complete team effort. It is imperative that every one of us, as state employees and general citizens, are following proper security protocols in order to stay safe. Recent data shows that 95 percent of cyber breaches are caused by human error such as emailing sensitive documents, clicking on phishing scams and inappropriately using flash drives.

You have learned about the ways that cyber criminals attempt to gain access through your Security Mentor training. Here are a few tips to serve as a reminder on how to protect you both personally and professionally.

- Choose strong passwords and change them often. A strong password uses a combination of letters, numbers, and symbols (when allowed) and does not include a person's name or other commonly known information such as their children's or pet's names.
- Do not use the same password for multiple accounts.
- Be aware of possible phishing attacks. If you receive an email claiming to be from an email provider, bank, or other frequented website that asks you to change your account password or update account information, make sure the email is legitimate. To be safe, go directly to websites to change your password, and type the link yourself rather than clicking on links embedded in emails.
- Be on the lookout for other people accessing your personal accounts. Monitor email and social media accounts for suspicious messages or messages appearing from you, but that you did not send. Monitor bank and credit card accounts for unauthorized charges.
- Be observant in state office buildings for anything unusual. Do not let in anyone without a valid state ID. If you see any unusual behavior contact central control at 517-373-0196.

As always, if you receive an email or a phone call that seems unusual, please report it to 517-335-1722 or abuse@michigan.gov.

Wendy, I send this spreadsheet to the SEOC. I told our rep to make sure that the DHHS SEOC reps know that this was passed to Nick's office. RIchard Thelen, EMC for the DHS part of DHHS, is our branch chief for the Flint Water crises. Jennifer Terrill is from the DCH part of DHHS, and is branch chief for a different branch. (THe SEOC is organized into functional branches to streamline daily reporting.). We report through RIchard THelen.

I had posted three different EEM derived spreadsheets for the SEOC: schools; PSAs, and non-publics.

I want to make sure our SEOC team and the other people working there know about this. We will get it posted into the reporting system.

We have been working to make sure that they don't just worry about the Flint Public Schools. SO this is good. It just points out that what we do in the SEOC does not always get back up to the director. FOr instance, I keep Kyle and Marty informed. I do not know what gets to Brian. Probably same with Nick Lyon.

THis effort may seem redundant, but I think that is OK because we have to ensure that we are addressing every single school.

Thanks for sending to me.

To: Howell, Thomas (CEPI); Anderson, Trina (CEPI)
Subject: RE: has anyone determined number of children 0-12 in Flint?

Tom and Trina, I do not think that there is a coordination of data asks. We have had a daily presence at the state emergency operations center, and I have responded to all requests for information or tasks that come from that.

Independently, each department is pursuing related tasks. DEQ is the lead on water testing. They were getting lists of places from LARA. I sent them a list of all schools with a Flint, Mt. Morris, or Burton address. I used the EEM to pull. Mike Zimmer was calling his SEOC rep and asking for info. I sent him what we had already provided. Then today, Nick Lyons office has reached out to Wendy Larvick for school buildings in Flint. Wendy got Brian Ciloski to pull schools and PSAs from EEM (but no non-publics).

This request for a break down on students and staff in buildings come from the Commander of the Incident. So we are responding by asking you the best way to get the info. Once we get the info we announce to everyone in the SEOC and we post on the Command Info System. We are working to de-conflict the requests, but when asked we go get.

I thought to ask you as the quickest way through this. I was also going to ask Dave Judd, because I think they just did a pull for data showing building level details. We have staff in the SEOC that can pull the data, but they don't know what to do. I am thinking there is an easy way to pull.

Because of the importance of responding in a timely manner, I was looking for the quickest way through to the solution.

Tom, who is best person at CEPI that can help us get the pupil count of buildings in Flint?

THe real question is for those that are on Flint water, but we should provide a count for any building in Flint, Mt. Morris, and Burton addresses.

Do you have any info on staff by building? REP?

Number of FDCH providers across the state is about 5000. We have about 1000 day care centers across the state.

The original spreadsheet listed about 20 or so day care centers in the City of Flint.

I believe there are about 70 day care home providers in the day care homes in Flint. I do not have Mid Mich spreadsheet yet – just ACD.

Hope this helps.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Sent: Thursday, January 14, 2016 4:05 PM
To: Alaniz, Aimee (MDE); MSP-EOC-MDEDUCTN
Cc: Moss, Marla (MDE)
Subject: Weekend coverage, MLK coverage

Aimee, can you talk with Richard Thelen? After discussing what Kyle (Deputy Superintendent), I spoke with CPT Kelenske on MDE coverage on the weekends.

MDE will have call in only at both the 0930 call and the 1600 call. Either Kyle or myself will be available to go to the SEOC if required.

Schedule:

Saturday 0930; 1600: Louis Burgess
Sunday; 0930; Marla Moss, Director, Office of School Support Services; 1600: Louis Burgess
Monday: 0930; Marla Moss; 1600: Louis Burgess

Louis Burgess
Assistant Director
Office of School Support Services

Kyle and Marla,

I spoke with CPT Chris Kelenske. We are OK to NOT have a presence in the SEOC. I said we would have representation at the daily calls.

We can also log-in to MiCIMS from home. I will do that.

Marla: do you want to take the 0930 calls and I will take the 1600 calls?

Saturday, Sunday and Monday?

Subject: RE: Flint Water Crisis: Go Fund Me idea

Patty and Liz, I forwarded Liz's idea to our representative (Aimee Alaniz) in the Emergency Operations Center. She spoke with the Branch Chief for Human Operations and the Logistic Branch Chief. In addition she provided some insight from CPT Kelenske, the state's Incident Commander.

The State is working to counter the adverse media attention and the negative perception of the state. They are working to show that the state is working in conjunction with county officials and local volunteers in a big state effort. If anyone wants to donate to the Flint Water cause you can call 211 (statewide, not just in Flint) or give to the United Way of Genesee County. A third option is to donate to the American Red Cross and specify that you are donating for the Flint water crises. The governor may send out a message to state workers, this has not been confirmed. Many folks are actively working on this project including the Governor's office.

At this time it would not be good idea to go forward with the Go Fund Me project.

I have spoken with Liz on this.

Subject: Flint Water Crisis

Hi Patty,

I am not sure who the appropriate person is to ask so I am starting with you. Jesse and I have been thinking of a way to do something for the Flint Community but weren't really sure what we felt was a good idea. Then when I saw Kyle's message that cautioned about driving SOM vehicles or wearing SOM clothing my heart just broke to think that there is resentment in the community towards State workers. Since Jesse and I both work for the State, we think it would be a good idea to set-up a Go Fund Me Page for SOM workers. If every SOM employee made a donation we could raise a good chunk of money and it could be given to the relief efforts from SOM employees. Maybe this would not only help the community, but also show that SOM employees are just people too and that we do care about the Flint Community.

In order to do this though we would need to be able to send the link to the page to all SOM employees, which is where Jesse and I are unsure on what the proper protocol would be? I wanted to speak with you first to not only ask your opinion, but also to ask who I should contact to really get the ball rolling? Or is this something SOM employees are not permitted to do?

Sent: Monday, January 11, 2016 12:07 PM
To: MDE-All Staff <MDE-AllStaff@michigan.gov>
Subject: Flint water crises

Colleagues,

As you know, the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the City of Flint's drinking water. The State has established an incident command operations center at the State Emergency Operations Center (SEOC). Louis Burgess, our Emergency Management Coordinator, and other staff have been representing MDE at the SEOC. This is currently operating seven days a week. MDE leadership is being kept up to date of the State's on-going efforts in Flint. A Joint Information Center (JIC) has been established. All messages regarding Flint and water safety issues are to be coordinated through the JIC.

Any MDE staff conducting business in the Flint area should be aware that there is some resentment towards the State concerning the handling of the water crises. Staff should not travel in State-owned cars through Flint neighborhoods. Any MDE logo clothing should be avoided. (This is more an issue for uniformed staff of other state agencies.)

State officials from the Department of Environmental Quality have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. The State is actively coordinating water filter distribution, water quality testing, blood level testing, and distribution of bottled water with local county emergency managers. MDE staff in the Office of School Support Services have also been working with child nutrition program providers since last October. OSSS staff continues to reach out to Flint-area MDE-approved child nutrition program providers (both school meals and Child and Adult Care food programs) to ensure they are aware of available resources regarding water quality.

The State is maintaining an up-to-date website on the Flint water crises at http://Michigan.gov/Flintwater. The "Taking Action of Flint Water" link on the MDE Homepage (left side) will take you to the same webpage.

If you have any communication going out to the field that is related to the Flint water crises, you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises, feel free to contact me or Louis. If you are interested in this issue, be aware that Dr. Eden Wells will be making a presentation on the Flint water crises tomorrow at the State Board meeting (Tuesday, January 12). Dr. Wells is the Chief Medical Executive of the Michigan Department of Health and Human Services (MDHHS).

The state has 29 pallets of water coming into Flint for distribution and more on the way after that. I was asked if we could get the schools to share their water. My answer is here:
>
> LT Covey asked about the extra water that is under control of schools. LT Roach was asking him about working with MDE to get water and make available to other places. As a local control state, each school district and Public School Academy is a local unit of government with control over their own resources. Districts will have to be contacted directly regarding sharing their resources. MDE can provide contact information at the Superintendent level.

Subject: RE: SEOC update (Sunday is a GO)

Louis,

Okay, I will plan to be in the SEOC about 9:15am tomorrow. I will look for my MiCIMS log-in...I think I have it, but it's not coming to me right away...please leave your log-in info too just in case. Have you had to stay there all day, or have you just made sure your there for the status calls?

Kyle Guerrant, LMSW
Deputy Superintendent
Administration & School Support Services

Kyle,

They made the decision: next call is tomorrow at 0930.

I will send todays update as soon as I write it up.

Do you know your MiCIMS log-in? They can help you here or I can leave you my log-in info. I will send you details on the set up here.

Subject: Re: SEOC update

There is an increased emphasis on the situation. These other state agencies have oversight responsibility. I think we send the emails for a couple reasons:

-add a question about help. Are they getting enough info and help. We can use the emails as a redundant source of info/help.

-gives our child nutrition contacts a means to ask questions.

-the link to the handout is good info.

Attachments: Flint Area non-publics.xls; Flint Area PSAs.xls

Jenn,

The source of these buildings is the Education Entity Master, a data base of all school entities maintained by the Center for Educational Information and Performance.

I filtered each for open schools. This should be the complete list that is being contacted for water testing.

Let me know if there are any questions.

To: "Burgess, Louis (MDE)" <burgessl@michigan.gov>
Subject: RE: draft objectives for next week

Thanks your revision is better.

The MDARD-DHHS nutrition message Kathy and I decided on yesterday is:

- Eat foods high in iron, calcium and vitamin C.
  - Good sources of iron include:
    - Lean red meats, fish, and chicken
    - Cereals with added iron
    - Dried fruits (raisins, prunes)
  - Good sources of calcium include:
    - Milk
    - Yogurt
    - Cheese
    - Green leafy vegetables (spinach, kale, collard greens)
  - Good sources of vitamin C include:
    - Oranges, orange juice
    - Grapefruit, grapefruit juice
    - Tomatoes, tomato juice
    - Green peppers

Would you want to add to your objective "Maximize participation in existing Child Nutrition Programs and emphasize foods high in iron, calcium, and vitamin C (MDE)"

If you have someone more closely involved with the food program we could include them for ideas how to do this. I really don't think it needs to be a lot of work, like labeling the food items on the trayline with "high in iron!" "high in calcium!" "high in vitamin C!"

What do you think?

Kay.

Colleagues,

As you know the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. The state has established an incident command at the State Emergency Operations Center (SEOC). Louis Burgess, our Emergency Management Coordinator, has been representing MDE at the SEOC. He is keeping the MDE leadership team informed of the State's on-going efforts in Flint. A Joint Information Center (JIC) has been established. All messages regarding Flint and water safety issues are to be coordinated through the JIC.

State officials from the Department of Environmental Quality and the Department of Licensing and Regulatory Affairs have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. MDE staff in the Office of School Support Services have also been working with child nutrition program providers since last October. OSSS staff continues to reach out to Flint-area MDE approved child nutrition program providers (both school meals and Child and Adult Care food programs) to ensure they are aware of available resources regarding water quality.

If you have any communication to the field that is related to the Flint water crises you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises feel free to contact me or Louis. If you are interested in this issue, please be aware that Dr. Eden Well will be making a presentation on the Flint water crises at the next State Board meeting (Tuesday, January 12). Dr. Wells is the Chief Medical Executive of the Michigan Department of Health and Human Services (MDHHS).

There is an increased emphasis on the situation. These other state agencies have oversight responsibility. I think we send the emails for a couple reasons:

-add a question about help. Are they getting enough info and help. We can use the emails as a redundant source of info/help.

-gives our child nutrition contacts a means to ask questions.

-the link to the handout is good info.

Kyle, I spoke with DEQ. They are working with ALL schools and institutions in the Flint area. They have a list provided by LARA that includes all schools. I will be able to review the list.

DEQ is actively reaching out to these folks to help get them tested as necessary. I think the letter to Genesee ISD should tell them that DEQ is reaching out on this issue. We can say we are available to help them if necessary. But this is being actively worked at the county level.

City of Flint Schools requested that 13 buildings get tested. Aoo of the 13 have been tested. They recently asked for two more buildings to be tested. I will see if I can get a list.

Subject: RE: draft objectives for next week

Tom,

Generally, we are OK with the objectives.

Number 12 needs to be refined:

12. Develop a plan for nutrition education and availability.

MDE is responsible for child nutrition programs, but not public nutrition which is under DHHS. I think you need some more specificity here. I believe the intent is to address public nutrition concerns and education, not what we are doing in schools and child care institutions.

Subject: Potential Assistance Programs
Attachments: non_stafford_act_recovery_guide.pdf

State Emergency Management Coordinator:

As discussed in this morning's briefing, your agency has been identified to research potential assistance programs (private, state, federal, etc.) that may be available to address the short- and long-term recovery needs in response to the Flint water incident. Earl Zuelke, FEMA Long-Term Recovery, has made contact with some federal agencies to assist with this research. Feel free to touch base with him in the SEOC.

Attached is a copy of the Non-Stafford Act Recovery Guide. Appendix 2 (pg. 24-26) provides a list of some potential federal programs. This list is **not** all-encompassing; however, it will provide a starting point if any of these programs may apply to the response and recovery for this incident.

Provide the following information, *at a minimum*, on potential assistance programs for individuals and/or government support in response to this incident:

- Program Name
- Agency Responsible for program
- Point of Contact
- Type of Support (Individual or Government)
- Eligibility Guidelines
- Benefits Available
- Application Process

This information shall be submitted to Brianna Briggs, the Recovery Branch Chief, at briggsb3@michigan.gov by **COB Friday, January 15.**

Let Brianna (cell phone below) know if you have any questions on this request.

Thank you,

Brianna Briggs
Recovery Branch Director

> > The Michigan Department of Education School Nutrition Programs (SNP) has questions for you in regards to the water supply in your area. As you know, Governor Snyder declared an Emergency Declaration due to the water situation in the City of Flint. We are asking for responses to the following questions:

Do you get your water from the CIty of Flint? If yes, please answer these questions:

- Did you have your water tested?
- If yes, what were the results?
- Are your students drinking any water from the City of Flint?
- Are you using any water from the City of Flint for food preparation?
- Are you serving "potable" water during meal times in the serving area, as required by the Healthy Hunger Free Kids Act of 2010? If so, what is the source of the potable water?

Please send your response to these questions by COB on January 8, 2016.

For your reference, I have included a link with information provided and approved by state:
http://www.michigan.gov/documents/deq/deq-flint-water-handout-pdf_503630_7.pdf?20160107094821

For JIC approval – to be sent to CACFP centers participating with MDE.
The Michigan Department of Education Child and Adult Care Food Program (CACFP) has questions for you in regards to the water supply in your area. As you know, Governor Snyder declared an Emergency Declaration due to the water situation in the City of Flint. We are asking for responses to the following questions:

Do you get your water from the CIty of Flint? If yes, please answer these questions:

- Did you have your water tested?
- If yes, what were the results?
- Are your participants in the Child and Adult Care Food Program drinking any water from the City of Flint?
- Are you using any water from the City of Flint for food preparation?

Please send your response to these questions by COB on January 8, 2016.

For your reference, I have included a link with information provided and approved by the state:

There is an increased emphasis on the situation. These other state agencies have oversight responsibility. I think we send the emails for a couple reasons:

-add a question about help. Are they getting enough info and help. We can use the emails as a redundant source of info/help.

-gives our child nutrition contacts a means to ask questions.

-the link to the handout is good info.

Kyle, I spoke with DEQ. They are working with ALL schools and institutions in the Flint area. They have a list provided by LARA that includes all schools. I will be able to review the list.

DEQ is actively reaching out to these folks to help get them tested as necessary. I think the letter to Genesee ISD should tell them that DEQ is reaching out on this issue. We can say we are available to help them if necessary. But this is being actively worked at the county level.

City of Flint Schools requested that 13 buildings get tested. Aoo of the 13 have been tested. They recently asked for two more buildings to be tested. I will see if I can get a list.

Subject: Flint Water Crises update

Kyle and Marla,

Here are my notes from today's briefing. I will likely be here all day. Next briefing at 2:45 p.m.

1. Nine public affairs officers were in attendance at the session. They were in the main briefing, and then had a separate breakout. The PAO's were invited. We were not invited. I have sent Marty the contact info for the primary PIO for the Flint Water issue (Ron Leix, MSP PIO). No department is to release anything without coordinating with the MSP PIO. The Joint Information Center (JIC) has been established.

2. CPT Chris Kalenske: Opening comments. The Governors direction is: "The state is moving forward to fix this." The purpose of today is to create an operational awareness and get all the same information out to state, city, county officials and agencies. An incident command structure is being created to identify all the players, create a specific incident action plan with specific tasks, and promote the long term recovery. "There is no trust in state government" in Flint and other areas on this issue.

3. Dr. Eden Wells. She spoke quickly. I will summarize her comments and try and get her hard copy report. The state has a website with up to date information: Michigan.gov/flintwater.

a. Lead is a neurotoxin; the oldest known neuro-toxin and affects everything in the body
b. Developing brains of children are affected (board member Lisa Pugh did her dissertation on this.) ; children with poor nutrition are especially affected
c. There are known short and long term effects (ulcers, comas, seizures, death); developmental impact on the brain; decreased coordination, developmental delays; lower IQs; behavior disorders
d. Initially levels above 10 mgs per deciliter (I may not have this measurements exact)was a concern; now they are using 5 as the factor to show concern. Measurements greater than 5 is a call for action; greater than 45 is considered critical.
e. "There is no safe level of lead."
f. Lead prevention programs are underway; called CLIP: Child Lead Protection Program. Screens all children between ages of 1 and 2. Medicaid will pay for tests for children as old as 6.
    i. Initially tests are a finder prick (drop of blood)
    ii. Confirmation tests may include a blood draw; painful; but is used to confirm levels in children
g. Lead exists in the environment: gas, paint, pipes in older cities; dates back to 1967 when standards were put in place. Older urban areas will continue to have this concern. The soil has levels of lead.
h. Levels of lead in children always spike in July, August, and September when more children play outside and are exposed to lead.
i. Longitudinal testing showed that Genesee County areas had decreasing levels of lead reported until 3Q of 2014. The initial increase coincided with the usual summer increase in measurements. It was not statistically significant, so they missed the first indicators.
j. These two zip codes have been most affected: 48503 and 48504. Considered to be high risk areas; areas are older urban areas with older homes, which have older fixtures.
k. Enhanced testing is now being conducted in this area.
l. State goal is to remove sources as treatment.
m. Filters: filters are being provided to anyone that asks for them. (Initially they tried to restrict to specific areas.) Program in place to replace filters and any device used to filter the water. They have had to provide lots of training on proper use of filters, recycling, and how to get new devices. Filters were provided starting 10/1/2015. 11,415 filters provided; 235 pitchers; 1,500 replacmeent filters
n. Initial goal was one filter per household
o. Actual numbers of person treated or in serious difficulty is small. Only 2 people treated with direct exposure to bad tap water.
p. 181 children aged 0-5 identified for tests; 109 provided case management through DHHS. 24 children being monitored.
q. Emphasis on health education

4. DEQ briefer: George Krisnian (guess on his last name.); Genesee Coordinator

    a. Briefed the sequence of events that lead to crises
    b. Prior to 1967 source of water was Flint River
    c. Switch to Detroit provider in 1967: Detroit Water and Sewerage Department (DWSD); Flint River was always the back up and was tested annually; tests showed no concern.
    d. In April 2013 Flint notified DWSD that would switch water source on 4/17/2014
    e. Testing of new water sourcesshowed some concerns; the water qualify worsened over time
    f. Testing at Flint Community Schools resulted in banning of drinking fountains as water source.
    g. Water filters provided for free
    h. On-going resident lead testing programs

5. SEOC questions:
    a. Are there other concerns besides lead? Copper is a concern. Filter program should address all known contaminants.

b. They have to identify and remove older water fixtures; the water may in fact be potable coming from the source, but it becomes contaminated as it goes through the system. From draw from the river to exit out a fixture, it can take seven days, during which the water absorbs lead from piles and fixtures.
c. Lead will be an issue for all older urban locations with aging pipe infrastructure.

Subject: RE: Specific citation on serving water

It is part of the Healthy Hunger Free Kids Act of 2010 - schools are now required to have potable water during meal service in the serving area. Started in School Year 2011. See attached waiver from MWRO.

If you have time, call me regarding the pupil transportation issue with Dearborn.

Marla, can I get the specific USDA requirement on serving water that is being waived?

I will send other RFIs if anything else comes up.

Brian will attend the FWICC meeting on Friday morning, and also has a meeting on his calendar for Wednesday afternoon with the Governor's office & local educators in Flint – I don't have any other details on it, so hopefully it's been captured via input from the Gov's office for this report.

Not sure if Karen will be checking email over the weekend, or if she'd have anything more than I just told you, but let me know if you need anything further, I will try to assist

Good afternoon Louis,

I am working on our appeal for the reimbursement of emergency costs for the emergency declaration and hope you can help me with a question.

I am hoping you can tell me if any of the schools were closed for any period of time as a result of the water incident in Flint. If so can you provide me with an estimated dollar loss in instruction time?

Thanks,

MICHIGAN'S

REINVENTION NEWS

GOVERNOR RICK SNYDER | LT. GOVERNOR BRIAN CALLEY

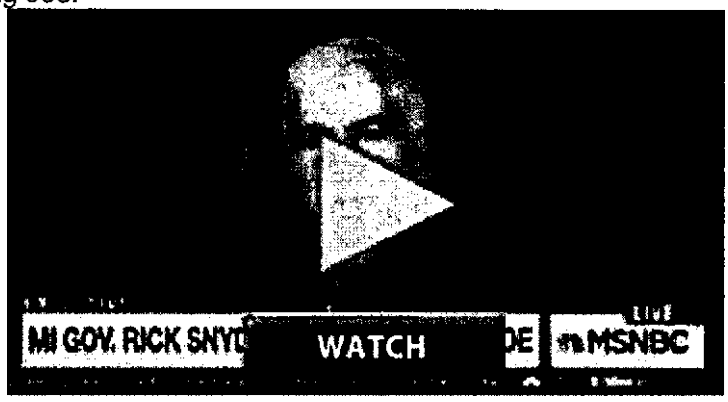
HOME | BLOG | CONTACTS | FACEBOOK | TWITTER | INSTAGRAM

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

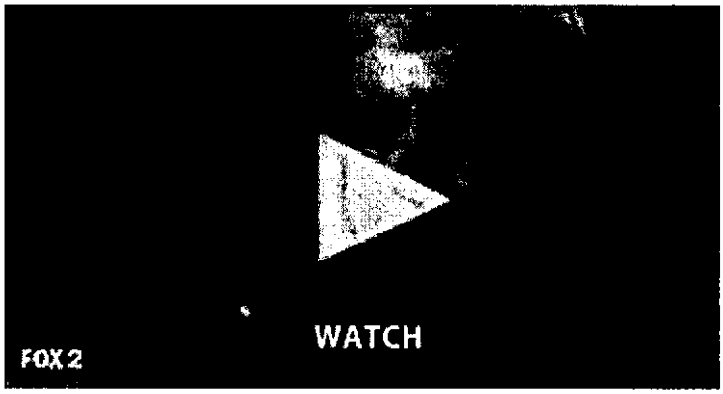
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

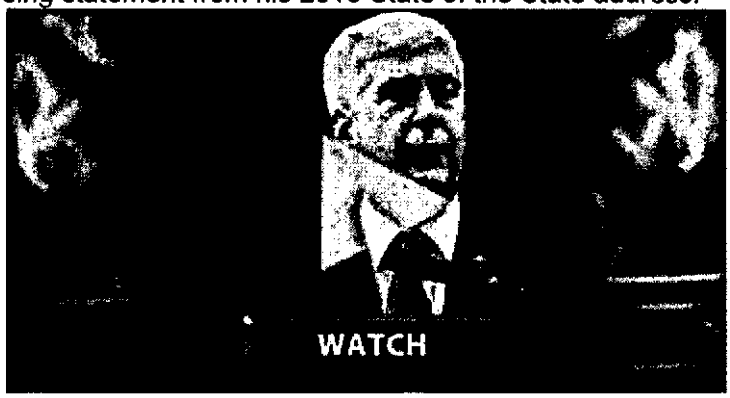
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." **Click here to read the Governor's full op-ed.**

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. **Click here to read the full story in the Washington Post.**

Customer Service is a priority at the Michigan Department of Education – helping Michigan schools, families, and communities improve the achievement and well-being of ALL our children.

MICHIGAN Department of Education

The following email is to be shared with the *Early On*® Coordinators located at intermediate school districts.

Part C of the Individuals with Disabilities Education Act, commonly known as *Early On*® in Michigan, has federal regulations that require each state to maintain an Established Conditions List as part of its rigorous definition of developmental delay for eligibility. This Established Conditions List has been in existence since the full implementation of *Early On* in 1993. The Established Conditions List includes medical or mental conditions that could lead to a developmental delay. This list, as stated in federal regulation §303.21(a)(2) must include "diagnosed physical or mental condition[s] that- (i)Has a high probability of resulting in developmental delay; and(ii)Includes conditions such as chromosomal abnormalities; genetic or congenital disorders; sensory impairments; inborn errors of metabolism; disorders reflecting disturbance of the development of the nervous system; congenital infections; severe attachment disorders; and disorders secondary to exposure to toxic substances, including fetal alcohol syndrome." Lead is one of the medical conditions on the Michigan Established Conditions List. Any child, birth to three years of age with one of these conditions is automatically eligible for *Early On* with the appropriate medical documentation and other records to establish eligibility without conducting an evaluation of the child (§303.321(3)(i)).

In April 2015, the Centers for Disease Control and Prevention (CDC) released new guidance on educational interventions to support young children exposed to lead. In May 2015, a request was presented to the *Early On* state office as to whether Michigan had plans to lower its threshold for lead toxicity which was (at or above) ≥ 10 micrograms per deciliter. The Governor-appointed Michigan Interagency Coordinating Council placed the topic on the September 2015 agenda for discussion. At its November 2015 meeting, the Michigan Interagency Coordinating Council review voted to lower the Michigan threshold to the recommended CDC level of ≥ 5 micrograms per deciliter.

The revised *Early On* Established Conditions List can be found at the *Early On* website after January 15, 2015. A companion document that describes the rationale for the update is also available. For convenience copies are attached to this email.

Additionally, the following links have been provided as resources to support local service areas and families.

To: MSP-EOC-MDCH; MSP-EOC-MDEQ; MSP-EOC-MDEDUCTN
Subject: FW: Important Message regarding Dimondale Elementary

FYI

Begin forwarded message:

> **From:** DAVID HORNAK <DHORNAK@hpsk12.net>
> **Date:** January 21, 2016 at 2:49:02 PM EST
> **To:** All Staff <AllStaff@hpsk12.net>
> **Subject: Important Message regarding Dimondale Elementary**
>
> Greetings Holt Public,
>
> I am writing to share a memo that was sent to our Dimondale families. Every three years, we are required by the Department of Environmental Quality (DEQ) to test the drinking water at Dimondale Elementary. I am writing to inform you that elevated levels of lead were discovered during routine testing this past summer.
> We immediately began to correspond with our Dimondale families and below you will find a memo sent on August 25, 2015 as well as our mid-year update memo that was sent today. The safety and health of all of our stakeholders continues to be a priority!
>
> See below:
>
> Sincerely,
>
> David G. Hornak, Ed.D.
> Superintendent, Holt Public Schools
>
> ---
>
> January 21, 2016
>
> Dear Dimondale Elementary Parents and Guardians,
>
> In an effort to continue communication with all of you, I would like to provide you with a mid-year update concerning the water situation at Dimondale Elementary.
>
> A random drinking water test, which is required by the Department of Environmental Quality (DEQ), was performed over the summer and elevated levels of lead were found in two of the samples. In August, I sent out information to all families about this situation and assured you that water stations would be available for all students since all drinking fountains would be disabled. Those water stations are still in place and the students and staff at Dimondale have adapted very well to this system for accessing drinking water.

Since that time, the district has been in constant communication with the DEQ and the Barry/Eaton County Health Department to work on resolving this issue. As part of this communication, I would like you to be aware that repairs were made to drinking bubblers, unused plumbing lines were removed and water supply lines were replaced with braided stainless supply lines. Each upgrade was completed with the overall improvement of the water quality in mind.

The next random water sample test to evaluate the lead levels will be conducted in March. We will continue to communicate the results of our water sample tests and remain hopeful that the improvements that we have completed will have a positive result.

In an event that you have additional questions regarding this issue, please contact me at 517-694-5715 or by email at SuptOfc@hpsk12.net
Sincerely,

David G. Hornak, Ed.D.
Superintendent, Holt Public Schools

***A copy of this email has also been sent to each family with children attending Dimondale Elementary.*

August 25, 2015

Dear Dimondale Elementary Parents and Guardians,

In an effort to over communicate with you, I would like you to read the following announcement.

Every three years, we are required by the Department of Environmental Quality (DEQ) to test the drinking water at Dimondale Elementary. I am writing to inform you that elevated levels of lead were discovered during routine testing. Although the samples were taken in the summer, we are taking precautionary measures by providing alternative potable water sources for the students and staff to enjoy until we can have additional water samples analyzed.

The DEQ has a nationwide rule that allows lead drinking water levels to be at or below 15 parts per billion. As indicated above, this round of sampling occurred when the building was dormant, which may have contributed to the results being slightly higher than normal.

Moving forward, the water at Dimondale Elementary is safe for daily hand washing. We are safely disabling all water fountains in the building until we can complete the next round of analysis. Families can help by sending a filled reusable water bottle to school on a daily basis. When needed, children may refill a water bottle at one of the five water stations placed throughout the building.

We are looking forward to the beginning of the 2015-16 school year. By remaining true to our increased level of communication this year, we hope you find comfort in the proactive nature of our actions. By providing the DEQ with additional water samples, temporarily disabling water fountains, and by providing drinkable water for the students and staff to enjoy, we have been permitted to begin the school year as scheduled on September 8, 2015!

In the event you have additional questions regarding this issue, please contact me at (517) 694-5715 or by email at SuptOfc@hpsk12.net.

Sincerely,

David G. Hornak, Ed.D.
Superintendent, Holt Public Schools

Subject: Flint Water Crises UPDATE for Federal Health and Human Services

Lisa, once you review this message and update to tailor, send to Marty. He will get permission to send from the JIC. To date nothing has been done specifically for the unlicensed child care providers. They would be covered by the door to door campaign. If you have contact information, you should do a message that highlights any precautions and tell them to go to the Flint Water website. You can include your update.

Health and Human Services
Administration for Children and Families
Office of Child Care

On January 5, 2016, Governor Rick Snyder declared a State of Emergency for Genesee County as a result of the water situation in Flint and surrounding communities attached to the Flint Water System. As a result of this declaration, all state departments are required to work in coordination at our State Emergency Operations Center. Since that date, the Michigan Department of Education (MDE) Emergency Manager and MDE staff have been working closely with various state agencies specifically focusing on health and safety issues. Under the Emergency Declaration, all communication regarding this event must be handled through the Joint Information Center. The state has a specific webpage for all Flint Water issues at www.michigan.gov/flintwater. The Flint Water site has up-to-date information on all actions related to the Flint Water Crises and specific actions taken to provide support to the citizens of Flint.

The Genesee County Health Department has held multiple forums regarding this situation. Dr. Eden Wells, Michigan's Chief Medical Executive. has been providing information and guidance to the Genesee Health Department which in turn is informing the community.

The state is actively working in the Flint communities to distribute water, water filters and replacement filters. In addition they are giving details on water testing procedures and blood testing. The state and county have teams going door-to door delivering water, filters, and information. In addition, there are local distribution sites set up at Flint area Fire stations and several local churches. This has been broadly advertised through multiple methods to ensure the widest possible dissemination. Door hangers with information are being left if no one is answering the door. Information is being provided in English as well as Spanish and Arabic.

The Michigan Department of Education is contacting all area providers that are operating school nutrition or child and adult care food programs. They are ensuring that information regarding the ongoing programs is understood and providing any help as required.

Water testing efforts have been on-going since October 2015. The Michigan Department of Environmental Quality is the state agency responsible for the water testing program. They have been implemented a testing program throughout the city. The water testing program is on-going.

> > Hello Justin.
> >
> > As you mention, Governor Rick Snyder declared a State of Emergency for Genesee County as a result of the water situation in Flint and surrounding communities attached to the Flint Water System. As a result of this declaration, all state departments are required to work in coordination at our State Emergency Operations Center. Since that date, as LARA Emergency Manager and my alternate Emergency Management Coordinator, have been working closely with various state agencies specifically focusing on health and safety issues. Under the Emergency Declaration, all communication regarding this event must be handled through our Joint Information Center. We have created a specific webpage for all Flint Water issues at www.michigan.gov/flintwater. On that site, you will be able to pull down letters that have been sent to health care providers, not only in Genesee County, but statewide through Medscape, the local health department,

the Michigan State Police and other sources.

Prior to the State Declaration, the Genesee County Health Department held multiple forums, Dr. Eden Wells, Michigan's Chief Medical Executive. has been providing a variety of information at the local level in assisting the Genesee Health Department. This information is also on the web page previously mentioned.

We are currently working with our Community Health Emergency Coordination Center, the Health and Human Services Emergency Management Coordinators, and the Joint Information Center at the EOC on any and all messaging regarding Flint water. We have taken a systematic approach in completing outreach to all those affected by this event. As you will see on the web page, we are also providing filters, test kits, bottled water, and safety recommendations. These resources are available to any citizen, facility, or business needing them at no charge.

If you have any questions regarding this issue, please contact me at the numbers below at your convenience.

Subject: Flint/Genessee County Health Care Facilities and Water Supply
Importance: High

Hi Gail, Steve, Karen-

We understand that Governor Snyder declared a state of emergency last week as a result of the Flint, Michigan (and Genessee County) water supply being contaminated

with lead. What step(s) have the health care facilities in that area taken to ensure the health and safety of their residents/patients/clients?

Thanks.

Justin

Cool. Thanks.

So on the nutrition thing... Marla is developing a nutrition plan for all of Flint schools to follow? Is it recommended plan? Required plan?

...and Gloria is developing a nutrition plan for the rest of the city residents??

Subject: FW: Question about Flint water

Marty, I spoke with DTMB here at SEOC. The schools are not buying water, it is all being donated. In fact Flint Pubic School District gave DTMB 38 pallets of water over the weekend to distribute. The state is purchasing off a DEQ contract with Home Depot.

Sending the call to the JIC was the right thing.

Subject: Re: SEOC update

There is an increased emphasis on the situation. These other state agencies have oversight responsibility. I think we send the emails for a couple reasons:

-add a question about help. Are they getting enough info and help. We can use the emails as a redundant source of info/help.

-gives our child nutrition contacts a means to ask questions.

-the link to the handout is good info.

Louis

On Jan 7, 2016, at 1:46 PM, Moss, Marla (MDE) <MossM1@michigan.gov> wrote:

> I just talked with Colleen Nelson from LARA – she works with Licensed day care centers. I called to inquire if they worked with the licensed centers. She said that LARA sent out notices to all licensed centers that water filters were available at no charge to them. DHHS sent LARA a list of the centers who picked them up. LARA called the ones that didn't and reminded them. So, I'm beginning to think that maybe our emails might not need to be sent. It sounds like DHHS and LARA have worked with centers in that area. And, then below, it sounds like DEQ has been working with other schools besides Flint. Thoughts?

Subject: SEOC update

Kyle, I spoke with DEQ. They are working with ALL schools and institutions in the Flint area. They have a list provided by LARA that includes all schools. I will be able to review the list.

DEQ is actively reaching out to these folks to help get them tested as necessary. I think the letter to Genesee ISD should tell them that DEQ is reaching out on this issue. We can say we are available to help them if necessary. But this is being actively worked at the county level.

City of Flint Schools requested that 13 buildings get tested. Aoo of the 13 have been tested. They recently asked for two more buildings to be tested. I will see if I can get a list.

Subject: proposed message for KG to send to MDE ALL on Flint water crises

Colleagues,

As you know the Governor has declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. The state has established an incident command at the State Emergency Operations Center (SEOC). Louis Burgess, our Emergency Management Coordinator, has been representing MDE at the SEOC. He is keeping the MDE leadership team informed of the State's on-going efforts in Flint. A Joint Information Center (JIC) has been established. All messages regarding Flint and water safety issues are to be coordinated through the JIC.

State officials from the Department of Environmental Quality and the Department of Licensing and Regulatory Affairs have been working with schools, child care centers, and other institutions to ensure that they are taking proper safety precautions related to water. MDE staff in the Office of School Support Services have also been working with child nutrition program providers since last October. OSSS staff continues to reach out to Flint-area MDE approved child nutrition program providers (both school meals and Child and Adult Care food programs) to ensure they are aware of available resources regarding water quality.

If you have any communication to the field that is related to the Flint water crises you should coordinate your message with Marty Ackley. Marty will coordinate with the JIC to ensure that we have a consistent, accurate message.

If you have any questions on the Flint water crises feel free to contact me or Louis. If you are interested in this issue, please be aware that Dr. Eden Weil will be making a presentation on the Flint water crises at the next State Board meeting (Tuesday, January 12). Dr. Wells is the Chief Medical Executive of the Michigan Department of Health and Human Services (MDHHS).

Subject: Briefing for 2-23-16

SEOC Briefing 2/23/16

09:30

- Natl Weather Service: 40 degrees with light wind. Wednesday and Thursday will bring 9 inches of snow for Flint area. Expect blizzard like conditions and lots of blowing the days following the snowfall.
- MDHHS working on recommendations for lead testing on the Flint Water website. Working on talking points w/ EPA regarding shower head usage. Also working on Spanish translation of documents.
- DEQ has 10 teams in the field inspecting homes (505 samples). One high lead level team out. Partnering with MSHDA for housing unit testing. Instruction cards regarding samples going out. Whaley Center is the next school on the list for testing. Researching ground penetrating radar for lead pipe evaluation.
- Red Cross has 6 water response teams out today. Center is open 9am-5pm today.
- **MSP mentioned that someone (?) was visiting Flint on Feb 25th. They are gearing up for that visit. (no one could hear that portion of the call due to banging work being done on SEOC roof)**
- PIO – will be a release regarding rashes. Capt K on a call regarding this later today.
- Next briefing at 16:00

16:00

- MDHHS: No update
- Red Cross: Deployed 6 Water Response teams – processed 22 event volunteers today
- MSP: No Update
- Natl Guard: No update
- Corrections: Increase in water leaving the pods today, believe due to incoming weather
- GIS: Still working on comprehensive address list
- Local: Teams in the field today, including one high lead level team. Station 3 is now doing "drive thru"
- Planning: Some of the stations were given 10 oz bottles, therefore multiples were given out due to smaller size, which is impacting the numbers of bottles going out. The locals are trying to note that in records.
- FEMA: No update
- JIC: Website was updated today. Number of news releases went out today. Tomorrow there will be a community event, making arrangements for sign lang. interpret.
- State Director: No Update
- Natl Weather Service: Snow expected to start between 09:00-10:00. Now expecting 9-13 in by Thursday.

Subject: RE: Education Response Meeting -

Hello All,

That sounds very good. I am CC'ing Jacqui Barr to request she set up a 1-hour conference call to discuss the following concept for this week.

Participants for this coordination call- at a minimum –

1. Mark Johnson ATSDR
2. Mary Behm GISD
3. Eden Wells (if available)
4. Kory Groetsch
5. CHECC designee who will coordinate the details

Purpose of Call: Discuss CHECC taking over the coordination of providing a series of webinars for teachers in the Flint Area that allows them a depth of knowledge that will allow them to speak confidently with parents and children regarding Flint Drinking Water.

Current Proposal:

1. Request from ATSDR, CDC, EPA, or MDHHS experts to provide ~30 minute presentations followed by 30 minutes of opportunity to ask questions on the given topic.
   - Public health messages
   - Lead in Water Systems – Sources and Common Solutions
   - Lead Toxicity and Mechanism of Action -
   - Medical Overview and Services including Blood testing recommendations

2. Request Mary Behm or an associate of her designation to provide suggestion on the presentations so they are at the appropriate technical level for teachers.

3. Follow the template set by Eden Wells for her MD presentations.

Background information to keep in mind

These are the US Dept of Education people who attended the GISD meeting.
Sujeet Rao - Office of the Secretary of Education
Dan Schreier – Office of Special Education Programs

Paul Kesner, Office of Safe and Healthy Students

CDC Contact: Kevin Hardwick with USDHHS irct1.lno@hhs.gov

Kevin says his job is to work on coordinating messages and harmonizing between agencies. Knows Mary MacQueen from some joint coordination group.

Need to have a State Department of Education collaborator.

Thank you to all,

Kary Groetsch

Hi Eden,

I cc'd you on my CHECC report back to Linda Scott et al.

In addition, talked with Caryn Pack-Ivy of Michigan Alliance for Families. She was very pleasant. She did not have any comments at this time, but I left her my card if she sees anything she would like to comment on.

Mary Behm (mbehm@geneseeisd.org) 810.591.4407 : would like to collaborate with MDHHS on a webinar series to train teachers how to respond to concerns with Flint water they are encountering in the classroom. My thought is that your idea about webinars for MDs paradigm about lead could be the template (different information) for a Teacher series. We are all short on time and resources, but ATSDR may be willing to help build slides in your template.

CDC Contact: Kevin Hardwick with USDHHS irct1.lno@hhs.gov

Kevin says his job is to work on coordinating messages and harmonizing between agencies. He was the guy sitting to our right. Retired dentist. Knows Mary MacQueen from some joint coordination group.

Dr. Tretter - they guy with all the GIS maps, - left the meeting before I could get his contact information, however, I will request from GISD.

Cheers,

Kory

> > **Subject: SEOC TEAM**
> >
> > Hi SEOC Team:

I am not sure who comes in this afternoon but I am wondering if they can come a earlier for two reasons. 1) I am getting sick. Whatever my kids and hubby have, I must have picked up from them. I felt it coming on this morning but was in denial until now. 2) MDE is next to start printing. Literally will start printing as soon as the 9:30 briefing is done. If you can't change your schedule – no worries, I will muddle through...but you may want to bring some Clorox wipes to sanitize this work station. (sorry!) I will try to not touch or breathe on everything.

Subject: Update Call: Monday

SitRep due at 17:00 (Kevin will complete this)

Today was planning day. We've done good detail work today, updated and renewed our Objectives and moved into Tactics. Focused on this today. Encouraged agencies to look at this updated listing

DHHS: Working on plan for blood lead testing. Meeting tomorrow with representatives from Pharmacies in Flint to discuss.

MDARD: Food establishment assessments continue

LARA: No update

DEQ: Lab received 150 samples today. 10 teams heading out tomorrow

Human: Working with donation management needs list. Nothing from MDE and OCR

Red Cross: Did deploy 6 water response teams today. Volunteer Center processed 37 event based volunteers today. Volunteers assembled 500 recycling kits

MSP: No update

MNG: No update

DOC: Today we picked up 260 cases of recycling bags and delivered them to pods

DTMB: Working on long-term option software application for water distribution.

ECG: Congressional delegation today, kind of quick. Had an hour briefing

Local Liaison: Discussions with MDOT and MSU Vet Medicine and Humane Society around animals and levels. Working on staffing, planning

Logistics: Update resource task assignment board. Many assigned. Status should be changed to "In Progress" if you are working on them.

Planning: No update

Finance: No update

Recovery: No update

PIO: No update

JIC: No update

State Director: No update

Reminder: You've heard a lot of tactics with dates/times. Section and Branch leaders will be looking for results on these

Next call: 09:30 Tuesday

Louis,

Lt Bowman just informed me that he misunderstood and said what you just said, though he will be letting the JIC know.

Also, DCH (Jen in front of us) just sent a resource request regarding the webinar series. AM person can access it through Resource Request/Task Assignments.

Subject: Funding Question

My name is Timothy Schabo and I work for the Senate Budget Committee. I saw online that you were a contact for Flint City School District concerning grants for the 21st Century Community Learning Center. I was wondering if you could tell me the amount awarded to Flint last school year for that particular grant and or where to find that information online? I hope you are having a great day and I look forward to speaking with you soon.

Thank You,

Timothy Schabo

MSP-EOC-MDEDUCTN

From: MSP-EOC-MDEDUCTN
Sent: Monday, February 22, 2016 12:44 PM
To: Burgess, Louis (MDE)
Subject: RE: Early Childhood education and Flint: water crisis

Louis

It appears that Richard is asking a two-part question here. The first issue, with the JIC, is related to the Senator Sanders inquiry. Richard's question about 21st CCLC grantees is associated with UM Flint question, I believe. That does not require SEOC approval, to my thinking.

Kevin

Ok.

Did you get any feedback from the JIC about the Congressional question? Are they going to respond with my response about 21st CCLC grantees in Flint? Just need to know if the response is off my list or if we're still waiting to hear if I can respond or they will.

Subject: Fwd: Bus Question for Kevin

Kevin and Marla, it appears that Jaime did not check her personal email. She sent an email from the SEOC address asking if there was closure.

Can someone call the numbers below and relay the message to Steve? And then close it out in MiCIMS. It may or may not be a task in MiCIMS.

Louis

> **Subject: RE: Bus Question for Kevin**
>
> Jaime
>
> I talked to Ken. Here is the answer that you can pass along to them:

If they want to do that (which is a unique situation), they need to:

1. Driver must have CDL tractor trailer license (a school bus driver license will not suffice)
2. Driver must keep a log book and adhere to regulations for distance and daily driving time
3. There can be no passengers on the bus, only water and the driver

He suggests looking at renting a U Haul or other truck to deliver the water as opposed to using a school bus. His concern is with the rare occurrence that an accident happen and trying to justify using the bus to transport water.

I would agree with Ken that we suggest they look at another option for getting the water to Flint. Ken's point of contact for the above information was Inspector Coplin with MSP.

Hope this helps

Subject: Bus Question for Kevin

Kevin,

Can you answer this for me?

Steve Sobay from Menominee Schools (906-290-0453) called someone here at the SEOC today – message was hand delivered to me. The school held a water-drive and would like to know if its legal to use the school buses to deliver the water to Flint. My guess is that the decision is based on contract they have with their transportation department. Since your unit oversees bussing concerns, I thought I would run that by you. Thoughts?

Thanks,

Jaime Malnar

Subject: Bus Question for Kevin

Kevin,

Can you answer this for me?

Steve Sobay from Menominee Schools (906-290-0453) called someone here at the SEOC today – message was hand delivered to me. The school held a water-drive and would like to know if its legal to use the school buses to deliver the water to Flint. My guess is that the decision is based on contract they have with their transportation department. Since your unit oversees bussing concerns, I thought I would run that by you. Thoughts?

Thanks,

Jaime Malnar

Please send the Planning Group a bullet list of any high level events that your agency will be participating in during the week of February 22, by noon on Monday. (i.e. Meeting with community agencies to identify future POD sites or meet with federal partners to outline long term recovery).

We will be compiling a list on Monday afternoon for the Governor's office.

Thanks!

Included in this email is a list of the six workgroups and their contact info for the Community Partners group in Flint.

MSP/EMHSD is on the Resources and Coordinating workgroups. The JIC will have a representative on the Communications workgroup.

If any of your agencies are interested in having an individual provide technical/coordinating assistance to the Education, Physical Health or Mental Health workgroups, it would be welcome.

While each workgroup is trying to maintain a consistent meeting time each week, it would be advisable to contact one of the group leaders to confirm time and location of the next week's meeting.

The faucets would be a donation from Delta. Alesha (LARA) anticipates a shipment on Feb 26th but because it's a donation she cannot press them for an exact delivery date or amount.

Thank you for the follow-up to Mark's e-mail. We are already working with Johnson & Wood and Jeff regarding the faucet replacement program as a whole, so that should be no problem at all. They are both key pieces in us completing this project!

We are currently working on obtaining the last of the faucets needed to complete work in the main school building at MSD. If I am able to get that order before the end of the week, I would like to try and complete work in all three buildings this weekend. I will certainly keep you posted as I know more.

If you have any questions, please do not hesitate to get in touch with me. We greatly appreciate everyone working with us on this project.

Have a great evening,

Alesha

> > For the benefit of other people copied on this e-mail, I need to explain that you are the Chief of the Plumbing Division with Michigan Department of Licensing and Regulatory Affairs (LARA) and have been leading the efforts of the Joint LARA/DEQ team that has tested water and inspected the plumbing system at MSD.

For clarity purposes, I feel the need to recap our conversation that we had yesterday.

You explained to me that LARA has made a material list of further plumbing upgrades needed to be made and that you plan to coordinate a team of plumbers coming into MSD as soon as possible to change:

1. Water supply valves to sinks in Stevens Hall
2. Faucets in the school building

I explained that MSD is not a typical school facility in that we are situated on private property that is leased from Lurvey-White Ventures of Flint (State Lease Number 11530-2010). Ultimately, the landlord holds responsibility for maintenance of the facility per the terms of the lease.

Neither Michigan School for the Deaf, nor our parent agency, the Michigan Department of Education, are able to assume any responsibility for any of the work that would be performed. It's our hope that you will obtain any necessary consent from the property owner before proceeding with any modifications.

At the same time, we would like to express our deepest gratitude for you sharing your technical expertise and making such strident efforts to ensure the safety of our students and staff.

Sincerely,

Mark Bouvy, Administrative Manager

Subject: Update SEOC Briefing 2/19/16 Friday

2/19/16 SEOC Briefing (09:30 & 16:00 call)

SitReps due at 17:00

Printing update: Still no word on when MDE-SEOC will print e-mails and docs. Reminder that once the e-mails are printed, we need to set up SEOC e-mails to also go to the FOIA e-mail account.

Operations: Reminder to check tasks and update systems accordingly. ***Also note that Monday's calls will now be at 10am (not 9:30)***. This only affects Mondays.

NWS: Wind advisory in effect today, up to 50 mph gusts in late afternoon (4-8pm), then diminishing. Mild temperatures through weekend

DHHS: Working with JIC/LARA on translation of fact sheets. CHECC developing testing results, infographics, once approved, they will be sent to JIC. Continuing to support local agencies as needed.

MDARD: 12 February, many 211 calls about home canning of food. Response has been approved by JIC. Basic message is "when in doubt, throw it out". 44 water assessments completed, 12 results have since been forwarded to DEQ.

LARA: No update

DEQ: 17 teams being deployed today. Samples coming in. Yesterday, issues with update of dashboard (been resolved).

Human: No major updates

Red Cross: 5 teams out yesterday and again today. Concentrating on access/functional needs list. Volunteer Center open 9-5 today. Processed 100 new volunteers, 129 total went out today, and 65 recycle kits were completed.

MSP: No update

MNG: No update

DOC: No update

DTMB: No update

GIS: No update

Unknown: Monitoring media requests. ES calls happening now. This may trickle down to Flint. Had to get off call due to emergency situation calls coming in. (sorry, not sure who gave this update – he rushed through and said he had to get off line right away)

UCG: Passed along information about Head Start school. Robert (Red Cross) showed map that has routes to hit homes, shared that as well. Congressional Delegation group not going to fire station – will advise on new location. Questions surrounding shower filters continue to come in.

Local: Jesse Jackson event went well – peaceful demonstration today. Water main break near UCG this morning. Issues with MLIVE reporter demanding jails to be (re)tested (not on flint water system). Discussion with EPA needed. May replace older faucets even though they are service faucets and prisoners do not have access to them.

PIO: MSU recycling event (part 2) postponed. Reminders going out regarding changing water filter cartridges. Nothing gone out yet regarding shower filters (at JIC?) WNBA player arrived in Flint today to hand out free shower head filters – causing more confusion and questions.

Logistics: No update

Planning: No update

Finance: No update

Recovery: The folks in Burton are feeling left out. Resources going to city and not to them. E-mails for clarification of resources being shared with MSP team.

Next call: Tomorrow 09:30

Kevin, put in the update folder. The SEOC doesn't have to know everything mde is doing. We have to make a judgement.

Louis

Here are some specific activities connected to Early On and nutrition that have occurred with supporting Genesee ISD and Flint in this last week.

Office of Great Start Update:

- OGS has had a telephone conversation with MDHHS Coordinator for Children's Mental Health in order to coordinate approaches used by local entities in reaching children with social emotional and behavioral health concerns
- MDE Early On Consultant assigned to Genesee ISD attended a meeting at the ISD along with representatives of Early On Training and Technical Assistance (contractor for Public Awareness work for Early On).
- State Early On Coordinator discussed budget and financial reporting expectations with Genesee ISD staff and followed with a memo to the Superintendent; information is coordinated with other offices within MDE

Office of School Support Services - Nutrition Update:

- The state emergency supplemental funds have been distributed to the GISD for additional snack support promoting the three target nutrients: Vitamin C, calcium, and iron.
- 3 of the 4 schools to receive the additional federal fruit and vegetable funds have completed all requirements to begin drawing the reimbursement and either started the program this week or will start early next week.
- OSSS staff have been invited to attend the local school nutrition directors meeting at Corunna High School on Wednesday, February 24. An additional "targeted technical assistance" meeting will be planned for the first week of March in which we will have staff available to answer questions specific to improving the current federal USDA FNS programs for the targeted nutrients.
- Additional USDA commodity entitlement has been identified and affected districts will be notified.

Please let me know if you require clarification and I will circle back with staff.

Thanks

Ross

Michigan Department of Education responsibilities at SEOC:

A. Maintain a log of all key decisions, activities, and conversations using the Activity Log in the Michigan Critical Incident Management System (MI CIMS). Analyze all incoming data and information to ensure that any requests or needs are commensurate with Michigan Department of Education capabilities. Summarize key activities of the agency in the SEOC Agency Report within MI CIMS at least once per operational period, or as directed by the Operations Section Chief.
B. Coordinate supplies for feeding disaster victims, if needed
C. Act as the education advisor to the SEOC Director

Sent: Friday, February 19, 2016 9:39 AM
To: MSP-EOC-MDEDUCTN
Subject: Update from 09:30 call

Update from 09:30 call, 19 February:

SitReps due at 17:00

Printing update: PIO now, Red Cross on deck. Sign up if not on list

NWS: Wind advisory in effect today, up to 50 mph gusts in late afternoon (4-8pm), then diminishing. Mild temperatures through weekend

DHHS: Working with JIC/LARA on translation of fact sheets. CHECC developing testing results, infographics, once approved, they will be sent to JIC.

MDARD: 12 February, many 211 calls about home canning of food. Response has been approved by JIC. Basic message is "when in doubt, throw it out".

LARA: No update

DEQ: 17 teams being deployed today. Yesterday, issues with update of dashboard (been resolved).

Human: No major updates

Red Cross: 5 teams out yesterday and again today. Concentrating on access/functional needs list. Volunteer Center open 9-5 today, as it was yesterday

MSP: No update

MNG: No update

DOC: No update

DTMB: No update

GIS: No update

UCG: Passed along information about Head Start school. Robert (Red Cross) showed map that has routes to hit homes, shared that as well

Local: Will monitor Jesse Jackson event today. Water main break near UCG this morning

Logistics: No update

Planning: No update

Finance: No update

Recovery: No update

Next call: 16:00 today

Neither Michigan School for the Deaf, nor our parent agency, the Michigan Department of Education, are able to assume any responsibility for any of the work that would be performed. It's our hope that you will obtain any necessary consent from the property owner before proceeding with any modifications.

At the same time, we would like to express our deepest gratitude for you sharing your technical expertise and making such strident efforts to ensure the safety of our students and staff.

Sincerely,

Subject: Replacing plumbing fixtures, valves, etc. at Michigan School for the Deaf (MSD) in Flint

Good afternoon Joe,

For the benefit of other people copied on this e-mail, I need to explain that you are the Chief of the Plumbing Division with Michigan Department of Licensing and Regulatory Affairs (LARA) and have been leading the efforts of the Joint LARA/DEQ team that has tested water and inspected the plumbing system at MSD.

For clarity purposes, I feel the need to recap our conversation that we had yesterday.

You explained to me that LARA has made a material list of further plumbing upgrades needed to be made and that you plan to coordinate a team of plumbers coming into MSD as soon as possible to change:

1. Water supply valves to sinks in Stevens Hall
2. Faucets in the school building

I explained that MSD is not a typical school facility in that we are situated on private property that is leased from Lurvey-White Ventures of Flint (State Lease Number 11530-2010). Ultimately, the landlord holds responsibility for maintenance of the facility per the terms of the lease.

Neither Michigan School for the Deaf, nor our parent agency, the Michigan Department of Education, are able to assume any responsibility for any of the work that would be performed. It's our hope that you will obtain any necessary consent from the property owner before proceeding with any modifications.

At the same time, we would like to express our deepest gratitude for you sharing your technical expertise and making such strident efforts to ensure the safety of our students and staff.

Sincerely,

Subject: FW: Funding Question

Afternoon,
I received the below email. Is it ok to answer his question?

April

From: Schabo, Timothy (Budget) [mailto:Timothy_Schabo@budget.senate.gov]
Sent: Thursday, February 18, 2016 2:28 PM
To: Terry, April (MDE) <TerryA3@michigan.gov>
Subject: Funding Question

My name is Timothy Schabo and I work for the Senate Budget Committee. I saw online that you were a contact for Flint City School District concerning grants for the 21st Century Community Learning Center. I was wondering if you could tell me the amount awarded to Flint last school year for that particular grant and or where to find that information online? I hope you are having a great day and I look forward to speaking with you soon.

Thank You,

Timothy Schabo

Subject: SEOC Update Feb 18 2016

SEOC Briefing Update for Thursday, February 18, 2016
09:30 Call:

- Operations: No update
- Natl Weather Service: Cold this morning, single digits, upper 20s/30s later afternoon. Tomorrow in the 50s.
- DHHS: Dr. Scott and Dr. Wells met yesterday on guidance documents. Children under 6 should be tested by April 1st.
- MDARD: No update
- LARA: No update
- DEQ: Working on getting sampling teams out
- Human Serv: No update
- Red Cross: 5 teams in neighborhood today, reception center open until 5:00pm
- Corrections: Dealing with some warehouse issues. Safety briefings conducted, first aid kits provided, etc.
- DTMB: Waiting for additional printer to be installed today for FOIA request
- MSP: Dealing with people with false credentials. Capt K wants mtg ASAP on coordination (or lack thereof) of teams in the field. Need heightened security protocols.
- Local Liaison: Sherriff's office received a FOIA request on who was supplying water to the jail.
- FEMA: No update
- Logistics: No update
- Planning: No update
- Finance: No update
- Recovery: Teams are working on finishing mobile home parks today.
- PIO: No update
- Director: Look at incident action plan and working on it.

16:00 Call:

- Operations: No update
- Natl Weather Service: No update
- DHHS: No update
- MDARD: 26 samples collected-no results yet, 6 new food inspectors beginning training, pets health document to be released regarding bottled water for pets
- LARA: No update
- DEQ: 306 samples, 21 staff, 15 teams
- Human Serv: No update
- Red Cross: 5 teams today, reception center open until 5, 76 people today
- Corrections: No update
- DTMB: filling document requests, supplies for warehouse, reminder that requests are processed faster when submitted directly to SEOC
- MSP: No update
- Local Liaison: 16 DEQ teams out today.
- FEMA: No update
- Logistics: No update
- Planning: No update
- Finance: No update

- Recovery: No update
- PIO: Press release sent out on MSU volunteer event again this weekend
- MDE: Sent DCH (Gloria Zucker) an encrypted list and password for Flint students in Carman Ainsworth Schools

Subject: Fwd: Millbrook water Co.

Hi Louis,

My name is Rick Falck I am a Owner/Partner of Millbrook Water Co. My Sister Rebbecca gave me this email address and as I understand it her husband Scott had some conversation with you about our water co.

We are drinking water co. providing artesain water to homes and businesses. What sets us apart form other companies is not only our quality of water but our ability to deliver in bulk as well. We have five gallon bottles like others but with our potable water hauling license we also haul in bulk with stainless steel tankers.

We have helped with projects in both Oakland and Macomb county and see an opportunity to help in Flint. Seems the need to deliver to all the addresses makes it difficult to support all being able to be delivered. I envision fill locations in the city with large tanks that we can keep full with the good municipal water that is available now. Jugs can be provided and residents will come to these sites for refills. I see this also helping in building back the credibility of water as residents will be receiving "the good" Detroit water until new lines are run at which time they will be receiving the same water. There are other options available as well.

I am looking for a little direction to get in front of the right people to propose. Any help is greatly appreciated.

Rick Falck

Subject: *Update - Wednesday, 17 February*

Here is the combined update for Wednesday:

SitReps due 17:00 today
Distribution meeting 16:30 today

Operations: Reference FOIA. Coordinate through proper channels at SEOC. Once all printed off, get with Rich/Jaclyn to set up emails that auto send future emails to that FOIA address.

DHHS: Spent afternoon following up on NSF shower filters, info to CAP. CHECC continues to work on activities locally

MDARD: No update

LARA: No update

DEQ: Working on app together with DHHS for high lead level teams. Collect statistics that can be used

Human Serv: CDC will begin visiting homes of children with high lead level readings to begin case management. Talked briefly about transportation (those needing rides to doctor office), funneling request through EOC.

Red Cross: Response teams out today. Reception Center open through 5pm today

DTMB: Requested a second multifunction printer that will be delivered tomorrow. Working on resource requests

GIS: No update

UCG: Surgeon General in Flint today. Blood level testing request in hieroglyphic form. Followed up with CHECC to coordinate.

Local Liaison: Elevated Lead Task Force out today. Transitioning in new unit today and tomorrow. New MNG liaison in today.

FOIA: No update

Logistics: No update

Planning: No update

Finance: No update

Recovery: Worked with Red Cross with trailer park residents to be sure they have been hit by teams.

PIO: Press release on American Sign Language has been posted and will go out tonight.

Next call: 09:30 tomorrow

Subject: Replacing plumbing fixtures, valves, etc. at Michigan School for the Deaf (MSD) in Flint

Good afternoon Joe,

For the benefit of other people copied on this e-mail, I need to explain that you are the Chief of the Plumbing Division with Michigan Department of Licensing and Regulatory Affairs (LARA) and have been leading the efforts of the Joint LARA/DEQ team that has tested water and inspected the plumbing system at MSD.

For clarity purposes, I feel the need to recap our conversation that we had yesterday.

You explained to me that LARA has made a material list of further plumbing upgrades needed to be made and that you plan to coordinate a team of plumbers coming into MSD as soon as possible to change:

1. Water supply valves to sinks in Stevens Hall
2. Faucets in the school building

I explained that MSD is not a typical school facility in that we are situated on private property that is leased from Lurvey-White Ventures of Flint (State Lease Number 11530-2010). Ultimately, the landlord holds responsibility for maintenance of the facility per the terms of the lease.

Neither Michigan School for the Deaf, nor our parent agency, the Michigan Department of Education, are able to assume any responsibility for any of the work that would be performed. It's our hope that you will obtain any necessary consent from the property owner before proceeding with any modifications.

At the same time, we would like to express our deepest gratitude for you sharing your technical expertise and making such strident efforts to ensure the safety of our students and staff.

Sincerely,

Mark Bouvy, Administrative Manager
Michigan School for the Deaf
Michigan Department of Education
Flint, MI

Mark, Alesha Gensler (517.243.8678) has details for you on their work at MSD.

They are waiting for some parts to come it. They hope to be able to do the work this weekend.

Alesha has the details.

I left phone message as well. I know you are out until this afternoon.

Louis,

Regarding updating your grid below, the only update I can provide is for item 3a - blood testing date. That was completed on February 8th.

LARA has not provided a date to me for coming back to test Stevens Hall dorm.

I had heard that LARA was going to require the landlord to make some changes:
1. Stevens Hall - replace water supply shut-off valves under each sink
2. School building - replace faucets. Industry standards regarding faucet lead content changed in 2014 and school was constructed in 2012

LARA didn't communicate these changes to me directly. The landlord's maintenance person told me. He accompanied them on a walk-through last Saturday.

Thanks.

Ross and Marty, Mark is out. LARA reported to me that the original fixture updates in Stevens Hall were not done properly. In addition, it has been determined that since the lead requirements changed in 2014, the school does need to be updated. LARA has scheduled all work to be done this weekend.

This is first I heard of any of this. I have talked to both LARA and DEQ.

Subject: Flint Emergency Funds and Grant Programs

All:

1. Ann Dennis has been chairing meetings on the Flint Supplemental and the various grant programs.
2. Grant Program Points of Contact:
    a. Flint Community Schools (25010); School Nurses; $320,000 (Kim Kovalchick/Patty Lawless)
    b. Genesee Intermediate School District (25000)
        i. Nutrition Supplemental/Fresh Fruits & Vegetables; $140,000; (Adrienne Davenport)
        ii. Communication Resources; $115,000 (Kevin Walters)
        iii. Early On Testing/services coordinators/psychologist; $2,010,000 (Vanessa Winborne)
3. Reporting agreements. We want to have all the same reporting dates for these grants. Here are the agreed upon dates.
    a. Budget Detail. MDE contacts should request that their contacts provide detailed budgets by March 15, 2016. This will be grant specific. Offices should follow their standard procedures on documentation and detail required.
    b. Fiscal Reporting. All offices should request an update on progress and financial status on the following dates. The purpose is to track progress of the funds and ensure that they are being properly expended:
        i. March 31, 2016 (Thursday)
        ii. June 30, 2016 (Thursday)
        iii. September 30, 2016 (Friday)
    c. Final Expenditure Report. All funds are approved in the Cash Management System (CMS). The expenditure report will be due 60 days after the end date for the funds or November 29, 2016 (Tuesday).
    d. Chris May has forwarded FID reporting details (revenue and expenditure coding) to his contacts at Flint Community Schools and GISD.
4. GISD submitted a plan to the Lieutenant Governor and the Governor. There initial plans were what the funding decisions were made. Our initial discussions with GISD is that they are trying to reconcile their initial plans and subsequent MDE guidance. Our guidance has been to work with them to give them broad directions, but to ensure that they are properly spending the funds.
5. GISD has drawn 100% of their funds in accordance with guidance that went out with the original grant award notifications.
6. Flint Community Schools has reported that they will draw their funds when they are ready to spend them.

Let me know if I left off something on this update.

Office: 517.335.3672

I hope everyone was able to enjoy their long weekend!
Ross, I was asked to summarize the topics discussed at the USED/MDE/GISD Flint Water Crisis Educational Response meeting held this past Friday in Flint. The meeting was attended by staff from the U.S. ED Office of Special Education Programs, Office of Safe and Healthy Students, Office of the Secretary of Education and Office of School Support.
MDE staff included Teri Chapman, Mike Radke and myself. Kyle Guerrant was there for a period in the morning as well. Several of the GISD Assistant Superintendents, Directors and Coordinators were there as well as representatives from MDHHS, Michigan Alliance for Families, Children's Water Team, the CDC and International Academy of Flint.
Everyone there received a packet of materials that included information currently available about lead poisoning which led to outside resource discussions.
An overview of the GISD was provided which covered the services offered by the ISD, screening and Child Find procedures, their MTSS structure and how the GISD has coordinated with doctors and primary care health practitioners. We were provided with a summary of service and programming efforts, activities that the Lead Impact Team (which comprises of members of every department at the ISD) have engaged in. Much time was spent listening about the impact the emergency has had on education, reviewing data, budget constraints and brainstorming on additional activities and resources trying to reach all children, general education and special education.

The day was spent discussing multiple areas of need **from long term effects that are expected as a result of this crisis, including successes and challenges.** Some of the challenges include communication feedback, families that are not identified with a primary care physician, lack of transportation which prevents families from showing up for wellness visits, safety issues, supplies for showering at the schools, celebrities who have disrupted classes, the lack of a coordinated system (no command central), professional development and training, data for tracking, Birth to 5 year old supports and early intervening funds, water distribution and storage, the list goes on...

There was also discussion on how to connect legislature, MDE and the Federal Government together. U.S. ED staff members committed to making multiple trips to Flint as all continue to work together. Sujeet Rao, Office of the Secretary of Education is going to be the point person for communication.
There was discussion about funding flows and accountability.

There's a link on the GISD website in reference to the water crisis. There have been a number of gatherings and meetings in an attempt to reach out to parents, trying to meet the needs of ESL students (there are 48 different languages in the region), addressing the Hearing Impaired and Visually Impaired students, etc. With the funds provided from the MDE there are a number of positions that are posted and interviews getting scheduled. There is concern about being able to fill some of these positions and staff being available for them.
It was an informative day with everyone there committed to continuing the discussions, brainstorming and information sharing.
Please don't hesitate to let me know if there's any other information I can provide. I'm happy to copy my packet of materials if requested.
Thanks much, Jan

Subject: Fwd: Millbrook water Co.

Hi Louis,

My name is Rick Falck I am a Owner/Partner of Millbrook Water Co. My Sister Rebbecca gave me this email address and as I understand it her husband Scott had some conversation with you about our water co.

We are drinking water co. providing artesain water to homes and businesses. What sets us apart form other companies is not only our quality of water but our ability to deliver in bulk as well. We have five gallon bottles like others but with our potable water hauling license we also haul in bulk with stainless steel tankers.

We have helped with projects in both Oakland and Macomb county and see an opportunity to help in Flint. Seems the need to deliver to all the addresses makes it difficult to support all being able to be delivered. I envision fill locations in the city with large tanks that we can keep full with the good municipal water that is available now. Jugs can be provided and residents will come to these sites for refills. I see this also helping in building back the credibility of water as residents will be receiving "the good" Detroit water until new lines are run at which time they will be receiving the same water. There are other options available as well.

I am looking for a little direction to get in front of the right people to propose. Any help is greatly appreciated.

Rick Falck

Cheryl,

Here is the method we use. See if this works for you. Send the password in a second email. Thank you.:

1. Do not send sensitive personal information in the subject line or body of an e-mail. There is no documented need within MDE to routinely send sensitive personal information via e-mail. If information with sensitive personal information needs to be transmitted via e-mail, transmit the data in an attached file that has been password protected (see instructions below). The password must be communicated to the recipient over the phone after confirming that the e-mail was received.

    a. To password protect a document (either Excel or Word), use the following steps:
    b. While in the document, go to Tools, select Options.
    c. Click on the Security tab.
    d. Under "File encryption options", type in a password (use password rules below).
    e. Click OK. You will be asked to confirm the password. Retype the password and click OK.
    f. When closing the file, remember to save it. The next time it is opened, a password will be needed.
    g. Use the following password rules:
        i. Use 8 or more characters.
        ii. In the password, use at least 3 of the 4 following characteristics:
            1. Upper case letters
            2. Lower case letters
            3. Numbers 0 to 9
            4. Non-alphanumeric characters (!, @, #, $, etc.)

Cheryl , I have attached a request on MDE Letterhead for the names of the Flint students that are served in the Carman-Ainsworth Early Head Start program.

We just need the names and addresses of the children. Please do not include any information that should be protected. MDE has a definition for sensitive personal information (see below). If you feel the information should be protected you can encrypt the file before you send it to me.

Thank your for your assistance with this matter.

Louis

Sensitive Personal Information. For MDE purposes this is defined as an individual's name, address, or telephone number linked with any of the following:

a. Social security number or taxpayer ID number
b. Credit or debit card number
c. Driver's license number
d. Date of birth
e. Medical or health information protected under HIPAA
f. Student related data protected under FERPA

Jaime - what is "CHEC"?

MDE had submitted the initial TEFAP Disaster Commodity request to the MWRO and it was returned last week (Thursday, I believe) with additional questions. Those questions have now been answered and the request will be resubmitted by COB today to MWRO. Marla is working on that now.

I'm not sure who Linda Scott is. Maybe it's because MWRO has not submitted to USDA at the national level?

Diane

Subject: RE: Lost Time in schools due to Flint Water Crisis

Weighing in.

I just exited a phone conversation with Dr. Treder (GISD data guru). We both agree that this could be a potentially difficult figure to get our hands on, for accuracy purposes. In question is reporting of daily attendance. Generally, there are two columns that are reported to MDE/State, neither specific to the 75% threshold, per se. Much of the 75% attendance rule appears to be at the recording discretion of the localized district/entity. GISD indicates that they would not require districts to report daily attendance via SIS (Student Information System). We can reach out to Flint Community Schools to request, if necessary. Does School Aid have another method of monitoring daily attendance at the localized/entity level other than what is reported by the localized district/entity?

Thanks

Kevin

Subject: RE: Lost Time in schools due to Flint Water Crisis

Just to clarify---if they have less than 75% attendance they can still count the day as one of their days of instruction. However, their school aid will be prorated. For example, if they have only 70% in attendance they will receive only 94% (70/75) of their daily state aid for that day.

Louis

It appears to be part of the appeal response. I don't see anything about MSD. He is probably referencing the fixture replacement occurring through LARA at schools in the zones. I absolutely think that nutritional information should be included.

Hey Louis,

Can you verify the validity of this statement and provide anything else you think might be pertinent for the appeal?

- The educational community was also impacted by this water contamination. During this event state agencies have worked with the schools to replace older fixtures and update outdated water infrastructure. The agencies and SEOC have also worked to ensure that necessary water resources were provided to schools

MSP-EOC-MDEDUCTN

From: MSP-EOC-MDEDUCTN
Sent: Tuesday, February 16, 2016 9:50 AM
To: MSP-EOC-MDEDUCTN
Subject: 09:30 Update call - Tuesday

Here is the Update Call (09:30):

SitReps due at 17:00

Operations: Objectives updated yesterday. FOI not in room today. Printing plan is coming and will be pushed out to everyone.

NWS: Not many weather concerns through Thursday. May see snow showers tonight (less than 1"). Could be colder wind chills on Thursday morning. Friday will become much warmer, with rain likely. Wind gusts up to 40 mph.

LARA: Working on ethnic groups and coordination of meetings. Chinese, Middle Eastern and Hispanic meetings are scheduled. In the Arabic and Spanish community, we are linguistically correct with information, but not necessarily community correct

Human Services: MDE has a request from Planning to determine if any school days or instructional time has been lost due to the Flint water situation. We have reached out to GISD with a request for this information. MDE has received a request from the MEA Region Director for training of teachers of students impacted by Flint water situation. MDE continues to work with MSD on faucet replacement and re-replacement with a new target date of 24 February for completion. CAP: Please copy Tom Weber on Information on lost instruction.

Red Cross: 5 teams available today. Reception Center open through 5pm

MSP: People handing out water on ground in Flint. Training on radio use helpful, had to track down emergency button issue yesterday. Expensive radios, so important to train those in possession. May have been a Genesee County radio

MNG: 65 replacement soldiers coming in today to get trained and to pods. Others will be cycled out

DOC: Involved in radio issue. Loaner radio. They are not handing out radio to civilians. May want to look at disabling emergency alert for this situation. Warehouse had 60 trucks from Indiana (6pm) with water. Able to process all of that last night.

DTMB: No update

GIS: Received new parcel layer from City of Flint. Will be updating information and updated list of active water users from Public Works

UCG: No update

EOC: Currently working with churches so they have what they need for weekend.

Logistics: No update

Planning: No update

Finance: No update

Recovery: No update

JIC: No update

PIO: Several items being requested (non-English for translation)

Next call: 16:00

Subject: Update SEOC Briefing 2/12/16 Friday

**** Please note that going forward there will only be one daily SEOC briefing****

2/12/16 SEOC Briefing (09:30 & 16:00 call)

- SIT REPS due at 17:00
- Please remember to respond to Lori regarding SEOC (only) e-mail and document count.
- Operations – make sure workers are prepared for weather. Long term plan being finalized. Reminder to print your name legible on sign in sheet.
- Natl Weather Service – Snow today possible, light. Windy today, cold coming tonight: -10 to -15 wind chill. Highs tomorrow about 10, with negative wind chill. By Monday highs back in low 30s.
- Wayne County Health Department sending 3 volunteers to the volunteer reception center.
- HHS Branch – Lots of field testing with food establishments. Also now has clarification of who is testing schools (agreement between HHS, MDARD, DEQ, LARA, MDE)
- Red Cross – 8 teams out today. 50 new volunteers processed.
- MSP – Nothing to report
- DTMB – Parking issues in Flint area. If you do not have a "Flint water" parking pass/badge, park on top level of ramp.
- Corrections – Nothing to report
- Natl Guard – Being asked about water pitcher filter replacements – looking into this resource.
- Local EOC – Teams out today. Boiled water advisory hoping to be lifted this afternoon. Working on an exit strategy per Capt K's request.
- Logistics – Plenty of water and cartridges if there is a spike after boil advisory is lifted.
- FEMA – Nothing to report
- UCG – meetings within Genesee County going well.
- Planning – Nothing to report
- Recovery - Nothing to report
- JIC – Nothing to report
- Capt K is in Flint today. Press release will go out today regarding boil-water ban lift. Reminder that JIC needs names on e-mail requests (versus just a PIO label) for follow up and clarification reasons. The CDC is recommending that pregnant women and children under 6 not drink the filtered water (bottled only) so this information will be added to the press release.
- Major updates including info regarding upcoming events that state agency might be attending will be asked for daily and will be due at 12noon each day.

Subject: Agency Events for the week of 2/15/16

Please send the Planning Group a bullet list of important events that your agency will be participating in during the week of February 15, by noon on Monday. (i.e. Meeting with community agencies to identify future POD sites or meet with federal partners to outline long term recovery).

We will be compiling a list on Monday afternoon for the Governor's office.

Thanks!

Subject: MSD Testing

I spoke to Mark Bouvy today at 11:45 regarding the initial testing in Flint. He stated that he personally took a sample and sent it to DEQ for results. The January 14th testing was conducted by the landlord and submitted to WaterTech out of Howell, MI for results.

Subject: RE: water update: DEQ testing and State Police Emergency Operations Center (EOC)

I just spoke with Mark Bouvy at MSD.

When the school first heard of the water lead issue back in September, they conducted their own testing at the school... which came back with clear results. The administrators at the school closed down the fountains and have been purchasing 35-gallon water dispensers (150 gallons/week) from Culligan that are placed near the drinking fountains. They also placed water filters at the cafeteria drinking fountain and kitchen sink for use in cooking/food prep.

MSD has been on the waiting list to get tested by DEQ since mid-December. The landlord (Lurvey-White Ventures) on its own, decided to have another test done on January 14 – this time testing both the school and the dorm. The dorm test came back with the elevated lead levels in the water.

The school received word today from the landlord that they will expedite the replacements of the 62-65 faucets in the dorm beginning tomorrow (Friday) and expect to have them all replaced by the end of the weekend.

There are 167 total students at the school, 75 of which board in the dorm.

The landlord and school administration also are looking at either replacing the shower heads in the dorm, or installing in-line filters to the showers. In the meantime, resident students are using the showers at the school, which has been tested and found to be lead-free.

The parent letters were sent out yesterday, by postal service and on the schools webpage. The next scheduled Parents Meeting is February 9, when parents can come and ask questions. The letter also informed the parents that they can contact Janet Kelley at the school in the interim.

THE BOTTOM LINE: the administration and landlord of MSD got ahead of this issue back in September and taken all of the cautionary measures to ensure the health and safety of the students at the school. Instead of waiting to get their water tested by the DEQ, they got it done privately and took immediate steps to respond to the issue when it became known.

Thanks.

I think it's important to communicate to parents and media who call, that MSD/we were proactive in getting testing done...was the school even on DEQ's list to test?

And, do we know if the landlord, or the MSD staff initiated the first water test?

Thanks.

Good morning Louis,

We have a date for DEQ coming to MSD to do more extensive testing. It will happen beginning on Friday, January 29th, at 8:00am with a three man crew here doing testing on that day and the following day.

I was also contacted by MSP Lt. Roach from the EOC late yesterday. Her group is planning to drop off some water and ten kitchen-sink-style water filters for possible use in the classrooms that have sinks.

Thanks.

Alesha, that would be great. There is a school and a dormitory.

The school is newer and has been tested once. It is the dorm (75 years old) that is of current concern. They tested with a level of 28 parts per billion, above the 15 part threshold.

Subject: School for the Deaf

Good morning Louis,

I have had a chance to look at the information you shared regarding the water testing at the school for the deaf. I spoke with Joe, our plumbing division chief, and we agreed that to be consistent, we need to follow the same testing procedures as used in all the other schools. This will give us a better idea of how many fixtures need to be replaced and the specific fixtures that test high. Therefore, Joe is going to put the school for the deaf on the testing schedule for LARA and DEQ to complete.

If you have any questions or concerns, please let me know.

Thanks,

> Our Director received an inquiry earlier this week asking essentially the same question. We sat down with our Office of General Council and Budget Services and after discussing we all came to this determination.
>
> SERV is not intended to address all interruptions of schooling. The situation in Flint is comparable in many respects to a district's schools being out of session for an extended period of time due to heavy snow and we cannot imagine that the district would be eligible for a SERV grant. We have resources

about continuity of services that originate from our work on pandemic flu, but we have no grants per se to assist in the Flint situation as we understand it.

We are also not aware of ED programs that could provide support in a situation like Flint's which is in the public health lane.

Happy to discuss particularly if there are aspects of the Flint situation which I may not completely understand.

Regards

Mr. Kesner

I was given your name and contact information by Susan Benbow. Michigan Department of Education (MDE) is an active participant in the State Emergency Operations Center (SEOC) as it relates to the Flint Water Emergency.

Michigan DHHS (Department of Health and Human Services) has asked us to investigate the possibility of application for the Project SERV grant based on this emergency. We are attempting to gain information that will either confirm or deny applicability of the Flint Water emergency in regards to the Project SERV grant. In short, does that qualify as an eligible event?

Can you please assist or direct us to a contact that can assist in this determination?

Thank you for your time

Louis,

Need some additional information on this:

1. How was the contractor that did the work, and who hired them -- was it LARA or the MSD landlord?
2. Did children use any of the new faucets before this was discovered?
3. How much work are we talking about at the school itself?
4. What is going to be in place this time around to ensure that the work is done properly?

Thanks

KG

Louis,

Regarding updating your grid below, the only update I can provide is for item 3a - blood testing date. That was completed on February 8th.

LARA has not provided a date to me for coming back to test Stevens Hall dorm.

I had heard that LARA was going to require the landlord to make some changes:
1. Stevens Hall - replace water supply shut-off valves under each sink
2. School building - replace faucets. Industry standards regarding faucet lead content changed in 2014 and school was constructed in 2012

LARA didn't communicate these changes to me directly. The landlord's maintenance person told me. He accompanied them on a walk-through last Saturday.

Thanks.

Ross and Marty, Mark is out. LARA reported to me that the original fixture updates in Stevens Hall were not done properly. In addition, it has been determined that since the lead requirements changed in 2014, the school does need to be updated. LARA has scheduled all work to be done this weekend.

This is first I heard of any of this. I have talked to both LARA and DEQ.

SEOCers-

Last night, Louis did a situation report from SEOC that was one report with both the morning and afternoon calls detailed. This is how he would like to proceed. The morning person can start a report based on the morning's call and then the afternoon person can finish the report and send out via email. Please use last night's email as an example. Thanks.

Subject: formal request details on Flint early head start names.

Cheryl , I have attached a request on MDE Letterhead for the names of the Flint students that are served in the Carman-Ainsworth Early Head Start program.

We just need the names and addresses of the children. Please do not include any information that should be protected. MDE has a definition for sensitive personal information (see below). If you feel the information should be protected you can encrypt the file before you send it to me.

Thank your for your assistance with this matter.

Louis

Sensitive Personal Information. For MDE purposes this is defined as an individual's name, address, or telephone number linked with any of the following:

a. Social security number or taxpayer ID number
b. Credit or debit card number
c. Driver's license number
d. Date of birth
e. Medical or health information protected under HIPAA
f. Student related data protected under FERPA

I just got off the phone with April at the GCHD who said she is unable to attend due to other responsibilities. She was be sending information on their activities related to schools and if we get it in time, will be given to the MDHHS person who will attend. Kory Groetsch, toxicologist will be attending the meeting on behalf of MDHHS. Also, Gloria Zunker from the CHECC will be in attendance should there be any questions specific to nutrition and the schools as she has been leading a state work group that has been discussing this issue. Linda

Hi Dave,

I wanted to connect you with Tarah Somers from our team currently deployed in Flint, who has been identified by our Incident Manager as the representative approved to come to the meeting being hosted in Flint by US Dept. of Education on Friday starting at 8:30am, location TBD.

Perhaps the two of you can identify is there is a way that a state and/or local public health representative could be invited as well.

I will await word as to whether a conference phone line will be available; if so, I am glad to join remotely and support the plan forward however we can assist.

Many thanks,
Eric

ED's Goals for the Meeting:

1. Learn more about how the water crisis has impacted teaching and learning.
2. Understand what has already been done and what is planned by local and state officials in response to the impact of the water crisis on teaching and learning.
3. Learn how ED can be a helpful partner with local and state education officials.
4. Share information on ED resources that may be helpful to mitigate the impact of the water crisis on teaching and learning.

Agenda:

1. Introductions – all.
2. Description of what has already been done on behalf of students, parents, and staff – local education officials and state educational officials.
3. Description of what is planned on behalf of students, parents, and staff— local education officials and state educational officials.
4. Brainstorm of how ED can help – all.
5. Description of ED resources - ED.
6. Next Steps – all.

Cc: Fort, Ross (MDE)
Subject: SEOC Update Briefing 2/11/16 @ 0930 & 1600

1. **0930 briefing** . Two MDE related items briefed at 0930 briefing.
    a. 1. U.S. Department of Education visit to Flint on February 12, 2016. Scheduled at 0830 at GISD. Agenda to be developed. Kyle Guerrant, Teri Chapman and Mike Radke will all attend.
    b. Emergency Funds for Flint include $340,000 for Flint Community Schools to hire/contract school nurses. Kim Kovalchick is department contact.
2. **1600 briefing:**
    a. SEOC reps need to provide estimate of the number of documents when requested. As of today here is the count: SEOC emails (sent, 530; saved in files, 516); documents (31).
    b. DHHS will try and send a community health rep to the US ED meeting at GISD, 2/13/16.
3. **Coldest weather** of the year tomorrow and the coming weekend. Temps between 10 and 20 for Sat/Sun; wind chill below zero.
4. .No change in the agency reports. Actions in the city continue.
5. **FOIA**: we will be collecting all Flint water emails and documents from everyone in the department. This is a statewide effort. No emails related to Flint are to be deleted. Message to MDE all will be forthcoming. All SEOC hand written notes and any paper documents are to be saved.
6. Letter sent (via email) to **Early Head Start Coordinator** for Carman-Ainsworth requesting addresses of Flint based children. I requested that the info be sent to me State email, but I used the SEOC email address.
7. Ann Dennis reports that **GISD will draw down 100% of their emergency funds.**
8. **Unified Coordination Group (UCG).** If they continue to include the SEOC on the Unified Coordination Group, please understand that the group is made up of Federal representatives. When they say "Department of Education", they mean the U.S. Department of Education.
9. **New report requirements.** Kari Day sent out several emails from plangc. She wants an update for a rather undefined governor's report. You have to respond to her, it is OK to say nothing to report. I recommend that you check with me to see if we have anything to report. Likely for tomorrow we will want to report on the 0830 meeting with U.S. ED.
10. **Michigan School for the Deaf.** They are having additional fixture work in all their buildings this weekend. Original work not to current standard. Mark Bouvy is out until next Tuesday.

In collaboration with other federal partners, the U.S. Department of Education (ED) has been working to support response efforts on the ground in Flint. ED staff have been working with state education officials to provide technical assistance and clarifications about how federal funds can be used to address the situation in Flint. And, on February 12, at a meeting hosted by the Genesee Intermediate School District, a team from ED will met with state and local education officials to discuss the impact the water crisis has had on the learning environment in schools in the Flint area and explore how the agency can be a helpful partner to state and local efforts.

Teri and Kyle,

DHHS will send two representatives to the meeting:

Kory Groetsch, toxicologist
Gloria Zunker

Can you send me an update or recap of the meeting? I will include it in the formal report for tomorrow.

Attachments: Carmen-Ainsworth Early Head Start letter.docx

Cheryl , I have attached a request on MDE Letterhead for the names of the Flint students that are served in the Carman-Ainsworth Early Head Start program.

We just need the names and addresses of the children. Please do not include any information that should be protected. MDE has a definition for sensitive personal information (see below). If you feel the information should be protected you can encrypt the file before you send it to me.

Thank your for your assistance with this matter.

Louis

Sensitive Personal Information. For MDE purposes this is defined as an individual's name, address, or telephone number linked with any of the following:

a. Social security number or taxpayer ID number
b. Credit or debit card number
c. Driver's license number
d. Date of birth
e. Medical or health information protected under HIPAA
f. Student related data protected under FERPA

Jaime, Tom, Aimee, and Kevin,

Can you go and add some slots for all of March? 2-3 times per week as you can. I will still be coming out 2-4 times a week. (You might find that Tom and Jaime got a head start.)

As we go into the recovery phase, the SEOC schedule may be reduced (unless you are in DEQ or DHHS). But I need us to plan on continuing to support this operations.

Gabe and Jen,

The meeting in Flint tomorrow is with US. Department of Education reps, MDE reps, and reps from Genesee Intermediate School District and Flint Community Schools. The US ED Special Ed team was in for a regularly scheduled technical compliance meeting. Because they were in already in Lansing, US Education reps asked for a meeting to discuss the Flint water crisis and how they can help.

Other state reps are not needed. MDE will have content experts, primarily in the special education field at the meeting.

Subject: Flint Water FOIA

Marty and Kyle,

Yesterday Dave and I attended the state's Flint FOIA conference. Each department is going to have to respond to the governor's team on FOIA related issues. Some of this information is due tomorrow.

Bottom line is that every department is going to have to provide all documents (emails, texts, documents) that anyone has regarding the Flint water crisis. Based on potential litigation they are doing a full scale document collection. They are going to load all documents and put on a website by the middle of March.

By tomorrow we have to:

a. Provide a department contact for this. I spoke to Dave, and since he is the Department's FOIA coordinator, we should forward Dave's name.
b. Give an estimate of the number of documents that we have related to Flint. The documents at the SEOC will be reported to MSP since they are responsible for everything that we do here.
c. Give an estimate of when we will be able to provide all documents.

Message to the department: We can either have Dave send the notice to everyone (I can write it up) or I can write to MDE all explaining what documents that we need to collect.

Subject: RE: The "Governor" wants to know what "type" of person they should send the meeting tomorrow in Flint (0830 in GISD)

Teri and Ross, here is why there is interest: The Federal coordination group (representatives from all involved Federal agencies) have deployed to Flint and the USED rep briefed that they have this meeting. Now everyone (state agencies) wants to know if they need to send someone and if so, what kind of person to send.

The answer can be "thank you, but we don't need any one else at the meeting." Let me know and I will let them know.

Dear Ms. Gerrish,

The State of Michigan is reaching out to the families of all children affected by the Flint water crisis. The state is coordinating nutritional information for families and wants to make sure that all families get the important information on the link between proper nutrition and lead poisoning. We have been informed that the Carman-Ainsworth Community Schools ' Early Head Start program is serving 13 children that live in the City of Flint. We are requesting that you send the children's names and addresses. It is not necessary to include dates of birth.

If you have any questions about this request please contact Louis Burgess, Assistant Director, Office of School Support Services, Michigan Department of Education (517.335.3672; burgess@michigan.gov).

Louis

Dear Ms. Gerrish,

The State of Michigan is reaching out to the families of all children affected by the Flint water crisis. The state is coordinating nutritional information for families and wants to make sure that all families get the important information on the link between proper nutrition and lead poisoning. We have been informed that the Carman-Ainsworth Community Schools ' Early Head Start program is serving 13 children that live in the City of Flint. We are requesting that you send the children's names and addresses. It is not necessary to include dates of birth.

If you have any questions about this request please contact Louis Burgess, Assistant Director, Office of School Support Services, Michigan Department of Education (517.335.3672; burgess@michigan.gov).

Subject: FOIA and Flint Water

SEOC team,

The state is working on a FOIA plan related to Flint water. This message only pertains to your SEOC activities.

Everything that we do (every document) related to Flint is to be saved and turned in. This includes anything that we do on this project. I am only going to talk about our SEOC work for now.

1. Do not delete any Outlook messages related to Flint. I have emptied the MSP-EOC-MDEDUCTN account several times, but I will stop.
2. Everything at the SEOC is under the auspices of the State Police, so we will follow their instructions. Dave Head and I will have some similar instructions for our MDE accounts.
3. If any document is created while you are at the SEOC save it on the desk top. I have brought all the documents from the old SEOC and I am working to put in a folder called Flint Water. Any document that we produce must be saved.

More when I get more info.

Cc: Moss, Marla (MDE); Ackley, Martin (MDE)
Subject: RE: Update Call (09:30) Wednesday

Kyle,

I spoke with Karen Townes, LARA.

1. The Seventh Day Adventist school is not on Flint water.
2. As a first step to overcome resistance, LARA has developed a standard letter that explains what they are doing (replacing fixtures for free). It is a very formal document that has eased resistance. Some PSA's have also resisted. Latest example was a board member that doubted the state's intent.
3. If LARA experiences any issues they will contact us at the SEOC to help. For instance today we helped close the loop on three buildings.
4. We are staying in close coordination.

Subject: Update Call (09:30) Wednesday

Update call (09:30) on Wednesday:

SitReps due at 17:00

Operations: Water main break brings anticipation of increased need for bottled water. Keeping an eye on that. We will be fielding a lot of questions today. Be sure we are communicating a consistent response today so public is getting that one solid response. Make sure you are collaborating with others. Keep line of communication open and maintained. This is definitely a speed bump in progress we have been making, but we can overcome. Long term recovery planning group is meeting today.

NWS: Expecting snow showers to decrease through day. Big message is cold temperature (air mass) pushing in tonight. Looking at daytime temperatures of 15-20, with nightly lows into single digits. Wind chills of below zero beginning tonight. Frost bite at about 30 minutes or less. Reinforcing shot of much colder air this weekend, could be wind chills of -10 degrees. Frost bite exposure time is 15 minutes or less at that temperature.

DHHS: CHECC has lined up volunteers for distribution teams with DEQ. Wednesday webinar by Dr. Wells will be held, clinical webinars for health care providers. Continuing to work on behavioral health model with Genesee Health System.

MDARD: Nothing new to report

DEQ: 10 teams to begin sampling.

LARA: Working to finalize complete list of schools. Get with DOC for plumbing supplies. Working on translation of documents in all languages

Human Services: Reached out to children group to cross reference water test results. Blood testing FYI, have executive staff that lives in Flint. She received letter from insurance company encouraging her to get blood lead test and assured it was covered. Husband, retired GM, got similar letter. Health Care professional also encouraged blood lead test. Outreach is working out there. MDE reported work continuing with LARA, DEQ, and MDARD in relation to communicating with schools on replacement and testing. MSD parent meeting held last night. Dr. Eden Wells and Dr. Johnson (GCME) were present as were 12 parents and MSD staff. TV12 was there as well. Positive response to meeting. Side note: During meeting at MSD, the City of Flint alert came in about boiling water that allowed Dr. Wells and Dr. Johnson to address with participants

OCR: No update

Red Cross: 10 teams out yesterday, visited 440 homes. 10 teams again today to make sure every home has been touched and a couple of apartment complexes to make sure they have been touched. 15 new people processed through Volunteer Reception yesterday.

MSP: No update

MNG: No update

DOC: No update

DTMB: We are working on resource requests. Door hanger request to be delivered to Flint tomorrow

GIS: No update

UCG: Changes to task assignments, be sure to check. Testing and outreach continues. Working with Genesee County staff. USDA has reviewed request and is expected to announce result today. May be a public event. Overlapping efforts to make sure nothing is missed.

Local EOC: Trying to coordinate rapid response with warehouse management (Red Cross and United Way). 10 site monitor teams going out today. Management Plan document was updated last night and available in MiCIMS. Water main break: Teams in impacted area can provide information to homes in that area. Working with SEOC to identify addition needs for those in that area.

Logistics: Monitoring pods today and assume water will be in demand today. Working with FEMA to make sure we have truckloads coming in

Planning: No update

Finance: No update

Recovery: Working on next mission with water main break and getting filter cartridges to people

PIO: Boil water advisory went out to City of Flint last night. New filter cartridges will be needed by those

Deputy Director: Biggest priority this morning is messaging with boiling water and pods keeping ahead of uptick.

Next call: 16:00

Jenn gave me all the details. It is at 0830 at GISD. I gave the update during the 0930 call and added to the department SITREP.

Thank YOU.

Louis

Subject: Meeting : Urgent
Importance: High

Hi Team,

I realize this is last minute- is there any way you/ representative from your team can be available tomorrow morning at 10:00 am to assist in answering the below questions for Mission Flint?

They need the final answers by tomorrow so if we could initially meet at 9:00 am that would be great. We can meet in person and/or I can provide a con call.

Goals for initial call:

1) Answer what we already know
2) Assign questions we do not know amongst ourselves

3) Assign a time to have all answers to the Governors office tomorrow.

Please let me know if 9:00 am will work for you.

Thank you,

Laura Stoken
Manager, Constituent Relations
Executive Office of the Governor, Rick Snyder
517.335.7858

Questions asked during the Meeting

1. The filters say 99% effective on the box. What about the 1% and how can I be sure?
2. Why are we not being given whole house filters? Filtering the water as it comes into the house would solve lots of problems.
3. Why does EPA take 20 samples from different areas of a house and the State takes only one or a few?
4. Is lead the only thing scientists are testing for?
5. I am concerned about BPA (leaching of plastic from bottled water). Who is ensuring that the bottled water is safe?
6. Could we get Shower Head Filters distributed given the problems experienced with rashes and skin irritation?
7. When will we know if the improperly treated river water contributed to the spike in legionella?
8. Should we use bottled water (vs. tap or filtered) in our humidifiers?
9. How soon can we get nurses into schools? We only have one nurse in the entire public school system.
10. Who is focused on landlord obligations to make things safe for their tenants? If water bill credits are being offered to landlords, shouldn't the tenant who has been paying the water bill included with their rent receive the benefit?
11. We have been told not to run hot water through the filters which means even washing dishes is a chore requiring heating up water.
12. In the past boil alerts were due to under or over chlorination. Is the water properly chlorinated now and how do we know?
13. Is canned water bad for us?
14. Are all the faucets being changed out in schools? When will that be finished and when will we be told whether that fixed the problem?
15. The city's contractor for recycling (Republic) makes it too difficult for residents to sign up and get their bins/bags. Can you fix that?
16. MSU appears to be the only entity working on nutrition outreach and getting fresh produce to convenience stores. We need to ramp up our efforts in this regard and take charge. Sen. Ananich's office is doing something with John Roberts' knowledge but we need to craft a plan and execute immediately.
17. You said nutrition doesn't remove lead from the body but iron, calcium and Vitamin C can reduce/halt the absorption of new lead. Are there vitamins I should be taking?
18. What parts of the body does lead poisoning impact. I have heard that it goes to the bones, the brain, and gastrointestinal but is removed by kidneys and excreted in urine. Is this right?
19. Abandoned buildings are set on fire and lead paint in walls can become smoke with lead that gets breathed in. Are our kids at risk when there is a fire in the neighborhood?
20. What about my pets? Will the state animal response team get involved?

21. We have scammers in our neighborhood offering to do testing in order to gain access and steal. Or offer fake services. What is being done about the scammers?
22. There is not enough information translated in Spanish, Arabic or Chinese. When will this change?
23. What are you doing about people who have left Flint but were exposed to potential lead poisoning? Are you contacting them or giving them a way to contact you?

Subject: Update Call (16:00) Wednesday

Update call (16:00) on Wednesday:

SitReps due at 17:00

- Water main break continues to bring anticipation of increased need for bottled water. Consistent messaging must be clear. Expect the pipes to be repaired by noon tomorrow. Once boil-ban is lifted, clear messaging about replacing water filters is necessary
- As mentioned this morning, cold snap coming. Be very prepared for the cold and wind.
- Public Health FAST Team will be leaving the Flint area this week. Dr. Wells webinar to health providers was well attended and received. There is a need to clarify with JIC that MDHHS and DEQ teams are working together.
- Health Dept will be on furlough Friday-Monday!
- As mentioned above, once boil-ban is lifted, water filter must be replaced. Proper messaging must be clear that the entire unit doesn't need replacement, just the filter cartridge.
- Donation management and developing a list of unmet needs are the focus right now. Feds understand the issues with lead testing and reports. MSU Basketball team leading recycling event this week.
- Dr. Katie Wilson, Deputy Under Secretary @ USDA Food Nutrition Services visited a Flint elementary school and the health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From that visit, came a media release that highlighted the efforts between the USDA, MI Dept of Education and all Health/Human Services partners to expand nutrition programs such as Community Eligibility Provision, Summer Electronic Benefits Transfer (EBT), Fresh Fruit and Vegetable Program, Ready to Feed Formula program through WIC, nutrition education programming through Child and Adult Care Food Program, USDA Foods programs including The Emergency Food Assistance Program (TEFAP), and that WIC funding will help cover the cost of lead testing for WIC participants. Embedded within that media release was nutrition education information further detailing the targeted nutrients, direct links to nutrition education materials from MSU Extension, and details about expanded benefits and nutrition education at the Flint Farmers Market.
- Red Cross has 10 teams again today to make sure every home has been touched. Volunteer Center open til 5pm. Yesterday the volunteers assembled 1800 water test kit packages.

- Minor issues with delivery truck break-downs today. Note: partnering with UPS to help with limited mobility needs!
- (UCG) Testing and outreach continues. Working with Genesee County staff on 6 point plan for community including mental health. 8:30am calls include local agencies.
- (Local EOC) 10 site monitor teams out today. Needed help with loading trucks – no other issues.
- (Recovery) Working with disability network and aging council(s) to create list of residents for long term planning.
- (PIO) Boil water advisory went out to City of Flint last night. New filter cartridges will be needed for replacement.
- (Director) Need more consistent messaging. Working tonight to prepare message to Governor.

Note: My update was written out and given to Captain for assisting with creation of Governors message. I was also asked after the call if schools were on winter break in February. I clarified that most schools will be closed for Presidents Day on Monday. Spring break is normally the week of Good Friday, the week after Easter, or the first full week of April. I checked Flint School District website to be sure – and yes, they are closed April 4th-8th as well as Good Friday.

Next call: Tomorrow 09:30

Jaime Malnar

Kevin and Jaime,

Ed Schlitt is part of the Learning Disabilities Association of America. He is asking on behalf of his organization who they should send people for help related to this crises. I sent him the Flint Water url as a source of information. Can you check with DCH or someone else to see if there is a name or number he can contact to get more info?

His email is below; his phone is 231-590-1065. He is retired in Traverse City. They want to know where they should send people who contact them for help.

Sent: Wednesday, February 10, 2016 11:11 AM
To: aswartout@gchd.us
Cc: MSP-EOC-MDEDUCTN
Subject: Follow Up Non Public School List Not Registered with MDE

April,

In follow up to the conversation you had with Jen Lixey Terrill last night regarding communication with schools. MDE provides outreach to all schools who are registered with MDE. I have attached a short list of schools that do not register with MDE and are therefore not part of any outreach efforts by MDE. The list was provided by MDE.

Jen Lixey Terrill indicated to me that GCHD had put out messaging to all schools in the fall, but have not again since. MDE offered to "cc" the GCHD when they send out communications to the schools that they have access to, and then GCHD could forward the information to the remaining non-public schools. This was well received by April and would ensure that the same resources would be given out uniformly among all schools. Thus the attached list for you. LARA also reviewed this list and identified that some of them do not receive water bills. However, MDE feels that the discrepancy there relates to another entity at a different address such as the church or corporate office gets the bills. Therefore, it is probably prudent to include all of these schools in any outreach to schools conducted by the GCHD.

If you have any questions, please feel free to contact me.

Also, please note the change in phone number for our desk in the SEOC.

Subject: RE: CACFP Center Sites

Mount Olive and YMCA of Greater Flint are both Summer Food Service Program (SFSP) sites. All SFSP sites operate when school gets out for the summer or during an unanticipated school closures, so spring break is not an approved service time period for SFSP.

Kevin,

Here are the details for Karen.

Boys and Girls Club of Greater Flint (Averill Ave) : Active CACFP program; also this is a TEFAP distribution center;
COFY Center (Carpenter Road): Inactive
Mount Olive (Fay Street): Inactive
Our Savior Lutheran Church ((Saginaw St.) : this is a TEFAP distribution center only; they do not do food prep; they hand out food boxes.
Shelter of Flint (Cedar ST) : Active CACFP Center
West Court St Church of God (Church St.) : Active CACFP program; also this is a TEFAP distribution center;
YMCA of Greater Flint (E. Third St.) Inactive

Louis & Team -
Attached is the spreadsheet that I've been using with those enrolled in our CN programs. Peter pulled this 2 weeks ago. Ignore the yellow highlights - those are the sites in the "hot zone" zip codes.

I highlighted the ones in purple that I could find on your list below. 2 are TEFAP distribution sites. Three others are CACFP enrolled centers.

How to move forward if what is listed here are not ones enrolled in CACFP? Are they licensed through MDARD that they would have been reached that way?

Let's talk in the morning...
Diane

==========

SEOC rep: need to follow up with the results of this email with LARA (Karen Towne).

Diane, LARA has a list they call CSACFP Center Sites. The source is supposed to be us.

They need to know the status of the following sites:

Boys and Girls Club of Greater Flint (Averill Ave) COFY Center (Carpenter Road) Mount Olive (Fay Street) Our Savior Lutheran Church ((Saginaw St.) Shelter of Flint (Cedar ST) West Court St Church of God (Church St.) YMCA of Greater Flint (E. Third St.)

Are they child care centers or just food centers? LARA is trying to get all these on a list for testing. We have to help them determine what they are.

Subject: Update Call (09:30) Wednesday

Update call (09:30) on Wednesday:

SitReps due at 17:00

Operations: Water main break brings anticipation of increased need for bottled water. Keeping an eye on that. We will be fielding a lot of questions today. Be sure we are communicating a consistent response today so public is getting that one solid response. Make sure you are collaborating with others. Keep line of communication open and maintained. This is definitely a speed bump in progress we have been making, but we can overcome. Long term recovery planning group is meeting today.

NWS: Expecting snow showers to decrease through day. Big message is cold temperature (air mass) pushing in tonight. Looking at daytime temperatures of 15-20, with nightly lows into single digits. Wind chills of below zero beginning tonight. Frost bite at about 30 minutes or less. Reinforcing shot of much colder air this weekend, could be wind chills of -10 degrees. Frost bite exposure time is 15 minutes or less at that temperature.

DHHS: CHECC has lined up volunteers for distribution teams with DEQ. Wednesday webinar by Dr. Wells will be held, clinical webinars for health care providers. Continuing to work on behavioral health model with Genesee Health System.

MDARD: Nothing new to report

DEQ: 10 teams to begin sampling.

LARA: Working to finalize complete list of schools. Get with DOC for plumbing supplies. Working on translation of documents in all languages

Human Services: Reached out to children group to cross reference water test results. Blood testing FYI, have executive staff that lives in Flint. She received letter from insurance company encouraging her to get blood lead test and assured it was covered. Husband, retired GM, got similar letter. Health Care professional also encouraged blood lead test. Outreach is working out there. MDE reported work continuing with LARA, DEQ, and MDARD in relation to communicating with schools on replacement and testing. MSD parent meeting held last night. Dr. Eden Wells and Dr. Johnson (GCME) were present as were 12 parents and MSD staff. TV12 was there as well. Positive response to meeting. Side note: During meeting at MSD, the City of Flint alert came in about boiling water that allowed Dr. Wells and Dr. Johnson to address with participants

OCR: No update

Red Cross: 10 teams out yesterday, visited 440 homes. 10 teams again today to make sure every home has been touched and a couple of apartment complexes to make sure they have been touched. 15 new people processed through Volunteer Reception yesterday.

MSP: No update

MNG: No update

DOC: No update

DTMB: We are working on resource requests. Door hanger request to be delivered to Flint tomorrow

GIS: No update

UCG: Changes to task assignments, be sure to check. Testing and outreach continues. Working with Genesee County staff. USDA has reviewed request and is expected to announce result today. May be a public event. Overlapping efforts to make sure nothing is missed.

Local EOC: Trying to coordinate rapid response with warehouse management (Red Cross and United Way). 10 site monitor teams going out today. Management Plan document was updated last night and available in MiCIMS. Water main break: Teams in impacted area can provide information to homes in that area. Working with SEOC to identify addition needs for those in that area.

Logistics: Monitoring pods today and assume water will be in demand today. Working with FEMA to make sure we have truckloads coming in

Planning: No update

Finance: No update

Recovery: Working on next mission with water main break and getting filter cartridges to people

PIO: Boil water advisory went out to City of Flint last night. New filter cartridges will be needed by those

Deputy Director: Biggest priority this morning is messaging with boiling water and pods keeping ahead of uptick.

Next call: 16:00

Kevin, make sure that LARA knows that some of the sites are summer feeding sites and although not currently serving food, they will when the summer feeding programs start again. USDA working to start Flint area programs to allow for feeding on weekends. Sites should be tested (scheduled for testing).

Hi Stephanie,

Three of the sites listed below are "inactive" according to household and CACFP programs, but Kevin wondered if they are summer meal sites.

We are also wondering if any summer meal sites open before summer, like during spring break.

Let us know what you know...

Thanks,

Tom

Kevin,

Here are the details for Karen.

Boys and Girls Club of Greater Flint (Averill Ave) : Active CACFP program; also this is a TEFAP distribution center;

COFY Center (Carpenter Road): Inactive
Mount Olive (Fay Street): Inactive
Our Savior Lutheran Church ((Saginaw St.) : this is a TEFAP distribution center only; they do not do food prep; they hand out food boxes.
Shelter of Flint (Cedar ST) : Active CACFP Center
West Court St Church of God (Church St.) : Active CACFP program; also this is a TEFAP distribution center;
YMCA of Greater Flint (E. Third St.) Inactive

Louis & Team -
Attached is the spreadsheet that I've been using with those enrolled in our CN programs. Peter pulled this 2 weeks ago. Ignore the yellow highlights - those are the sites in the "hot zone" zip codes.

I highlighted the ones in purple that I could find on your list below. 2 are TEFAP distribution sites. Three others are CACFP enrolled centers.

How to move forward if what is listed here are not ones enrolled in CACFP? Are they licensed through MDARD that they would have been reached that way?

Let's talk in the morning...
Diane

==========

SEOC rep: need to follow up with the results of this email with LARA (Karen Towne).

Diane, LARA has a list they call CSACFP Center Sites. The source is supposed to be us.

They need to know the status of the following sites:

Boys and Girls Club of Greater Flint (Averill Ave) COFY Center (Carpenter Road) Mount Olive (Fay Street) Our Savior Lutheran Church ((Saginaw St.) Shelter of Flint (Cedar ST) West Court St Church of God (Church St.) YMCA of Greater Flint (E. Third St.)

Are they child care centers or just food centers? LARA is trying to get all these on a list for testing. We have to help them determine what they are.

Subject: FW: MSD parent meeting

Meeting went well.
Dr. Eden Wells actually was there, as well as Dr. Johnson (Genesee County Medical Executive), to do a presentation and answer questions. Approx. 12 parents and staff there. Media (Channel 12) showed up late, but interviewed Dr. Wells and MSD principal CeCe Winkler. Both did a great job.

Interesting.. that during the meeting the City of Flint sent out an alert that a water main break on S. Saginaw Street caused a "boil water alert" ... so that was a neat little twist, and Dr. Wells and Dr. Johnson were there to respond to that, too.

Overall, no problems at the meeting.

Subject: Private/Charter Schools Non-USDA Programs Access to Information

Hi Louis,

Jen from MDCH asked about how MDE notifications get to schools that are not involved in USDA programs. We talked about the responsibility of the local Health Department. What is MDE able/allowed to do to help make sure all schools receive the same information?

I suggested that if and when we provide information or direction to USDA program schools that we include the local health department. They could distribute the information to the non-USDA program schools. Just a suggestion...

Please advise and keep MDCH in on the conversation.

Thank you,

Tom, yesterday we provided a list of names to Jennifer with DHHS/DCH on children served 0-6.

Kaitlin Ferrick our Head Start Director says that there is an Early Head Start program at Carman-Ainsworth.

Confirm with Jennifer that she wants the names of the children. If yes, contact Cheryl Gerrish (see below) and have her send an encrypted file with the names and addresses.

Kevin,

Here are the details for Karen.

Boys and Girls Club of Greater Flint (Averill Ave) : Active CACFP program; also this is a TEFAP distribution center;
COFY Center (Carpenter Road): Inactive
Mount Olive (Fay Street): Inactive
Our Savior Lutheran Church ((Saginaw St.) : this is a TEFAP distribution center only; they do not do food prep; they hand out food boxes.
Shelter of Flint (Cedar ST) : Active CACFP Center
West Court St Church of God (Church St.) : Active CACFP program; also this is a TEFAP distribution center;
YMCA of Greater Flint (E. Third St.) Inactive

Louis & Team -
Attached is the spreadsheet that I've been using with those enrolled in our CN programs. Peter pulled this 2 weeks ago. Ignore the yellow highlights - those are the sites in the "hot zone" zip codes.

I highlighted the ones in purple that I could find on your list below. 2 are TEFAP distribution sites. Three others are CACFP enrolled centers.

How to move forward if what is listed here are not ones enrolled in CACFP? Are they licensed through MDARD that they would have been reached that way?

Let's talk in the morning...
Diane

==========

SEOC rep: need to follow up with the results of this email with LARA (Karen Towne).

Diane, LARA has a list they call CSACFP Center Sites. The source is supposed to be us.

They need to know the status of the following sites:

Boys and Girls Club of Greater Flint (Averill Ave) COFY Center (Carpenter Road) Mount Olive (Fay Street) Our Savior Lutheran Church ((Saginaw St.) Shelter of Flint (Cedar ST) West Court St Church of God (Church St.) YMCA of Greater Flint (E. Third St.)

Are they child care centers or just food centers? LARA is trying to get all these on a list for testing. We have to help them determine what they are.

Subject: RE: CACFP Center Sites

Louis & Team -
Attached is the spreadsheet that I've been using with those enrolled in our CN programs. Peter pulled this 2 weeks ago. Ignore the yellow highlights - those are the sites in the "hot zone" zip codes.

I highlighted the ones in purple that I could find on your list below. 2 are TEFAP distribution sites. Three others are CACFP enrolled centers.

How to move forward if what is listed here are not ones enrolled in CACFP? Are they licensed through MDARD that they would have been reached that way?

Let's talk in the morning...
Diane

==========

SEOC rep: need to follow up with the results of this email with LARA (Karen Towne).

Diane, LARA has a list they call CSACFP Center Sites. The source is supposed to be us.

They need to know the status of the following sites:

Boys and Girls Club of Greater Flint (Averill Ave) COFY Center (Carpenter Road) Mount Olive (Fay Street) Our Savior Lutheran Church ((Saginaw St.) Shelter of Flint (Cedar ST) West Court St Church of God (Church St.) YMCA of Greater Flint (E. Third St.)

Are they child care centers or just food centers? LARA is trying to get all these on a list for testing. We have to help them determine what they are.

Louis

Subject: Racila Ethnic Information for GISD Schools

Hi Dave,

Louis Burgess ask me to contact you and request the racial/ethnic breakdown (%) for all GISD schools. We had a request come in last week from Nancy Pelosi's office by way of USDA MWRO for racial/ethnic breakdown of all our USDA-FNS programs affected by the Flint Water Crisis.

Can you provide GISD school racial/ethnic information for us?

Please let us know.

Thank you,

Tom Priest

Subject: Flint water - CDC resources in local schools

Hi Jevon,

I hope you're doing well – extremely busy I'm sure. My name is Eric, I'm a pediatrician leading the Children's Health Team on the Atlanta side of the CDC Flint response (sits within Epi/Surveillance).

We've been asked to liaise with Department of Education in DC. They put out a request to us to work on making sure appropriate CDC resources are available to Flint schools (public, private, and charter). This includes both school operations and info for parents. This request came from Dave Esquith, director of their Office of Safe and Healthy Schools. However I'm guessing a lot of work has already been done locally for this, and I didn't want to roll over those efforts.

Any chance you have info on this, or could connect me to the right MDHHS person who might be working on health information in schools? I'd rather highlight/support what they've done than repeat it. We can chat by phone if that's easier too.

As a Saginaw native, born and raised in Michigan, thanks for all your work there!

Best,
Eric

Subject: Update call (09:30) Tuesday

Update call (09:30) Tuesday:

Operations: Planning group working on percentages for Governor, so that information is accurate when that is shared with public. Keep lines of communication open. Those in local EOC; make sure they know what their role is and working toward that end as well.

NWS: Major update. Expanded Winter Advisory for Genesee County. Additional 1-3" for Flint area. Another 1" tomorrow. Today around freezing. Tomorrow high around 20. Weekend, high of 8. Friday and Saturday will be around 0.

DHHS: Working with MDE on CDC request. Teams out to high level homes. Developing plan for campaign to test children with high levels

MDARD: No update

LARA: Scheduled to map and create materials list for IAF

DEQ: Staff with LARA today at IAF.

Human Services: MDE reports work with LARA continues on food distribution sites, emergency food distribution and identification of non-public schools that are NOT registered with MDE

Red Cross: Volunteer Reception Center operational through 5pm. 10 teams out today to addresses that we haven't made contact

MSP: No update

MNG: No update

DOC: No update

DTMB: No update

GIS: DNR/DEQ/GIS teams have developed app to assist teams. Updating Flint water sampling data today. Should be available shortly

UCG: Morning call, additional data still showing non-detect levels of lead and copper in filtered water. Filters generally effective against copper, even though they are not necessarily rated for copper. Reminding people to still run water for bathing/showering. Residents still have concerns over water bills. Adding line about copper into fact sheet. Faith-based meetings occurring this week. Planning day today at

UCG. USDA has requesting more information from MDE on students aged 5-10 and WIC. Looking at redirecting 211 calls from state to county. Data gathering on children tested (ie. Age, etc).

Local Liaison: Local force out today. Will visit homes with elevated lead levels today. Meetings today to discuss long-term distribution plans. Trying to take all plans from other agencies and create one document for teams to work from.

Logistics: No update

Planning: Working on Governor's report

Finance: Heard back from two organizations receiving monetary donations. If we are receiving resource requests from Flint, this may be a way to get them together for funding source

Recovery: Working on apartment list today. Target is 14:00 today. Working on submitted door-to-door canvassing plan, contingency planning if that is denied

PIO: Cap has legislative call at 14:30. Holding off on press release for copper. Will come later with further information (end of week). Governor will be introducing FY17 budget, which will include additional money for Flint issue

State Director: As far as briefings; reiterate importance of briefings and information. Over a month into response and seeing significant disconnects among departments. "Lanes we are in" can contribute. Make sure we are sharing information/collaborating to avoid pitfalls

Next call: 16:00

Subject: Head Start Data Request
Importance: High

Good Evening,

The Health and Human Services Team here at the State Emergency Operation Center (SEOC) Flint Water Crisis Response has requested a list of all children (by name, under the age of 6) that are involved in any Head Start Programs within Flint. They need this list so they can compare it against the list of those that have been tested for lead exposure. Dr. Eden Wells, Jackie Scott, and Susan Moran of DHHS have requested this data. They would like within 24 hours or Monday morning at the latest.

Please let us know what questions you may have. Also, please reply-all with your response.

Thank you,

The attached has a tab with Early Childhood Students (I used the file Laura provided) – I kept BOTH (1) kids with an "Resident LEA = Flint" AND (2) kids who geocoded as living in the Flint Water System (this picked up about an extra 100 kids who had a Residency Code other than Flint) and a tab with Early On kids with addresses within the Flint Water System.

- If you'd like either of these pared down with some additional "business rules" let me know.

Hello,

Attached is a list I created that includes the Head Start students residing in the Flint School District. There are a total of 933 students. For confidentiality, I have removed their birth dates. This is a different list than the prior one I sent you. Also, I put in a compact format, 23 pages vs. 128 pages.

Ironically, I had emailed Sue Gilliam on Friday for access to all sites within Synergy so I can get a better insight. I feel it would of been very helpful if I could of compared the two lists today. She was out on Friday, so I am hoping to hear from her on Monday.

Let me know if you need anything else.

Good Evening,

The Health and Human Services Team here at the State Emergency Operation Center (SEOC) Flint Water Crisis Response has requested a list of all children (by name, under the age of 6) that are involved in any Head Start Programs within Flint. They need this list so they can compare it against the list of those that have been tested for lead exposure. Dr. Eden Wells, Jackie Scott, and Susan Moran of DHHS have requested this data. They would like within 24 hours or Monday morning at the latest.

Please let us know what questions you may have. Also, please reply-all with your response.

Thank you,

Jaime Malnar
Michigan Department of Education

Hi Jevon,

I hope you're doing well – extremely busy I'm sure. My name is Eric, I'm a pediatrician leading the Children's Health Team on the Atlanta side of the CDC Flint response (sits within Epi/Surveillance).

We've been asked to liaise with Department of Education in DC. They put out a request to us to work on making sure appropriate CDC resources are available to Flint schools (public, private, and charter). This includes both school operations and info for parents. This request came from Dave Esquith, director of their Office of Safe and Healthy Schools. However I'm guessing a lot of work has already been done locally for this, and I didn't want to roll over those efforts.

Any chance you have info on this, or could connect me to the right MDHHS person who might be working on health information in schools? I'd rather highlight/support what they've done than repeat it. We can chat by phone if that's easier too.

As a Saginaw native, born and raised in Michigan, thanks for all your work there!

Best,
Eric

SEOC Update Briefing 2/8/16 @ 09:30

- Concern about high level of copper showing up in some homes. Currently 23 affected homes confirmed.
- Today's weather should be quiet, around 43. Light snow tonight, with accumulations Tuesday 1-3 inches. Temps falling this week, reaching teens by end of the week with zero wind chill
- Red Cross – 10 water response teams out today, reception center open.
- Working on appeal for category B declaration
- MDE – 2 current task assignments: Obtaining head start roster for cross referencing children tested & Providing CDC which information has been distributed through the schools.
- MSP – no update
- Natl Guard – no update
- Corrections – Warehouse number 2 will be staffed this afternoon
- Locals looking at alternative pod centers today – Capt wanted to ensure they use FEMA's recommendation on what would make a good pod
- Financial updates due COB Wednesdays
- Teams trying to target sites with no filters – confirming vacant houses, etc
- News release today on volunteers
- Capt K – financial documents need to be accurate. Also wants to know where the donated $ is going... who is tracking? United Way? Wants an update on this.
- Next briefing at 16:00

I don't believe any of us have remote access. My thought is that whomever is at the SEOC on Monday morning (Aimee?) will have to get this to the appropriate person at that time –OR- Dr. Treder can cc' a few of us on his response e-mail so we can watch for it over the weekend and then forward to those listed below.

Thank you,
Jaime

Jaime

I have forwarded a request for that data to Dr. Treder at GISD, given the tight timeframe presented for response. Stay tuned. He may send that directly to SEOC. Does anyone know if we have remote access to the MSP-EOC-MDEDUCTN mailbox to check outside of our coverage time?

Kevin

Subject: Head Start Data Request

Importance: High

Good Evening,

The Health and Human Services Team here at the State Emergency Operation Center (SEOC) Flint Water Crisis Response has requested a list of all children (by name, under the age of 6) that are involved in any Head Start Programs within Flint. They need this list so they can compare it against the list of those that have been tested for lead exposure. Dr. Eden Wells, Jackie Scott, and Susan Moran of DHHS have requested this data. They would like within 24 hours or Monday morning at the latest.

Please let us know what questions you may have. Also, please reply-all with your response.

Thank you,

Jaime Malnar

Cc: MSP-EOC-MDEDUCTN
Subject: SEOC Briefing - 2/5/16 16:00

SEOC Update Briefing 2/5/16 @ 16:00

- Appropriation requests given to state agencies
- DHHS: MDE is working to provide a spreadsheet to DHHS with the names of all Flint kids enrolled in Early Head Start/Head Start under age 6. The information will be compared to the list of children who have had lead testing. (Request has been forward to both Dr Treder (by Kevin) and Head Start/GISD staff (by Jaime). Aimee or Louis: please be sure this list gets to the HHS team as soon as it is received on Monday)
- LabCorp is certified to conduct lead testing – they have been referred to health department.
- DEQ says teams are still knocking on doors. Reports have been clarified to alleviate confusion. Filters that filter lead do not filter copper – very few filter both. 28 homes have tested higher than 38 parts per billion for copper.
- Water Samples appointments made. 25 more homes testing at 38 parts per billion for lead.
- MDARD, LARA, MDE & DEQ meeting to discuss testing of providers. Need more clarification on private schools. MDARD stepping back while LARA and DEQ continue. (Aimee or Louis: please update SIT REP once the affected agencies all agree on the plan – see e-mail)
- LARA moving forward with faucet replacement plan now that they have a defined/complete list of providers.
- DHHS moving resource request tasks through team.
- Recycle project going well.
- Volunteer Center open, may start working with Seventh Day Adventist who would like to assist with warehouse duties. Examining churches in area who want to help with distribution of supplies.
- Talent Investment Team – job identification. Also potential warehouse and storage offers in area.
- National Guard says the lighting situation at pod has been fixed. Will most likely stay with current pod schedule.
- Corrections is adding staff and hours to help with distribution but also checking expiration dates on water. Also noted an injury on site at a warehouse.
- DTMB – Disaster Outreach Center location being identified. Also a reminder to reach out to your agencies so staff there know who is at the SEOC. This will assist with better fielding of calls and TA.
- Nutrition Task Force Group are meeting. Requests to USDA are not always clear, plus these requests should be communicated to HHS/Kathy Wahl Team. (this may be stemming from the question Aimee and I received from Kathy regarding TEFAP program?)
- Outreach to apartment complexes being completed.
- Economic Disaster Location Declaration (Tony) – Businesses in area are eligible for tax breaks and other resources for assistance during hardship.
- Sit reps due 17:00

SEOC Note: They are no longer providing bottled water (BYOBW). Will eventually stop serving snacks – lunch will still be provided.

SEOC Update Briefing 2/5/16 @ 09:30

- Operations working on answering questions from the town meeting held recently
- No significant weather over the next 3 days
- DEQ & DHHS went out to high lead homes (17 of them). Health official was with them for guidance. This will continue today.
- MDARD event occurring right now to demonstrate what inspectors are looking for at food establishments. 3:00 meeting today to discuss coordination of testing schools.
- Human Services reminded everyone to check their requests/task assignments.

- MSP nothing to report
- Natl Guard has solved lighting issue in pod 5
- DTMB working on a response for service providers using the automated system to volunteer services
- MDOT bringing in portable light towers and replacing message boards with hard signs at 2 pods
- New warehouse is being prepped this morning should be open tomorrow to receive loose donations. Not yet made public.
- Working on bus vouchers for those that need transportation to be tested
- Monday there will be 2 auditors from the State office here to understand the process
- Capt K in Flint today
- Next call 16:00
- Sit reps due 17:00

Where: CH-6N-RICHARD-VAN-DEUSEN

Call in information:

Agenda

1. Role call
2. Purpose of meeting - the goal is to come up with a master list of schools for the City of Flint so we can
    a. make sure no school falls through the cracks,
    b. ensure the appropriate level of follow up occurs at each school.

3. DEQ/LARA schools- is the attached list comprehensive and correct?
4. MDARD schools –attached list from master spreadsheet
    a. Are we missing any? Who and where are they?
5. MDARD vs LARA sampling protocols – is MDARD's good enough?
6. Discussion

1) Which agency is responsible for water sampling at which Flint school (I understand that LARA is working with DEQ on conducting water sampling at the schools in the attached spreadsheet – MDARD needs to verify so we can drop them from our list, if needed;

2) Getting a list of private/parochial/charter schools NOT being sampled by LARA/DEQ, so MDARD can conduct sampling. (the attached list is confusing, because it appears that there are some parochial, non-public schools, ie St. Paul Lutheran, St. John Vianney School are ON this list being done by LARA.)

3) MDARD is NOT conducting sampling like DEQ/LARA sampling (we only pull one sample from the food service area). Should ALL schools be sampled by DEQ/LARA because it is more comprehensive?

SEOC Update Briefing 2/5/16 @ 09:30

- Operations working on answering questions from the town meeting held recently
- No significant weather over the next 3 days
- DEQ & DHHS went out to high lead homes (17 of them). Health official was with them for guidance. This will continue today.
- MDARD event occurring right now to demonstrate what inspectors are looking for at food establishments. 3:00 meeting today to discuss coordination of testing schools.
- Human Services reminded everyone to check their requests/task assignments.
- MSP nothing to report
- Natl Guard has solved lighting issue in pod 5
- DTMB working on a response for service providers using the automated system to volunteer services
- MDOT bringing in portable light towers and replacing message boards with hard signs at 2 pods
- New warehouse is being prepped this morning should be open tomorrow to receive loose donations. Not yet made public.
- Working on bus vouchers for those that need transportation to be tested
- Monday there will be 2 auditors from the State office here to understand the process
- Capt K in Flint today
- Next call 16:00
- Sit reps due 17:00

Subject: Update call for 4 February (16:00)

Update from 16:00 call:

DHHS: MDHHS representative attended MDEQ teams to high lead homes and provided support. Some concern about duplicative efforts between DHHS, DEQ and EPA teams. Reaching out to solicit clarification for collaboration. Lead Corporation of America reached out to us today and offered assistance in testing, including schools.

MDARD: Continuing with process of food establishments in critical zones to continue testing. We will be hosting update of test completions on SitRep today. Tomorrow, we are having media event that will be 9:00 at Blackstone's, JIC will release media event on this

LARA: No update

Human Services: GCARD restocked today. Pushing replacement filters. Working on staff for donation management with local Human Services possibly volunteering. MDE reported work with LARA and MDARD with schools that have been tested to this point. Also shared communication log between MDE and Flint Schools/Child Care throughout water situation. Reported that MDE continues to work with schools/child care centers in Flint

Red Cross: Did get 10 water response teams out today. Pretty sure we are planning on 10 more tomorrow. Volunteer Reception Center open until 5

MSP: Clinton and Sanders holding debate in Flint on 6 March. Time TBD

MNG: Pod 5 had lighting issue. City of Flint could not resolve and have no resources to repair. MNG has temporary fix to provide lighting in area after dark

DTMB: Continue to fulfill resource requests. Requests for access to state buildings and furniture for second warehouse.

GIS: Working on joining forces with UCG for GIS and helping DEQ where they can go in field and share data

UCG: Attended long-term recovery meeting today.

Local Liaison: No update

Logistics: Still working on getting equipment we need for new warehouse. Box trucks, trying to find with DTMB. Staffing for next week, trying to get month out

Planning: No update

Finance: No update

Recovery: Started to get numbers in from Red Cross with apartment complexes. Confident we will have them covered in next couple days.

PIO: Just approved press release for MSU athlete recycling event tomorrow (2-4pm)

Captain: Getting word City may be wanting to change pod locations 1-3-6 and move them to community centers (named). GIS needs to work on tracking those site locations. UCG indicates that visits today (with MNG) indicate that they may not be appropriate to handle distribution. Mayor is pushing for moving pod locations. Captain will follow up with Mayor. Making progress on teams? Who's doing what, etc? Jen Wolf (DEQ): We had only one team out there today. Looking for information on other teams (ie. EPA, other agencies). Can UCG rep check to see what teams are out there, makeup, mission, etc.? Jackie Scott: Meeting this morning at GCHD on this topic. They have visited 49 addresses with high levels (over 150). Made contact with 56%, discussed health message and left information on doors of others (non-contact). Asked about kids in home, ages, etc. for testing and inquired about skin rashes. Working on protocol and/or questionnaire for future visits/contact. Captain: Looking at creating an application for iPads to get more "real time" information. For GIS, we need to get with health partners to make sure questions asked help them and do not violate HIPAA.

Next call: Friday 09:30

Subject: RE: Flint water in schools - proposed teleconference for 3pm on Friday

I am currently representing MDE at SEOC. I will attempt to clarify what I know from discussions just now with the LARA, DEQ, DHHS, and MDARD.

I am trying to schedule a teleconference between MDARD, the Genesee County Health Department, MDE, and someone from LARA who is working with DEQ (NEED DEQ/LARA NAMES AND CONTACT INFO ASAP FROM SOMEONE) on water investigation at Flint schools for tomorrow at 3pm to discuss the following:

From an MDE standpoint, I (Kevin Walters) will be available for the conference call tomorrow (Friday) at 15:00.

1) Which agency is responsible for water sampling at which Flint school (I understand that LARA is working with DEQ on conducting water sampling at the schools in the attached spreadsheet – MDARD needs to verify so we can drop them from our list, if needed;

This does not appear to be directly related to MDE, so I will defer

2) Getting a list of private/parochial/charter schools NOT being sampled by LARA/DEQ, so MDARD can conduct sampling. (the attached list is confusing, because it appears that there are some parochial, non-public schools, ie St. Paul Lutheran, St. John Vianney School are ON this list being done by LARA.)

The listing that was provided by LARA is a listing of school entities (LEA, PSA, and Non Public) that are either within the Active Water Area or outside the Active Water Area. It appears they are utilizing a comprehensive listing to update whether testing has been completed, although that detail is outside MDE's reach and could easily be answered by LARA representatives. MDE reads it as stated

3) MDARD is NOT conducting sampling like DEQ/LARA sampling (we only pull one sample from the food service area). Should ALL schools be sampled by DEQ/LARA because it is more comprehensive?

Education just received an email from LARA at SEOC that indicates that "DEQ has stopped the testing of schools, so there will be no updates for the time being". In clarifying that statement, we have been notified that testing in schools will await installation of fixtures are complete, by school/entity. DEQ/LARA would be a more viable resource for your question "Should ALL schools be sampled....". MDE has continued to support water testing in schools.

If needed, my contact information is below:

Hello

I am trying to schedule a teleconference between MDARD, the Genesee County Health Department, MDE, and someone from LARA who is working with DEQ (NEED DEQ/LARA NAMES AND CONTACT INFO ASAP FROM SOMEONE) on water investigation at Flint schools for tomorrow at 3pm to discuss the following:

1) Which agency is responsible for water sampling at which Flint school (I understand that LARA is working with DEQ on conducting water sampling at the schools in the attached spreadsheet – MDARD needs to verify so we can drop them from our list, if needed;

2) Getting a list of private/parochial/charter schools NOT being sampled by LARA/DEQ, so MDARD can conduct sampling. (the attached list is confusing, because it appears that there are some parochial, non-public schools, ie St. Paul Lutheran, St. John Vianney School are ON this list being done by LARA.)

3) MDARD is NOT conducting sampling like DEQ/LARA sampling (we only pull one sample from the food service area). Should ALL schools be sampled by DEQ/LARA because it is more comprehensive?

I need to hear back from everyone right away so I can send out the appointment and get us coordinating this issue before it gets more complicated.

Awesome. Thanks!

How often does LARA update the tested column? MDARD is asking us for a general updated listing of schools that have been tested. I would like to alert them of update frequency, if possible.

Thanks again

The Gold color is used by LARA internally, I believe it represents schools that we have material lists for. We are only tracking if the school has been tested and the # of faucets that have tested high and need replacement. I believe DEQ is tracking the actual test results of the water.

Subject: MDE communication with local school/child care in Genesee County

I will past below **Activity Log** entries from MDE at SEOC. If you need additional information, please let me know:

6 January, 2016

The U.S. Department of Agriculture Midwest Regional Office is asking for updates on the Flint Water Contamination situation. From a USDA food preparation view there are no issues.

The school district notes that drinking fountains in the buildings have been turned off. Bottled water is readily available in classrooms and in food preparation areas.

MDE will reach out to the Genesee Intermediate School District to see if there are any other water related issues in the other local school districts and Public School Academies.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 16:26:06 on 1/6/2016****

Flint Community Schools has stockpiles of bottled water. They report that they did not have to spend any money to get the water.

Food preparation is done at sites with safe water. Food is not prepared at any location with questionable water.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 14:52:20 on 1/6/2016****

Approval of request to waive potable water requirement in the National School Lunch Act for Flint Community Schools.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 13:31:36 on 1/6/2016****

7 January, 2016

Message to all child nutrition providers operating MDE approved programs will be sent to Flint area entities. Email will ask if they get their water from the City of Flint and then ask:

- Did you have your water tested?
- If yes, what were the results?
- Are your students drinking any water from the City of Flint?
- Are you using any water from the City of Flint for food preparation?
- Are you serving "potable" water during meal times in the serving area, as required by the Healthy Hunger Free Kids Act of 2010? If so, what is the source of the potable water?

****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 15:52:43 on 1/7/2016****

ATTENTION Genesee County Emergency Manager:

MDE will contact all school districts, Public School Academies, non-public school, residential child care institutions, and any agency running a child nutrition program to find out what they have done to ensure they are providing a safe water source for the children and adults they serve.

In addition, the Deputy Superintendent will contact the Genesee Intermediate School District Superintendent to request information on what the ISD has done regarding the water crises in affected buildings.

All messages will be coordinated through the Joint Information Center.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 10:01:09 on 1/7/2016****

8 January, 2016

MDE Child Nutrition Program Staff sent JIC approved emails to Flint area child nutrition program staff to determine actions being taken to address the water crises. Staff has highlighted the Flint Water website as source for information related to various aspects of the crises.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 16:08:29 on 1/8/2016****

9 January, 2016

Spreadsheets shared with DEQ. These lists come from the Education Entity Master. Filtered for open schools.

MDE is doing outreach to all registered Child Nutrition Program providers. This is being done during normal work hours. There is no weekend work being done on this.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 12:25:27 on 1/9/2016****

LT Covey asked about the extra water that is under control of schools. LT Roach was asking him about working with MDE to get water and make available to other places. As a local control state, each school district and Public School Academy is a local unit of government with control over their own resources. Districts will have to be contacted directly regarding sharing their resources. MDE can provide contact information at the Superintendent level.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 14:49:33 on 1/9/2016****

11 January, 2016

MDE leadership team briefed on the Flint Water Crises. Dr. Eden Wells is addressing the State Board of Education meeting on January 12.

Health and Environment Branch Chief requested information from MDE on outreach to child nutrition providers increasing nutritional values of meals served.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 14:34:36 on 1/11/2016****

12 January, 2016

Excel spreadsheet upload/attached relative to Child Nutrition Providers (MDE) and response to water/filter question
****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 12:49:09 on 1/12/2016****

MDE staff are ensuring that we have responses from all CNP providers.

The following email was re-sent to non-responders January 12, 2016:

We have yet to hear back from you regarding the below email that was sent on Friday, January 8, 2016. Please respond by COB today, January 12, 2016.
****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 10:34:55 on 1/12/2016****

Response to email from Food Bank of Eastern Michigan:

The Food Bank of Eastern Michigan does use City of Flint water, however we do have filters in our kitchen and have conducted testing's since the water became an issue.

Chevon Wilborn

****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 10:33:06 on 1/12/2016****

MDE email sent to local entities, requesting information:

You are receiving this email because you participate in the Michigan Department of Education's (MDE) Child and Adult Care Food Program (CACFP) or the National School Lunch Program (NSLP).

Do you use the City of Flint water? If so, do you have a water filter, or an alternate source of water for your participants in the Child Nutrition Programs?

Please respond to this email by COB Monday, January 11, 2016.

Thank you for your time to respond to the MDE.
****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 10:31:32 on 1/12/2016****

15 January, 2016

****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 08:57:23 on 1/15/2016****

Below is an update from Marla Moss, MDE Director on Office of School Support Services activities regarding the Flint water crisis. Update was sent via email, 15 January, 07:16

• Our office has contacted each day care center and school on the attached spreadsheet to determine if they use the city of Flint water. (I had discussions early last week with Colleen Nelson at LARA regarding licensed centers and providers. She indicated that all licensed providers were notified to obtain water filters in October when the news first broke. DHHS provided a list of those that did and her staff contacted those that did not obtain the water filter.) Email we sent is attached.
• Our two family day care home providers (FDCH), Association of Child Development and Mid Michigan, sent an email to all city of Flint day care home providers under their agreement. If the provider had no email, they were either contacted by phone or sent a letter via USPS. These two sponsors tracked each provider for MDE. Those who are still using Flint water, were directed to the website for locations to pick up bottled water, or obtain a filter. I know of one provider so far. Website: http://www.michigan.gov/flintwater
• Every entity on the spreadsheet was asked to provide us with an answer on their water source. See last column. Our secretaries tracked responses for us.
• We will send information to schools, center and FDCH providers the attached Food Business Water Handout – provided by MDARD.
• We plan to send a handout to all schools, centers and FDCH providers regarding a diet for lead poisoning. Awaiting final approval from DHHS.
• Diane G and I are working on a collaborative effort lead by DHHS staff, Gloria Zunker, to develop a nutrition plan for the children in city of Flint. Our first call is this morning. Agenda attached.
• Early in October we asked for and received a waiver for Flint Community Schools which exempts them from the requirement of the Healthy Hunger Free Kids Act (HHFKA) to serve potable water during meal times in areas where meals are served.
• We are also tracking USDA foods for schools and determining if there are further commodities we could ask USDA for that are high in Vitamin C, calcium and iron.
• In addition, we will work with USDA to identify needs for the schools in the city of Flint in relation to the USDA

Fresh Fruit and Vegetable Program (FFVP). Goal is to secure more funds to purchase fresh f/v rich in Vitamin C.
• We plan to work with local food banks. Genesee County Community Action Resource Department (GCCARD) participates in our The Emergency Food Assistance Program (TEFAP) and receives USDA Foods. We will work with USDA to see if there are additional commodities that we could request for them.
• A member of my staff is on site at the State Emergency Operations Center (SEOC) every day. Louis Burgess oversees this initiative for our office. We have an updates at the SEOC two times a day and staff provide an update to Kyle twice daily.

****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 08:48:48 on 1/15/2016****

MDE uploading spreadsheet of Licensed Day Care providers in Genesee County and their maximum licensed capacity count
****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 15:47:08 on 1/15/2016****

16 January, 2016

This is list of Flint areas schools (local districts, publics school academies, non-publics). Fall enrollment and staff numbers at each building. This is list of Flint areas schools; not all buildings get water from the City of Flint.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 09:28:58 on 1/16/2016****

20 January, 2016

The Michigan School for the Deaf is a state run school with about 75 students in residential status. The dormitory, Stevens Hall, is a leased facility. Water testing results were reported to the administration on 1/19/16. Stevens Hall showed a level of 28 parts per billion. Test result is attached.

The contractor is working to replace the old faucets in the facility with new ones. Subject to availability they plan to replace all 62 faucets in the next two weeks.

Since September 2015, no students have been drinking unfiltered City water at Michigan School for the Deaf. They installed lead filters in the kitchen (for cooking) and at the drinking water/ice dispenser in the cafeteria. Additionally, we are importing bottled water and have set up 5 gallon dispensers at the drinking fountain locations throughout the school and dormitories. The school began this new procedure in September 2015 after the announcements about lead contamination.

****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 15:21:03 on 1/20/2016****

21 January, 2016

MSD reports that DEQ has scheduled testing for January 29, 2016 at *:00 a.m.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 15:47:18 on 1/21/2016****

When the school first heard of the water lead issue back in September, they conducted their own testing at the school... which came back with clear results. The administrators at the school closed down the fountains and have been purchasing 35-gallon water dispensers (150 gallons/week) from Culligan that are placed near the drinking fountains. They also placed water filters at the cafeteria drinking fountain and kitchen sink for use in cooking/food prep.

MSD has been on the waiting list to get tested by DEQ since mid-December. The landlord (Lurvey-White

Ventures) on its own, decided to have another test done on January 14 – this time testing both the school and the dorm. The dorm test came back with the elevated lead levels in the water.

The school received word today from the landlord that they will expedite the replacements of the 62-65 faucets in the dorm beginning tomorrow (Friday) and expect to have them all replaced by the end of the weekend.

There are 167 total students at the school, 75 of which board in the dorm.

The landlord and school administration also are looking at either replacing the shower heads in the dorm, or installing in-line filters to the showers. In the meantime, resident students are using the showers at the school, which has been tested and found to be lead-free.

The parent letters were sent out yesterday, by postal service and on the schools webpage. The next scheduled Parents Meeting is February 9, when parents can come and ask questions. The letter also informed the parents that they can contact Janet Kelley at the school in the interim.

****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 14:59:18 on 1/21/2016****

The message for Early On Coordinators forwarded through the JIC to CPT Kelenske for approval to be released is approved by the Michigan Department of Education.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 17:47:14 on 1/21/2016****

Investigation of Federal grant opportunity: Project Student Emergency Response to Violence (SERV) grant. U.S. Department of Education reported: the situation in Flint does not meet the intent of the grant program.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 17:57:11 on 1/21/2016****

22 January, 2016

Verified the availability of safe drinking water on site at the Michigan School for the Deaf student dormitory as requested by SEOC Captain.
****Tom Priest - SEOC OPS Human Services MDE - PriestT1@michigan.gov at 11:41:48 on 1/22/2016****

Contractors working to update faucets at Michigan School for the Deaf in the dormitory.

"We will be working around the clock this coming weekend, January 23, and January 24, to replace all (62) faucets located in the dormitory building. Additionally, the following weekend, we plan to install (3) new watering stations at specific locations designated throughout the dormitory."
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 12:55:42 on 1/22/2016****

Additional waiver for Flint area schools for supplying potable water. School listed in the attachment. This letter (see attachment) is in response to a request from the Michigan Department of Education (DoE) to waive the potable water requirement in the Richard B. Russell National School Lunch Act, 42 U.S.C. 1758, Section 9(a)(5), and found in regulations at 7 CFR 210.10(a)(1)(i). The requirement provides that schools must make available during the school lunch program free potable water where meals are served.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 13:05:48 on 1/22/2016****

24 January, 2016

As of 1/23/16: water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.

As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-

week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 15:32:26 on 1/24/2016****

25 January, 2016

MDE provided LARA with a complete list of Child Care sites in the City of Flint as requested. The request was made by LARA after a conversation with Whaley Children's Center site staff regarding testing for lead on their own. LARA could not find a site listed in their materials. Once the initial concern was resolved, MDE provided the entire list to LARA to make sure it was available to all LARA staff as needed.
****Tom Priest - SEOC OPS Human Services MDE - PriestT1@michigan.gov at 15:26:12 on 1/25/2016****

MDE investigated which, if any, state agency is responsible to the regular testing of drinking water at schools in response to a question from the media. MDE staff spoke with LARA staff and was referred to DEQ. MDE spoke with DEQ staff and was told that DEQ was not responsible for monitoring drinking water at schools, but DEQ does monitor water treatment facilities. The monitoring of lead in drinking water is not a responsibility of MDE.
****Tom Priest - SEOC OPS Human Services MDE - PriestT1@michigan.gov at 15:30:51 on 1/25/2016****

28 January, 2016

Uploading spreadsheet based on LARA request. Spreadsheet has been forwarded to LARA as well.
****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 10:02:46 on 1/28/2016****

Also responded to DHHS request for data related to students, ages 5-10, that reside within impacted zip codes.
****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 11:38:02 on 1/28/2016****

Uploaded spreadsheet from GISD that includes all districts that have students enrolled as residents within impacted Flint Water Zip Codes. Spreadsheet displays data by school district, by age
****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 13:50:18 on 1/28/2016****

29 January, 2016

OSSS staff continue to reach out to sponsors of child nutrition programs to ensure that all sites have water, water filters, and understanding of available support.
****Louis Burgess - SEOC OPS Human Services MDE - burgessl@michigan.gov at 16:34:41 on 1/29/2016****

1 February, 2016

This spreadsheet of MDE Facilities has been updated by LARA to include color-coded identifiers and priorities
****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 11:08:28 on 2/1/2016****

MDE is working on the following in the 16 zip codes affected by the Flint Water Crisis:

- Promoting school lunch and breakfast as great sources of the three key nutrients.
- Reaching out to schools participating in the fresh fruit and vegetable program to help select produce high in these nutrients.
- We applied for and received additional fresh fruit and vegetable funds for the schools in these 16 zip codes that qualified for the fresh fruit and vegetable program but did not apply. We will be reaching out to these schools and granting those funds for the purpose of supplying their students with fresh produce snacks that are high in these nutrients.
- For the schools that do not qualify for the fresh fruit and vegetable program, we will be working with them

directly on creative ways to menu additional items high in the key nutrients.
• We also applied for and received a waiver for the potable water requirement from HHFKA for all of the schools in the 16 zip codes.
• We have identified additional USDA commodities entitlement funds and will be directing those additional funds toward the schools in the effected zip codes with assistance on choosing available USDA commodities that are high in the key nutrients.
• We are working with TEFAP agencies in these zip codes and with USDA to determine if we can get additional TEFAP foods high in the target nutrients to food distribution sites as additional foods given out to TEFAP participants.
• We are working on communications for school administrators, child care providers, and school food service staff on how to promote the USDA Child Nutrition Programs and menu foods high in the key nutrients.
• We have sought approval for nutrition education materials to be stuffed in every backpack and sent home with every child enrolled in a CACFP child care center or home.
• We are also working with key partners in Flint to potentially serve at risk meals in the evenings and on the weekends through the Child and Adult Care Food Program Afterschool Supper program in an effort to assure these children have access to the most nutritious foods possible.

****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 11:13:50 on 2/1/2016****

Uploaded spreadsheet (DHHS request) of all Food Programs, Sites, and Organizations from MDE database

Updated spreadsheet of Facilities. Shared with LARA, with updated color-coding
****Kevin Walters - SEOC OPS Human Services MDE - WaltersK5@michigan.gov at 16:33:37 on 2/2/2016****

3 February, 2016

MDE responded to DHHS request for information regarding identifying which Flint schools have drinkable water and which do not. MDE received information from LARA identifying schools that are on/off the Flint water system. MDE shared the LARA information with DHHS. MDE requested additional assistance from MDARD to

review school cafeteria monitoring to identify schools that are on the Flint water system but have drinkable water. MDE will follow up with DHHS once MDARD provides more information.

Diane

I think I have found the answer within our Activity Log from 7 January. I will follow-up if the information needs additions.

Do you know off the top of your head if MDE has had any discussion with Genesee Health Department? Just curious as they are behind DHHS request.

Thanks! A good team we make!

P.S. Don't tell Marla and Louis we are having fun in their absence! Ha Ha

Cc: Burgess, Louis (MDE); Moss, Marla (MDE)
Subject: RE: Request from DHHS

Kevin – see the first tab of this spreadsheet. I believe this is the only spreadsheet shared at the SEOC to date and the first tab has the communications we have had regarding water sources with child care centers. We have not reached out to schools.

Would you like for me to have the information formatted differently or am I misunderstanding the ask?

Don't ever be sorry. This is how we support each other. By you "saving" me from having to physically go to the SEOC, I can be here providing the data and other needs for all of us working on this. ☺

Diane

Diane

I realize that some of this may have been accomplished already, so bear with me:

DHHS is requesting the following:

1. What information/outreach has MDE accomplished as it relates to MDE associated food program sites relative to water use (ie. Column for Contacted by MDE)

2. Is there a spreadsheet that indicates, by entity, that support for #1 (ie. Columns with Filtered Water, Bottled Water, etc) is present

The request is to produce a document (spreadsheet) that includes confirmation of contact by MDE, and whether these entities are using Filtered Flint Water, Bottled Water, or Other. I see LARA's spreadsheet for schools in/out of Flint Water. I don't see one for licensed day cares. I can try to track that information down. Has MDE reached out to our Family Day Care's in outreach on water?

Thanks. Sorry.

Thursday, February 4 0930 Call Summary

Opening Comments: Plan to reach high level homes today
Health/Environment: Investigating and correcting incorrect information regarding blood testing being made available in the field
Weather: No major weather concerns, 20's, less than an inch of snow in the area through this Sunday to Wednesday
LARA: Assisting with the High Lead Home Task Force
Human Services: Assisting with GCCARD inventory, staffing Donations Management
Red Cross: 10 Water response teams out today, focusing on apartments
FEMA: Will be in Flint today for a Community Partners meeting, will be meeting with the Food Bank of Eastern Michigan and Catholic Charities to discuss distribution data
DEQ: Team out checking homes, offering water/fliers/plumber assistance with DHHS, fliers in Spanish and English, meeting to share plans to better provide accurate information
National Guard: Flint engineers are on site at pods 1,5,and 8 to work on traffic flow issues today and tomorrow
Corrections: Working on staffing for the second warehouse
DTMB: Penske trucks were only no charge through January, working on LARA badges for use in the field, scheduling drivers and trucks for the next two weeks
GIS: working on water sample results maps
EPA: Reports 3 types of tests are showing improved numbers, filters are effective, lead levels in water are lower from original source. Question came up as to how Flint mayor gets info, seems to be a local issue
Recovery: Former Kroger building is being set up as a warehouse
JIC: Released press releases on skin rashes and Edible Flint effort to get healthy foods into the city

Operational Period
Feb. 04, 2016 – Feb 06, 2016
0800 – 0800

6. Work Assignments:
• Provide assistance in reviewing nutrition education materials to the State Nutrition Task Force.

I'm already on this task force and completing this work

• Investigate the feasibility of using WIC funding to support blood lead testing.

WIC has already drafted and submitted a request to do this

• Follow up with the State Dept. of Education on what support will be supplied for menu planning for school
meals.

I talked to Vista about this yesterday. We are all set and moving forward.

• Follow up with the State Dept. of Education to identify other programs to address the nutritional needs of children when not in school.

I'm already on this. I have a meeting at 11 to prep for a meeting this afternoon at the capital about all nutrition services in the Flint affected zip codes.

Subject: Re: School assessment/water testing question

If the school is already being tested and followed up on by DEQ/LARA (ie Flint community schools listed on the deq website there is no real reason for mdard to do these because they are already being told to flush and taps being scheduled for replacement. Some are in our list but they are already being addressed by others.

Other schools not part of Flint Community Schools, ie parochial/private/charter schools, we will do these i believe. Some have already been done

Subject: MDE Request for Information
Attachments: Copy of Schools Master.xlsx

Hi Virginia,

In response to your request for information on which Flint schools have drinkable water, specific to responding to schools that decline bottled water and state that their water situation has been addressed...

MDE did not currently have a list compiled to show which Flint schools have drinkable water and which ones need bottled or other options for water.

I asked LARA for assistance with this information. They provided the attached Excel document that shows which area schools are on Flint water system and those that are not (two separate tabs). In the affected area, there are 30 school locations that are on the Flint water system, and 12 that are not.

I also spoke with April Hunt at MDARD. They may be able to better identify drinkable water at schools as associated with school cafeteria testing. This could reduce list of the 30 schools on Flint water once we identify schools that have upgraded fixtures/plumbing to provide safe water.

MDE will update DHHS when we hear back from MDARD.

Diane and Kevin,

Do either of you know the significance of the color coding? Not sure how to interpret...

The request is for a) a list of schools that have verified drinkable water and b) a list of schools that do not have drinkable water and need bottled water.

There are schools declining water and they are working on how to address managing that type of response.

Tom

Subject: FW: Flint Water Crises (SEOC update, January 24, 1600)

Tom – attached is the list sent yesterday. It the green highlights on the SNP tab would indicate the schools confirmed to be in the impacted zone.
I'm not sure how to determine which schools are not in need of donated bottled water other than to look at the green ones....
Kevin – thoughts?

Karen

The attached spreadsheet has been updated, as directed today.

Of note, the SNP tab is marked with two highlighted colors (yellow=not within impacted zone) (green=confirmed as active entity)

Of note, the CACFP tab is marked with two highlighted colors (green=confirmed as active licensed entity per LARA, even though it was stated these were not licensed) (white=these entities are not confirmed as licensed, although they do receive support from MDE food programs)

Please let me know if you need further information.

Hi Janet. We have completed a comparison of lists from MDE with LARA and I have attached the updated info.

The color coding means:

White – in Hot Zone – potential replacement location – probably should discuss further
Pink – Not on Flint water system and will not be targeted for replacement
Yellow – DHHS Facility
Bronze – On MDE list and on LARA list for replacement.
Light Blue – on LARA Child Care facility list for replacement

We also compared to the GIS map from the SEOC and the following schools are on the map in the "Hot Zone" but are not on any of your lists. Do you know why MSP EOC GIS would have data only from 2013? We need to know about these facilities asap. Thanks.

Subject: RE: EPA SitRep

Hi Kevin and Diane,

Jen from DEQ sent me the EPA Sit Rep. I think it clears up conversation between EPA and Flint Superintendent.

The EPA Sit Rep Report addresses the interaction between the Superintendent (Administrator of Flint City Schools) and the EPA. Testing was declined in favor of working with MDEQ. Here is the section of the Sit Rep that explains the discussion:

2.3 ORD Water Assessment Team
• Verified and sampled 8 sites for the chlorine monitoring plan.
• Discussed chlorine monitoring with the Administrator of Flint City Schools, who indicated he would prefer EPA not sample at schools, citing concerns with press, parents, and children. In order to proceed, he requested a meeting with MDEQ, a city representative, and EPA. We are waiting for the school district to respond with a time/date for the meeting.

Kevin,

When you say replacement, are you referring to pipes/fountains/fixtures?

Again, we are being asked to provide a list of schools with/without safe drinking water.

I am not sure this list addresses that request.

Tom

Tom

In relation to Karen's spreadsheet:

White – in Hot Zone – potential replacement location – probably should discuss further
Pink – Not on Flint water system and will not be targeted for replacement
Yellow – DHHS Facility
Bronze – On MDE list and on LARA list for replacement.
Light Blue – on LARA Child Care facility list for replacement

In conjunction with her yesterday, we added three additional color coding elements:

Green: Schools/Entities still in use for MDE Food Programming
White: Unverified Schools/Entities or those not participating in MDE Food Programming
Yellow: Schools participating in MDE Food Programming, yet outside the identified zone

Hope this helps. Let me know if you need more information. Most of color coding was completed by LARA (Kathy Town)

Hi Kevin,

I called you but was able to find the right entrance... all is well.

As for the EPA testing schools conversation, there has been no progress. Aimee tells me that they have been in meetings all morning and very busy.

Please remind me where they are seated in the room and who from DEQ I should be talking to.

Thanks,

Tom

UPDATE:

Following update call at 16:00, DEQ is involved in priority-sensitive reporting. I inquired, briefly, prior to the start of the call and DEQ indicated they would track down specifics and get back to us. I am assuming that will be tomorrow and will not push for information prior to my exit this evening.

In interim, I inquired with LARA, who indicates they believe it is related to MSD school testing (I question this). Kyle confirmed that the reference to superintendent was not Brian at MDE. That leaves a number of options (ie. GISD superintendent, Flint Community Schools superintendent, another locally impacted superintendent, none of the above). I will leave directions for Tom to look for that communication from DEQ tomorrow AM and ask that he update group, as appropriate, when it arrives.

Thanks again. Definitely a tense afternoon at SEOC today for some.

Kevin

I just received a call from the superintendents office. EPA is looking to go into the schools to do testing. I have a meeting scheduled for Friday morning with the super and EPA to discuss

The director also sent an email to Bob Kaplan to get information as to why they are apparently duplicating efforts

Subject: SEOC Update Briefing - 2/3/16 @ 09:30

SEOC Update Briefing 2/3/16 @ 09:30

- Natl Weather Service: Warm now, by 4:00 winds with wind chill back in 20s
- Behavioral Health Admin will be providing additional funding to Genesee Health Dept
- MDARD – 275 inspections at food establishments conducted to date
- MSU Extension has a "Lead Page" up and running
- Human Services – Following up on bottle openers, working on a new path for testing samples
- MSP – Nothing to report
- Natl Guard – Replacements coming in for POD soldiers. By 19th all soldiers will be refreshed
- MDOT – Working with City of Flint on continuing to work on traffic issues
- EPA sending out info on testing of filters – working on messaging with JIC, coordinating with State and Federal -- 2-4 new Behavioral Health representatives have joined the efforts in discussions in Flint – Capt K questioning what "long term" means (need to focus on "marks"). He also wants to ensure the local EOC and agencies are involved in the EPA activities. Capt K also wants to ensure DEQ is a part of High Lead Response Teams
- Calls on efficiency of the filters – still public concern
- New warehouse will take loose water (no pallets or wrapped) – will pallet the water and shrink wrap there for distribution
- Working through the SBA process (economic recovery side)
- FEMA – no update
- Recovery – Focus on how many times homes have been visited that have not had a response
- Any documents that need to be translated must be in Word. ALL documents being pushed out must be translated
- Capt K – "Who are the 2000 people who still don't have filters?" Also, stay engaged with Federal partners, regardless of what comes thru media.
- Today:
    - 10:30 Distribution Process Meeting
    - 14:30 Congressional/Legislative Briefing
    - 16:00 State Agency Briefing
    - 17:00 Sit Reps due
    - 18:30 Distribution Process Meeting

Subject: RE: Flint schools testing - UPDATE

UPDATE:

Following update call at 16:00, DEQ is involved in priority-sensitive reporting. I inquired, briefly, prior to the start of the call and DEQ indicated they would track down specifics and get back to us. I am assuming that will be tomorrow and will not push for information prior to my exit this evening.

In interim, I inquired with LARA, who indicates they believe it is related to MSD school testing (I question this). Kyle confirmed that the reference to superintendent was not Brian at MDE. That leaves a number of options (ie. GISD superintendent, Flint Community Schools superintendent, another locally impacted superintendent, none of the above). I will leave directions for Tom to look for that communication from DEQ tomorrow AM and ask that he update group, as appropriate, when it arrives.

Thanks again. Definitely a tense afternoon at SEOC today for some.

Kevin

Subject: Update call (16:00) 2 February

Here is the update from 16:00 call on Tuesday, February 2:

SitRep due at 17:00 (Kevin will complete this)

Rumor that MSU Vet Clinic was conducting pet testing. This is not true.

Replacement filter plan? Tomorrow at 15:00 to Cap. Looking at long-range replacement plan for filters.

DEQ: Taking softer approach to gaining access to take samples, particularly in those that are elevated and return testing until levels reach appropriate level.

Governor is adamant that high reading homes need defined action plan from State. Struggle if EPA is only one doing it, question will be what is State doing

DHHS: Followed up with outreach to pregnant women and children. Including outreach in Wednesday webinars.

MDARD: No update

LARA: MSD: Additional bubblers installed this weekend. Delaying testing. Whaley Center is being prepped. Comparing over 300 child care providers in Flint impacted zones. Have the number down to about 100 actually within the impacted zone

Human Services: Meetings continue with groups for consistency. Work today on rubber caps and ease of use for elderly and disabled. MDE reports that Dr. Wells will be at MSD for parent meeting on 9 February. Dr. Jamal Gwenthey visited MSD yesterday and asked questions about response. MDE was contacted by Senator Stabenow's office, inquiring on Flint water situation and specifically CEP(Community Eligibility Provision) and offered assistance, as needed

Red Cross: Teams still out. Processed 25 volunteers today through Volunteer Center

MSP: No update

MNG: Got MDOT request routing cleared up at pods. Link up tomorrow at 10:30 for review

DOC: 621 test kits delivered to lab in Lansing. Assisting in logistics in second warehouse location

DTMB: In process of signing agreement with old Kroger location. Start moving in Wednesday morning.

UCG: Two things needed to be corrected/added to report. Working with HUD to verify properties. Took badges to field (one unified team). EPA has toll free number to call for sampling (211 not aware of what

that number is). Meeting with local EOC and UM Flint communications on public information needs to assist community.

Local Liaison: Continuing work with franchise customers. Little confusion about Flint Township. Sunridge (apartment complex) concern whether all apartments were serviced. Working to confirm information.

Logistics: SEOC staffing for next week. Staffing for new warehouse. Working with JIC for Washington Post to gain access to warehouse (request)

Planning: No update

Finance: No update

Recovery: Working on new plan for Red Cross teams to verify apartment complexes have been hit.

PIO: No update

JIC: No update

Captain: No update

Next call: 09:30 tomorrow

Thanks Kyle. I am trying to track down what "superintendent" they are referring to. Difficult to get confirmation, so I started with MDE.

Thanks. I will update as soon as I get clarification from DEQ and LARA. LARA is saying it is in reference to MSD school being tested, something that I thought was complete already (only dorm remains). I will get clarification ASAP following 16:00 call.

Kevin

Karen

The attached spreadsheet has been updated, as directed today.

Of note, the SNP tab is marked with two highlighted colors (yellow=not within impacted zone) (green=confirmed as active entity)

Of note, the CACFP tab is marked with two highlighted colors (green=confirmed as active licensed entity per LARA, even though it was stated these were not licensed) (white=these entities are not confirmed as licensed, although they do receive support from MDE food programs)

Please let me know if you need further information.

Subject: RE: Flint Water Crises (SEOC update, January 24, 1600)

Hi Janet. We have completed a comparison of lists from MDE with LARA and I have attached the updated info.

The color coding means:

White – in Hot Zone – potential replacement location – probably should discuss further
Pink – Not on Flint water system and will not be targeted for replacement
Yellow – DHHS Facility
Bronze – On MDE list and on LARA list for replacement.
Light Blue – on LARA Child Care facility list for replacement

We also compared to the GIS map from the SEOC and the following schools are on the map in the "Hot Zone" but are not on any of your lists. Do you know why MSP EOC GIS would have data only from 2013? We need to know about these facilities asap. Thanks.

Kevin/Louis - we had a call yesterday with Jacqlyn from Senator Stabenow's office. She was very interested in CEP and the schools in Flint. We sent her some info yesterday. She also told us Stabenow's office is available to assist us in any way they can. We will continue regular communication with her and keep you posted. May be worth mentioning at SEOC in some manner...

Please send the Planning Group a bullet list of important events that your agency will be participating in this week by 6 pm today. (i.e. Meeting with community agencies to identify future POD sites or meet with federal partners to outline long term recovery).

We will be compiling a list tonight for the Governor's office.

Thanks!

I arrived to a firestorm from LARA about incorrect site data MDE provided them. I have spent every second attempting to deal with that. I believe there are 10 correct zip codes that are in the impacted area, at least from our GISD data spreadsheet. They are:

48501
48502
48503
48504
48505
48506
48507
48529
48532
48458

Subject: RE: Zip Codes
Importance: High

MDE is working on the following in the 16 zip codes affected by the Flint Water Crisis:

- Promoting school lunch and breakfast as great sources of the three key nutrients.
- Reaching out to schools participating in the fresh fruit and vegetable program to help select produce high in these nutrients.
- We applied for and received additional fresh fruit and vegetable funds for the schools in these 16 zip codes that qualified for the fresh fruit and vegetable program but did not apply. We will be reaching out to these schools and granting those funds for the purpose of supplying their students with fresh produce snacks that are high in these nutrients.
- For the schools that do not qualify for the fresh fruit and vegetable program, we will be working with them directly on creative ways to menu additional items high in the key nutrients.
- We also applied for and received a waiver for the potable water requirement from HHFKA for all of the schools in the 16 zip codes.
- We have identified additional USDA commodities entitlement funds and will be directing those additional funds toward the schools in the effected zip codes with assistance on choosing available USDA commodities that are high in the key nutrients.
- We are working with TEFAP agencies in these zip codes and with USDA to determine if we can get additional TEFAP foods high in the target nutrients to food distribution sites as additional foods given out to TEFAP participants.
- We are working on communications for school administrators, child care providers, and school food service staff on how to promote the USDA Child Nutrition Programs and menu foods high in the key nutrients.
- We have sought approval for nutrition education materials to be stuffed in every backpack and sent home with every child enrolled in a CACFP child care center or home.
- We are also working with key partners in Flint to potentially serve at risk meals in the evenings and on the weekends through the Child and Adult Care Food Program Afterschool Supper program in an effort to assure these children have access to the most nutritious foods possible.

I will forward the spreadsheet when it is updated – we still have one tab to add our food banks and then I believe it will be complete.

Diane

Can you please have someone verify that the following sites are current and being serviced by MDE for Foods programs:

Karen Town (LARA) is indicating that those listed below are not licensed sites. Any ideas on that?

SNP

Academy West Alternative Education	3223 W CARPENTER RD	FLINT	MI

CACFP

Subject: RE: Zip Codes

MDE is working on the following in the 16 zip codes affected by the Flint Water Crisis:

- Promoting school lunch and breakfast as great sources of the three key nutrients.
- Reaching out to schools participating in the fresh fruit and vegetable program to help select produce high in these nutrients.
- We applied for and received additional fresh fruit and vegetable funds for the schools in these 16 zip codes that qualified for the fresh fruit and vegetable program but did not apply. We will be reaching out to these schools and granting those funds for the purpose of supplying their students with fresh produce snacks that are high in these nutrients.
- For the schools that do not qualify for the fresh fruit and vegetable program, we will be working with them directly on creative ways to menu additional items high in the key nutrients.
- We also applied for and received a waiver for the potable water requirement from HHFKA for all of the schools in the 16 zip codes.
- We have identified additional USDA commodities entitlement funds and will be directing those additional funds toward the schools in the effected zip codes with assistance on choosing available USDA commodities that are high in the key nutrients.
- We are working with TEFAP agencies in these zip codes and with USDA to determine if we can get additional TEFAP foods high in the target nutrients to food distribution sites as additional foods given out to TEFAP participants.
- We are working on communications for school administrators, child care providers, and school food service staff on how to promote the USDA Child Nutrition Programs and menu foods high in the key nutrients.
- We have sought approval for nutrition education materials to be stuffed in every backpack and sent home with every child enrolled in a CACFP child care center or home.
- We are also working with key partners in Flint to potentially serve at risk meals in the evenings and on the weekends through the Child and Adult Care Food Program Afterschool Supper program in an effort to assure these children have access to the most nutritious foods possible.

I will forward the spreadsheet when it is updated – we still have one tab to add our food banks and then I believe it will be complete.

Hi Diane and Marla,
Could you provide me with a list of the MDE administered nutrition program (NSLP, SBP, CACFP, SFSP, FFVP, Afterschool Snack program, etc.) and organizations in the 16 affected Flint area zip codes that participate in those program? Would it be possible to have this list before the end of the day on Monday, February 1? It is for a report to go to the Governor.

Just spoke with Jennifer from HHS – she is fairly certain that the "16 zip codes" was erroneously copied from something Gloria was working on. However, I just wanted to make sure that we were not also using 16 zip codes to cover school of choice students. 16 zip codes seems like a lot so my guess is that the number needs to be corrected, but please confirm.

Thank you,
Jaime

Louis,

We were visited today by Dr. Jamal Gwathney, representing the U.S. Department of Health and Human Services. He said his agency is part of a coordinated federal response involving HHS, FEMA, and CDC.

He asked background questions about our school's response to the water crisis, and offered to assist us with any unmet needs. He seemed satisfied that our school's needs are met.

He asked about other potential contacts within the Deaf Community, and I referred him to Communication Access Center (CAC). They are the local non-profit group that runs several group homes for Deaf people, a Deaf senior citizens program, interpreter services, and provides contracted staff to MSD.

Thanks.

http://factfinder.census.gov/bkmk/table/1.0/en/ACS/14_1YR/DP05/1600000US2629000

Housing Units: 51,819 2014 ACS 1-year Estimates
Occupied 39,125
http://factfinder.census.gov/bkmk/table/1.0/en/ACS/14_1YR/CP04/1600000US2629000

A couple of things to note about these data. You will notice that the totals from the population estimates and the ACS are slightly different. This is a result of the different methods employed by the two programs. The total difference is 12 persons which is not statistically significant. There is also a slight difference in the total of the first two cohorts in the population structure data and the estimates that I sent Robbie. Those are due to residuals form combining dataset and the process I used to make those estimates. Those difference are also well within the margins of error.

Regarding the differences in the estimates for the children under 5 years, I would need to know exactly where the 9,000 number is coming form or how it was derived to speak to it. The 2010 Census reported 8,177 children under 5 years in Flint, but that is still a ways off from the 9,000 number I have seen here and elsewhere.

Regarding the housing units estimates. If you have better local data that is derived from state resources, those might be better to use if the methodology is sound. The estimates for housing units above are derived from an estimation process that involves collecting local data and from surveys. The benefit is that they are nationally comparable to other cities, but if you believe that the local data is better and more accurate, those might be good to use.

Please let me know if you have further questions or if I can be of further assistance,

Eric

Subject: Re: Genesee County and City of Flint kid estimates

I had to look up some population numbers and came up with about 9,000 kids five and under - just deducing from the 2010 Census and some updated numbers. So this looks a little low to me, but God knows I didn't use a scientific method.

I've also heard others say around 9000 kids five and under .... But I imagine the numbers below are based on better methodology.

These are the numbers we're using for budget estimates on the education-side. We got them from the state demographer. We should use these numbers for any other child-based program estimates.

Kurt – Can you verify whether or not the front office is using these numbers, or other numbers when talking about the problem?

Subject: RE: Flint data (note email data is same as attachment)

Robbie,

City Data --

Using the same methodology and sources as we have previously discussed I estimate the segment of the population in question to be structured as follows:

0	1219
1	1223
2	1243
3	1288
4	1264
5	995
6	1050
7	1060
8	1067
9	1075

These data are specifically for the City of Flint.

To derive these population sizes, I took the 5-year cohort sizes from the 2014 ACS 1-year estimates and then disaggregated them into single year cohorts based on the population distribution of Genesee County. As a consequence there may be some discrepancy between the single year estimates within the 5-year cohorts, i.e. 0-4 and 5-9, but not

between. Another way to say that is some of the children that I estimate to be 3 years old may actually be 4 and some of the 7 year olds may be 8, but there should not be 4 year olds that are 5.

Subject: Flint Population Statistics

Hi Kevin,

A couple questions...

1. Is there a fact sheet with stats on how many people/households are affected by the water crisis?

I am writing a request to USDA for emergency food and would like some info that shows the scope of the number of people affected. I do not want to just pull numbers off the internet that may be different than info we have previously shared... Marla wants the letter done now (she is out starting tomorrow), so the quicker you respond the better

2. Also, I tried to call the MDE phone at SEOC and got a prerecorded message. Did we get a new number? If so, what is it?

3. And... what is the new address for SEOC? I am not finding it in the e-mails...

Thanks,

Tom

Tom

The Recovery unit is in a debriefing meeting at the moment. They have the information we need. I will grab them as soon as they finish.

Address here is 7150 Harris Road, Dimondale. Check in at the entrance (will have to park a fair distance away) and they will escort you to new SEOC.

Phone number at SEOC for MDE is : ɔne is operational, to my knowledge.

Stay tuned. I will get information as soon as I possibly can to get to you

Got it. Thanks Dave.

At this point, we are only discussing this "grouping" of potential impacted students. If discussions progress, I may reach out again in an effort to coordinate with the GISD Synergy contact and yourself, if that is okay.

Thanks again for your efforts, Dave

Subject: RE: Students exiting impacted Flint zip codes

Yes, could be done, but would be a bit more difficult – each district has their own "bucket' within the SIS system (and I'm not the SIS go-to person, though could work with the person who is), so would need to get by-district extracts of the kids who left. An added wrinkle, 3 of our districts – Swartz Creek, Clio, and lake Fenton – use PowerSchool as their SIS, so we would need to get this info from them (the rest of the districts use Synergy as their SIS, and we have access to all of their data)

Dave,

There is discussion (not at level of directive at this point) about students (within impacted zip codes) that have left GISD to attend another school (both in and out-of-state). Would it be possible to draw exit data of that nature from the GISD SIS?

Again, Dave, at this point this is in hypothetical discussion stage, but thought I would inquire should it become a directive at some point.

Any thoughts?

Subject: RE: Flint Water Crises (SEOC update, January 24, 1600)

Hi Janet. We have completed a comparison of lists from MDE with LARA and I have attached the updated info.

The color coding means:

White – in Hot Zone – potential replacement location – probably should discuss further
Pink – Not on Flint water system and will not be targeted for replacement
Yellow – DHHS Facility
Bronze – On MDE list and on LARA list for replacement.
Light Blue – on LARA Child Care facility list for replacement

We also compared to the GIS map from the SEOC and the following schools are on the map in the "Hot Zone" but are not on any of your lists. Do you know why MSP EOC GIS would have data only from 2013? We need to know about these facilities asap. Thanks.

Subject: Update Call (09:30), 2/1/2016

Here is the update from the 09:30, 1 February call at SEOC:

Please note the highlighted section below. This request from DHHS to MDE has been confirmed as a priority (Governor's Office request) and has a deadline of COB today (Monday). Would like to report that we have information prior to 16:00 call today, if possible.

SitRep due at 17:00 today

Objectives for next operational period (2-9 February) have been updated

Operations: Added objective to address donation coordination

NWS: A little active over next couple days. Tuesday AM, light rain/snow, trendy in nature. Chance of thunder, 6pm-midnight. Temperatures falling Wednesday from 40's into 30's rest of week

DHHS: Number of MDHHS in Flint meeting with Board of Commissioners

LARA: No update

DEQ: Know more after 3pm today with sampling and coordination. No sampling scheduled until Saturday at Freeman School (may change)

Human Services: MDE working with MSD to confirm installation of drinking fountains at Stephens Hall. LARA testing tentatively scheduled for 5 February. Request of MDE for all organizations and all food programs within impacted 16 zip codes (email to Marla with specifics). That request is a priority and expected COB today (Monday)

OCR: Staff as well as members of Middle Eastern Affairs Commission meeting regarding health plan tomorrow

Red Cross: 10 water response teams out yesterday. Expect same today. Able to handle 194 event-based volunteers yesterday. Volunteer Center open 9-5 today. Will start assembling water kits if instructions arrive

Aging/Adult: No update

MSP: No update

MNG No update

DOC: No update

DTMB: No update

GIS: Working on incorporating new franchise customers into system

Local Liaison: Priority of donated water to warehouses that have capacity to receive them. Coordinating volunteer teams with Red Cross. 3 Team Rubicon out today.

Logistics: No update

Finance: Meeting with State Budget Office (SBO) tomorrow morning. Discussing collaboration to track financials

Recovery: Sent Red Cross teams toward franchise customers yesterday (242 in list, 107 serviced yesterday). Today, local EOC to coordinate meeting to discuss protocol for volunteer work

PIO: No update

JIC: Trying to plan a legislative briefing for tomorrow.

Deputy Director: Going through a transition, how we work with UCG in Flint. No like we work with FEMA. Very important that we are putting all notes in Activity Logs. Make sure that we are documenting in logs (important). If you have ECC operating, make sure they are coordinating with you and being shared with SEOC (Activity Logs). Sync up with ECC's so we get all information we need. Logistics, any concern with warehouse space? This weekend we were notified that 15 semi-loads are heading to Flint. We need to know when/where. Planning: Governor looking at "week out" (this week) that are going to be accomplished.

FCO: No update

Subject: Flint Water Crisis (SEOC update: January 29, 1600)

1. MDE SEOC reps are at the new SEOC in Dimondale, MI. Part of the state's secondary complex. MSP-EOC-MDEDUCTN email works; phone does work yet, but not sure it is our final number; use cell phone number of person you are trying to reach.

2. LARA reports: LARA reached out to Mark Bouvy, Administrative Manager with the Michigan School for the Deaf, to see when he expects construction to be complete at the school. The landlord of the building where the school is located had decided to go ahead and replace all the faucets on their own. After construction is complete, LARA will coordinate with DEQ to complete the water testing at the facility. Mark is out of the office until Monday, Feb. 1.

3. This is if interest because LARA is trying to get Stevens Hall scheduled for follow-up testing. I copied the above entry from Mi-CIMS. I told Alesha that Mark has an out of office message, but will answer his email. She said there is no hurry.

4. Consistent message: see separate on messaging on lead blood levels and lead water levels. The latest info is in the SEOC in the JIC folder.

5. 1600 phone call: Call was less than 10 minutes.
    a. DEQ starting to report out on residence testing results. This is why the message is so important.
    b. MDARD wants to ensure they have message straight to food establishments.
    c. Today's JIC dust up concerned an alleged White House press release/conference that was using incorrect or misinterpreted data. Lots of people flying around.
    d. Operations to continue in Flint over the weekend. Corporate volunteers integrating with Red Cross volunteers.

6. OSS provided updated CACFP sponsor spreadsheet. This has all the updated info for sponsors. Added to Mi-CIMS. Copy is in Flint Water folder on desktop. Copy of email in Child Nutrition folder.

Subject: Consistent Messaging of elevated lead levels

Kyle, Marty, and SEOC reps,

Big to-do today about a consistent state message. There was a large conference call about what is safe. Bottom line: any MDE message should not address what is safe and what is not for lead blood lead levels and lead water levels. People are confusing the numbers, the tests, and the difference between risk levels, actionable levels. There are different levels for different ages. MDE should defer to the experts.

MDARD, DEQ, DHHS, FEMA, EPA are all involved with this. Department Directors will have to agree to a single state message.

SEOC Staff: MDE will be invited to future conference calls on this message. The new JIC has a teleconference room, and if you get invited go the meeting. Take notes and make sure you get info to Marty and Kyle. If you get any info on a uniform message please pass it on.

Subject: SEOC coverage next week.

SEOC staff:

1. I will be out next week. Kevin will be the lead for SEOC issues. I have informed Richard Thelen. Any schedule changes should be coordinated with Kevin.

2. New SEOC location: Aimee has been here, so you can ask her where we are sitting. It may change as they continue to get the place set up. My I-phone brought me right here (south on Lake Lansing Road, west on Canal Road, first left into GOB complex.).
    a. Entrance: you will enter the General Office Building in the middle, look for the sign that says "Entrance." Go in and show the guard your ID. You are looking for neon yellow signs that say SEOC Hardcover (or something). Our state badge will get you through a door. Continue following yellow signs, and you will go out a door. Continue to follow the yellow signs (some are higher on the wall.) You will need your ID to into the door to the new SEOC. Walk through to the new SEOC, brightly lit, generally the same arrangement, but without pillars. Where to park? Huge parking lot, so park as close to the building as you can. There is easy access off of I-96.
    b. Where do we sit? Currently we are sitting in the second row, main floor. Second station from the right, off the middle aisle (the middle aisle leads up to the elevated main tier). Our computer is labeled: MSP-EOC-MDEEDUCTN with a yellow sticky note. The computer works, you can log-in to MiCIMS and email. The phone does not work. Mark from Civil Rights is on the left. The DHHS crew is in the tow behind us.

3. Hot issues. There are a number of calls for data. Dave Treder, GISD, is a great resource. Kevin knows him personally. Work with Dave if you get requests; feel free to coordinate through Kevin. We have also been getting calls forwarded that need follow-up. Fox example, a PSA contacted the SEOC and said they had no water resources and we only got a number. Aimee called and found out it was International Academy of Flint. She called and gave them info. Another example is the SODEXO-Magic manager for Flint Community Schools "heard" that the filters were not filtering. He got that info from the recent town hall. Kevin tacked that down and found that the filters are all NSF approved. We got the info back in both cases. Part of our on-going tasks will be to get the correct info out.

4. A second MDE All update message should go out soon.

Louis

> **Subject: RE: School for the Deaf Parent meeting**
>
> Good afternoon,
> We were directed by the previous OSE Director to host 3 meetings a year. This is a scheduled meeting. There was rumblings on Facebook and in person about the safety of lead particularly for showers.
> We have an agenda for the Meeting
> - Water
> - My replacement

- I can't remember the other items.

It may be the usual 7 people ...it may be more. The news stations played it as this big meeting about water.
It will be held in the Media Center in the front of the building which is all glassed in. The room is opposite the gym and anyone attending the meeting will have sight access.

Our purpose for this meeting was twofold

1. Ally fears
2. Provide parents with info regarding upcoming events

Our fears are

1. that the press will show up
2. we will not sound authoritative nor have the background knowledge re the safety of the water for showers.

- The meeting runs from 6-7:30
- I will end it at the time.
- There will be cookies/ coffee and punch. If basketball gets over the kids will try to abscond with all of the cookies so get yours early.
- There will be 2 Sign Language Interpreters. I will most likely facilitate the meeting.
- I will use the language of power in the room. If no Deaf parents I will use the interpreters.
- IF we have Deaf parents I will sign and the interpreters will voice for me.
- There will be an agenda distributed before the event I hope.
- Mark gave it to his secretary.
- We will have it on chart paper at the front.

Hi April,

My counterpart in the SEOC from the Department of Licensing and Regulatory Affairs (LARA) just returned from a meeting at the School for the Deaf in Genesee County. They are very concerned about their students bathing in the water who live in the dormitory at the school, because many of them have

feeding tubes and etc. Many parents are even considering taking the kids out of the school. A meeting has been scheduled with parents for February 9th. Is this something that the LHD could send a subject matter expert to, perhaps your local Medical Director, to help ease their concerns and answer their questions?

Please let me know.

Thank you,

Louis,

I spoke with DHHS State Nurse Consultant for Lead Program, Karen Lishinski, about this last night. She wanted to know potential questions they might get about the water situation.

I told her that we anticipate two general topics.
1. Is water safe for showering?
2. What are the health impacts of kids having drank the water? What should parents be looking for in their children that might indicate lead poisoning?

The meeting is set for February 9th from 6:00pm to 7:30pm in the MSD Media . Below is the draft list of agenda items. I told Karen that the DHHS health expert should feel free to leave after the water topic is addressed.

1. The Water Situation
2. How parent contact happens expeditiously
3. Structured Dialogue
4. New principal recruitment process
5. Lt Governor Visit ??? (If it went well)
6. Scheduling for Fall/Use of space

SEOC Update Briefing 1/29/16 @ 09:30

- New SEOC is up and running!
- Upper 20s today – 40s-50s over the weekend
- Health has submitted request regarding pets and water
- Water testing results posted on web to date – looking at copper as well
- Chrysler has a group of volunteers out today with Red Cross
- Community Partners meeting yesterday – brought up volunteer reception center has a website now flintvolunteer.com
- Beginning plan for switching to community based water distribution
- Natl Guard - 1, 5, and 8 have traffic flow issues
- Active alarm at the warehouse last night – motion detector activated it
- New door cards being printed and will be in Flint this afternoon
- DNR have completed lead line map – comparing to reported lead levels
- Trying to coordinate that all volunteers/visitors to homes are wearing similar badges
- All data should be in the system this morning and caught up
- Capt K -- The governor is wanting daily numbers – sampling, etc. (Mostly DEQ at this time) He will be in Flint for most of today, and will be meeting with people from gov office. Will be addressing trying to lessen duplication of efforts (gov office directly contacting people from SEOC asking for same info).

Subject: RE: Clarity to data request from GISD

Rich,

Here is the response to the request for by-district counts, for districts that contain any part of specified zip-codes.
(48501, 48503 , 48502, 48503, 48504, 48505, 48506, 48507, 48509, 48519,48529, 48532)

On the Spreadsheet, I've included the MT. MORRIS School District and the two Charter Academies WOODLAND PARK ACAD and GRAND BLANC ACAD.
-- the attached pdf has the school district boundaries and zip code boundaries (pg 1) and the charter school locations and zip code boundaries (pg 2) – I'll let you decide if you want to keep them as part of your totals.

5-10 year olds, by zip code, all kids and kids within the Water System.
(someone may notice slight differences in the number of kids – as I spot-check addresses, I'm making adjustments)

ZIP_CODE	ALL	Water_System
48458	1455	.
48501	8	8
48502	29	27
48503	1629	1625
48504	2191	1534
48505	1702	1315
48506	1991	1110
48507	2159	1305
48509	534	2
48519	460	.
48529	764	14
48532	1276	171

To: MSP-EOC-MDEDUCTN
Cc: Hagel, Lisa
Subject: RE: Clarity to data request from GISD

Below is a Table with the number of kids, ages 5 to 10, with addresses in the Zip Codes you identified (from the Fall 2015 MSDS Submission)
-- I've attached a map with the Flint City & Zip Code Boundaries (wanted to see what was going on with the numbers I produced)

Here are
1) For age, I used DOB, a "current date" of 1 Jan 2016, and the "floor" function (so, for example, any age between 2.0 and 2.99... will be 2). I can easily change the current date or the function, if you'd like something different.

2) I have kids coded as either inside or outside the Flint Water System (only as good as the geocoding; I did a number of spot checks, but didn't examine all +13,000 addresses – my overall impression is that these estimates are pretty good). Water_System = the kids with these Zip_Codes that are within the Flint Water System; ALL = all the kids with these Zip_Codes (both inside and outside the Flint Water System).

Students, Ages 5 to 10, by Zip Code

ZIP_CODE	ALL	Water_System
48458	1454	0
48501	8	8
48502	29	27
48503	1627	1623
48504	2190	1533
48505	1702	1315
48506	1990	1113
48507	2156	1303
48529	763	3
48532	1274	171
TOTAL	**13193**	**7096**

Subject: Clarity to data request from GISD

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

Please pay special attention to the NOTE at the end of the 16:00 update. They are requesting you arrive at 7:45 to get an escort in. Also, I have removed all items from the hard drive of this computer as there will be a new PC in the new location for you in the morning. They are uncertain if the phones will be operational, so make sure you have a cell phone.

Have fun. Been a bit hectic today.

Should be a great FUN FRIDAY for you!

Subject: Inquiry at MDE from Food Provider

MDE has received an inquiry from an individual that identified themselves as a regional management level individual with Sodexo Magic, a food provider to school districts in Michigan.

He states that he was in attendance at the Town Hall meeting (he indicates the one that Debbie Stabenow attended) last night. During the course of the Town Hall meeting, he indicates that multiple times it was stated that filters were not working or functioning properly.

We would like to alert the appropriate department/unit of this inquiry and potentially garner talking points for an MDE response.

Thank you.

Aimee

Please pay special attention to the NOTE at the end of the 16:00 update. They are requesting you arrive at 7:45 to get an escort in. Also, I have removed all items from the hard drive of this computer as there will be a new PC in the new location for you in the morning. They are uncertain if the phones will be operational, so make sure you have a cell phone.

Have fun. Been a bit hectic today.

Should be a great FUN FRIDAY for you!

Kevin

Subject: Update from 16:00 call (January 28)

IMPORTANT NOTE: Please read highlighted area near end of this document for information on arriving at new location tomorrow!

Here is update from 16:00 call:

Operations: Need update on status of warehouse. Tomorrow phone call at 09:30 will proceed as planned. Be aware there could be some challenges with first morning at new complex with conference call. If not, expect briefing via email

DHHS: Dr. Wells looking to start communication with health care community. Starting with webinars next Wednesday. Looking at historical data. Added couple more zip codes for blood testing

MDARD: Referral from DEQ with request for lead level in area. Issue has been addressed. Offer of assistance with water testing. MDARD not in need of help in this area at this time. Uniform credential will be utilized for inspectors. Working on pets and garden watering communication, sending to JIC for approval. Requests from schools in Genesee Schools for testing. MDE did not send information out, food providers did. OCR inquiry about "exporting" Flint water issue via sale at Farmer Market-type events.

LARA: No update

DEQ: Spoke with gentleman with interest in providing support. Working with him to connect with right people. Citizen calls coming from our own Drinking Water Laboratory. Having a planning meeting at EEC to prioritize DEQ, DHHS, LARA, and MDE to provide consistency in message. GIS mapping for lead service lines is complete (DNR GIS).

Human Services: Clear that our second order of pitchers came in. Nothing else procured. MDE reports work today with GISD to secure data. Two specific data spreadsheets, one with students within impacted zip codes ages 5-10 (as requested by DHHS) and a larger spreadsheet with students within impacted zip codes ages 0-21+ (as requested by State Budget Office). Both posted on Activity Log and SitRep for today

Red Cross: Volunteer reception area was open all day. Continuing to assemble test kits.

MNG: Question about pods using strict military discipline (1 case per household). Answer is no. Using judgement at pods and handing out cases accordingly

MSP: No update

DOC:	No update
DTMB:	Continue to work on requests. Stopped production on printing, awaiting Community Health (DHHS) to approve. Door handle cards/recycling pamphlets available for delivery tomorrow to Flint
GIS:	Created maps of schools for LARA. Available. Religious and health care facilities. Connectivity issue was localized, not widespread.
Local EOC:	No update (at meeting with Red Cross)
Logistics:	Warehouse proposal and recommendation up to Cap for approval. Options are very limited. Request for donation management personnel to assist team (need 2 people).
FEMA:	No update
Planning:	No update
Finance:	No update
Recovery:	Did get paper backlogged, Red Cross resources completed. GIS has information (logins) to tally backlogged information
JIC/PIO:	Partnership meeting at 3pm. MNG attended to dispel rumors. ID required signs floating around social media. They have been removed from sites. Will post Town Hall on web page. FOIA release (Progress Michigan found January email about water distribution). More information to come
Information on move tomorrow:	Meet at GOB (7150 Harris Road) at 7:45am, please. Enter main entrance. There are detours that will utilize outside entrances (bring coats). Need to locate correct PC for department (MSP-EOC-MDEDUCTN). Bring cell phones as phones may not be working at this point. Take whatever you need that is specific to your agency. State badges will allow access to facility. Be patient with them as there is a lot of construction still going on. We should be able to be operational in there tomorrow
Next call:	09:30 tomorrow (Friday)

Subject: RE: Clarity to data request from GISD

Below is a Table with the number of kids, ages 5 to 10, with addresses in the Zip Codes you identified (from the Fall 2015 MSDS Submission)
-- I've attached a map with the Flint City & Zip Code Boundaries (wanted to see what was going on with the numbers I produced)

Here are
1) For age, I used DOB, a "current date" of 1 Jan 2016, and the "floor" function (so, for example, any age between 2.0 and 2.99... will be 2). I can easily change the current date or the function, if you'd like something different.

2) I have kids coded as either inside or outside the Flint Water System (only as good as the geocoding; I did a number of spot checks, but didn't examine all +13,000 addresses – my overall impression is that these estimates are pretty good). Water_System = the kids with these Zip_Codes that are within the Flint Water System; ALL = all the kids with these Zip_Codes (both inside and outside the Flint Water System).

Students, Ages 5 to 10, by Zip Code

ZIP_CODE	ALL	Water_System
48458	1454	0
48501	8	8
48502	29	27
48503	1627	1623
48504	2190	1533
48505	1702	1315

48506	1990	1113
48507	2156	1303
48529	763	3
48532	1274	171
TOTAL	**13193**	**7096**

Subject: Clarity to data request from GISD

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

Department of Health and Human Services (DHHS) is requesting the 5-10 year old data from an additional two Zip Codes:

48509 and 48519

Is it possible for GISD to run that data as provided below for other Zip Codes?

Thanks again.

Subject: RE: Clarity to data request from GISD

Below is a Table with the number of kids, ages 5 to 10, with addresses in the Zip Codes you identified (from the Fall 2015 MSDS Submission)
-- I've attached a map with the Flint City & Zip Code Boundaries (wanted to see what was going on with the numbers I produced)

Here are
1) For age, I used DOB, a "current date" of 1 Jan 2016, and the "floor" function (so, for example, any age between 2.0 and 2.99... will be 2). I can easily change the current date or the function, if you'd like something different.

2) I have kids coded as either inside or outside the Flint Water System (only as good as the geocoding; I did a number of spot checks, but didn't examine all +13,000 addresses – my overall impression is that these estimates are pretty good). Water_System = the kids with these Zip_Codes that are within the Flint Water System; ALL = all the kids with these Zip_Codes (both inside and outside the Flint Water System).

Students, Ages 5 to 10, by Zip Code

ZIP_CODE	ALL	Water_System
48458	1454	0
48501	8	8
48502	29	27
48503	1627	1623
48504	2190	1533
48505	1702	1315

48506	1990	1113
48507	2156	1303
48529	763	3
48532	1274	171
TOTAL	**13193**	**7096**

Subject: Clarity to data request from GISD

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

Cc: Golzynski, Diane (MDE); Burgess, Louis (MDE); Moss, Marla (MDE); MSP-EOC-MDCH
Subject: RE: Clarity to data request from GISD

Richard,

In response (see response in red):

1. Was this data run only for Flint School District schools or all schools that overlap these Zip codes?

   It is our understanding that data was run for all schools that overlap the stated Zip Codes under discretion of GISD

2. What were the schools that this data represents?

   All schools within impacted Zip Codes (Public and PSA). I do not see evidence in data spreadsheet that Private/Parochial are included

3. Were parochial schools, homeschoolers, or charter schools included in the numbers below?

   PSA (Charter Schools) were included, according to the data spreadsheet. I do not see evidence that Private/Parochial/Home Schools were included. That may be outside the immediate scope of GISD

4. David references a "Fall 2015 MSDS Submission". I used 2014-2015 data from the following MDE site (https://www.mischooldata.org/DistrictSchoolProfiles/EntitySummary/SchoolDataFile.aspx). Specifically, I used the Educational Entity Master file and the Student Count file for different school districts. Are these comparable data sources? I used the K-6th grade to approximate 5-10 year olds as I couldn't find a data file with age.

   My opinion would be that Dave's use of MSDS Submission from Fall 2015 would be more accurate in the immediate than that of the 2014-15 data sets. He was able to filter via age component by using MSDS submission data

5. Do you have a recommendation on the best data source to use for estimating the number of kids attending school districts that overlap the zipcodes provided below.

   Dave has provided an additional spreadsheet upon our request that represents age-specific data, by age and entity for all Public and PSA entities that are have students residing within impacted Zip Codes (see attached)

Also, there was a change in the Zip codes our administration is using for this effort. They are now using the following zip codes:
48501, 48502, 48503, 48504, 48505, 48506, 48507, 48509, 48519, 48529, 48532.

If possible, we would like to see the addition of the two new zip codes, but please let me know if this is a possibility.

I will forward a request to Dave to pull data from the additional two Zip Codes today.

Please let me know if you need anything additional, Richard. I have attached the additional (all ages) document for review. I will send updated information (two new Zip Codes) to your attention upon our receipt of that documentation.

Kevin

Subject: RE: Clarity to data request from GISD

Hello Kevin,

Thank you for the information. I did have some follow up questions –

1. Was this data run only for Flint School District schools or all schools that overlap these Zip codes?
2. What were the schools that this data represents?
3. Were parochial schools, homeschoolers, or charter schools included in the numbers below?
4. David references a "Fall 2015 MSDS Submission". I used 2014-2015 data from the following MDE site (https://www.mischooldata.org/DistrictSchoolProfiles/EntitySummary/SchoolDataFile.aspx). Specifically, I used the Educational Entity Master file and the Student Count file for different school districts. Are these comparable data sources? I used the K-6th grade to approximate 5-10 year olds as I couldn't find a data file with age.
5. Do you have a recommendation on the best data source to use for estimating the number of kids attending school districts that overlap the zipcodes provided below.

Also, there was a change in the Zip codes our administration is using for this effort. They are now using the following zip codes:
48501, 48502, 48503, 48504, 48505, 48506, 48507, 48509, 48519, 48529, 48532.

If possible, we would like to see the addition of the two new zip codes, but please let me know if this is a possibility.

Thank you and have a great day,

-- I've attached a map with the Flint City & Zip Code Boundaries (wanted to see what was going on with the numbers I produced)

Here are
1) For age, I used DOB, a "current date" of 1 Jan 2016, and the "floor" function (so, for example, any age between 2.0 and 2.99... will be 2). I can easily change the current date or the function, if you'd like something different.

2) I have kids coded as either inside or outside the Flint Water System (only as good as the geocoding; I did a number of spot checks, but didn't examine all +13,000 addresses – my overall impression is that these estimates are pretty good). Water_System = the kids with these Zip_Codes that are within the Flint Water System; ALL = all the kids with these Zip_Codes (both inside and outside the Flint Water System).

Students, Ages 5 to 10, by Zip Code

ZIP_CODE	ALL	Water_System
48458	1454	0
48501	8	8
48502	29	27
48503	1627	1623

48504	2190	1533
48505	1702	1315
48506	1990	1113
48507	2156	1303
48529	763	3
48532	1274	171
TOTAL	**13193**	**7096**

Subject: Clarity to data request from GISD

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

MSP-EOC-MDEDUCTN

From: MSP-EOC-MDEDUCTN
Sent: Thursday, January 28, 2016 1:37 PM
To: Schneider, Richard (DHHS)
Cc: Golzynski, Diane (MDE); Burgess, Louis (MDE); Moss, Marla (MDE); MSP-EOC-MDCH
Subject: RE: Clarity to data request from GISD

Richard,

In response (see response in red):

1. Was this data run only for Flint School District schools or all schools that overlap these Zip codes?

   It is our understanding that data was run for all schools that overlap the stated Zip Codes under discretion of GISD

2. What were the schools that this data represents?

   All schools within impacted Zip Codes (Public and PSA). I do not see evidence in data spreadsheet that Private/Parochial are included

3. Were parochial schools, homeschoolers, or charter schools included in the numbers below?

   PSA (Charter Schools) were included, according to the data spreadsheet. I do not see evidence that Private/Parochial/Home Schools were included. That may be outside the immediate scope of GISD

4. David references a "Fall 2015 MSDS Submission". I used 2014-2015 data from the following MDE site (https://www.mischooldata.org/DistrictSchoolProfiles/EntitySummary/SchoolDataFile.aspx). Specifically, I used the Educational Entity Master file and the Student Count file for different school districts. Are these comparable data sources? I used the K-6th grade to approximate 5-10 year olds as I couldn't find a data file with age.

   My opinion would be that Dave's use of MSDS Submission from Fall 2015 would be more accurate in the immediate than that of the 2014-15 data sets. He was able to filter via age component by using MSDS submission data

5. Do you have a recommendation on the best data source to use for estimating the number of kids attending school districts that overlap the zipcodes provided below.

   Dave has provided an additional spreadsheet upon our request that represents age-specific data, by age and entity for all Public and PSA entities that are have students residing within impacted Zip Codes (see attached)

Also, there was a change in the Zip codes our administration is using for this effort. They are now using the following zip codes:
48501, 48502, 48503, 48504, 48505, 48506, 48507, 48509, 48519, 48529, 48532.

If possible, we would like to see the addition of the two new zip codes, but please let me know if this is a possibility.

I will forward a request to Dave to pull data from the additional two Zip Codes today.

Please let me know if you need anything additional, Richard. I have attached the additional (all ages) document for review. I will send updated information (two new Zip Codes) to your attention upon our receipt of that documentation.

Kevin

Subject: RE: Clarity to data request from GISD

Hello Kevin,

Thank you for the information. I did have some follow up questions –

1. Was this data run only for Flint School District schools or all schools that overlap these Zip codes?
2. What were the schools that this data represents?
3. Were parochial schools, homeschoolers, or charter schools included in the numbers below?
4. David references a "Fall 2015 MSDS Submission". I used 2014-2015 data from the following MDE site (https://www.mischooldata.org/DistrictSchoolProfiles/EntitySummary/SchoolDataFile.aspx). Specifically, I used the Educational Entity Master file and the Student Count file for different school districts. Are these comparable data sources? I used the K-6th grade to approximate 5-10 year olds as I couldn't find a data file with age.
5. Do you have a recommendation on the best data source to use for estimating the number of kids attending school districts that overlap the zipcodes provided below.

Also, there was a change in the Zip codes our administration is using for this effort. They are now using the following zip codes:
48501, 48502, 48503, 48504, 48505, 48506, 48507, 48509, 48519, 48529, 48532

If possible, we would like to see the addition of the two new zip codes, but please let me know if this is a possibility.

Thank you and have a great day,

Richard,

Please find data requested below in relation to 5-10 year old students within impacted Flint zip codes. Notice that Dave also provided data, by zip code, and by two categories (ALL and Water_System). He explains that in his narrative.

Please let me know if you need anything else.

To: Burgess, Louis (MDE)
Cc: Moss, Marla (MDE); Golzynski, Diane (MDE)
Subject: FW: Inquiry at MDE from Food Provider

FYI Louis.

I talked with Operations individual, who instructed me to forward him an email with the information. He will run it up appropriate channels and get us a response to share. Standing down for now until further orders arrive.

From: MSP-EOC-MDEDUCTN
Sent: Thursday, January 28, 2016 1:10 PM
To: MSP-SEOCOPSC
Subject: Inquiry at MDE from Food Provider

MDE has received an inquiry from an individual that identified themselves as a regional management level individual with Sodexo Magic, a food provider to school districts in Michigan.

He states that he was in attendance at the Town Hall meeting (he indicates the one that Debbie Stabenow attended) last night. During the course of the Town Hall meeting, he indicates that multiple times it was stated that filters were not working or functioning properly.

We would like to alert the appropriate department/unit of this inquiry and potentially garner talking points for an MDE response.

Thank you.

Sent: Thursday, January 28, 2016 1:00 PM
To: Hagel, Lisa
Cc: Treder, David
Subject: RE: Clarity to data request from GISD

Absolutely, Lisa. I apologize for not providing that synopsis.

1. The information relative to 5-10 year old students was requested of MDE by Richard Schneider, who is with the WIC division of Michigan Department of Health and Human Services (DHHS). That information, as is typical, is also being shared within the electronic systems at the State Emergency Operations Center (SEOC).

2. The information relative to 0-3 and 4/5 year old students within the impacted Flint zip codes was requested by Kyle Guerrant, Deputy Superintendent at MDE in response to a request by State Budget Office (SBO).

The added age-specific information is invaluable, as it provides information associated with MDE/SEOC response to requests and programming options.

I also apologize for the duplicative requests. We have continued to request departments utilize this email address to funnel questions to/from, in an effort to alleviate that. This email address is assigned to the department (MDE) as it relates to the Flint Water situation and Emergency response.

I hope this helps. Thank you for your assistance and patience. Please let me know if I can help or clarify further.

Kevin

Kevin,
Can you please let me know who or which departments you are sharing this information with? I am receiving so many duplicative requests, I just want to ensure the right contacts receive what is needed.
Thank you for your assistance and effective work with Dr. Tender and GISD.

Lisa Hagel, Ed.D.
Superintendent
Genesee Intermediate
School District
Flint, MI

Once again, THANK YOU!

This information is great, as usual. I will share this as well. It appears they are attempting to narrow in on programming and age-based requirements associated. This data will assist greatly in those efforts.

Thanks again Dave!

I will reach out if we receive any further requests. A HUGE Thank You to GISD and yourself for your efforts in this!

I was asked to provide the number of kids, by the age groups "0-3" and "4-5"

As we've discussed, my data only includes the kids submitted in the MSDS system (from Fall 2015, the Fall Count Submission and the Fall Early Childhood Submission) – so the coverage I have for 0-3 is minimal.

The attached has the number of kids (who have an address that is within the Flint Water System) by Age, by Operating District, and Total – I'll let you total them however you see decide.

Feel free to call with any questions,
Dave

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

Louis

Another home run for Dave and GISD data!

What you are looking at is a spreadsheet with age (0 to 21+), by district, listed. To clarify, these students represent those residing WITHIN the impacted Flint water area (by zip code).

Please let me know if you need me to manipulate the spreadsheet to meet the needs of those requesting the data.

Richard,

Please find data requested below in relation to 5-10 year old students within impacted Flint zip codes. Notice that Dave also provided data, by zip code, and by two categories (ALL and Water_System). He explains that in his narrative.

Please let me know if you need anything else.

Subject: Clarity to data request from GISD

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

Kevin

Incident Action Plan #6

Flint Water Crisis, MI

Unified Coordination Group

(ASPR, CDC, EPA, FEMA)

Operational Period

Feb. 04, 2016 – Feb 06, 2016

0800 – 0800

INCIDENT OBJECTIVES (ICS 202)

1. Incident Name: Flint Water Crisis	2. Operational Period: Date From: 2/4/16 Time From: 0800	Date To: 2/6/16 Time To: 0800

3. Objective(s):

1a. Conduct emergency water testing to a) determine chlorine and bacterial levels in the water supply; and b) study efficacy of water filters. (WQTF)

2 Coordinate with local and State partners to evaluate and if needed, respond to higher levels of concern for lead and other contaminants. (WQTF)

3 Develop and implement environmental sampling plans to a) evaluate water quality concerns; b) conduct regulatory sampling in accordance with the LCR/SDWA; c) conduct sequential sampling to better understand lead leachability in the water distribution system; and d) establish a pipe-rig to assess water quality for transition to the KWA source waters. (WQTF)

4 Ensure compliance with EPA enforcement orders pursuant to this incident. (WQTF)

5a Coordinate the development of targeted public health messaging and communication products for lead exposure in collaboration with the Genesee County Health Department, the Michigan Department of Health and Human Services and US Environmental Protection Agency. (PEATF)

6 Develop and publish CDC recommendation advising lead testing for all children under 6 years of age and pregnant women with risk factors in collaboration with state and local health officials. (HMTF)

7a Provide lead education and a community engagement strategy to the Genesee County Health Department. (HMTF)

7b Provide nurse case work management to Genesee County Health Department. (HMTF)

7c Provide call center technical assistance to Genesee County Health Department. (HMTF)

7d Develop a data collection strategy for Genesee County Health Department. (HMTF)

8a Assess progress on Centers for Medicare and Medicaid Services (CMS) and Health Resources and Services Administration (HRSA) related requests from the State. (HSTF)

10 Assess progress toward improving micro-nutrient effort for the school system. (NETF)

11 Assess progress towards enhancing healthy food availability for the community. (NETF)

12a Coordinate the intergovernmental, public and external affairs effort to ensure awareness and visibility of communications activities regarding Flint water crisis with State and Federal partners. (PEATF)

13 Assess Federal programs that are related to meeting children's needs. (HSTF)

14 Assess Federal programs that are related to pregnant and nursing women. (HSTF)

15 Assess eligibility of Community Development Block Grant (CDBG) funds to meet the State's request for transportation support. (HSTF)

16 Assess approach to public messaging and outreach with State and Federal partners. (PEATF)

Water Quality Task Force (WQTF) **Health & Medical Task Force (HMTF)**
Human Services Task Force (HSTF) **Nutrition and Education Task Force (NETF)**
Public & External Affairs Task Force (PEATF)

4. Operational Period Command Emphasis:

Coordinate and support local and State government to provide Federal support to meet the needs of the Flint Community during the Water Crisis.

General Situational Awareness: Weather- Thursday Scattered flurries. Cloudy, with a high near 32. West wind 9 to 13 mph, with gusts as high as 20 mph.
Thursday Night Mostly cloudy, with a low around 22. Southwest wind 9 to 11 mph.
Friday Partly sunny, with a high near 35. West wind 9 to 13 mph, with gusts as high as 20 mph.
Friday Night Mostly cloudy, with a low around 24.

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. Incident Name/Location: Flint Water Crisis	2. Operational Period: Date From: 2/4/16 Date To: 2/6/16 Time From: 0800 Time To: 0800

3. **Location:** UCG Flint/ DTMB Building 125 East Union St, Flint MI

4. **Site Emergency Action Plan (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions):** UCG operating from Administration Building; if fire alarm activates exit building through fire tower stairways located in the elevator lobby and near cargo elevator, UCG Plans will have copy of current personnel assigned and be responsible for accountability, rally point will be across from main lobby entrance in front of parking garage. Do not return to the building until given the all clear by Command.

5. **Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities):** Avoid construction area in the main lobby. Rain and snow are expected and appropriate cold weather and rain gear should be in use. Driving conditions change with the weather. Temperature fluctuations result in wet pavement becoming ice and dangerous driving and walking conditions. Seat belt use is mandatory in rental cars in addition to all government vehicles.

6. **Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol):**
   - Facility has indoor restrooms to support up to 100 people (normal daily use).
   - Use refuse containers deployed about work area.
   - Please separate recyclables and deposit in appropriate containers (marked).
   - Regular hand washing is recommended. Wash hand after restroom use and prior to eating.
   - Canned and bottled water is available in the UCG.

7. **Security (Control Point and Site Security Protocol):** All personnel will wear issued identification and check with security in lobby when entering building if they have no building access card. Do not leave valuables in your car or your hotel room.

Do not travel alone. Use the buddy system.

7. Safety Officer Bill Kershner Contact:	2/3/16 1445

SAFETY MESSAGE/PLAN (ICS 208)

ASPR
ASSISTANT SECRETARY FOR PREPAREDNESS AND RESPONSE

1. **Incident Name:** Flint Water Crisis	**2. Operational Period:** Date From: 2/4/16 Date To: 02/6/16 Time From: 0800 Time To: 0800

3. **Location:** Genesee County Health Department, 630 South Saginaw St. , Flint Michigan, 48502 PHS Officers

4. **Site Emergency Action Plan:** (Alarm and Evacuation Signal, Route and Rally Point, Accountability and Critical Material/Process Actions): Evacuation routes posted in the main hall adjacent to where personnel are working. Point this out to Capt. Farabaugh, Cdr William Ruiz-Colon, and Cdr. Carma Ayala. They will brief crews. Evacuation point is corner of 3rd and Saginaw for accountability. Follow instructions of law enforcement when given. Building has automatic sprinklers, fire and smoke detectors. Exits are clearly marked and shown on evacuation maps located on each floor. Report illness/injury as soon as possible to Operations and Safety. All injuries/illness must be recorded in e-comp with Admin/Finance and Safety Officer.

5. **Hazardous Areas/Work Prohibitions (Prohibited Areas or Activities):** Use the buddy system when it is necessary to go out. Do not travel alone. Temperatures are ranging from the middle 40's to the lower 20's. Use cold weather gear and rain gear as needed. This results in snow and ice melting in the warmer temperatures and freezing again when temperatures drop and creating hazardous driving conditions and slippery footing. MAINTAIN SITUATIONAL AWARENESS. If assigned to do sampling in private homes be aware of any slip, trip, and fall hazards and pets in the home that might be hazardous.

6. **Sanitation (Toilets, Hand Washing, Shower, Waste Locations or Protocol):** Wash hands regularly and before meals and after restroom use. Dispose of waste in appropriate containers.

7. **Security (Control Point and Site Security Protocol):** Security Officers are in the building on the first floor. Travel in pairs utilizing the buddy system or larger groups. Do not travel alone. If you see any behavior you believe to be odd report it to Command. If you see something say something.

7. Safety Officer: Bill Kershner	**Contact:**

8. Prepared by: Name: Bill Kershner Position/Title: Safety Officer Signature:
Date/Time: 2/3/16 1430

SAFETY MESSAGE 02/03/2016

Weather conditions range from the middle 30s to the low 20s at night. Decreasing temps at night may cause icing. Hazardous driving and walking conditions may exist. Avoid walking in areas where ice exists. Adjust speed and distancing from other vehicles accordingly. Wear appropriate clothing for the weather conditions as per the HERA. ***MAINTAIN SITUATIONAL AWARENESS.***

Look on inside of your lodging door for instructions for emergency exits in the event of an evacuation and get with your team for accountability. Do not return to your room until you have been accounted for and given the all clear by command. Obey all instructions given by Law Enforcement.

Use the buddy system when traveling to dinner, shopping, or for meals.

REPORT ALL ACCIDENT/ILLNESS IMMEDIATELY TO OPERATIONS

POLLUTION/SITUATION REPORT
Flint Drinking Water Response - SitRep #11

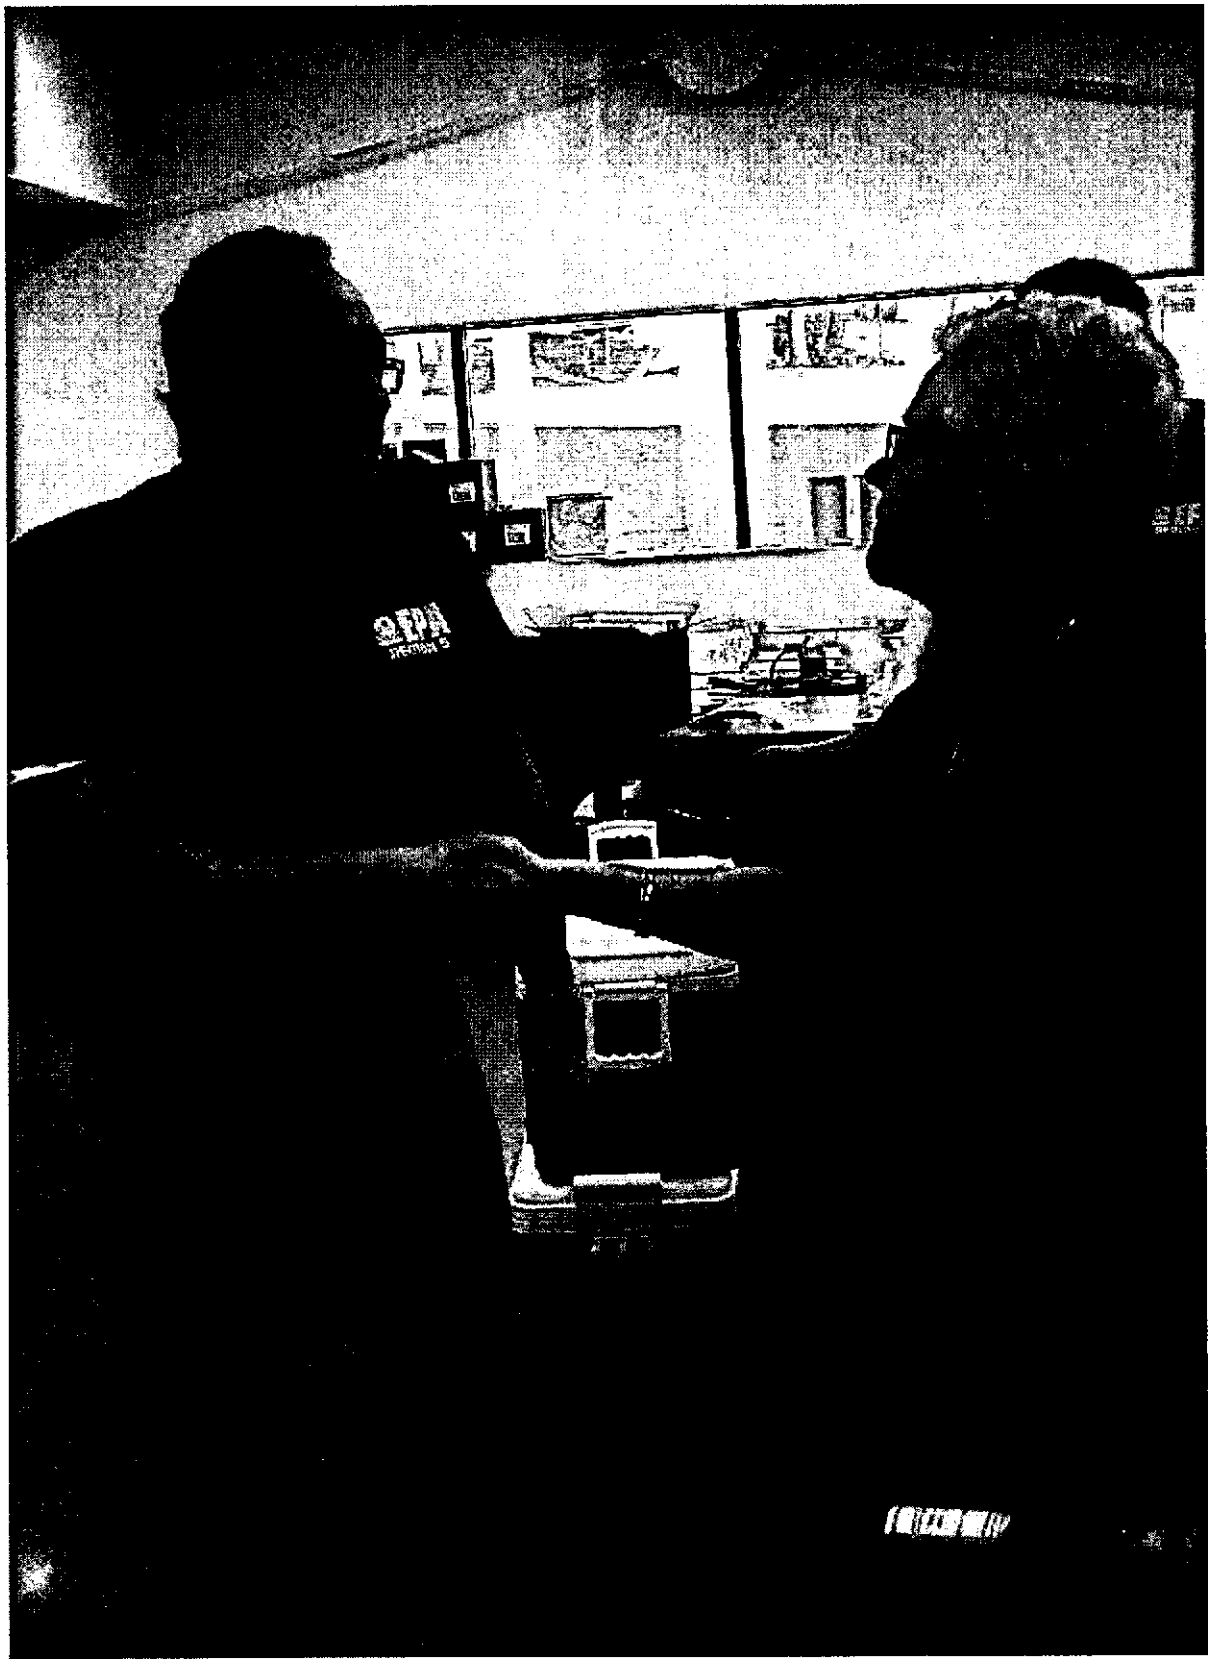
UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
Region 5

Subject: SitRep #11
Flint Drinking Water Response
Flint, MI

To: Flint Drinking Water Response Distribution List

Through: Mark Durno, Unified Command Liaison
From: Jaime Julian, Situation Unit Leader

Date: 2/2/16
Reporting Period: 2/1/16, 1700 hours – 2/2/17, 1700 hours



EPA

1 Introduction

U.S. EPA R5 has deployed a team to assist with the Flint Drinking Water Response. EPA is participating as part of a Unified Command Group with Office of the Assistant Secretary for Preparedness and Response (ASPR), the U.S. Environmental Protection Agency (U.S. EPA), the Centers for Disease Control (CDC), the Federal Emergency Management Agency (FEMA). Both ASPR and CDC are a part of Health and Human Services (HHS), which is the lead agency for this response.

1.1 Incident Command Post

The U.S. EPA Incident Command Post (ICP) is at Kettering University at 1300 Bluff Street. The staging area and Mobile Command Post (MCP) are located at this address. The Unified Command Post (UCP) is at 125 E. Union St.

1.2 EPA Operations Objectives

- Ensure health and safety of the public and response personnel.
- Collect, coordinate, manage, and communicate environmental and public health data.
- Determine the effects of reintroduced orthophosphate in reducing lead in the drinking water system through sequential sampling.
- Coordinate with EPA Office of Research and Development (ORD) system assessment of the drinking water system, including chlorine residual monitoring.
- Determine field efficacy of preventive measures.
- Respond to health agency requests for environmental sampling.
- Maintain effective communications with HHS, unified command, cooperating agencies, and the public.
- Determine a path forward with the community, coordinating agencies, Michigan Department of Environmental Quality (MDEQ), City of Flint, and health agencies to ensure the safe use of drinking water.

1.3 Unified Command Senior Leadership Objectives

- Provide immediate access to safe water.
- Ensure the safety of and public confidence in the water supply.
- Understand and address immediate health needs from potential lead exposure.
- Mitigate other impacts of the water contamination crisis on the residents of Flint.

2 Activities During Reporting Period

2.1 Operations Branch

- EPA Administrator attended morning Operations briefing.
- Gave a tour of the ICP to the Director of the CDC.
- Coordinated with MDEQ and Michigan Department of Health and Human Services (MDHHS) regarding High Lead Homes Strike Team.
- Worked with Water Branch and Region 5 Emergency Operation Center (EOC) to develop appropriate skill set for High Lead Homes Strike Team.
- Finalized procurement of a field lead testing device to be piloted by the High Lead Homes Strike Team.

- Worked with Community Involvement to determine route for EPA Administrator's tour of Flint.

2.2 Water Branch

- Performed lead sequential sampling at 2 homes.
- Performed grab sampling at 2 homes.
- Performed sampling at 1 home per citizen request.

2.3 ORD Water Assessment Team

- Verified and sampled 8 sites for the chlorine monitoring plan.
- Discussed chlorine monitoring with the Administrator of Flint City Schools, who indicated he would prefer EPA not sample at schools, citing concerns with press, parents, and children. In order to proceed, he requested a meeting with MDEQ, a city representative, and EPA. We are waiting for the school district to respond with a time/date for the meeting.

2.4 Data Management/GIS Team

- Met with water team to finalize field data collection tool.
- Worked with ORD to integrate their data collection with field data collection tool.
- Completed Scribe data import for Chlorine data as of 2/1/2016.
- Published Chlorine data to be consumed on Geoplatform.
- Developed flow charts for EPA data management and partner Common Operation Picture.
- Reviewed, tested and made updates to sampling application software.
- Created an FTP site on ER Cloud Server to be shared with Water Division.

2.5 Public Affairs/Community Involvement

2.5.1 Public Affairs

- Coordinated EPA press conference featuring Administrator Gina McCarthy and Acting Regional Administrator for EPA's Chicago Office, Robert Kaplan, at the ICP in Flint. WSMH TV, Detroit News, EE News, Detroit Channel 7, ABC12, Michigan Public Radio, WNEW, Flint Journal, AP, Reuters, World Socialist Website, Sinclair Broadcasting Group attended. Bob Kaplan was interviewed on-camera with ABC 12 and WNEW.
- Issued a press update last night reminding Flint residents to take specific steps to reduce potential lead contamination that may be present in the drinking water system—remove debris from faucet aerators, hot water heaters, and whole house filtration systems.
- Developed EPA hotline (800-426-4791) and email address (flintwater@epa.gov) for information about EPA's response efforts. The hotline will provide immediate, telephonic translation in multiple languages.

2.5.2 Community Involvement

- Assisted Water Branch during sampling efforts.

- Contacted local leaders to schedule water sampling and address their concerns about sampling, results and drinking water quality.
- Called local residents and set up appointments for various sampling types.
- Met CDC liaison and exchanged contact information in order to collaborate on future community outreach efforts.

2.6 Situation & Resource Unit

- Developed situation report.
- Updated and reported current staffing levels.
- Working on scheduling plan/rotations with R5 EOC.
- Developed procedures for mobilization and demobilization procedures/personnel log.
- Developing a demobilization checklist.

2.7 Logistics

- Provided EPA Administrator a tour of Mobile Command Post.
- Assisting with setup for EPA Administrator press conference.
- Received and distributed high-visibility safety vests from Region 5 safety office.
- Transported water samples to Region 5 Laboratory in Chicago.
- Issued key cards and badges as needed.

2.8 Unified Command Liaison

- Conducted daily review of overall management objectives and participated in Incident Management Team (IMT) planning process.
- Reported EPA operations accomplishments, focusing on incoming critical sampling results.
- Coordinated GIS requests between UCP and EPA.
- Facilitated EPA Administrator discussion at UCP and with health partners.

3 Staffing/Personnel

As of 1500 hours, 36 personnel were checked into the EPA ICP. The current organizational chart is included as Appendix A. (Please note that the chart does not include all personnel, just the main contacts for each Branch/Team/etc.)

Subject: SEOC Update (09:30 call) January 28

Here is update from 09:30 call (January 28, 2016):

Operations:	Water response teams (1,020 homes hit yesterday). GIS is tracking about 30,000 active water subscribers. 26,673 residential parcels that have ability to use Flint water system. 25,457 (86%) have been engaged as part of response effort (visit or going to pods) . 75% confirmed to have filters. 36% have volunteered for water testing. 14% unaccounted for at this point (no hit or pods visit). Setting benchmark discussions occurring.
NWS:	Active weather today with late snow showers. Generally less than inch expected. Snow will be light, although heavier pockets may be present. Mid 30's, with wind, wind chills in low 20's. Temperatures heading to 40's this weekend with rain
DHHS:	DEQ notified of additional labs for water testing. Dr. Reynolds (CDC) in Flint to provide technical assistance.
MDARD:	Resolved issue involving FCS with DEQ and LARA. Working with agencies to develop plan for testing. Forwarded SBA low cost loan to executive team. 185 assessments/26 water samples collected to this point
DEQ:	Lots going on to address emergency EPA order. Deadlines met yesterday. Operations briefing at 08:00 this morning.
Human Services:	Confirmation we received final shipment zero water pitchers. Completes this request.
Red Cross:	10 teams out of water response yesterday and today. Continuing to work on assembling water test kits and catching up on data entry. Volunteer center open until 7pm
FEMA:	Heading to Water Response meeting with Red Cross. Thanks to OCR for list of local partners not yet engaged in efforts for outreach
Aging/Adult Services:	No update
DOC:	Working with DTMB to leave 13 Penske trucks to make sure pods don't run dry today from dock. More pallet jacks coming to warehouse
MSP:	Offsite today, available via phone
MNG:	Thanks to corrections for assist with pallet jacks. Request to MSP for escort from Lansing to Flint for today at noon (questioning update). MSP will circle back on that

DTMB:	Continuing to work on printing of forms for local and translation (English to Spanish). Provided information on additional warehouse space as well.
GIS:	Reminder that application needs refreshing or may see an error. Appears to be working well this morning. No issues. Daily maps and parcel data updated.
Local EOC:	City contact providing final apartment listing. Chamber of Commerce working on business ID. Team Rubicon and Pipefitters Union heading out to install filters.
Logistics:	Big push today is to locate a warehouse. A lot of random donations coming in. Large water donation (27 trucks) coming. P-Diddy's donation apparently arriving as well
Planning:	Large donations coming today, will properly capture on SitRep tonight
Finance:	No update
Recovery:	Four staff here today from MSP headquarters to data entry backlogged data. Working with Red Cross with large volunteer numbers this weekend
PIO/JIC:	Recycling media event with Community Coalition. Governor and Mayor event at City Hall with pastors
Note:	We need to continue to collaborate to make sure we don't have multiple agencies working on the same item (happened yesterday).
	Next call at 16:00 today

Subject: LARA Report Update

The LARA rep just showed me the report that MDE provided them. They are going through and indicating which facilities are not on the Flint water system, # of faucets in each location, # of residents, when water tested, resources needed and more. They will share this report with MDE when its complete. Future reports pulled for LARA should include # of children/students at each location. At this point they are halfway through the report so they do not need a new one. I let her know that next time she should not hesitate to ask for more data...

Thank you,
Jaime

Subject: Dave Treder discussion

Louis

Great news!

Talked with Dave. He will provide the following:

- Details of students aged 5-10 in zip codes requested previously (by zip code and total overall, per request)
- Details of students 0-3 and 4/5, by district as requested. Note: Dave will provide two spreadsheets, one with students within water emergency and one overall within zip codes)
- Important NOTE: Dave cautioned that the information that GISD will have for 0-3 will be for their Early On programming (Special Education only) and will not include 0-3 aged children outside educational programming

Dave anticipates getting data to us this morning. He is an incredible resource and indicates continued willingness to assist, as needed. Great guy!

To: dtreder@geneseeisd.org
Cc: Hagel, Lisa (lhagel@geneseeisd.org)
Subject: Clarity to data request from GISD

Dave,

Kevin again.

I'm not sure how the request was framed to GISD, but I have copied below what we have been asked to provide for budget office discussions, which are moving swiftly here.

I am looking to confirm some data I extracted from MDE website. We are looking for the number of students 5-10 year old students that live in the following zipcodes:

48501,48502,48503,48504,48505,48506,48507,48529,48532,48551,48553, 48458

I would need a total for each zip code and an overall number.

Does GISD have the data readily available to provide this information? We have reached out to CEPI as well to assist, although we noticed what GISD provided prior had age breakdowns and thought you may already have that data readily available for us to share.

Thanks again for all your efforts, Dave.

Subject: SEOC Update Briefing 1/27/16 16:00

SEOC Update Briefing – 1/27/16 16:00

- Nine Person Team will be onsite at Genesee Health Dept as there was a concern about needing more staff. There will soon be more outreach to expectant mothers. Call volume low at this time.
- MDARD continuing outreach to food establishments.
- LARA working on list of child care centers/schools provided by MDE. Cross checking to ensure all effected locations are reached.
- DEQ continue to work with warehouse staff on recycling options.
- Health Team working on donation management (flintdonations@michigan.gov)
- Civil Rights working on rumor control and concerns about government giving false information.
- Red Cross – 10 water response teams on ground, looking for those not reached within initial outreach.
- MSP mentioned concerns about threats to state – apparently threats directed at vehicles but nothing specific reported to them. Weapons and gang activity at one of the pods – but that was taken care of, no other reports at this time.
- Hand jacks now available at pods and water samples picked up.
- DTMB working to secure warehouse – considering old Kroger site. DEQ water testing info now translated to Spanish. Looking for solution to resource offers – may add "help from vendors" button on helpflint site.
- Update: State employees can travel to Flint. Initial concerns were overblown, but be mindful of where you are going. Motorpool can remove magnet on car if desired.
- Ten Flint zip codes not originally captured on lists. Mapping with DNR should soon be complete.
- List of apartments available tomorrow. Concerns over less MSP and Nat Guard presence.
- Still concerns over storage space for random donations.
- Recovery is updating data to help direct teams for distribution. 1000 homes today.
- Door card translations being completed.
- Events tonight include Rachel Maddow Town Hall and MI Militia Open Carry event.
- Next briefing is 09:30am tomorrow.

Note to Kevin: I have called Dave Treder at Genesee ISD twice to inquire about getting his data further broken down by age *and* location. So we need location information for 0-3 age group and the 4-5 age group. In a nutshell, those planning education programs for those age groups need to know where (buildings) they are most needed. Dave's # is Louis is aware of that I could not reach Dave this afternoon – he may reach out to CEPI for similar data but I still wanted to give you a heads up. Dave has the SEOC phone number and Louis' e-mail address.

Done. Bernard greatly appreciated the call. He will follow up with his Superintendent regarding the sample testing results, faucet replacement plan, and filter information. He says he might have been left out of the loop since he is employed by Sodexo.

(Side note: He mentioned that he plans to ask the Superintendent about the contingency plan for when they start preparing all meals in the high schools vs. the current locations due to equipment grant. That might be something SNP folks need to know as it sounds like their food service planning might change quite a bit)

Thank you,
Jaime

Subject: RE: IMPORTANT - Important Request Regarding City of Flint Water

Jaime,

As we discussed I wanted to follow up on this and let you know what I know.

MDEQ and MLARA are working with the all Flint Community Schools to sample, replace equipment and provide support to the school system. Additionally sampling is being done over the weekends due to the requirement that the water has not been used for a minimum period of time prior to sample collection.

Contacted Sean D, Liaison to Genesee County HD regarding this question, and verified with MDEQ/MDHHS the above information.

I also verified with Sean D. that MDARD/Genesee LHD will be following up with parochial/private/charter schools in the affected area, both sampling, guidance and assessment of the facilities actions.

Discussion with MDEQ verified that they will continue to work with LARA at the schools on replacement and sampling and are developing a plan to expand the program to include child care facilities and some others, a plan should be available for review within the next 24 hours please contact Jen at the EOC desk for further details if needed.

Additionally as we discussed in the activity log it was noted that MDE would be contacting the Flint community schools. I also found reference to a document being developed by MDE for distribution to schools that was in the process of being condensed (from ten pages to two) which I believe also address the issues being raised in this email thread.

I would suggest that the Food Program director be directed to the school system superintendent for information on which schools have been sampled and what actions they will need to take as a result of the sampling and replacement of fixtures that have been identified by MDEQ/LARA.

MDARD has supplied through the JIC the requirements for Food Service (restaurants/bars etc.) and Food establishments on how to manage their water use in response to this incident. To my knowledge that document was posted to the Flint Water response webpage.

Let me know if you have any additional questions.

You are receiving this email because you participate in the Michigan Department of Education's (MDE) Child and Adult Care Food Program (CACFP) or the National School Lunch Program (NSLP). Do you use the City of Flint water? If so, do you have a water filter, or an alternate source of water for your participants in the Child Nutrition Programs? Please respond to this email by COB Tuesday, January 26, 2016. Thank you for your time to respond to the MDE.

The list includes children less than 5. And the numbers include the locations where they are served. WE will call GISD and get clarification on children less than 5.

> Based on student records they know all the students in GISD districts that reside within the City of Flint Water System.

The list below shows the number of students that live in homes on the City of Flint Water System by School District.

With this information they are developing programming options to address the problem for all students. We don't have specifics yet. There is an age breakout at the bottom.

Here's the number of Early Childhood & K-5 kids, by Operating District, based on kids with addresses within the Flint Water System:
(N = 8,973)

Does this answer your question?

Subject: RE: IMPORTANT - Important Request Regarding City of Flint Water

MDARD is looking into some information so we can provide Bernard the correct answer. Note: Diane's note about MDARD visiting the schools is apparently incorrect. DEQ and LARA should have very recently visited the school regarding testing and filters...and Bernard needs to work with his Superintendent for that update. I am waiting for the ok from MDARD before I/we call him back.

You are receiving this email because you participate in the Michigan Department of Education's (MDE) Child and Adult Care Food Program (CACFP) or the National School Lunch Program (NSLP). Do you use the City of Flint water? If so, do you have a water filter, or an alternate source of water for your participants in the Child Nutrition Programs? Please respond to this email by COB Tuesday, January 26, 2016. Thank you for your time to respond to the MDE.

Good morning,

We have been really busy with the media contacting the district this week.
Flint Schools has used jug/bottle water for food prep.

Is there a water filter that will filter out lead that the district could purchase?

Thank you,
